1 About This Document

The Feature Scope Description defines the functional scope of SAP Intelligent Trade Claims Management.

This document shows you which features are provided with SAP Intelligent Trade Claims Management. These are legally binding. On the product pages of SAP Help Portal, you may come across additional features, or integration descriptions with other products that must be licensed separately. These descriptions may go beyond the product scope specified here. Further restrictions may apply based on your license agreement with SAP.

Product Documentation

The following product documentation is available for SAP Intelligent Trade Claims Management:

- This feature scope description
- Information on security

You can find the relevant security information for SAP Intelligent Trade Claims Management in the administration guide.

Additional Licenses

Please note that certain features in SAP Intelligent Trade Claims Management may require a separate license. For more information, contact your SAP Account Executive.

SAP S/4HANA Sales and Distribution (SD) rebate processing and Accounts Receivable (FI-AR) are prerequisites for using SAP Intelligent Trade Claims Management. SAP S/4HANA requires separate licenses.

2 Feature Scope Description

SAP Intelligent Trade Claims Management provides a unified, intelligent user experience for managing trade promotion claims.

The solution offers the following key features:

Feature	Description
Document Management	A central repository for all documents associated for the claims management process.
Trade Claim Matching	Intelligent auto-matching and allocation of trade promotions for given claims and the respective accruals.
Auditability of Claims Process	The enablement and ability to audit the entire claims process from claim creation, to approval, and settlement.

3 Product Availability

This section describes the product availability aspects and the product restrictions.

Availability Aspect	Description
Languages	English, German, Simplified Chinese, Spanish, French
Environment	This application runs in the Cloud Foundry environment.

Important Disclaimers and Legal Information

Hyperlinks

Some links are classified by an icon and/or a mouseover text. These links provide additional information.

About the icons:

- Links with the icon : You are entering a Web site that is not hosted by SAP. By using such links, you agree (unless expressly stated otherwise in your agreements with SAP) to this:
 - The content of the linked-to site is not SAP documentation. You may not infer any product claims against SAP based on this information.
 - SAP does not agree or disagree with the content on the linked-to site, nor does SAP warrant the availability and correctness. SAP shall not be liable for any damages caused by the use of such content unless damages have been caused by SAP's gross negligence or willful misconduct.
- Links with the icon : You are leaving the documentation for that particular SAP product or service and are entering a SAP-hosted Web site. By using such links, you agree that (unless expressly stated otherwise in your agreements with SAP) you may not infer any product claims against SAP based on this information.

Videos Hosted on External Platforms

Some videos may point to third-party video hosting platforms. SAP cannot guarantee the future availability of videos stored on these platforms. Furthermore, any advertisements or other content hosted on these platforms (for example, suggested videos or by navigating to other videos hosted on the same site), are not within the control or responsibility of SAP.

Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.

The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

Example Code

Any software coding and/or code snippets are examples. They are not for productive use. The example code is only intended to better explain and visualize the syntax and phrasing rules. SAP does not warrant the correctness and completeness of the example code. SAP shall not be liable for errors or damages caused by the use of example code unless damages have been caused by SAP's gross negligence or willful misconduct.

Bias-Free Language

SAP supports a culture of diversity and inclusion. Whenever possible, we use unbiased language in our documentation to refer to people of all cultures, ethnicities, genders, and abilities.
