Notes related to security corrections will not be listed in this release note. Information on relevant security corrections can be found in the SAP Support Portal within the Security Patch Day section.

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 09 Patch 01

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3008960	On Unix platform, Web Intelligence fails connecting to Connection Server
3016486	"InvalidTupleForSortException:Tuple sorting" error is displayed in Analysis edition for OLAP

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3034928	Recurring instance is not set to chosen value when scheduling from Fiorified Launchpad with Spanish locale
2881874	Fiori BI Launchpad does not provide detailed Error Message for Analysis for Office workbook's Failed Instances
2999277	Updating Web Intelligence Documents from unv to unx universes using the BI Automation Framework (2906634) fails with error
3005974	JMX Thread buildup in Monitoring Service on APS with hosts metrics enabled
3006682	Universe overloads exclusion in Promotion Management Wizard (PMW)
3015931	Communications issues between servers on Unix
2982813	Unable to see subfolders in BI Workspace Document List Viewer
3013498	Users unable to view objects in Personal Folders if the objects were placed there by another user

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3008615	An error occurs when trying to custom hierarchy based List of value with Impala Cloudera in Information Design Tool
3021357	'Invalid variable name' error may occur when executing a query based on a HANA view
3027101	Aggregate_Aware including key is causing wrong SQL

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
3005856	The Live Office query prompt value set to different prompts after upgrading from XI 3.1 to BI 4.2 when refreshing twice.

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3007313	Min(RowIndex()), Max(RowIndex()) result changed after upgrading from SAP BusinessObjects Business Intelligence Platform 4.1 to SAP BusinessObjects Business Intelligence Platform 4.2
1764353	Universe Designer LOV Errors with Query Banding Feature

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3029328	When using Chrome browser with SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 08 patch 9, Javascript code included in Web Intelligence reports is not executed
3008814	When changing the source of a query using the Change Source wizard, a "'processDPCommandsEx' API (Error:ERR_WIS_30270)" error appears in Web Intelligence
3033708	Error (Error: RWI 00014) (Error: INF) appears when viewing or modifying a webintelligence report with section using Internet Explorer.
3028235	Opening a Web Intelligence document containing PNG images that fail to open may lead to a memory leak
3022654	After refreshing a WebIntelligence report by using "Advanced" button in User Prompt Panel in dHtml mode, the first selection done for Input control is not correctly applied.
3035268	Web Intelligence query panel does not retain UNX Business Layer view when modifying the data provider in HTML interface
2956946	Long loading time when opening a Web Intelligence document in web mode in Chrome browser
3000540	Error "Cannot find path of BusinessLayerItem" is thrown when performing Change source by user having restricted access in Web Intelligence
3013085	[EMPTY_VALUE] displayed in prompt values in schedule page if no value is selected
3015113	Error when modifying scheduling prompt values from BI launchpad and then switching to CMC, login, scheduling, modify prompts
3001416	Cannot display one of the merged dimension values in Web Intelligence document
3003576	Web Intelligence processing server crash when there is a scheduled job workflow that save report into xlsx format.
3004641	Error "An error has occurred" while changing the source of Web Intelligence report
3011656	Error occurs when refreshing Web Intelligence document based on SAP HANA universe containing variable with Date interval
3021317	Sorting "List of values based on a custom hierarchy" in descending order is not working properly in Web Intelligence HTML Mode
2986716	Error The Maximum Connection limit has been reached. (Error: RWI 000239) happens frequently in SAP BusinessObjects 4.2
3023163	Web Intelligence reports are showing #TOREFRESH when running the report the first time

SAP Crystal Reports 2016

SAP Note #	SAP Note Text
2433436	Data Object cannot be opened/accessed. Details: Table-level security check failed error displayed in Crystal Reports designer

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 09 Patch 02

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3044181	Update of XStream to version 1.4.16 in Analysis for OLAP

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3063048	[CVE-2021-33697] Reverse Tabnabbing in SAP BusinessObjects Business Intelligence Platform (SAP UI5)
3015026	Adding File System Shared Directory path
3041702	SAP BusinessObjects Business Intelligence Platform application fails to connect to remote hosts with multiple addresses
3041890	Admin Studio and Monitoring applications Metric's pages display the 'Servers' hierarchy once for each node in the environment
3033224	Search filters in the Fiori BI Launchpad do not exist
3040979	Accessing and refreshing BI workspace on BI Launchpad 4.2 SP08 Patch 7 show mismatched data and throws "Servlet Engine Exception" error intermittently.
3048697	Promotion fails with exception: ORA-01795: maximum number of expressions in a list is 1000
3015931	Communications issues between servers on Unix
3050754	Central Management Server may shut down unexpectedly when executing a query
3046699	Schedule a Web Intelligence document from the search result list will not go to History page in Central Management Console

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
2980515	[Data Federator Driver] [Server] [Connector 'connection name'] ConnectionServer has reported an Exception: String index out of range: 3 error in Web Intelligence
3042895	Refresh Structure Does not reflect latest changes on Multi source Information Design Tool Universe
3036390	Information Design Tool Security Profile Sort fails
3024178	Newly created objects don't get automatically included to the Business Layer View (BLV) in the whole class when retrieving a universe in Information Design Tool
2980515	[Data Federator Driver] [Server] [Connector 'connection name'] ConnectionServer has reported an Exception: String index out of range: 3 error in Web Intelligence
3025095	In Information Design Tool, not able to set default value twice on member selector

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
3021955	Excel freezes/hangs when executing an excel macro with Live office add-in enabled.

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3006742	Only the State property of BIItem objects can be changed. (SLS 24023), Error while saving linked universe with custom attributes with java Semantic SDK in BI 4.2

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3004018	Unable to select "Black and White" and "Custom" palette styles to a chart from Formatting tab in Web Intelligence HTML mode
3038444	Applying two or more filters on a table with merged dimensions displays blank table in the Webintelligence report
3040853	Refreshing Web Intelligence reports that retrieve large data gives "Communication error" in BI Launchpad
3038818	"Set Variables" window cannot be re-opened after clicking on cancel button in Web Intelligence query panel in Web Intelligence HTML interface

2952585	In the Query Panel of the Web Intelligence HTML Interface, double clicking an object in the Result Objects window does not work as expected the focus does not jump to the object in the Universe outline
3038056	Webi processing server consumes 100 % of CPU while trying to view the Webintelligence report having multiple sections in page mode.
3042466	[HTML][Free Hand SQL StoredProcedure] In WebIntelligence, Cancelling the Refresh of a query does not work as expected
3037592	When viewing a Webintelligence report that contains sections in page mode an extra blank page is added
3040371	Prompts are duplicated in migrated Web Intelligence document using custom query based on SAP HANA universe containing view with variables
3019345	Sort feature doesn't work correctly in a Web Intelligence cross-table when applied on a measure with aggregation function None
3039755	Grouped Input Control does not filter correctly in Web Intelligence report in DHTML Interface
3044751	[CVE-2021-33667] Information Disclosure in SAP Business Objects Web Intelligence (BI Launchpad)
2948654	Web Intelligence Processing Server crashes sporadically at int_initializeLOVParameterDependencies during document refresh in a Linux environment
3043146	In Web Intelligence, the option "Apply changes in all queries sharing the same data source" is grayed out when trying to change the data source
3047414	"An error has occurred from the server. Unable to create or update the Excel personal data provider: cannot open the workbook. (IES 10872) (Error: INF)" while refreshing Web Intelligence report
3051226	The input control does not work for the variable object after upgrading the BI system
3051590	Error: Cannot create Shared Element in repository (Error: INF) when trying to save a table contains complex break into shared element in Web Intelligence
3011359	Missing variables/input parameters in FROM clause of generated Web Intelligence query script after unchecking 'Prompt to User' option in Data Foundation Layer of SAP HANA universe
3053080	When selecting a value for a Input Control in a Group, no value is displayed in the title of the collapsed Input Control
3010126	"Apply changes in all queries sharing the same data source" option, checked by default while performing change source from Web Intelligence HTML Mode, does not work correctly
3044637	Conditional Formatting not working correctly when using Image as Background in Web Intelligence Report in Interactive viewer Interface
3054395	Web Intelligence Processing Servers crashes when modifying documents having formulas with nested Nofilter functions

SAP Crystal Reports 2016

SAP Note #	SAP Note Text
3040067	Export Options having "Isolate Report/Page Sections" and "Isolate Group Sections" do not work for Crystal Reports Viewer SDK
3045774	Size and position conditional formula values of a text object cannot be get/set using RAS SDK
2981185	The text alignment is not expected when opening the report directly in Crystal Reports 2016

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3011612	After upgrading to BI 4.2 SP 8 Patch 6, the added description for the 'Display Label' is ignored in a chart, when the source is a Running Total in Crystal Reports for Enterprise

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 09 Patch 03

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3038088	Prompt refresh w/ Time Dimension change, triggers error on Time-Dep Hierarchy selection
3009156	Cannot disable the warning message when refreshing the Analysis for OLAP by different user
3053980	The name will be cut off when exporting Analysis for OLAP report into excel with comma in the workspace name
3098917	[CVE-2021-40497] Information Disclosure in SAP BusinessObjects Analysis (edition for OLAP)
3064953	Rendering issue in Analysis edition for OLAP with Chrome Version 91.0.4472.77 and 91.0.4472.101

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3012378	File not uploaded to Folder using Restful Webservice SDK
3044480	Promotion Management Wizard fails to export or import the security associated with selected applications
3044596	Promotion Management Wizard Full Promote fails with error " Scenarios failed : Promote (Live CMS to Live CMS) ! unable to save job".
3047999	authentication failed. (FWM 020133) error occurs when configuring SSO between SAP BI and SAP HANA
3051430	CMS crashes on third-party user synchronization if aliases are reassigned
3017722	Promotion management not overriding HANA JDBC Connection 'Database Name' and 'Host Name'
3055180	[CVE-2021-33679] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence Platform (BI Workspace)
3047667	Tomcat Garbage collection and heap dump parameters missing on Linux / Unix
3055044	[CVE-2022-28213] Missing XML Validation vulnerability in SAP BusinessObjects Business Intelligence Platform (dswsbobje - SOAP Web services)
3056789	Error "Internal server error. (WRS 00070)" when viewing Recently Run with SAP user in BI 4.2 Fiori BI Launchpad
3015105	LCMCLI LCMBIAR imports / exports do not complete
3012029	Windows AD SSO configuration on Tomcat BI RESTful Web Service application fails to log on
3060755	Save or Save as does not work in BILP (Web Intelligence, BI Workspace etc)
3062915	Unable to add or change email recipients for Monitoring Watchlist in BI 4.2
3070934	User Notification Events cannot be created due to empty time dropdown

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3039995	Information Design Tool hangs when importing a text file to list of values if there is large volume in the text file
2938821	Cancellation of Web Intelligence report with SQL server as datasource and ODBC connection is slow
3055398	Date values from a Snowflake database appear incorrect in Web Intelligence and Information Design Tool
3051078	'Sample result set' checkbox in 'Query Properties' dialogbox is disabled when using a universe based on Snowflake connectivity

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
3051260	In a Live Office PPT document, the new position of a webi block is not maintained after refresh when the option "Apply report format when refreshing" is applied
3063285	Disable Quick mode in Live Office Webi Wizard does not work
3063915	Live Office insert wizard shows a Webi report which does not contain any data when the report is refresh on open
3038191	An error occurred when refreshing. Details: Unknown error when inserting Web Intelligence report into Excel via Liveoffice by Japan Preferred Viewing Locale

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3059556	Searching for S/4HANA CDS views starting with 2C does not work in Web Intelligence
3055930	The top node for Posting Period 0FISCPER3 is displayed as short text in Web Intelligence whereas 'Display as Key' is set at BW server side

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3042130	Business Intelligence Semantic Layer RESTful Web Service might not return parameters dependencies.
3008653	Unfolding a break generates empty pages in Web Intelligence Document
3003539	An error appears when running the query of a Free-hand SQL based Web Intelligence Document
3057379	Hide option wrongly hides table in Web Intelligence document having variables with contextual formula and containing measures with some empty values
3043897	Refreshing Web Intelligence Document containing SAP HANA Range variables with multiple entries intermittently fails with error "Query script generation failed"
2966343	The restart of the Web Intelligence Processing Server shows vague error when there are issues with the boconfig.cfg file
3041800	Element linking icon does not appear on Block/Table and do not filters other elements
3059097	Right-To-Left orientation is not getting applied correctly in Webintelligence report in Business Intelligence 4.2 Service Pack 9 Patch 01 with Chrome browser
3043368	Report does not display data from the second page after applying Drill in Web Intelligence Interactive Viewer (Fiori)
3069057	Can only see List of Values for one prompt not for others if there are more than two prompts which are declared in Prompt() definition with default value
3042303	Query Script Generation Failed On Query with Context and Prompt
3004780	Clicking on Hyperlink fails with error: "An error occurred while parsing value '<Date Time Value>' of type 'Date'"
3058575	Updating data provider specification does not work using Web Intelligence RESTful Web Service
3067805	Duplicate query does not work when using following Data provider Type : Universe (UNV format), Free Hand SQL, Custom Data Provider Excel, Custom Data Provider Text
3011359	Missing variables/input parameters in FROM clause of generated Web Intelligence query script after unchecking 'Prompt to User' option in Data Foundation Layer of SAP HANA universe
3068394	Object name of measure cannot be changed when drag new measure to replace the body of cross table in Web Intelligence

SAP Crystal Reports 2016

SAP Note #	SAP Note Text
3062085	[CVE-2021-33696] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence Platform (Crystal Report)
3063888	Failed to save PDF files when exporting Crystal Reports with PDF format via OpenDocument on Chrome/Edge
3070926	Start page of Crystal Reports 2016 SP9 is blank.

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3053917	Crystal Reports for Enterprise crashes when adding a summary on a group based on a date
3040331	Crystal Reports for Enterprise crashes on adding Calculated Member
3071001	When viewing Crystal Reports for Enterprise by SAP UI5 prompt on BILaunchpad, extra empty lines are generated in the List Of Values.

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 09 Patch 04

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3049896	Security Token Service fails to generate a Single Sign-On token for SAP BW

SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
3073756	Tomcat HTTP Header Security filter is blocking MIME/Sniffing and this creates an AJAX rendering issue in Google Chrome and Mozilla Firefox.

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3051239	Tomcat starts as root user on OS reboot in Linux after running setupinit.sh in a web tier only deployment
3013405	CORS Issues - Webi Report does not display in Fiori Viewer from OpenDocument link
2926967	java.io.NotSerializableException: com.sap.json.JSONObject in stderr.log after configuring Apache Tomcat clustering
3075547	iframe doesn't work with html code under HTML module
2926967	java.io.NotSerializableException: com.sap.json.JSONObject in stderr.log after configuring Apache Tomcat clustering
3064021	Instance manager shows additional records generated post successful schedule of a publication
3079379	Error 'CSessionMgr::isChallengeNeedToValidate() No need to validate CHALLENGE' in CMS logs when logging into CMC or BI Launchpad
2985170	Open document window title to be set to the document report name
3080884	BILP user preferences in IE 11 browser not working
3076915	Monitoring APS running with errors after dfocleanup of Monitoring Application

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3055862	Error about missing Unit entry when accessing ERP InfoSet with ConnectionServer
3067851	In Information Design Tool, attempting to use "Change Data Security Profile Priority" results in an error
3045292	Substring of BOUSER Doesn't Work in Derived Table in Amazon RedShift
3081699	In Information Design Tool, can't see more than 1000 elements per parent folder
3083391	Error when refreshing a Web Intelligence document that contains a Query Filter prompt based on a hierarchy with snowflake database

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
3084074	Unknown error is observed in PPT while refreshing a WebI part which has the merge cells in Live Office
3085068	Fonts can't be matched between WebI and Live Office

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3082550	Semantic Layer Java SDK cannot save because of joins seen as identical in IDT

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
2926967	java.io.NotSerializableException: com.sap.json.JSONObject in stderr.log after configuring Apache Tomcat clustering
3043360	List of Values for prompts in Web Intelligence Interactive Viewer loads partial results and fails with error "Rule not respected"
2871648	Refreshing a list of values based on SAP HANA input parameter is much slower in Web Intelligence 4.2 Support Package 07 than in earlier versions
3094400	Save or Save as does not work
3084756	Error occurs when creating Web Intelligence reports based on SAP HANA Online connection and using SAP HANA view with variables
3071691	Date/Timestamps objects with values "9999-12-31 23:59:59 pm" are not displayed correctly in Web Intelligence document, it becomes "1/1/10000 12:00:00am".
3062001	Measure values are double when disabling the table option "show rows with empty measure values" on a table with hierarchies
3016736	Cannot drag & drop with pressing Ctrl key to copy the dimension into a new cell in the same table in structure mode in Web Intelligence
3060928	Adaptive Job Server goes into the starting state/restarts automatically after launching scheduling program object
3050652	The liveoffice query prompts are sorted wrongly in BI 4.2
3021528	The query sort does not work when enable the "Retrieve Duplicate Rows" and "Duplicate Rows Aggregation" options at the same time in Live Office
3081320	Changing the configuration setting for MaxWindowCount make the row number of data preview restricted to the same value as well
3082479	Unable to change connection in a Free-Hand SQL based Web Intelligence Document (HTML)
3076620	First row data is missing from the 2nd page when displaying Web Intelligence document in Page mode
2977900	Internal error (WSR 00999) might be thrown by Web Intelligence RESTful Web Service when changing source of a Web Intelligence document.
3081201	Description and Keyword for Web Intelligence report based Publication not showing properly
3090306	List of Values for SAP BW and HANA mandatory prompt variables is automatically refreshed in Web Intelligence purged documents

SAP Crystal Reports 2016

SAP Note #	SAP Note Text
3074693	[CVE-2021-40500] Missing XML Validation in SAP BusinessObjects Business Intelligence Platform (Crystal Reports)
3076141	Numeric fields show up in exponential values after converting the datasource connection to Snowflake database in Crystal Reports

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3038703	Crystal Reports for Enterprise parameters containing long text are cut off in SAP UI5 viewer
2926967	java.io.NotSerializableException: com.sap.json.JSONObject in stderr.log after configuring Apache Tomcat clustering

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 09 Patch 05

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3052008	"The following database error occurred: unable to connect to sap BW server xxx" when refreshing Web Intelligence document based on BAPI universe

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
2802985	Error: A problem occurred with a file reader when promoting using LCMCLI
3089696	Error: "The parent window did not answer when requesting the origin" when clicking on Transport Requests in CMC -> Promotion Management
3108264	CMS cannot decode Database Credentials mapping

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3071505	@DerivedTable() function content doesn't get inherited in the linked universe in Information Design Tool
2114827	Parsing object with @Select and aggregate aware freezes Information Design Tool
3091722	IDT Error Connecting Linux for AWS Redshift
3098620	Information Design Tool Refresh Structure Error MSAS OLAP
3067747	In the Information Design tool, "Check Integrity" on an object within a unix universe fails with an error
3078000	A "SQL compilation error" occurs when refreshing a Web Intelligence document based on Snowflake database due to incorrect Join order in the generated SQL

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3090172	We Intelligencel publication or scheduled document failed with error: Not a valid logon token
3046990	Incorrect data renders when user is accessing multiple OpenDocument URL embedded in Lumira Dashboard
3086112	The query result did not load when switching the Web Intelligence tab report after executing the query
3096304	Data in Block (Dimension and Measures) shows #TOREFRESH when we filter a value from Input control and refresh the Document
3058516	Block/table goes missing in Quick Display mode when relative position of block is set to a hidden block
3103677	[CVE-2021-42061] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence platform (Web Intelligence)
3103940	WIReporServer crashes when opening a report and no DSLBridge server is running
3103998	[4.2 SP8 Patch 12] Cannot register Web Intelligence Custom Element
3095893	Migrating Web Intelligence reports that contain context from UNV universe to UNX universe loses context after the update
3094675	An extra "=" was added before the Date value from the second time when refreshing the report by using "Advanced" button in User Prompt Panel
3072398	Context menu is not displayed when right clicking on hierarchy cells in the column of a cross table in Web Intelligence HTML reading mode
3109964	When exporting Web Intelligence report to PDF or CSV Archive format, some special columns data will be blank
3109813	"Reset on refresh" option in Input control ignores to pick Default value assigned via Document linking
3072969	Crash when WIRepor Server recycles

SAP Crystal Reports 2016

SAP Note #	SAP Note Text
3091246	Minimum and Maximum functions does not return the correct value for array in Crystal Reports when the data contains trailing spaces
3102400	View Scrolling issue with mouse scroll wheel

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3078648	The error "Unable to reconnect to the CMS xxx:6400. The session has been logged off or has expired.(FWM 01002)" occurs when editing the query in Crystal Reports for Enterprise

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 09 Patch 06

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3066070	Edit option is missing for OLAP connections in Central Management Console

SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
3108397	Cannot save new BI workspace with special characters in description

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3110297	Fiori BILaunchpad Shortcuts to Web Intelligence documents do not open latest historical instance when Smart-View is enabled
3131451	Special characters used in comments are not imported correctly via LCMBIAR
3033238	Linked translated Lumira document not displayed in the correct language in Fiori Launchpad
2979333	BI Version Management Deletes Universe Security Profile
3125452	Application icons mismatched in BILP after upgrade
3115597	The value cannot be NULL. Parameter name: cookies error occurs when logging into BI from AFO
3129752	SAC user provisioning but there's a hardcoded hostname/port in the code
3124391	SBOB_SCIM_RWS 00002 error seen when performing user provisioning from BI Platform to SAC in a distributed BI Platform environment

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3136710	DataFederator drivers fails to parse build version after January 1st, 2022
3105010	The time stamp format is reset in Web intelligence report for some specific dates at display time
3126041	"Visualize Loop" is not detecting Loop when complex join is used in Information Design Tool.

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3103424	[CVE-2022-24398] Information Disclosure vulnerability in SAP Business Objects Business Intelligence Platform
3082330	Error:"java.lang.NullPointerException" when saving specific universes

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3134089	Filter on measure is ignored in case of multiple data provider
3135958	"internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270)" when trying to modify Web Intelligence prompts values during schedule.
3089955	Web Intelligence reports and schedule that contain hierarchy prompt values after migration from UNV universes to UNX universes
3068431	"Error when trying to refresh the current report." error occurs when clicking Run Query button on Query Panel after cancel query once in Java applet mode or Rich client
3103546	Variables fails with #ERROR on refreshing Web Intelligence Document
