Feature Scope Description for Object Store on SAP BTP

Content

- 1 **About This Document.** **3****
- 1.1 Features. 3
- 1.2 Product Availability. 3
- 1.3 Service Level Agreement. 4

1 About This Document

This document describes the features that are available in Object Store service.

The availability of some of them may depend on your license agreement with SAP. To illustrate integration with other SAP offerings, the product documentation on the SAP Help Portal might include references to features that aren't included with SAP BTP. Features that are not included in this feature scope description might require a separate license.

Target Audience

Application Developers

1.1 Features

Object Store enables storage and management of data and objects that an application can use to perform object level operations such as creation, upload, download, and deletion of objects. This service is specific to the IaaS layer i.e

- Object Store service on SAP Cloud Foundry Azure
- Object Store service on SAP Cloud Foundry AWS
- Object Store service on SAP Cloud Foundry GCP

Availability Aspect	Description
Languages	Object Store Service supports the following languages in the tools and documentation: <ul style="list-style-type: none">• English• Japanese• Chinese
Free trial use	The free trial of SAP BTP is available for testing and exploring this service.

Availability Aspect	Description
Regions	You can check the regions corresponding to Object Store in SAP Discovery Center: Service Catalog
Infrastructure	Microsoft Azure, Amazon Web Service, Google Cloud Platform
Environment	Kyma (AWS and Azure) and Cloud Foundry

1.3 Service Level Agreement

For more information, see [Service Level Agreement for SAP Cloud Services](#).

This agreement document for cloud service offerings from SAP forms the basis of your contractual relationship with SAP when referenced in specific order forms. This document contains a specific section about covering uptime, credits, update windows, and others

Important Disclaimers and Legal Information

Hyperlinks

Some links are classified by an icon and/or a mouseover text. These links provide additional information.

About the icons:

- Links with the icon : You are entering a Web site that is not hosted by SAP. By using such links, you agree (unless expressly stated otherwise in your agreements with SAP) to this:
 - The content of the linked-to site is not SAP documentation. You may not infer any product claims against SAP based on this information.
 - SAP does not agree or disagree with the content on the linked-to site, nor does SAP warrant the availability and correctness. SAP shall not be liable for any damages caused by the use of such content unless damages have been caused by SAP's gross negligence or willful misconduct.
- Links with the icon : You are leaving the documentation for that particular SAP product or service and are entering an SAP-hosted Web site. By using such links, you agree that (unless expressly stated otherwise in your agreements with SAP) you may not infer any product claims against SAP based on this information.

Videos Hosted on External Platforms

Some videos may point to third-party video hosting platforms. SAP cannot guarantee the future availability of videos stored on these platforms. Furthermore, any advertisements or other content hosted on these platforms (for example, suggested videos or by navigating to other videos hosted on the same site), are not within the control or responsibility of SAP.

Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.

The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

Example Code

Any software coding and/or code snippets are examples. They are not for productive use. The example code is only intended to better explain and visualize the syntax and phrasing rules. SAP does not warrant the correctness and completeness of the example code. SAP shall not be liable for errors or damages caused by the use of example code unless damages have been caused by SAP's gross negligence or willful misconduct.

Bias-Free Language

SAP supports a culture of diversity and inclusion. Whenever possible, we use unbiased language in our documentation to refer to people of all cultures, ethnicities, genders, and abilities.
