Notes related to security corrections will not be listed in this release note. Information on relevant security corrections can be found in the SAP Support Portal within the Security Patch Day section.

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 04 Patch 09

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3503066	Output of scheduled programs is not visible in history
3512512	Lumira documents fail to schedule with error (Vintela Servlet)
3527255	Images not rendering in BOBJ Email
3529025	Insufficient maximum size of threads pool in Adaptive Processing Server
3524931	The Job “%(#title)” is displayed while rescheduling the job in promotion management in CMC
3452593	Cloud drive browsing (Google / Microsoft) not traced in BILP logs
3521171	BI 4.3 - Error "The message that appears is String index out of range: 0" in Multitenancy Management when using ODBC Driver
3533414	CMC does not start after upgrade to version 4.3 SP4 Patch 600 with HANA

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3424791	Date Time for a particular value is loading +1 hour / -1 hour of actual time

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3533068	Applying a filter on a value which has single quote/apostrophe fails with error on execution on Google Big Query
3535055	Error occurs when creating Web Intelligence document based on OLAP connections pointing to SAP BW Multiprovider
3535822	Error occurs when refreshing or scheduling Web Intelligence document based on a particular SAP BW query
3537530	Refreshing Web Intelligence document based on two SAP BW queries returns incorrect results for numeric values of the second query

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3463971	Unable to adjust the column width for the list of values in Prompts panel in Web Intelligence
3504177	Complex answers are ignored by Web Intelligence RESTful Web Service when scheduling Web Intelligence documents.
3508482	Context dialog box title is not translated according to Product Locale.
3542733	Interval values not shown in prompt history page when scheduling a Web Intelligence document
3470936	The SQL generated is not correct after converting unv universe to unx in Web Intelligence
3211835	Publication of Web Intelligence document delivering reports without data
3511536	@functions does not show processed value in universe generated SQL after the execution of Web Intelligence Document
3508431	Drag & Drop an object to replace break header updated the incorrect row in Web Intelligence
3506173	In a Webintelligence document, datetime object with milliseconds and nanoseconds are truncated during refresh
3518389	#REFRESH displayed in tables after refreshing Web Intelligence document containing virtual cube on multiple queries with Query Stripping activated
3506527	In the Central Management Console, when modifying prompts, the dialog box shows duplicated prompts for Publication
3521375	Group by Clause is generating wrong index when selected objects creates grouping sets in Web Intelligence
3523886	Tick mark is missing on values which are selected in report/block filter of a Web Intelligence Document
3523275	#INCOMPATIBLE or #CONTEXT or Incorrect measure values appears in Web Intelligence Documents that use Merge Dimensions based on variables
3524328	In a Web Intelligence Input Control, when selecting a variable for "Default value (s)", the field "Default value(s)" remains blank
3509286	In a WebIntelligence document ,adding filters using detail variables returns empty measure values
3525258	Prompts group created in Web Intelligence document are not displayed when opening it whereas "refresh on open" option is checked
3485779	Object description in mouse tooltip partially displays in English ignoring product locale which is set to German (Deutsch)
3526067	Communication error occurs when trying to drag & drop an object into a table in Web Intelligence

3516392	Web Intelligence Processing Server crashes on opening a corrupted document
3528485	Left to Right aligned content is not same when Web Intelligence Document is exported to pdf or Excel formats
3529031	Constant High CPU consumption after upgrade to BI 4.3 SP4 Patch 4
3527896	Refreshing a Web Intelligence Document fails with error: "The query cannot run because it contains objects that reference incompatible tables"
3529672	Hide Web Intelligence "Free drill elements" using feature toggle in Central Management Console.
3527387	The sections in the navigation map disappear and displays a message "the report contains no sections." after applying an input control filter on any object used in Web intelligence section.
3530057	Webintelligence Processing server crashes when opening a document with filter operand with invalid arguments
3470651	Hidden objects in a source Web Intelligence document are visible on target Web Intelligence document
3530142	The option "No Wrap" / "Wrap"/ "Truncate" is missing in a bar chart Category axis of Web Intelligence's document
3532466	In Web Intelligence Query Panel, prompts of all queries are displayed when refreshing Data Preview of a query based on SAP HANA view with variable
3531821	Getting Error when viewing Web Intelligence Document in Central Management Console: com.sap.webi.raylight.schema.internal.Error@10c88b40
3529840	Last selected prompt value is missing in Web Intelligence Document if prompt is created in UNV universe
3513402	"The action cannot be performed" error when trying to open web intelligence document based on FreeHand SQL.
3533136	When 'Show report element format' option is selected under 'Show Data/Format Panel, it's not possible to select bars/lines/columns in the chart
3529854	In a WebIntelligence document, incorrect values are observed on variables containing merged dimesnions
3491783	Selected values for Input Control are lost after scheduling a publication with profile value
3530241	Context pop-up reappears in Web Intelligence report after UNV to UNX conversion
3529672	Hide Web Intelligence "Free drill elements" using feature toggle in Central Management Console.
3533935	An internal error occured while calling 'getPages' API. (Error: ERR_WIS_30270) (WIS 30270) error occurs when exporting a Web Intelligence document containing NumberOfPages() in the hide condition to PDF format
3536613	Custom Sort of a variable based on a Data model combined cube is lost when the document is reloaded

3539672	'No data' displayed in Web Intelligence document when navigating in List of Values for SAP HANA hierarchical variable with dependencies
3539932	WebIntelligenceProcessingServer crashes while opening a document containing a query with multiple flows and with query stripping enabled

SAP Crystal Reports 2020

SAP Note #	SAP Note Text
3491819	Unable to update database configuration of all reports at a time from CMC
3103953	Unable to view the complete list of values in the Local Personalization window when working with Publications in BI Launchpad
3529998	'Allow Custom Values' set to False is not being kept for a Static Parameter in Crystal Reports
3531321	Internal Server Error(RWS 00070) when schedule parameter prompt
3535081	Crystal Reports with html format related fields cause crash and scheduling issues
3536243	when multiple java server starts, some will be blocked
3535515	Registry settings to configure how the SQL Query is generated in Crystal Reports does not work
3538471	When opening a report migrated from CR2008 in CR2020, the application exits without any error message

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3543671	Scheduling of Crystal Reports for Enterprise documents fails after upgrading to SAP BusinessObjects BI Platform 4.3 Support Pack 4 Patch 8
3480750	Crystal reports do not show the expanded hierarchical values of the BEx query prompt in BI Launchpad
3530533	Open doc export Issue (contains sOutputFormat and with a prompt value assigned)

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 04 Patch 08

SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
3506171	Unable to view documents in BI workspace until clicking on Edit mode.

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3476643	Destination properties not appearing when schedule any report from BI Launch Pad
3443686	When copy a document into the folder where another file exists with the same name but a different type, a warning dialog box pops up as "Another object with the same name exists in the destination. A new name will be created for the object".
3499577	Instance status details not translated to German when setting German as product language
3505071	Hyperlink is not working for Report Schedule Status (Success/Failed)
3506394	Not able to view the history of a job
3506055	Report History Auto-Refresh feature does not refresh as expected in BI launchpad
3506095	"Send To" Option is not available in BI Launchpad
3504066	Auditing events from specific servers are not emptied / written to the Auditing DB
3384498	Automatic update of database credentials in WindAD authentication corrupt the password
3499117	Session Count for Concurrent Users in Central Management Console (CMC) under 'Sessions', 'Global System Metrics' and CMS Server Metrics show different values.
3513919	Unable to deploy of AdminTools.ear on Websphere Application Server
3401444	Re-scheduling Report in CMC does not retain the check box for Multi-Destination
3513762	"HTTP 500- Internal Server error" is thrown when connecting to BILP or CMC with WinAD without providing password

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3464067	Unable to edit and test the connection from Information Design Tool if Secured connection is set to server middle ware and no drivers are installed locally
3464067	Unable to edit and test the connection from Information Design Tool if Secured connection is set to server middle ware and no drivers are installed locally

3510059	'DATA_ACCESS_PROBLEMS'. Message = <FILTER OBJECT NAME> has no master data for "#EMPTY_SELECTION_STATE#" or you do not have authorizations '#EMPTY_SELECTION_STATE#' is not a valid value for b(1,0). Error reading the data of InfoProvider XXXXX Error while
3512187	Web Intelligence cannot connect to SAP Datasphere tenant with specific configuration
3513975	SAP BW Date variable filters return wrong data for key figures in Web Intelligence Document

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3488395	The data disappear when showing the hide dimension for the table
3509125	In Web Intelligence, the same query name is used when adding another query based on SAP HANA or SAP BW data source which contains variables
3469476	In SAP BusinessObjects Business Intelligence Platform 4.3 , Charts / Graphs shows no Error/Warning message when a measure with value which returns warning is used
3503743	Prompt default value for an optional Bex variable is lost when scheduling a Web Intelligence document based on SAP BW data source
3508375	In a Web Intelligence document, deleting a row from header in a cross table deletes the column instead
3491695	"org.apache.axis2.AxisFault Unable to find servers in CMS [NODENAME] could be down or disabled by the administrator. (FWM 01014)" error when trying to import document based on OLAP BW in Translation Management Tool
3513054	Charts in Webi do not work when Visualization Service runs on AIX

3514208	Login to Central Management Console / Business Intelligence Launch Pad hangs after entering credentials and clicking login shortly after clicking on 'Design' mode in Web Intelligence
3514733	Web Intelligence takes a long time to load the list of folders or documents.
3488230	New format applied on a column in the table is lost once the document is saved, closed and opened back
3486373	Web Intelligence Document with Query filter type "Results from another query" fails with error on refresh
3516279	Using opendocument URL with interval date parameter fails to open document.
3516285	A WebIntelligence document with joins on multiple cubes causes WebIntelligence Processing Server to crash
3469476	In SAP BusinessObjects Business Intelligence Platform 4.3 , Charts / Graphs shows no Error/Warning message when a measure with value which returns warning is used
3469476	In SAP BusinessObjects Business Intelligence Platform 4.3 , Charts / Graphs shows no Error/Warning message when a measure with value which returns warning is used
3506089	Selected prompts values are not visible in BI Launchpad while scheduling or rescheduling a publication with Web Intelligence document
3474942	Formating rules' order is lost when unselect one
3518047	Excel output exported from Web Intelligence is not working properly in Microsoft PowerBI
3396924	Fold/Un-fold in Web Intelligence Document fails with error

SAP Crystal Reports 2020

SAP Note #	SAP Note Text
3504248	Bullets or item number missing from list of items when formatting text using the HTML tag or in Crystal Reports
3512109	BI Launch Pad 4.3 drops the zero after entering the prompt value in decimal

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3435035	The Parameter's Initial Value Function is not executed in Scheduling

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 04 Patch 07

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3481790	Expanding a hierarchy in a column makes Analysis Edition for OLAP screen blank
3361787	Schedule to File System as destination show status as "Success" however error displayed
3330444	Analysis edition for OLAP workspace does not show up in "Currently Open Documents" after overwriting an existing workspace or is not loading in BI Launchpad with "new browser tab" option and in CMC

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3452086	Blank .txt files can be uploaded in BI Launchpad 4.3
3431721	Crystal report objects are not opening from the Navigation list of the migrated workspace in BI 4.3
3490778	"Auto Refresh is Called" message in report history is thrown every few seconds when there is a recurring instance
3494914	On AIX, documents scheduled to file destination with credentials appears as success even if they fail
3498314	Logon to CMS from MTM doesn't work with Corba SSL configuration
3492339	Http Status 403-Forbidden Error while Re-Scheduling jobs from Promotion management in Central Management Console.
3492817	Document Last Instance from BI Admin Studio is showing incorrect data.
3500397	Install monofmtlib_jni.dll to MTM jars folder to resolve refresh issue
3286598	"Info Object" field is blank after adding objects in get properties section when creating a new scenario based on the template "Change Document Ownership"
3426759	Workflow Assistant System Listing is empty if the user has no access to his own Inbox
3498026	Unable to run scenario with Non-administrator User in workflow assistant
3501687	Unable to expand folder hierarchy within
3502564	"Organize" option does not appear when clicking on more action button of documents in BI Launchpad Home page.
3467608	AddNode fails with error FWM 23025 (The CMS has terminated unexpectedly) against SQL Server CMS DB

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3486798	An Universe is not displayed in the list when linking it to another universe

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
3478092	Live Office might throw an error "Rule not respected (...)" when refreshing the Live Office query of a WebI document with optional prompt(s).

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3487122	Error "System "XXX": incorrect value "<hierarchy>/<value1>;<hierarchy>/<value2>;...<hierarchy>/<valueX>" for data source variable "XXXXXXXX" occurs when refresh the Web Intelligence document and using the previous hierarchy node variable prompt value
3450930	Executing Hana Calculation View with Table function through HANA HTTP Ina connection fails with error

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3473244	Cascading parameters dependencies order is different from the previous releases
3474246	Hide column option on table with breaks is not working properly when applied from "Display the feeding panel => Data Assignment"
3491141	Web Intelligence Document only loads 166 report tabs
3479289	Last Refresh Date always shows GMT time in Advanced Refresh dialog in Web Intelligence
3484291	"IDL:WICDZExtensions/ExtensionMgmtException:1.0") error when trying to create a GeoMap in Web Intelligence document filtered by special values.
3399803	Using Web Intelligence, cascading parameters dependencies order is different from the previous releases.
3488248	Opening a Web Intelligence Document fails with errors
3483626	In a WebIntelligence document, associate dimension of detail object disappears if a merge dimension is used
3480641	Erreur java.text.ParseException: Unparseable number: "EUR" error after refreshing webintelligence after migration
3484160	Drill up on a table header cell of a Web Intelligence document fails with error "The drill instruction is incorrect".
3484392	Newly added object is not listed in the correct folder in Web Intelligence when select view mode as Folders in Show document dictionary panel
3493514	Shortcut key Ctrl+R is conflict with browser in SAP BusinessObjects Business Intelligence 4.3
3475613	Passing a Date/Date Time filter to an Odata URL extracted from a Table of Web Intelligence Document does not work
3481305	Web Intelligence RESTful Web Service should allow drill filter values not constrained to list of values.

3495504	Impossible to add a Query filter in Query Panel after an update settings while Changing Data Source
3476436	Webintelligence table layout corrupt after migration when it enabled the Show side header
3452575	The webi rich client crashes when refreshing a web intelligence document having many connections.
3486795	"Limit size of result set to" UNV universe parameter is modified when converting to UNX universe if this limit is greater than 90000
3408591	Error "The drill instruction is incorrect.(DrillerElement(id=xxx, value=xxx: An argument "xxx" with value "xxx" is invalid" when drilling Web Intelligence "stacked column" chart where only one dimension in Axis, one measure in axis Y and "dimension" in Co
3229119	"No data" returned for Hierarchy prompt based on an Hana variable when searching for a value.
3479289	Last Refresh Date always shows GMT time in Advanced Refresh dialog in Web Intelligence
3476282	When scheduling a Web Intelligence document a prompt with a blank value will be displayed in history with #Dynamic Value
3438224	Universe outline appears multiple time in Web Intelligence Query panel
3475037	Export to Excel do not display Columns when those columns have Hiding condition different than Hiding condition for other columns in same table.
3469416	Default date in KeyDate properties of a Web Intelligence document based on BAPI UNV universe shows Nov 30, 1899 if no default value is detected
3502783	SAP Icon font applied on Unicode character goes blank/junk when exported to PDF format
3378421	Drill Filter values are not retrieved by Web Intelligence RESTful Web Service for Web Intelligence documents with the option "Refresh on open".
3490301	Web Intelligence translates the empty string "" into "[EMPTY_VALUE]" in prompt when refreshing a Web Intelligence document.
3286857	Where clause inside the subquery filter is lost when we move Subquery up or down using arrow keys
3469416	Default date in KeyDate properties of a Web Intelligence document based on BAPI UNV universe shows Nov 30, 1899 if no default value is detected
3504251	Overriding "Refresh on Open" option is ignored when saving a Web Intelligence as itself.
3497721	The error message "An internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270)" pops up when refreshing for the second time some Web Intelligence report that contain opendocument link
3504650	Removing an Input control from the group fails with Internal error

SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 4 Patch 9 - Release Notes

3497286	Custom SQL script is erased when the data preview is used and the data provider is Hana
3507133	Output data in scheduling instances were filtered according to Web Intelligence document default values instead of the values passed from the application
3507133	Output data in scheduling instances were filtered according to Web Intelligence document default values instead of the values passed from the application
3471494	Concatenation of objects in web intelligence subquery based on Oracle source displays two different separators.
3478615	[CVE-2024-37179] Insecure File Operations vulnerability in SAP BusinessObjects Business Intelligence Platform (Web Intelligence)
3476999	Deleting the object from the table on which break is applied makes table header disappear / delete

SAP Crystal Reports 2020

SAP Note #	SAP Note Text
3491819	Unable to update database configuration of all reports at a time from CMC
3498233	Special characters are not handled correctly when they are part of a word using HTML Text Interpretation in Crystal Reports 2020 SP4
3502332	Get error "It's not a supported image file" when inserting some tiff images to crystal reports
3497969	Crystal Reports shortcut with large data are taking time to load in Fiori Viewer (UI5).
3482384	The name of the date parameters are changed automatically back to the original name in a crystal report after upgrading to Crystal Reports 2020 SP4 Patch 4

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 04 Patch 06

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3429137	Incorrect logins in OpenDocument using Logon Tokens
3433545	[CVE-2024-42375] Multiple Unrestricted File Upload vulnerabilities in SAP BusinessObjects Business Intelligence Platform
3459398	Error: "java.lang.NullPointerException: while trying to invoke the method com.businessobjects.lcm.core.CMSLocal.getInfoObjectByCUID(java.lang.String) of a null object loaded from local variable 'cms' " when running LCM CLI while including job_cuid in the
3429211	Long response time when querying FRONTIER tables in CMS Database when running Webi Intelligence Application in BI Launchpad
3446531	LCMBIAR file export from Websphere is corrupted
3464029	BI Launchpad probe can't edit the authentication in 4.3
3456373	Search showing incorrect results in BI Launchpad when Product Locale is set to Hebrew
3434662	After changing the Page preference in BI Launchpad, Home Page is displayed for few seconds and then the selected report/folder is opened/displayed automatically
3470634	ReplaceFileVariables: error reading from '.tmp' writing to " in setupengine.log and ErrorsAndWarnings.txt files in a successful Install or Update scenario
3361112	Tomcat hangs due to long-running Web Assistant threads in Fiori BI Launchpad in 4.3
3472781	Enterprise Session becomes obsolete when working with Raylight Web Service
3473435	History page of Analysis office workbook and Program instances is stuck in processing state
3472705	BI 4.3 Unable to import selective user from Lcmbiar
3472347	Running the program failed with error code 1. error when scheduling Program Objects with CORBA SSL enabled on the server
3469683	User settings keep loading in BI Launchpad
3473462	Business objects BI launchpad BI Inbox not showing description for the reports.
3442305	Unable to view report after creating shortcut using context menu option in BI Launchpad
3479478	[CVE-2024-41730] Missing Authentication check in SAP BusinessObjects Business Intelligence Platform
3466401	Hyperlinks in Crystal Reports Migrated from 4.2 to 4.3 No Longer Work

3449708	In Fiori BILP the "Created On" date of documents are displayed always in English despite the language being set.
3480674	Not able to promote comments using Promotion Management Wizard
3479556	Email notification is not working with Promotion Management schedules for non-authentication and non-SSL email destination.
3457963	BI Launchpad screen shows ? when logging out
3470909	Destination page hangs when try to add Microsoft OneDrive or Google Drive as schedule destinations if no Authorization Server is configured in Central Management Console

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3447496	After converting an UNV universe to UNX, check integrity fails on few joins with error The Column <NAME> involved in the join was not found in the data foundation <NAME>
3469417	Tables section are empty for objects when an UNV universe is converted to UNX universe

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3477844	Measure detail objects from SAP BW query are lost after refreshing Web Intelligence document if they are not used in document directly

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3445327	"The resource of type "Document" with identifier "XXX" is not available (Cannot apply the security filtering on data for 'YYYY'.(IES 10847))." error when opening First time web intelligence document.
3425287	[CVE-2024-45281] DLL hijacking vulnerability in SAP BusinessObjects Business Intelligence Platform
3460625	Web Intelligence RESTful Web Service fails to export any single Report Element to CSV.
3420598	Non-hierarchical prompt values containing ' ' are truncated when passed to a Web Intelligence report using Open document feature
3467642	Webi Drill filter behavior is different in BI 4.2 as compared to BI 4.3.

3467107	In a Web Intelligence document, ReportFilterSummary returns values for InputControls with AllValues
3379051	When rescheduling a Web Intelligence document the error message "Please wait until parameters are loaded" is displayed
3472598	Web Intelligence RESTful Web Service never returns when listing all SAP Variables and Prompts with their List Of Values.
3463019	Export Data to all formats for Web Intelligence report is not working
3463019	Export Data to all formats for Web Intelligence report is not working
3473109	MTM error: Unable to refresh objects
3473141	Cascading parameters dependencies order might not be respected by Web Intelligence.
3471058	Web Intelligence Publications are not personalized / filtered if defined with Dynamic Recipients
3442782	Default Prompts values and types defined in Central Management Console are not reflected when scheduling Web Intelligence document in BI LaunchPad.
3442782	Default Prompts values and types defined in Central Management Console are not reflected when scheduling Web Intelligence document in BI LaunchPad.
3480542	Validating the SQL when set to "Use custom query script " fails with error "Serialize couldn't find object in map"
3485998	Error occurs when refreshing Web Intelligence report with Query Filter depending on another Query
3468954	Refreshing a Web Intelligence Document fails with error "Aggregate aware resolution failed"
3474512	Opening a WebIntelligence document with variables causes Webi Processing Server to crash
3474518	On changing option from "Use the query script generated by your query" to "Use custom query script " , Validating the sql fails with error
3475211	Dynamic variable formula is set as default value into variable prompt dialogbox instead of result of the formula
3476650	Performance issue when opening a WebIntelligence document with a user with Business Security Profile defined
3477287	In the Query Panel of Web Intelligence, filter based on a date object displays a wrong format for the date value.
3476332	Replacing / changing the formula of an object in the break headers of a cross table fails with RWI 00011 error
3453821	Error <STS> An unexpected error has occurred (FWM 02004)</STS> when creating a new Web Intelligence report based on a Datasphere OLAP connection
3471456	Data values are overlapped in Web Intelligence Treemap via "Maximize report element".

3474126	HANA 'set variables' values are updated with dataprovider values
3479820	In a WebIntelligence document, the measure returns wrong values in the footer when the table body contains a merged dimension based on a hierarchy and flat dimension
3462675	Left Join in Web Intelligence data mode do not return correct results if keys are duplicated in secondary table (One to many relationship)
3487803	Web Intelligence Processing Server Crashes when using Min/Max function on a boolean dimension

SAP Crystal Reports 2020

SAP Note #	SAP Note Text
3475339	Some words are joined together, when the text is formatted with HTML Text Interpretation, and viewed in Crystal Reports 2020 - Support Pack 04, and above
3461656	TLSv1.2 should be set to DB java server

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3410670	Hidden prompts in an SAP Crystal Reports for Enterprise document are appearing even though the 'Set as Prompt' option is unchecked

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 04 Patch 05

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3446892	The 'Edit' option when right clicking a promotion job in Central Management Console (CMC) is unresponsive.
3401677	CMS crashes intermittently in keydecoder.dll
3452580	Disable "everyone" option from user group while sending/Scheduling/Publication report to BI Inbox
3436126	When exporting Documents/Categories/Favorites tiles from BI Launchpad the Excel file name generated is always Folders.xlsx.
3441430	Cannot view a user notification event in BI Inbox -> Alerts when the notification message contains double bytes words like Chinese, Japanese
3439224	The selected Alert details failed to be displayed in BI launch pad
3449625	CMS fails with error "License keys cannot be processed" after update to or fresh installation of BI 4.3 SP04+ with MySQL CMS DB
3407202	"From" field not fully disabled in Email Destination in BILP
3448471	Full Path error displayed while uploading EICAR file.
3445865	Schedule reports to file system fails with Error: destination directory error. [CrystalEnterprise.DiskUnmanaged]: [The user name or password is incorrect.]
3445001	Remote instance in federator name incomplete and also other labels in german language.
3450296	Language for 'Done' button is not getting translated from BI Launchpad.
3461125	Enhanced Vintela tracing not generated / breaks SSO on 4.3 SP03+
3458294	Report date time format and numbers are not displayed in English format when setting disable.locale.preference to true in FioriBI.properties.
3444164	exception caught while connecting to ftp server-Unable to exchange encryption keys
3470663	using BASE64 URLEncoder and URLDecoder
3271052	xlsb excel files cannot be uploaded to BI Launchpad
3427760	Hyperlinks are not Working in Same Window for Crystal Reports 2020
3424754	Unable to see image under category properties dialog in BI Launchpad
3433545	[CVE-2024-42375] Multiple Unrestricted File Upload vulnerabilities in SAP BusinessObjects Business Intelligence Platform
3434391	Blank page after logging in BI Launchpad

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3446976	Unknown Reference Syntax Error in Information Design Tool
3450653	When using with Oracle database Listagg function, an error occurs: ORA-00979: not a GROUP BY expression
3460234	Universe conversion maps dimension to same table name/object name in wrong schema

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3450367	Adding a subquery with operator "Not Equal to" , "Greater than" , "Greater than or equal to" , "less than" and "less than equal to" fails with error on executing the query
3461483	Variable's dependencies are not correctly applied on multiflow query with Bex query
3466304	Executing a Bex query in Web Intelligence document fails with error "Invalid answers. System"" "
3472710	Mandatory Bex query variable not or wrongly detected
3398395	Hierarchy node structure in "Group Tree" panel of Crystal Reports for Enterprise document is displayed as a flat list

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3440828	Web Intelligence Save As only shows 5000 folders
3415021	With Web Intelligence Rich Client, last user name is stored preventing to use SSO token
3447936	In BILaunchpad, the destination name for Microsoft Drive in details after a schedule success or fail is "Unknown destination"
3449901	Cannot remove a Custom Element in a Web Intelligence report when its service does not exist or has been disabled
3449808	An internal error "[[error.missingKeyDateForLOV] 0]" is occurring when using UNV BW universe based on a query that contains a Keydate variable without default value
3452777	Memory leak when opening Web Intelligence reports
3427968	Unable to Schedule the Webi report in CSV format to File System destination.

3452777	Memory leak when opening Web Intelligence reports
3440828	Web Intelligence Save As only shows 5000 folders
3454344	"The resource of type "Page" with identifier "1" does not exist" when opening a migrated Web intelligence document based on an excel source
3453773	When switching to Design mode with French PVL, Web Intelligence throws an error for documents created on US PVL with Grouping Variable based on decimal values.
3448288	Internal error ("Not on correct event type; expected START_ELEMENT, but was END_ELEMENT.") in Webintelligence Report when change View Local to Hungary
3453118	Mandatory filter prompt applied at Folder/Universe level is missing when "Use custom query script " option is selected in Web Intelligence Document
3284282	Color Palette changes from Legacy1 to Belize (Default) under "Show report element format => Style Settings" , when Web Intelligence Document is Migrated/ upgraded from SAP BusinessObjects Business Intelligence Platform 4.2(or lower) to SAP BusinessObjects
3451216	Scheduling a Web Intelligence document to file system destination, '_' prefix is added in the instance file name when "Automatically Generated Name" is selected.
3459759	Communication error happens or process hangs when trying to copy & paste the footer calculation into the crosstab body in Web Intelligence
3459478	"Failed to execute 'arrayBuffer' on 'Response': body stream already read" seen when refreshing a Web Intelligence report in BI Launchpad
3444598	Unable to filter target Web Intelligence report via Opendocument when the prompt name or value contains "+"
3429373	Schedule button is not working while reschedule the recurring instance based on Web Intelligence Document
3453111	Custom Format options of each selection under Format Display is empty if Product Viewing Locale (PVL) is set to Hebrew
3463971	Unable to adjust the column width for the list of values in Prompts panel in Web Intelligence
3449752	Unable to change prompt values while rescheduling instances
3446450	OData Web Services Link generated from combined virtual cube in Web Intelligence document does not display correct measure values
3464114	Web Intelligence Shortcuts fail to process current open document when multiple documents are opened in "Currently opened document" drop down
3226077	Can't change object Qualification from Microsoft Excel based query
3468694	When rescheduling a Web Intelligence document, prompt shows the date 1970 instead of the last one used.
3469492	In a WebIntelligence document, image in a cell can be displayed even though the URL is not authorized

SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 4 Patch 9 - Release Notes

3446845	In a WebIntelligence document, applying a sort on a numeric measure containing NAN values does not work.
3468431	WebIntelligenceProcessingServer and Web Intelligence Rich Client crash when refreshing List Of Values for specific SAP HANA variable prompt
3463195	Error: "Rule not respected ("Argument "strip" must not be null.") when trying to cut dimension from Rows or Columns in Web intelligence cross table having more than one object in Rows or Columns.
3470540	List of Values not displayed in Web Intelligence document for prompt defined in Data Security Profile/Business layer of SAP HANA universe
3389871	Shortcut folders are no longer seen in Google Driver via Web intelligence
3378867	Performance issue is observed while dragging and dropping an object into a table

SAP Crystal Reports 2020

SAP Note #	SAP Note Text
3390198	Error Opening Report File... when opening a report with saved data in Crystal Reports Viewer, that was created in Crystal Reports 2020 - SP03 or higher
3466490	Unicode string column is displayed as empty for jdbc connection

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3463491	Opening Crystal Reports for Enterprise document is very slow in SAP Crystal Reports for Enterprise 4.3 Support Package 3 Patch 9 compared to SAP Crystal Reports for Enterprise 4.3 Support Package 3 Patch 5
3413126	Error "The viewer was unable to process an event. com/businessobjects/i18n/monofmtlib_jni/monofmtlib [CRSDK00001087] " when viewing a Crystal Report in BI Launchpad with a date prompt

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 04 Patch 04

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3430444	Version Management shows "System Account" instead of Username
3434457	System DSN created from Microsoft ODBC Driver 18 for SQL Server not Listed in Install UI
3437641	History page of scheduled instance shows "No Visible column" error message
3436101	No parameter values found in listed items excel document exported from instances history in BI Launchpad when Product Locale is "German".
3440051	HTTP 500 during AD SSO on Unix with a user containing a space in the username
3440107	Close button in History page of report is not translated in any non-english language
3440178	BI Launchpad Preferences are not maintained after editing favorites.setting.
3440051	HTTP 500 during AD SSO on Unix with a user containing a space in the username
3437809	CMC pages are not accessible on systems using MaxDB as CMS database
3439347	Promoted crystal reports fail with error "Error in File ~tmpc28c691bc5bbd0.rpt: Unable to connect: incorrect log on parameters."
3441817	[CVE-2024-34684] Information Disclosure vulnerability in SAP BusinessObjects Business Intelligence Platform (Scheduling)
3440090	Deleted Objects from CMC displays broken icon in Recycle BIN
3447377	Repository Diagnostic Tool (reposcan) with -repair option will remove all Input FRS files in BI 4.3 SP04+
3449093	[CVE-2024-33004] Insecure Storage vulnerability in SAP BusinessObjects Business Intelligence Platform (Webservices)
3287517	The scroll bar location is changed unexpected when there are a lot of instances in History page
3435828	SAML SSO does not work for customized CMC URL (/example/CMC instead of /BOE/CMC)
3406150	Different status in "promote" and "test promote" results when the object to be promoted exists in the source and in the target systems with the same CUID but different hierarchy
3396348	CMS Crash intermittently in module ebus-3-3-2-7.dll
3396906	Web Intelligence may throw an error 'The resource of type "..." with identifier "..." does not exist.'

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3446838	"[Error 8017] [SQLState 28000] The UserId, Password or Account is invalid." error when testing relational connection in Information Design Tool via Secured middleware.

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3442258	The error "No universe with cuid {0} found" may be raised when refreshing multiple Hana based Web Intelligence documents
3448329	Flat structure displayed in prompts of Web Intelligence document based on SAP BW query with Hierarchy Node Variable

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3434227	Escape character (\) is ignored when passing a value into Web Intelligence Query filter
3435337	Name of Web Intelligence document is translated while performing a "Save as".
3386522	Unable to make a change file path when the datasource file is unavailable, the query panel remains grayed after changing the datasource file path.
3438767	In a WebIntelligence document, ReportFilterSummary() does not display hierarchical values selected in an InputControl
3435346	Changing locale to German, values in prompt doesn't pick comma(,) as decimal separator of a number in BI Launchpad.
3443382	Error when opening WebIntelligence document that contains functions on drive data source
3442303	Scheduling a Web Intelligence Document based on Free-hand SQL data source fails with error if Data Tracking is ON
3426944	Web Intelligence Processing Server crashes when trying to add a dimension variable containing a formula with CurrentDate()
3385877	Deleted web intelligence report pages still appear in Publication Properties
3444910	The Break on lines and Break on columns drop down list disappears intermittently when editing the Web Intelligence in BI Launch Pad
3445797	Filter ignores Preceding and trailing spaces in a value ,when values are copied and pasted

3447759	Crash when DataProviderKeyDate() is used as a parameter of a function
3449054	Empty value in prompt variant cannot be set in WebI when applying variant.
3450131	Data Assignment panel of a Table or chart displays only 99 objects
3450204	Clicking on "All reports" / "All Data providers" select only 100 reports/queries to export
3450564	In a WebIntelligence document, quotes are not escaped correctly when used in a formula
3440004	Root folders of Business objects are loaded instead of Excel file path used in Web Intelligence Document
3440004	Root folders of Business objects are loaded instead of Excel file path used in Web Intelligence Document
3450326	Web Intelligence Document with multiple flows exported to Excel Data format shows a warning while opening
3440595	Columns / Rows in table with no reference to objects / variables in report disappear
3446004	Header got disappeared unexpectedly after deleting row of cross table in WebI document
3454616	Removal of new inserted Row in a table when hiding/moving/editing objects from side panel
3455017	In Web Intelligence, after a cell has been set with Align direction, the setting cannot be reset
3395708	The number type dimension is always formatted as xxxx.0 in Heat Map chart in Web Intelligence
3426753	The state of a Web Intelligence document might not be correctly returned by Web Intelligence RESTful Web Service when keeping the document alive.
3431381	Prompts box takes a long time to display when refreshing Web Intelligence report built on SAP HANA XSA view from multiple HDI containers
3404803	Week starts with Sunday instead of Monday when Preferred Viewing Locale is set to Finnish and report is opened in Web Intelligence Rich Client
3326405	Incorrect page displayed for German Language in Central Management Console
3396906	Web Intelligence may throw an error 'The resource of type "..." with identifier "..." does not exist.'

SAP Crystal Reports 2020

SAP Note #	SAP Note Text
3435950	Static List of Values is not populating when scheduling a crystal report from BI Launchpad
3443171	Error occurs when opening a Open Document URL with sOutputFormat=P to export a Crystal Report document in PDF format if Chrome has default PDF setting as Download PDF
3450783	"Failed to retrieve data" error for Databricks JDBC connection of Crystal Reports 2020
3465284	Crystal Reports 2020 crashed when refreshing reports with customized group settings in the latest updates
3435658	Default value of parameter is set to null when schedule crystalreport with stored procedure in BI Launchpad.

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3414314	MS SQL Server Numeric data type are not showing any decimal values in SAP Crystal Reports for Enterprise 4.3 with ODBC layer
3421339	Publication with source document Crystal Report scheduled to PDF doesn't contain sub-reports in the "Table of Contents"

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 04 Patch 03

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3426899	"An internal error occurred while calling 'processDPCommands' API. (Error: ERR_WIS_30270)" error when refreshing a Web Intelligence document based on a BAPI .unv universe.

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3437400	Schedule to File System fails with cannot rexec cp in the job after upgrade to 4.2 SP09 Patch 1700, 4.3 SP03 Patch 800 or 4.3 SP04
3369319	Message Box missing intermittently for E-mail Destination while scheduling a document in BI Launchpad (Fiori BILP)
3432346	Navigating in a Web Intelligence report might become really slow
3416444	Event list is not shown when installing SAP BusinessObjects 4.3 into a non-English Windows server OS
3419878	Use of Wrong Operator in String Comparison of HSTS filter.
3404763	Only 1000 Subfolders are viewable in left panel of BI Launchpad
3424819	Unexpected error in CMS traces about "Periodic Session info"
3406352	User can't edit settings in BI Launchpad - hangs with 3 moving dots
3357115	BI 4.3 SP3 - An arrow icon to expand folder is seen in BI Launchpad even when there are no further sub-folders underneath
3368986	"Currently Open Documents" drop down does not show all Web Intelligence Document that are opened through Document link
3427786	Failed to replace file with name containing double bytes characters in CMC
3431653	CMS crashes intermittently when server metrics are fetched
3433063	Cannot upload xlsx, csv, txt, pdf files from CMC
3410767	Unselecting "Schedule" related options under CMC -> Users and Groups -> <User Group> -> Fiori BI Launchpad Preferences do not hide the said columns under Instances tile in BI Launchpad
3413434	Prompt value gets rounded to nearest 16/20th character
3413138	Emails are not received by users / SMTP 554 550 error when scheduling via SMTP destination in 4.3 BILP

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3371317	Error" "[" when testing Server middleware connection based on Informix Dynamic Server 12 in Information Design Tool.
3428930	Snowflake JDBC connection - Database field should mark not mandatory.
3399919	"Test Connection" when opening a SAP BW connection in Information Design Tool fails with error if "Encrypted communication" is enforced at BW server side.
3413826	After exporting a Data foundation to PDF file, the option "Select only from list" result is always False

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3428702	Cascading prompt based on SAP BW variables in Web Intelligence document returns all values or "NO-Values" ignoring the selection
3426241	The translation of the class name in the tooltip of any web intelligence object is lost after running the query.

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3431860	Count() returns wrong values in Web Intelligence document containing multiple dataproviders and merged dimensions.
3413251	Values that contain a single or double quotation mark in Label section of URL options for Web intelligence Opendocument URL, are interpreted as HTML and appear as "'" or """.
3428863	Web Intelligence Processing Server crashes while viewing a WebI document containing dimension variables with ifthenelse formula
3438190	Some labels of Extended parameters settings are not displayed when using Need4Viz custom elements in Web Intelligence document
3447094	Intermittent report schedules fails with error - [Object failed to run due to an error while processing on the Job Server.]
3387263	Web Intelligence Document ignores the prompt values passed through Open Document link if PVL is different from original one
3389386	Changing "Use BEx/HANA defined default values at runtime" option does not reflect in Web Intelligence document when re-opened
3345744	fold/unfold Break Values for <Dimension> option is missing in Contextual Menu when dimension is hidden in table

3322298	Objects used in Nested filters goes missing from Web Intelligence query panel
3395664	Error message not shown when a user (with no rights to add objects to folders) creates folder
3399249	Multiple OneDrive folders shown in Web Intelligence Fiori interface
3417973	The resource of type "Input Control" with identifier "XX.XXX.lov" does not exist.
3413275	@Variable("DOCID") in connectinit parameter is returning empty value when is used in Web intelligence document via universe
3346671	Hide/Unhide object from a table resets width of other columns in the Cross table
3420870	In a Web Intelligence document, in data mode combining queries using left join returns wrong results
3421384	[CVE-2024-25646] Information Disclosure vulnerability in SAP BusinessObjects Web Intelligence
3421743	Purging a Web Intelligence document containing merged dimension based on numeric type throws an error
3422678	Impossible to remove an object added on an axis of a cross table
3404128	Fold / Unfold freezes when Breaks are applied on data that contains comma character
3423407	When clicking on Web Intelligence Publication instance name within Publication history no artefacts are displayed within the list of publication output
3418907	The excel workbook is unable to open when exporting the Web Intelligence into Excel file with 0 row
3424399	Internal Error occurs when trying to open a document with special character in format
3425680	Name of data source is not correctly displayed in some part of the products when it contains special characters.
3425724	Data source path is not correctly displayed when it contains accentuated characters
3405788	Unable to filter on columns in the Dynamic recipient list while scheduling publication in BI Launchpad
3423857	Filter Object prompt list is missing in prompt window while running the webi document in BI Launchpad
3422406	"The Last Refresh Date" and "Last Modified" date under 'Statistics' of 'Show Document Properties' loads date in local machine time instead of Web Server Time
3339252	Invalid REST response format when using Restful SDK and getting a database error message
3397632	The time stamp does not work in the Web Intelligence Input Control having a Calendar type
3428766	Web Intelligence cannot use skins at all if at least one of type "box" is declared in the configuration file "SkinConfig.xml".

2819138	Delegated Measures are not automatically refreshed by Web Intelligence when updating the values of a Drill Filter.
2819138	Delegated Measures are not automatically refreshed by Web Intelligence when updating the values of a Drill Filter.
3422441	"%SI_DOCUMENT_HTML_CONTENT%" in the email body can not be shown when schedule a publication for web Intelligence reports with mhtml format
3430923	Web Intelligence Document based on .UNX generates multiple SQL statements for measures when compared with SQL generated using UNV
3430068	New created administrators group user can't save webintelligence report
3425621	"Hide when formula is true" option cannot be disabled when used to hide a webi report
3400711	Error Received when running MultiTenancy Management Tool: "[ERROR] com/businessobjects/connectionserver/ConnectionServer\$ImplementationID"
3199047	The css style file was truncated if it contains full-width Japanese character when exporting it from Web Intelligence
3353040	Multiple random errors are noticed when accessing Web Intelligence Document
3433663	Web Intelligence fails to open a document with missing Shared Elements.
3433663	Web Intelligence fails to open a document with missing Shared Elements.
3435028	Duplicated query returns different objects than what is selected in query panel
3367839	Scheduling Web Intelligence report to excel format fails with Temporary file error if the instance name starts with "CON."
3345744	fold/unfold Break Values for <Dimension> option is missing in Contextual Menu when dimension is hidden in table
3414667	Web intelligence function Help is displayed in English although Product Locale language is set to French.

SAP Crystal Reports 2020

SAP Note #	SAP Note Text
3388474	XY Scatter chart x axis label font, and font size not retained in Crystal Reports
3422141	Empty description shows on LOV dialog when parameter is configured as "Prompt with Description Only" but Description is empty
3427680	Duplicated objects shows in list if Enterprise system is set as "Default system" in CCAW
3431061	Length restriction for parameter value does not take effect when schedule crystal report in BI Launchpad.

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3431493	Crystal Reports for Enterprise 4.3 fails to create document with VARCHAR data type with more than 255 characters from connection using PostgreSQL ODBC driver

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 04 Patch 02

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3299636	Copy/Paste Chart from one tab to another in Analysis edition for OLAP fails with error even though chart gets copied
3408131	Opening any Analysis edition for OLAP workspace in "new browser tab" shows tab name as "Multi-Dimensional Designer" instead of selected report name
3330444	Analysis edition for OLAP workspace does not show up in "Currently Open Documents" after overwriting an existing workspace or is not loading in BI Launchpad with "new browser tab" option and in CMC
3381513	Choosing any option under "Send To" button of Analysis edition for OLAP document freezes browser tab
3368001	Translation Management Tool fails with error on performing "Import string to translate" with any Analysis edition for OLAP workspaces

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3354983	White area in Fiori BILP when using dark mode
3277317	JAWS ("Job Access with Speech") screen reader assistive tool is not announcing filter titles of search results from BI Launchpad and titles are not accessible
3385566	Publication properties page hangs in Fiori BILP if the report source name is all numeric
3341952	Cannot "Save As" Workflow Assistant in Central Management Console
3395789	CMS crashes in SecuritySubsystem.dll post upgrade from 4.2 to 4.3
2939081	CMS Database lock happens when creating users in Central Management Console
3412742	Crystal Report Search in BI Launchpad returns a blank page
3267713	Scheduled shortcuts' "Last Run" column displays no data
3416124	Custom page with public folder navigates to personal folder in BI launchpad
3423473	Third party users (SAP/LDAP/WinAD) are not imported and mapped to groups/roles correctly in 4.3 SP04
3418696	Webi Report Schedule failed with error "Object failed to run due to an error while processing on the Job Server." in 4.3 SP04 & SP04 Patch 100
3401897	Workflow Assistant folder is not listed in 4.3.

3394276	CMC and Fiori BILP Language change to French disrupts Calendar colors in Fiori BILP instances view
3400711	Error Received when running MultiTenancy Management Tool: "[ERROR] com/businessobjects/connectionserver/ConnectionServer\$ImplementationID"
3407202	"From" field not fully disabled in Email Destination in BILP
3390002	Extra blank lines added to email body text when rescheduling instances in Fiori BILP
3377117	'Full Name' value of existing winAD account in BI does not update to the AD displayName
3394416	Date format incorrect for the start and end date fields in recurrence when changing PVL
3404116	Report Title is not translated for Shortcut of the report translated in TMT.
3335671	The page is shown in English interface after entering Workflow Assistant in Central Management Console
3393190	JAWS ("Job Access with Speech") screen reader assistive tool is not accessing and announcing Header/Title All Documents (<Rounded Number of Documents > +)
3374673	Corrupted object in the CMS database cannot be deleted
3413928	No option to sort by Last Run in BI4.3 version
3351400	Report history page doesn't show correct sorting order for instance list in BI Launchpad when filtering the list

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3414694	Date format applied in "Database Format" under advanced tab does not stick in Information Design Tool

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3402162	Result panel is restricting to add hierarchy object along with levels
3401635	Poor performance while running Web Intelligence document with a specific prompt value coming from SAP BW query
3422220	Refreshing a Web Intelligence Document based on SAP BW query with specific hierarchy variables fails with error
3299320	SL SDK outputs wrong original connection path for universe (unx) upgraded from 4.2 to 4.3
3410110	Filter on Dimension using a key or Caption of a node should return no Data in Web Intelligence
3412106	Hierarchies in List of values of SAP BW variables appear flat when refreshing Web Intelligence document

3319212	Hierarchy object disappears when refreshing Web Intelligence document based on OLAP connection after re-login to BI Launchpad
3318630	Error occurs when refreshing Web Intelligence reports based on SAP BW connection using Message Server login mode
3315170	WebIntelligence report based on a Bex Query may not retrieve the data when opening it by using an opendocument formula
3316596	Values selected to answer a Web Intelligence Query Filter prompts based on a BW data source may retrieve incorrect data

3328974	Full outer join is not generated with ANSI 92 standard at universe based on Snowflake ODBC.
3375017	List of values in some Hierarchy Node with variable appears flat in Web Intelligence Document
3375567	Error occurs when refreshing a second time a Web Intelligence report based on multiple SAP BW queries
3376057	'Error executing query. near "(": syntax error' error message appears when executing a Query with cascading List of Value in Information Design Tool
3381177	Query filter with constant values returns no data in Web Intelligence document based on SAP BW query containing objects with specific memberAccess presentation
3269721	Values entered for Customer Exit variables are ignored when refreshing Web Intelligence report based on SAP BW universe

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3285152	Web Intelligence Processing Server crashes when using function Mode on a variable containing dimension objects
3284595	Schedule a Web Intelligence report failed by error: "Cannot build the query or generate the reports. (WIS 30351)" after upgrading to BI 4.3 SP02 Patch 800
3288340	Universe caching behavior for List of value available prompt when using UNV type universes does not correctly work
3248382	Publication Local Personalization Shows 'undefined'
3276923	Adding "noDocument=true " parameter to Web Intelligence OpenDocument link fails with error
3268061	"Prompt with list of values" is selected after first run of query panel even if "Associate list of values" option in Business layer of Universe is unchecked
3292428	"processDPCCommandsEX" error when user refresh document
3136943	In a Web Intelligence document based on BW / BICS, prompt values are unexpectedly displayed as Text instead of Key when searching into the list a second time
3227216	A mapping error occurs when trying to use Change Source on a Web Intelligence report from unv to unx universe
3294189	In a Web intelligence document, a table filter based on a variable with Running functions with reset doesn't work when Avoid Duplicate rows aggregation is enabled.
3293020	BI 4.3 - Tomcat is stuck in "stopping" status when being stopped from CCM
3280005	Dynamic recipients does not show in the list in publication and in Preview display

3295300	In a Web intelligence document, an attribute of a time dimension returns wrong values
3294952	When trying to do a "Save As" in Web Intelligence, any folders that are not within the first one thousand in the location are not shown
3296730	In a WebIntelligence document, creating a variable of type detail causes WebIntelligence Processing Server to crash
3294189	In a Web intelligence document, a table filter based on a variable with Running functions with reset doesn't work when Avoid Duplicate rows aggregation is enabled.
3229097	Refreshing the list of values for a Hana variable from a WebIntelligence report may display an error: "An Error occurred while providing answers..."
3297754	In a Web Intelligence document, filtering on variables returns empty values for the variables which has formulas based on merged objects
3297482	Web Intelligence Document fails with "WIS 00000" error on adding new query based on SAP BW query containing variables with multiple entries
3298606	Web Intelligence cannot open recovery versions of scheduled instances of Web Intelligence documents.
3299116	Refreshing the List of values for SAP HANA Dependent variable may fail with error "Invalid column name" in Web Intelligence
3295352	The following database error occurred: Can't group on 'group_concat(xx)'. For information about this error, please refer to SAP Knowledge Base Article 2054721 on the SAP Support Portal. (IES 10901)" when running web intelligence document.
3300064	Aggregation function is incorrect after turning a String Dmension to Numeric Measure using Web Intelligence.
3302027	Error occurs when expanding a hierarchy in a WebIntelligence document
3300549	"Query Timeout" defined on a jdbc connection does not work when running query on Web Intelligence document based on SAP HANA view
3300690	An error "Web Intelligence idle connection has expired" may occur when refreshing a Web Intelligence Document using HANA calculation view that owns Input parameter
3302799	Some Web Intelligence documents schedule fail with error message: java.lang.NullPointerException
3293571	Refreshing a FreeHand SQL query added with WebIntelligence RESTful Web Service throws an error.
3301662	In a WebIntelligence document, applying a table filter make measure values disappear
3208585	Following error occurs while opening a modified Web Intelligence document "The resource of type "Document" with identifier "xxxx" is not available (The action cannot be performed)".
3296101	Web Intelligence RESTful Web Service does not consider a user's Product Locale.

3076418	Cells width of merged cells get broken when applying Unmerge, after changing one of table cells width
3312586	[CVE-2023-39440] Information Disclosure vulnerability in SAP BusinessObjects Business Intelligence Platform
3334844	In a WebIntelligence document, default level expansion doesn't work with certain documents
3335858	"Web intelligence idle connection expired" error when opening migrated Web Intelligence document.
3328764	DPI is considered by Web Intelligence only the first time when exporting a document.
3311903	Live Office queries take much more time after upgrading from BI 4.3 SP01 patch 8 to BI 4.3 SP02 patch 5
3338407	Prompt order changes from Pre-define to Alphabetical order in Web Intelligence Document
3338954	In a WebIntelligence document, persistent #TOREFRESH is displayed after modifying the query based on unv based universe
3337946	Setting a query filter to "values from List" displays incorrect Hana variables as dependent prompts
3337890	"Create Custom Order "option is disabled if changes are made on a variable.
3340989	Web Intelligence Processing Server crashes while opening a document with variables containing ReportFilter formulas, the following error appears : "Web Intelligence idle connection has expired."
3340931	Migrated Web Intelligence document containing folded breaks displays only first page
3340565	BI Variants do not keep path of hierarchical values with Web Intelligence.
3285108	Error: "Unable to create or update the Excel personal data provider: cannot open the workbook. (IES 10872)" is occurring while refreshing a Web Intelligence report on an Excel data source
3332552	Web Intelligence Document allows user to click on "Apply changes and close" with an invalid value in Query filter
3329951	Web Intelligence Processing Server crashes while refreshing the duplicated query after query modifications
3342496	A scheduled Web Intelligence document fails with a "ERR_WIS_30270" error
3344466	Web Intelligence should allow drilling on incompatible objects.
3342002	Custom elements chart's color palette reverts automatically back to the Belize default palette
3339927	It is very slow to display the List of values in the Input Control after refresh the Web Intelligence in BI Launch Pad
3344388	Web Intelligence reports based on a Free-hand SQL will ignore query filters on the first refresh

3345166	Accessing Recent Web Intelligence Documents in Rich Client Offline mode fails with error
3311133	Hiding an object in chart's Category axis removes it from Data Assignment section
3343307	Publications or Scheduled Web Intelligence documents fail with the error "Cannot build the query or generate the reports. (WIS 30351)"
2921088	Universe hidden objects are removed from Result Objects Section and Script of existing Web Intelligence Documents
3347233	The resource of type "Page" with identifier "1" does not exist when opening certain WebIntelligence document
3298340	The height size of a Web Intelligence Blank cell with "read content as" option set to "Image URL" can no more be reduced less than 1.04in.
3329502	Creating a vTable using REST APIs does not apply CSS styles to all columns
3298126	Unable to adjust the height of section in a Web Intelligence Document
3347722	In a WebIntelligence document, using an incompatible dimension in a running function caused Web Intelligence Processing Server to crash
3348707	Web Intelligence Processing Server crashes : Internal Error ("recv() failed: I/O error during read: java.net.SocketException: Connection reset")
3349874	Right to Left aligned content is not same when Web Intelligence Document is exported to pdf or Excel formats
3350708	Exporting / Scheduling Web Intelligence Document to pdf format produces a corrupted pdf file
3340254	The unchecking "show side header" option does not hide the side header and also automatically marking it checked within seconds in Web Intelligence
3352015	Web Intelligence throws an HTTP 503 error when it is unable to open a Web Intelligence document.
3310494	Child nodes and levels for hierarchy disappear after refreshing Web Intelligence document based on SAP BW connection
3345841	In a Web Intelligence document, backward slash keeps on adding in comments added in a variable
3350460	Web Intelligence throws an error when selecting "[NULL_VALUE]" in an Input Control of type "DateTime".
3350312	Unable to edit the Freehand SQL based Web Intelligence query after migration
3340593	Unable to create a publication with PDF or Word document and Web Intelligence documents in BI Launchpad
3356968	Duplicate dynamic recipients rows in Web Intelligence document Publication
3356044	In "Folder" view, Web Intelligence sorts the dictionary folders alphabetically instead of Data Source order.
3354095	Scheduling a Web Intelligence Document with Customized Prompt Order fails with error "Cannot build the query or generate the reports. (WIS 30351)"

3303860	The instance generated from the schedule shows the data of the last manual refresh of the Web Intelligence Document while enabling the query stripping from both the "Query Preferences" and from the "Documents Properties" and enabling the data tracking wit
3357558	Dependent prompts with cascading list of values are missing from Web Intelligence Prompts box
3331260	Dependent prompt is displayed twice on selecting "use custom query script" option in Web Intelligence Document
3345841	In a Web Intelligence document, backward slash keeps on adding in comments added in a variable
3243500	Error in publication when choosing Web Intelligence report as Dynamic Recipient if Refresh on open is enabled
3360988	Excel file exported from Web Intelligence Document fails with error while opening
3352015	Web Intelligence throws an HTTP 503 error when it is unable to open a Web Intelligence document.
3325611	WIPS "Current number of sessions" not released when Web Intelligence documents are added to BI workspace used as BI Launchpad custom "Home" page
3361667	Refreshing Web Intelligence document based on SAP HANA views with dynamic variables is very slow after upgrade
3339214	LaunchPad history displays wrong values for Web Intelligence scheduled instances with dynamic parameters
3363376	Excel file exported from Web Intelligence Document fails with error/warning while opening
3363197	"Web Intelligence idle connection has expired." error in Web Intelligence document with variables containing "InputControlFilter" formulas.
3367505	Removing a free cell from a report's folded section may lead to a Web Intelligence Processing Server crash
3366247	In a WebIntelligence document, newly added delegated measure displays persistent #TOREFRESH or blank values
3345505	Default aggregation option is disabled for Smart measures
3366172	Web Intelligence Processing Server crashes when removing tables containing variables with currentdate or currenttime formulas
3357566	Opening Web Intelligence document (no refresh on open) containing custom elements displays puzzle image instead of the custom element chart.
3216136	Web Intelligence rich client is very slow after patch upgrade.
3247588	Some column charts with custom palette display wrong bar colors in Web Intelligence document
3381739	Free Hand SQL (FHSQL) with prompt returns no data in Web Intelligence Document on first refresh

3385968	Refreshing certain WebIntelligence documents containing delegated measures crashes WebIntelligence Processing Server
3358097	Reschedule a Web Intelligence document with mandatory key parameter value is failing with error "Invalid numeric prompt"
3339301	Scheduling a Publication based on Web Intelligence document with optional interval Prompts generates an instance with no data.
3257016	In Business Intelligence 4.3, there are Web Intelligence functions that are listed but are not working and are undocumented
2976086	Dynamic and Constant value selection option is missing from the prompt selection window when scheduling Web Intelligence reports
3255458	In a Web Intelligence chart, the default Red Palette for color 22 contains purple instead of a shade of red
3259165	#MULTIVALUE or #UNAVAILABLE is displayed on formulas like sum(<delegated measures>) in break footer
2870490	FreeHand SQL is not getting captured in Auditing Database
2976086	Dynamic and Constant value selection option is missing from the prompt selection window when scheduling Web Intelligence reports
3260845	LO02031 error occurs in the search at the bottom of the prompt when acquiring WebI data in LiveOffice
3252431	An error appears when repointing a Web Intelligence document to another universe using the Change Source wizard
3261618	Expanding tree node in member selector doesn't work
3373858	Create BI Workspace with report part, after Save+Close+Reopen the Selected Report part cannot be unselected
3373858	Create BI Workspace with report part, after Save+Close+Reopen the Selected Report part cannot be unselected
3381027	Web Intelligence Document based on Free Hand Sql queries may take a long time to be opened
3381027	Web Intelligence Document based on Free Hand Sql queries may take a long time to be opened
3228539	In Business Intelligence, Webintelligence reports with large amounts of data can be rendered improperly and cause large spaces between sections and missing data
3254905	Create a Web Intelligence document base on Universes data source/ Select a Universe list displays less universes than available in the system
3262737	In Web Intelligence documents, hidden charts are not visible in Structure mode
3262353	Performing a "Change Source" workflow on a Web Intelligence document results in the error "Web Intelligence idle connection has expired" in BI Launchpad
2976086	Dynamic and Constant value selection option is missing from the prompt selection window when scheduling Web Intelligence reports

3262222	Folding break values is generating unexpected blanks and pages from a webintelligence document.
3245154	The list of universes when creating a report in Web Intelligence takes longer to load than SAP BusinessObjects Business Intelligence Platform 4.2
3263863	[CVE-2023-23856] Cross-Site Scripting (XSS) vulnerability in Web Intelligence Interface
3390040	Selecting a cell in block makes screen jump to top left corner highlighting selected cell
3366717	Web Intelligence processing server crashes after upgrade
3382729	Web Intelligence block is removed after deleting long column and set "Fit to page" display.
3254697	Oracle stored procedure called from FHSQL runs twice
3274761	Web Intelligence RESTful Web Service incorrectly reports extra columns in dataset.
3276239	Prompt is duplicated after renaming the prompt in SQL Script
3275223	Delete a dimension in a WebIntelligence document containing a table with hierarchy the following error appears "Index 16 of array with length 3 Exception"
3272896	Document option "Permanent regional formatting" is not keeping in Web Intelligence Document
3274355	The error " The resource of type "Document" with identifier "XXXX" is not available (An Internal error occurred while calling 'openDocument' API (Error: ERR_WIS_30270))" when opening the Web Intelligence document.
3273421	Default Date value hardcoded in @prompt shows a different Date when refreshed with Product Viewing Locale (PVL) set to English (United Kingdom) (FHSQL)
3274652	Pie chart disappears from the report if "Sector Color" contains a dimension with a single value and the "Start Angle" is different of 0
3276395	Mouse over of Pie charts does not display percentage in Web Intelligence report
3366717	Web Intelligence processing server crashes after upgrade
3227158	After upgrade the product version from BI 4.2 SP 8 to 4.3 SP2 P2, the "Retrieve empty rows" is not working as expected in Web Intelligence
3277915	Web Intelligence Processing Server crashes when turning a table containing hierarchies into a cross tables
3266439	Filtering the Data using Input Control based on Hierarchy on a document containing ReportFilterSummary() crashes Web Intelligence Processing Server
3278274	Multi-List and List options are not available while creating an Input Control on top of measure object/variable
3278308	ReportFilter function on a numeric object returns incorrect values in Web Intelligence document

3265382	Web Intelligence refreshes documents by picking the previous value in SAP BW Key Date variable even after removing the prompt value.
3277375	Using Function TO_CHAR() Unavailable to Google BigQuery
3275136	Day light saving time is not reflecting In Web Intelligence Functions like CurrentTime() and CurrentDate()
3214195	Shared images with names containing parentheses or square brackets do not display in Web Intelligence document, nor can be inserted.
3277515	'Enable query stripping' option is by default unchecked for Web Intelligence queries based on SAP HANA view with variables
3280420	Web Intelligence should display SAP HANA Cloud datasources as SAP HANA instead of SAP BW.
3280432	[WDM] WPS Crash when change a data type of a merged cube dimension
3268309	Displaying a WebIntelligence document with lots of complex reports is slower after refresh in Web Intelligence 4.3 version
3256814	Clicking on Edit Query in SAP BusinessObjects Business Intelligence Platform 4.3 takes more time to load Query panel than 4.2
3282044	Formula based on Reference Cell object returns #ERROR in Web Intelligence
3229097	Refreshing the list of values for a Hana variable from a WebIntelligence report may display an error: "An Error occurred while providing answers..."
3242096	Only Send to BI Inbox option is shown in Web Intelligence document
3271137	ASCII characters are not correctly displayed in Data view part of Web Intelligence
3282866	Excel XLS file is seen as a text file in BI launchpad when you use Cloud Storage data source provider One Drive
3282913	Activate Track Data Changes empties the Web Intelligence report (impact of DATA model merge cube)
3282962	Error ERR_HTTP_RESPONSE_CODE_FAILURE when doing a custom mapping
3076305	Web Intelligence might throw an error when selecting an entry from the navigation map of a Web Intelligence document.
3282855	Web Intelligence might display an intermittent "Internal Error" after refreshing a Web Intelligence document with BEx queries and Input Controls.
3283927	When exporting Web Intelligence documents to PDF format, cells that have the "Read Content as" set to html displays HTML code
3224385	Empty row is displayed below the table when a Web Intelligence report is exported to Excel format
3286158	Change source to a local universe with Web Intelligence Rich Client occurs error "Universe generation failed for resource id "" and resource path "null".: Unexpected exception while calling the SL Service"
3299351	Web Intelligence RESTful Web Service is not accessible through Web Application Container Server.

3298126	Unable to adjust the height of section in a Web Intelligence Document
3308076	In a Web Intelligence document, performance is bad when a transformation is applied on column in a combined cube
3126972	Cannot merge two numeric dimensions where one of them is using "Mod" function in a Web Intelligence document.
3295542	Web Intelligence cross table structure is corrupted or collapses when the user tries to change a column
3298360	Web intelligence filter on a Dimension is ignored when it is applied before creating any Indicator chart
3310276	In a WebIntelligence document, an aggregation of a measure in the footer returns #MULTIVALUE when used along with a merged variable
3126972	Cannot merge two numeric dimensions where one of them is using "Mod" function in a Web Intelligence document.
3312122	HTTP 500 is received when loading a large Web Intelligence document in BI Launchpad (Fiori BILP) and TTFB is breached.
3311305	Time dimension returns unexpected result after deleting a query in Web Intelligence
3304380	Old Publication document instances are not visible in Fiori Launchpad History after objects were migrated using promotion management
3310615	When using Web Intelligence as a data source, the report consuming it is not updated with new data when refreshed
3314841	Web Intelligence Processing Server crashes when creating a report based on a Web Intelligence Document using both geo and time dimension objects
3057668	The Column header value is changing Row footer value in a crosstab
3315347	Hyperlinks in PDF file doesn't after exporting from Web Intelligence document
3308188	In Web Intelligence the context menu for Drill by only lists objects but not the associated data provider so objects are repeated with no context
3317380	Error when selecting a CSV file (located in Microsoft One Drive) for creating a query in BI Launchpad is Microsoft One Drive
3312586	[CVE-2023-39440] Information Disclosure vulnerability in SAP BusinessObjects Business Intelligence Platform
3316481	"Query script generation failed. See your administrator. Unexpected branch. (Error: INF WIS 00000)" when refreshing Web Intelligence document based on multisource universe using Derived table with "Database specific".
3314322	In a Web Intelligence document with input control and delegated measure, a refresh is triggered automatically while changing input control values
3331891	When changing source of migrated Web intelligence document using bex query, we have an error, even if the destination is valid
3318940	#DATASYNC is displayed in Design mode after creating a cube in Web Intelligence Data mode view

3310229	Unable to set width and height to zero (0.00) with Autofit enabled in the Layout Settings of Web Intelligence documents
3319361	Generated PDF may be corrupted when containing more than 1024 byte URL
3254697	Oracle stored procedure called from FHSQL runs twice
3305450	Schedule to File System as destination show status as "Success" however error displayed
3320036	In a WebIntelligence document, it is impossible to merge two variables when the second variable is created after a duplicate of the first dataprovider
3278526	Web Intelligence report prompts order changes after updating to SAP BusinessObjects Business Intelligence Platform 4.3 Support Package 02 patch 700
3321656	When selecting a csv file it appears with a xls extension on query panel
3321658	Restore document FHSQL connection
3321617	An error pops up when opening a WebIntelligence document or creating a new one with Web Intelligence Rich Client in Offline mode.
3323283	#DATASYNC displayed in Web Intelligence report after combining cubes containing objects which is part of a merged variable
3280156	The block name cannot be re-used in Web Intelligence document
3324664	Adding or removing carriage returns in the middle of a formula is not persisted by Web Intelligence.
3223725	Unable to add new header on top / below the existing column header in a Vertical table and Cross table
3323069	No changes applied when selecting a different associated dimension of a detail query object from excel data source in web intelligence document.
3324363	Web intelligence processing server crashes when modifying a document containing merged variables and detail object based on merged variables
3316538	"Match Case" option is incorrectly enabled when searching for Prompt values in Web Intelligence documents when based on a BW/BICS data source
3253805	Unable to click Schedule button for a Web Intelligence report after clicking on Caching page in Central Management Console 4.3
3326651	An error has occurred from the server when doing a change source action from a report based on a recently removed Text or Excel file
3324629	Error message "the following database error occurred: ORA-00904: XXX" after performing Drill Up in Web Intelligence document
3317003	Web Intelligence reports containing multiple queries and optional prompts throw an error when running it
3325194	'The resource of type "Occurrence" with identifier "1" does not exist.' error is observed when the same Web Intelligence document is opened for more than 10 minutes in multiple browser tabs

3319549	Custom Element is not loading until we logout and login back to Web Intelligence
3328764	DPI is considered by Web Intelligence only the first time when exporting a document.
3320700	Intermittently the scheduled Web Intelligence report is running without ending after upgrading to BI 4.3 SP 02 patch 8
3134526	Cannot add service in Web Intelligence Custom elements using authorized URL with proxy enabled
3331890	Unable to disable authorized URL in Central Management Console
3323710	Bar/Column color in chart changes to Blue when they are filtered using element linking
3334240	Excel export files are corrupted by Web Intelligence and cannot be opened or repaired
3297939	Parameter values from original Web Intelligence source documents are not picked up automatically when scheduling a Publication
3326813	Error message: "Resource is not reachable: "BOException caught:RESULT=80004005;WHAT=GenerateStatements failed"" when trying to refresh a Web Intelligence Document containing attributes that has been denied through Business Security Profile
3370231	Web Intelligence document title opened in Web Intelligence Rich Client is tagged "undefined" instead of its real file name
3373485	Opening a BICS based Web Intelligence report might take longer time than with previous versions
3374286	Error occurs when a local user creates a document from Web Intelligence Rich Client and uses Web Intelligence Document as a Data Source
3366772	When the dimension value has space characters at the beginning, Web Intelligence cannot show this dimension properly in axis label of a column chart
3373089	Labeling & Axes values are not shown in any Web Intelligence document through BI launchpad.
3126576	Data Tracking failed to highlight the changes of a detail object in Web Intelligence document
3381414	Web Intelligence Element link filter in a cross table is not applied correctly for table columns when clicking on a footer calculation added on rows.
3381573	On promoting Documents/upgrading the environment, Date value in Web Intelligence Document prompts displays a strange numeric value instead of a date.
3368186	Error happens intermittently when trying to access the Excel file on Microsoft OneDrive folder in a cluster environment
3265307	avoid double encoding for % character when Encode URL
3265643	When creating a Web Intelligence document based on SAP HANA Data Source, the 'Select an SAP HANA view' dialog box takes very long to close
3203575	When attempting use fold/unfold function on an empty section, an error is thrown

3264940	The "Select a context" window does not appear after changing the source of a Web Intelligence document
3245368	Web Intelligence Processing Server crashes when applying a break on multiple objects in which one is a hierarchy
3095893	Migrating Web Intelligence reports that contain context from UNV universe to UNX universe loses context after the update
3266342	"Invalid RO" error message may appear when resizing a huge graphic chart in a Web Intelligence report
3258571	When adding a variable which referencing to a variable which contains a reference object the table vanishes in Web Intelligence
3261467	Web Intelligence report prompts dialog box for HANA variables takes very long time to be displayed
3268784	There is no means to unfold a break value once is folded
3262269	An error "Resource is not reachable" error may occur when refreshing a report based on a MSAS universe with Web Intelligence Rich Client
3271290	Web Intelligence Processing Server crashes while refreshing a Web Intelligence Document
3270455	Webintelligence report generating huge logs
3267714	Publications created or scheduled in BI Launchpad run to Success but no dynamic recipients are processed

SAP Crystal Reports 2020
