Notes related to security corrections will not be listed in this release note. Information on relevant security corrections can be found in the SAP Support Portal within the Security Patch Day section.

SAP BusinessObjects Analysis, edition for Microsoft Office

SAP Note #	SAP Note Text
0002790792	Opening Analysis Office Workbooks or Presentations fails with HTTP 500

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
0002215051	Analysis edition for OLAP workspace loses prompt values
0002348740	Analysis edition for OLAP displays incorrect total value when hierarchy in background has at least two members
0002403390	Exporting to Excel ignores the Display property of hierarchies when Compact Display feature is enabled
0002407940	"Unknown right" is displayed for "Analysis Office Runtime" in the Central Management Console
0002444371	Language is not correct when editing an OLAP Connection for type HANA HTTP in Central Management Console
0002447670	Exceptions at BEx level and conditional formatting created in an Analysis edition for OLAP workspace are not reflected properly in Excel after export
0002450731	Cannot open any Analysis edition for OLAP workspace from the Document link of another Analysis edition for OLAP workspace
0002460502	Analysis edition for OLAP doesn't support Single Sign On to BW with JCo library version greater than 3.0.14
0002463002	Running Drill through feature returns an error in Analysis edition for OLAP when at least two hierarchies from a same Dimension are added to the workspace
0002463198	End to end trace executed with SAP Client plugin doesn't activate logging for Drillthrough scenario in Analysis edition for OLAP
0002473504	Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Analysis Edition for OLAP
0002474294	When using the Compact Display feature with at least one hidden hierarchy (property in BEx), then the hierarchies that are inserted in the axis are hidden too or the rendered crosstab is very ugly
0002476055	Error: "An error occurred in the MDAS service while processing a request from Analysis, edition for OLAP. (AOC00041)." when changing display property for Attribute object from text to key
0002476447	Jumplink does not work properly in Analysis edition for OLAP with Internet Explorer 9 and greater

0002488662	Column header is missing when exporting workspace to CSV without rows.
0002492071	Analysis edition for OLAP fails to process HANA HTTP OLAP Connection with HTTP 403 error
0002492115	Analysis edition for OLAP does not allow to position results and parents at bottom for HANA HTTP provider
0002497072	Improve performance of accessing BW server with Single Sign On authentication
0002497141	Deleting pages twice while saving Workspace inbetween will lead to critical error when trying to save Analysis edition for OLAP Workspace once again
0002501984	Auto Update in OLAP is not working like in previous version
0002510920	Analysis edition for OLAP fails to execute Drill Through when 101 rows are fetched from database
0002513007	Analysis edition for OLAP makes many round-trips from Web Application server to MDAS service
0002520677	Analysis edition for OLAP does not display warning for a non-existing variable answer without Master data
0002523152	Overall result for a date value Measure is empty if crosstab is configured without formatted cell values
0002523290	[CVE-2018-2432] Header Manipulation vulnerability in BI LaunchPad and CMC
0002526319	End to end traces don't contain output from all BI Suite components
0002531853	When exporting an Analysis edition for OLAP workspace to CSV file format, blank column headers are missing when the a row has the property "Display as" set to "Key : Text"
0002534528	Limit number of members retrieved from database to display details of background Hierarchy filters
0002534755	Update Unified Rendering component in BI Suite to version 3.0.209
0002535444	Incorrect Tool Tip information in Hierarchy in Analysis edition for OLAP application
0002536100	Slow performance when adding background filter on specific hierarchy object in Analysis edition for OLAP report
0002540912	Low level traces from BICS component should be enabled automatically when doing end to end trace or enabling logging globally.
0002541148	Analysis edition for OLAP displays empty Data and Layout panels when opening a Workspace saved after a DrillThrough operation failed
0002543881	Error when filtering a Hierarchy with a member defined with MDX function DATAMEMBER
0002551632	List of functions is empty when creating new calculation in Analysis edition for OLAP based on a Microsoft SQL Server Analysis Services 2016 data source
0002554343	Analysis Office Variants are not visible to non Administrator users
0002555784	Analysis edition for OLAP deletes data in columns upon scrolling
0002557059	Measures with "#.#" display lose their decimals in Analysis edition for OLAP workspaces

0002571146	Analysis for OLAP displays key value for Attribute member with no text defined
0002572633	Analysis edition for OLAP does not support properly HANA HTTP with character not in ASCII character set
0002576874	Analysis edition for OLAP doesn't display complete details about errors when attempting connection to OLAP cube
0002577003	Connection to HANA with HTTP connection (Information Access) does not return errors properly
0002581063	Analysis edition for OLAP takes more time to authenticate to SAP BW and SAP HANA when using Single Sign On
0002582728	Analysis edition for OLAP fails to export in Excel when there are many columns and some attributes present in column axis
0002585324	Closing an existing workspace which was modified does not popup to warn of losing changes
0002663053	Headers are repeated when exporting an Analysis edition for OLAP workspace to CSV file format.
0002699207	In the "Measure Format" dialogue box, some UI components may overlap others components
0002700732	Memory leak and performance issue when refreshing Web Intelligence document with BW datasource after upgrading to 4.2 SP6 (UNV based on BW)
0002701477	Different corrections and improvements are brought in SAP BusinessObjects Business Intelligence Platform by updating the BICS libraries to version 2.44.
0002701979	Analysis component name under Properties is not retained after reopening the Analysis for OLAP workspace
0002705266	Viewing AO Workbook containing HANA http data-source gives 500 server error on BI Launchpad / CMC
0002713715	Analysis edition for OLAP is freezing when filtering on a hierarchy containing a slash or a backslash character in its name or in its list of values.
0002715325	Conditional Formatings are not reflected properly in Excel after export, when the workspace contains a non-displayed hierarchy.
0002726089	When using the "Copy Content" feature in AOLAP, if a hyphen is present no copy is performed before the hyphen.
0002738796	[CVE-2019-0289] Information Disclosure in SAP BusinessObjects Business Intelligence platform / Analysis for OLAP
0002745062	HANA HTTP connection to an HANA view with Text Join does not populate data corresponding to the Preferred Viewing Language
0002768433	Export Analysis for OLAP report to Excel does not export all the analysis Workspace tabs
0002853331	Paste button should be disabled after copied component is deleted
0002863436	Optimize query to load list of Analysis edition for OLAP Worspaces related to an OLAP Connection

SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
0002267249	BI4.2: the apostrophe in french is not displayed correctly in BI Launchpad
0002444969	Error: The session has expired (CI0101) when creating a text module with accented characters
0002464489	Cross-Site Scripting (XSS) vulnerability in BIWorkspace
0002483079	BI Workspace not rendering HTML
0002580086	BI Launchpad fails when accessed through EP and F5
0002701152	BI Workspaces display Flash files incorrectly in BI 4.2 SP6
0002707007	Workspace will not refresh when called from openDocument
0002731121	Trouble Embedding Webi Web Parts Into BIWorkspace Navigation List
0002752278	Pages are blank when printing BI Workspace
0002753935	HTTP 500 error when refreshing an Inbox directory list in BI Workspace
0002761597	Error "HTTP 500" appears on the content tab when editing a "Navigation List" which contains a Document with a filename in Russian on BI Workspace via the BI Launchpad
0002764733	[CVE-2019-0326] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence Platform (BI Workspace)
0002771221	[CVE-2019-0334] Cross-Site Scripting (XSS) vulnerability in SAP Business Objects Business Intelligence Platform (BI Workspace)
0002784043	Error while opening BO workspace containing Document Explorer with Open document URL
0002788710	HTTP 404 error while viewing BI workspace from Fiori Launchpad
0002790620	HTTP Status 403 ? Forbidden when running
0002816668	Latest Instance option does not work when viewing BI workspace in Fiori Launchpad
0002817164	Date format is displayed incorrectly for documents viewed within BI Workspace in Fiori BI LaunchPad
0002820389	In fiori BI Workspace, heading formats are incorrect in Text Modules.
0002820547	Blank spaces in report titles inside BI workspaces are replaced with "%20"

SAP BusinessObjects Business Intelligence mobile applications

SAP Note #	SAP Note Text
0002417467	Error when downloading webi PDF instance on iPad
0002453599	Selected color of labels for Scorecard does not change after you change label color by selecting Radio Button when the Scorecard has Alerts enabled
0002504452	Incident 175144 / 2017 / [L4]iOS10.3.1
0002514475	Directory Traversal vulnerability in SAP BI Mobile Server
0002553167	Wrong row is selected in Dashboard Designer for 'Scorecard' component when previewing it in Mobile and SAP Business Objects Mobile Application
0002564248	Error: Method "getEnterpriseSession" could not be loaded. (MOB 00930) when logging in with the SAP BI Mobile App for iOS
0002699002	BOE 4.2 SP6 No securityContext.xml in MobileBIService webapps directory
0002711789	Error after initial password of Enterprise user is changed in SAP BI Mobile
0002758946	Freezed Breaks applied in the Webi document is not respecting in SAP BI Mobile App.
0002763334	If Format Number is declare as Null for Zero values then Web Intelligence Document is not inheriting the Format Number declared for Zero value
0002790614	In Xcelsius 4.2 SP07 Mobile Preview (mobile fit to screen) and (mobile Original Size) is not working , when user preview the document it shows blank space.

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
0002021649	Not able to login to BO in sharepoint
0002033751	Platform Search does not index InfoObjects, or only indexes small amount of InfoObjects.
0002091006	System Configuration Wizard fails with error "A session with security context has to be provided in order to perform Info Store operations"
0002197023	HTTP 500 error viewing Promotion Job status
0002230050	Invalid search in Help Document when BI Platform Preferences is set to Russia language or Cyrillic language in google chrome browser
0002250300	BI42CUV_Add Principals error
0002252193	Japan_Failed to create user notification event
0002276413	Deleting license key from SAP BusinessObjects Business Intelligence Platform
0002299479	After promoting universe, priority of the user groups are changed in target

0002313755	BI 4.x: Promotion Management error: The property list(s) 'SI_ADM_ADD_SUBUSERGROUPS_TO_USERGROUP'... when promoting group hierarchy
0002328524	BI 4.2 performance degrades or CMS crashes after running a user Notification event with a large number of subscribers
0002330939	Explorer services fail to start in a distributed environment after applying SAP BusinessObjects Business Intelligence Platform 4.1 SP5 Patch 14
0002332190	On Windows, long Enterprise Node name cause server errors
0002358622	Cannot open the folder from the left navigation panel in BI launch pad after accessing a Folder link
0002365945	Destination file error when trying to schedule report to File System
0002368521	Minor change in text on the BI Launch pad screen
0002372960	On CMC or BI Launchpad login page, under username, garbage characters ‘U??0] W?T??bc’ are displayed intermittently.
0002381082	Some AdaptiveProcessingServer servers cannot be contacted. In the logs you can find the following information : APS "not found or server may be down"
0002395036	BI4.2 - Error: "The file you selected does not match the file format of the source document" when trying to replace a .xlsm file from CMC or BI Launch Pad.
0002408885	Error "Cannot rename XXX. A folder with the name you specified already exists. Specify a different folder name" endlessly pop-up in Live Office
0002411632	Tomcat does not start after upgrading to BI 4.1 SP7
0002414267	Not able to view the View latest Instance on promoted reports
0002418267	Recurring schedule fails after using Translation Management Tool to translate the Web Intelligence report
0002418540	The guide message is incorrect when new password does not meet requirements set by administrator
0002421915	"Not Available" as output file is generated when report field contains backslash(\) character
0002422574	The message "A protocol message was rejected because it was too big" appears when refreshing Web Intelligence documents
0002428898	Error message is not coming up when a user who doesn't have the related rights tried to login BI launch pad
0002430410	Silent HTTP 404 when closing the Preferences of BI Launchpad
0002430756	HTTP 404 Not Found when accessing AdminTools via WACS
0002435675	SIA process memory grows until it reaches near maxheap value, begins to run full garbage collection repeatedly until SIA crashes
0002436071	Exception thrown when trying to edit or view the properties of a User Notification Event in CMC which was created by a Non-Admin user
0002438281	The document name is garbled in the Send to BI Inbox dialog in Central Management Console
0002438951	Clicking the "Export All" button within the BI Administrator's Cockpit does not work as expected within Safari 10

0002441290	Extra users brought across with Web Intelligence report in Promotion Management
0002449887	HTTP 500 when clicking on "Exported to CTS+" after CTS user password change
0002451979	BI Commentary Application not working with Oracle RAC Service name
0002453826	"Error" is displayed instead of the list of value's name after modifying the dimension's name associated to it using Java Semantic Layer SDK
0002454067	The column width cannot be adjusted in CMC after scroll right in the content object list panel
0002455567	Unable to connect and write Monitoring data to Audit database using Oracle JDBC on BI 4.2 SP3
0002455657	Named users are incorrectly counted in the tenant concurrent users limit in a multi-tenant deployment.
0002456004	In Promotion Management, universe (UNX) description changes not getting reflected after promotion
0002456389	'Everyone' group security on root folder disappears after promotion with object security
0002458021	Information Disclosure vulnerability in LDAP Authentication for SAP BusinessObjects Enterprise
0002458169	Slow processing by Platform Search results in degraded response times of whole cluster
0002460137	CMS crashes when deleting objects with broken relationships
0002460438	Schedules not running (PENDING) after updating IntroscopeAgent.template
0002461074	???display.action.BlonBI_CMC.display.name??? displayed in WACS CMC
0002461476	Object_Folder_Path value is missing in ADS_EVENT when deleting a document if Recycle bin is enabled in SAP BI 4.2
0002462511	Error: "404 Not Found" after updating a table cell using Web Intelligence RESTful service
0002463110	MON00016 error is received when saving a watch after editing the 'Number of States' property
0002463276	CR4E doesn't pass correct parameter value to custom SQL command when scheduling
0002464275	Error message when adding multiple Exclusive servers to server group
0002464456	SSO fails for unexplained reasons, possible license errors in java logs
0002464995	BI Platform CMS System database Unx cannot pull SI_ProcessInfo information
0002465644	"Open in a new window" functionality loads a blank page for Web Intelligence report in HTML mode.
0002467784	Empty ASE database - Cannot create new SIA / copy data source
0002467947	The Japanese error message cannot display correctly in Live Office
0002468560	Destination system & Expired date are not captured when promotion job is scheduled

0002474023	CMC rights Allow access to Instance Manager, Allow access to Security Query, Allow access to Relationship Query are not working
0002477247	Audit event record field "Object Folder Path" is truncated at 255 characters even if the database column is larger
0002477596	Disable User Description retrieval in Third Party User Synchronization through registry settings
0002477834	BI Administrator's Cockpit is not exporting correct report path
0002481375	Analysis Workbook Schedule fails after promotion of OLAP connection
0002484762	Error message is truncated in BI Administrator's Cockpit for Failed Jobs
0002486853	Many failed Instances during DST switch for recurring instances that run during, or near, the DST transition time
0002488364	Platform Search - Unable to index new documents due to overflow of SI_ID value
0002489786	Incorrect behavior while closing browser and choosing "Stay on the page" option in dialog box in Webi Edit Mode
0002493727	[CVE-2018-2370] Server Side Request Forgery(SSRF) vulnerability in Central Management Console, BI Launchpad and Fiori BI Launchpad
0002499894	Usergroups do not retain folder structure when promoted
0002500438	CMS DB rapidly growing in size with Platform Search indexing objects
0002502324	Unable to retrieve data, Authentication failed here! (RWS 00030) when accessing BI Administrator's Cockpit
0002502587	CMS crashes sporadically (once every few weeks) in the deployment subsystem
0002502678	Objects missing when deleting a tenant in CMC
0002503385	HTTP 500 status in Promotion Management 'Copy Job' Functionality
0002503469	In Live office, when inserting a content from Universe Query or Web Intelligence, the folder selected is displayed as a black rectangle
0002508235	BI Widget not working in Windows 8.1 and Windows 10
0002510094	"The CMS system database is not available" (FWM 02088) during fresh install of 4.2 SP04
0002510715	High CMS memory usage when errors occur in WinAD aliases reload
0002511065	Searching for Users in Groups window in CMC doesn't work
0002514851	Unable to hide the FROM field in Email destination with Fiori BI Launch Pad.
0002515511	Lumira 2.0 document Support n Translation
0002522114	"Security editor failure: Database access error ORA-01024: Invalid Data type in OCI call" error in IDT security editor
0002522795	User created BIVariants in target are removed after promotion of the same document from Source

0002523290	[CVE-2018-2432] Header Manipulation vulnerability in BI LaunchPad and CMC
0002523295	"Error: Could not reach CMS" - DeployFiles and AddNode fail to run during repair / patch / installation
0002523913	[CVE-2017-16681] Cross-Site Scripting (XSS) vulnerability in BI Promotion Management Application
0002526486	Some users get the error "String index out of range: 0" with WebI documents
0002527130	Error occurs in changing user's password if the password string contains the same string as the user name
0002529772	Promotion Management hangs when adding documents with recurring schedules to the promotion job
0002530744	Web Intelligence document changes are not reflected or delayed in recurring schedule if the recurring schedule is migrated from XI 3.1 and hot backup is enabled
0002531656	[CVE-2017-16683] Denial of service (DOS) in SAP BusinessObjects Platform
0002532144	In Promotion Management Override settings, Cannot activate and save
0002534329	The warning status on the Promotion Job
0002535428	Description for Administrator account cannot be changed in User List
0002537152	[CVE-2017-16684] Missing Authentication check in SAP BI Promotion Management Application
0002540887	Unable to delete a user that owns documents with many dependencies
0002542423	BI4.2 Web Intelligence report on CMS DB trying to get the result for a UNX which has a space in its name returns the message "No Data to Retrieve" even though we have the UNX in the repository.
0002542482	BI Launchpad Sessions Appear as Logon Without Client ID
0002544967	'System problem encountered: Failed to remove file' error seen repeatedly in Windows Event Viewer logs
0002546173	Warning : Could not retrieve audit information for scopeBatch ID [xxxxx] unlocalized String [en] in log file of successful publication
0002547029	Sessions are not getting cleared after session timeouts
0002547966	[!]Webi Extension deployment failed
0002549544	Internet Explorer 11: Unable to close the PDF instance view window when clicking on the Close button in Instance Manager.
0002550538	[CVE-2018-2397] Cross-Site Scripting (XSS) vulnerability in SAP BI Central Management Console
0002553726	Error in Analysis edition for OLAP when consuming BIP Java SDK libraries
0002554847	Incorrect Icon is displayed in Recycle Bin.
0002555875	Cannot search with double byte (Japanese / Chinese) characters in help document when product locale is set to corresponding double byte language

0002564671	Disabled user can be still used to login and after login the user status is changed to Enabled automatically
0002565103	Servers don't search for the configuration file for extended errors at the right plate on Windows
0002567327	JDEdwards authentication doesn't work for new users
0002567699	Crystal Reports Enterprise Flex Prompting Calendar Picker spelling incorrect
0002569233	CMS crashes after starting AJS or during running of AJS
0002571258	Passport at level medium disable traces in SAP BusinessObjects servers
0002572624	CMS crashes intermittently with traces indicating a failure to commit object in System Logs (or EventViewer) and CMS logs
0002576499	Exception thrown when used ancestor objects in query filter for CMSDB Driver
0002577363	Blank page appears after a specific user log on to BI launch pad
0002580837	Problem with Fiorified BI Launchpad shortcuts
0002581049	Host Metrics visible for only one node in a cluster in CMC -> Monitoring
0002581616	CMS crashes on KERNELBASE.dll
0002584467	Unable to search for servers inside a child server group
0002590475	An error is thrown up when a user logs into Fiori BILaunchpad with password containing some special characters .
0002624447	BI launch pad group preferences do not get promoted if group already exists in destination
0002626550	Recurring instances fail with error: "Object failed to run due to insufficient security privileges." after upgrading or migrating to BI 4.2 SP05, and newer
0002637997	[CVE-2019-0303] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence Platform (Administration Console)
0002638175	[CVE-2019-0251] Cross-Site Scripting (XSS) vulnerability in SAP Business Objects Fiori Launchpad
0002645920	Cannot promote overrides using CTS+
0002646258	DFO assert failures in logs during CMS start: the payload property is owned by another file
0002650874	BIP java sdk client 42sp5 logon call with TrustedPrincipal and shared secret key error when connection to all BIP versions prior 42SP4
0002654905	[CVE-2018-2471] Information Disclosure in SAP BusinessObjects BI Suite
0002661966	Memory leak when using CORBA SSL in 4.2 SP05
0002672756	"View objects that the user owns" is not working properly when applied to Personal Folders
0002675960	Empty list and error occurs when accessing Inboxes in Central Management Console

0002678117	Application name is not displayed correctly when logging into Fioried BILaunchpad using WinAD SSO.
0002679322	Some schedule jobs which are based on Calendar are not triggered by File Based Event
0002682543	Cannot disable/enable user account by Restful API when this account contains multiple alias
0002684107	Import/ upload objects from BI Launchpad creates strtsxxx.tmp files
0002686255	Tomcat 8.5.X fails to start after implementing SAP Note 2088195
0002688205	Enabled HTTP Basic Authentication -for WACS - timezone service doesnt work
0002689156	BI 4.2 SP05 installation failed with DB2 11.1 on Linux 7.3&7.4
0002689259	[CVE-2019-0268] Missing XML Validation vulnerability in SAP BusinessObjects BI Platform CMC module
0002692521	Unable to navigate to Categories in Fiorified Launchpad
0002693423	IOMS installer use Port 80 for SSL Site confiduration and fails.
0002694137	BI4.2 SP06 upgrade failed with INS00013 if not using static IP
0002694847	WinAD and SAP users with same name are not mapped under single User account
0002696023	Prompt for Mandatory Bex Query Variables display the technical name, instead of the description for report based off SAP BW Bex Query in Crystal Reports for Enterprise, and viewed in SAP BI LaunchPad
0002696259	Version Management - "Get Version" and "Get Copy of Version" does not restore or add the version specific object into the CMS
0002697093	In 4.2 SP06, files to SFTP destination are truncated and corrupt
0002697723	Searching for content in Central Management Console is slow

0002419223	Cannot select value from list by clicking > button when using Date type object as query filter
0002420130	The option “Select only from list” is not checked by default when defining a prompt on an object with index awareness
0002420892	Incorrect Japanese menu text appears in exporting to PDF dialog box of Web Intelligence
0002421414	Web Intelligence hangs when exporting a huge document to Excel or PDF format
0002421743	Data from a BW server are not updated when refreshing an opened Web Intelligence document based on BICS connection
0002421754	The error "com.sap.sl.queriespec.impl.ConditionDataNodeImpl cannot be cast to com.sap.sl.queriespec.ConditionOperatorNode" is raised, once a filter is added to the Rank definition in Web Intelligence query panel
0002423583	From Web Intelligence, extra tables are added to the SQL when using a List Of Values with delegated search checked
0002424658	List of values for Hana input parameters is not displayed in Web Intelligence
0002425027	Some scheduled instances or refreshed Web Intelligence documents are blank or contain partial data instead of containing expected data

0002426731	When the right "Documents - Enable publish and manage content as a web service" is denied, it is still possible to use send to email function in Web Intelligence Applet mode
0002428517	Lower level hierarchy nodes are not shown when searching values from the 'List of Values' prompt window of Web Intelligence
0002428725	In a Web Intelligence report with multiple queries, if you select more than one object from a query then objects from another query are not greyed out
0002429691	Default image format returned by Web Intelligence RESTful Web Service switches to PNG
0002430052	The "Web Intelligence Customization" feature from the Central Management Console may not filter User Interface Elements from Web Intelligence report panel
0002430076	#ERROR is displayed when using a reference object in a formula of a Web Intelligence report
0002431573	Web Intelligence RESTful Web Service returns an empty data set for cross-tables with all expressions on one axis.
0002431927	Error 'Substitution failed: No value supplied for parameter ...' occurs when refreshing a Web Intelligence document in the HTML Interface
0002431964	Query structure view is incorrect in the HTML mode after migrating Web Intelligence reports from 3.1 to 4.2
0002431970	After change source Error: An internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270) happens when refreshing a Web Intelligence document with Query Stripping enabled
0002432473	Incorrect SQL generated with context and Shortcut Join in Information Design Tool
0002432510	The Web Intelligence HTML Interface does not correctly use the saved preference "Prioritize the formatting of the documents" when exporting to Excel
0002432513	Observed incorrect version for the 'Query as a Web Service Designer' application
0002433005	Query as a Web Service client name is not listed in the session name when we check the session in Central Management Console
0002434088	Document file size is not displayed when exporting a Web Intelligence report to Excel or PDF using Internet Explorer and HTML mode
0002434239	Error when going to the prompts tab while publishing a Web Intelligence report based on a HANA universe.
0002434291	Web Intelligence report based on a BEx query does not show correct value for a formula with a defined "exception aggregation"
0002434393	The cascading prompts that appear when refreshing a Web Intelligence document do not all appear in the Prompts screen when scheduling it
0002434501	The queries' name is not changed as expected in Web intelligence Applet Interface or Web Intelligence Rich client
0002435576	A Warning message is displayed when trying to insert an image in a Web Intelligence report
0002435669	The length of the text box or list box is strange in the prompt dialog of Web Intelligence HTML interface when it is opened in Internet Explorer
0002436305	Web Intelligence RESTful Web Service calls end with an error RWS 00070 when exporting a large Web Intelligence report to CSV

0002437334	Error message appears when creating or refreshing a Web Intelligence report based on EPM BPC MS OLAP .unx universe
0002437900	Can't pop up the prompt dialog when the WebI or QP contains an optional prompt.
0002438889	Tables in a Web Intelligence document disappear after the report is refreshed
0002438942	Web Intelligence reports will not show fields in the Available Objects panel when they have context and are added without refreshing the report
0002439021	Opendocument for Web Intelligence links show incorrect data when using PDF format
0002439026	When opening a Web Intelligence report in Applet mode, the first merged dimension is always expanded
0002439298	In 'Document Structure and Filters', the query name is not displayed when an object name is ambiguous in Web Intelligence
0002439736	Query stripping option gets disabled after modifying a Webi report
0002440049	Unable to select some Web Intelligence menu items in Applet mode when the browser window is reduced
0002440155	Web Intelligence icon appears when browsing an excel file
0002440535	Wrong result when using the OR clause in a Web Intelligence report filter
0002440858	Web Intelligence report variable shows incorrect data intermittently when refreshed or scheduled
0002440865	Preferred viewing locale is not affecting the currency format as it should in Web Intelligence
0002441292	Order of Input Controls changes in Web Intelligence after creating a group using Google Chrome
0002441491	Wrong BICS_DA_RESULT_SET_LIMIT_MAX parameter (aka "Safety Belt") is applied when working with concurrent Web Intelligence sessions on different BW systems
0002441523	Incorrect results are seen when using a SUM formula combined with the PREVIOUS function in a cross tab table on a Web Intelligence document
0002441759	The SAP Variables dialog is prompted indefinitely when editing the query of a migrated Web Intelligence report
0002442876	Aggregation function is not displayed when moving the mouse over a measure object in HTML query panel compared to Applet mode for Web Intelligence report
0002443101	When opening a Web Intelligence document in a new browser tab from another document using OpenDocument, the report in the new tab hangs
0002443691	When validating a Free Hand SQL with @prompt on date, Web Intelligence substitutes the @Prompt syntax with date "01-01-1970" but not with the current date
0002443786	Editing a Web Intelligence document which has a hierarchy and is purged results in an error
0002443964	Data security profile with row restriction is not enabled in Web Intelligence Rich Client when assigned to a non-Administrator user group
0002443966	WebIntelligenceProcessingServer crashed when viewing or exporting a Web Intelligence document using where() in a cross table
0002444244	In Web Intelligence Applet interface and Web Intelligence Rich Client, same values with different keys (BW) cannot be selected at the same time for prompt answers

0002444354	An error is thrown when trying to view a Web Intelligence report against multiple BICS connections
0002444597	Web Intelligence prompt order in User Prompt Input panel got changed after changing query's order with subquery filter
0002444719	A publication based on a Web Intelligence document that contains an image fails when scheduled to mHTML format
0002445182	Refreshing a Web Intelligence document that contains multiple queries including an Excel data source may hang
0002445880	Control Code 0x00 (NUL) is exported to csv file when exporting a Web Intelligence report with Windows-932 charset
0002446547	Element linking between tables is lost in Web Intelligence when using the HTML viewer and group of Input controls
0002446965	Calendar picker starts with Sunday instead of Monday while Product Locale and Preferred Viewing Locale are set to Norwegian
0002447497	In Web Intelligence, values are duplicated in List Of Values for some data sources
0002447850	Second datetime user prompt input field is always empty in HTML mode if the first one is not filled
0002447992	In the Query Filter, Result set from option another query(ALL) is taking MIN value instead of MAX value. (UNIX only)
0002448183	SYSTEM ACCOUNT is recorded in ADS_EVENT after inserting and refreshing a universe query in Live Office
0002448362	Scheduling issue with publication containing many Web intelligence documents
0002448717	Attempting to use a shared element with merge dimension in a Web Intelligence report fails
0002448786	Intermittent Web Intelligence Scheduling and Viewing failures
0002448791	Scheduled Web Intelligence report containing prompts causes auditing logs to collect and the WebIntelligenceProcessingServer server to stop
0002448837	Default value for HANA variable is not shown and error occurs when refreshing list of values in Web Intelligence document
0002449234	"Some values could not be displayed because they have not been geolocated." warning appears when inserting a Geo Chart in a Web Intelligence report
0002450076	The schedule instance column is empty on a Web Intelligence report in Web Intelligence Rich Client and Web Intelligence Applet mode
0002450721	Filter operators dropdownlist is not correct compared to the data type of the filter in a Web Intelligence report
0002450792	In Web Intelligence, the default value of a 'Universe Parameter' is kept for prompt even if the 'Keep last values selected' option is unchecked after changing prompt from 'Use Universe Parameters' to 'New Prompt' with same prompt text
0002450884	PNG image stretched may appear larger than expected when used in a background cell of a Web Intelligence document
0002451270	Print an xlsx file created when exporting a Web Intelligence report in Excel will cause Excel application to stop working

0002451867	Decimal numbers are not correctly rounded using the Big Numbers functionality in Web Intelligence
0002451883	When closing an opendocument link to a Web Intelligence report, the browser will throw a pop up dialog warning
0002451951	An error "The action cannot be performed. (Error: INF)" occurs when opening a Web Intelligence document which holds a formula with hide when formula is true property
0002452069	Scheduled publication with Web Intelligence document using Track Data Changes fails when choosing mHTML format
0002453149	A 400 or 404 error page is displayed after running duplicated query in IE11 and Tomcat 8
0002453155	Web Intelligence report instances are displayed with a wrong instance time when opening a scheduled report instance in Web Intelligence Rich Client
0002453720	Input controls are lost when opening a migrated Web Intelligence report when the input control name holds < or > in its name
0002453869	Web Intelligence report redirects to an incorrect page when drilling on a table within a section using Internet Explorer
0002455165	Cannot remove selected values when prompt has more than two values in Web Intelligence HTML interface
0002455406	Web Intelligence HTML interface : Key symbol is displayed next to prompt answers selected from the list of values
0002456520	The measure format defined in the universe will be lost when changing the measure type in Web Intelligence
0002457814	An internal error is displayed when trying to duplicate query for migrated BICS based Web Intelligence report
0002458244	Report filter does not work after change source action in a Web Intelligence document from Bex Query to a unix universe
0002458798	A performance issue may occur using Web Intelligence report based on a BEx query and a SSO connection.
0002459363	'Refreshing data' window is not displayed when opening linked Web Intelligence document with prompt
0002459398	#MERGED_VAR_ERROR occurs when Web Intelligence only contains merged variable in report with Allow query stripping option enabled
0002459884	Exported reports from Web Intelligence appear in various zoom levels
0002460470	The Document Summary panels shows query stripping is enabled on one and disabled on another in Web Intelligence reports based on UNV universe
0002460945	In Page mode, Wrap Text will be ignored after navigating to the last page in large Web Intelligence reports
0002460960	Date time object is incorrectly displaying 8 when using Free Hand SQL on top of DB2 datasource in Web Intelligence
0002461477	Unable to select manually entered value from Calendar Picker in List of Values dialog when creating document using Web Intelligence HTML mode
0002461939	Web Intelligence RESTful Web Service does not return scheduled instance format type.

0002462187	Unsuitable error message is displayed instead of "The maximum connection limit has been reached" when the maximum connections limit for a WebIntelligenceProcessingServer server has been reached
0002462243	Opening a corrupted Web Intelligence document may generate an error message
0002463008	Web Intelligence Fiori Interface Floating Toolbar is not responsive in Microsoft Internet Explorer 11
0002464000	Maximum binary output size limit reached. Contact your BusinessObjects administrator. (Error: ERR_WIS_30271) when viewing Web Intelligence report
0002464780	An error occurs when changing a Vertical table to a Cross table and turning it back again to a Vertical table in Web Intelligence
0002464816	No Information in logs when WebIntelligenceProcessingServer server crashes/terminates or when an Exception Access Violation appears on UNIX/Linux
0002464819	The calendar picker field is visible in the Web Intelligence Prompts window when "Select only from list" is checked
0002464978	WebApplicationContainerServer server is taking 100% CPU usage
0002465423	Errors are observed when using a filter based on a measure object in Live Office
0002465449	Columns in a Web Intelligence reports with Freeze headers enabled will become misaligned
0002465461	BI Launchpad window is still loading when opening a Web Intelligence document
0002466231	When a Web Intelligence instance is rescheduled to Plain Text format, after being scheduled to Microsoft Excel format, It is still being rendered in its original Microsoft Excel format
0002467140	Incorrect value is displayed after setting a value in a Web Intelligence input control based on a measure variable using the HTML interface
0002467220	Prompt values cannot be saved when there are two source documents in a Web Intelligence Publication
0002469355	When exporting Web Intelligence query to csv, using iso charset, the resulting decimal separator does not match the preferred viewing locale preference
0002469451	Adding large number of objects to a Web Intelligence report in HTML viewer will hang the viewer
0002469472	Data values alignment may not be correct on 2 Y-Axes charts in Web Intelligence when Value Axis 2 is hidden
0002470993	Instance history shows parameter value instead of '#Dynamic value' when scheduling Web intelligence report and using dynamic prompt value
0002471133	Drill-down functionality doesn't work when the object has special characters in Web Intelligence
0002471135	Selected values in prompt are not shown in SQL in Query script viewer when optional prompt is left empty in Web Intelligence HTML mode
0002472146	In Web Intelligence, data labels in charts disappear when the assigned data is modified
0002472198	Error in Web Intelligence : Unable to get the first page of the current report. Check the validity of your report. (ERR WIJ 20003)
0002472962	When folding a table (or a break) with no header and footer, the table (or the values) disappears from the Web Intelligence report

0002474094	Web Intelligence RESTful Web Service does not update document state on input control selection deletion.
0002474462	Error message when trying to open a Web Intelligence document witch contains a lot of variables
0002474627	Web Intelligence User Prompt panel loses values after refresh
0002474959	When saving a Web Intelligence report containing a huge number of charts to xls format, many charts are not exported
0002474971	Cannot build the query or generate the report (WIS 30351) when using drill in Web Intelligence
0002475677	Slow opening Web Intelligence reports in SAP BusinessObjects Business Intelligence Platform 4.2 compared to earlier versions
0002475818	Cannot load the custom sort dialog box when having special characters in the object name
0002475848	In BI Launchpad, the context of List of Values is not displayed in the Query Panel of the Web Intelligence HTML editor
0002475919	Cannot load Formatting Rule Editor dialog box if rule's name contains special characters
0002476378	Prompt filter does not work or can generate an error in Web Intelligence HTML interface
0002476674	Element linking does not work properly in Web Intelligence HTML mode
0002476743	Report with Smart Measure have object displayed incorrectly in Web Intelligence
0002476747	No object displayed in query panel after duplicating a query with filter at least twice in Web Intelligence HTML interface
0002476986	The Web Intelligence object's name in the crosstab header is not updated when doing a drag & drop on an object to switch it between columns and rows
0002477647	Not able to change range definition when creating a Web Intelligence document based on Excel
0002478058	Unable to edit settings in the Query Panel based on Custom Data Provider Excel datasource
0002478798	In BI Workspace "UnSelect this report part" option is not available on a WebIntelligence document.
0002479067	Live office hangs on second refresh.
0002480034	Expanding a section using element linking in the Web Intelligence HTML viewer does not work
0002480035	Last used color is displaying a wrong RGB color value in the Custom Color Picker using Web Intelligence HTML mode
0002480929	Error occurs when opening specific Web Intelligence documents with Track Data Changes enabled
0002481170	Error occurs while opening specific Web Intelligence documents using TimeDim() formula
0002481226	WebIntelligenceProcessingServer server cannot be properly started due to a boconfig.cfg file corruption on a Unix node
0002481252	“Upload Image” dialog box isn’t displayed

0002481564	ProcessDPCommandEx error after modifying and executing a query based on OLAP UNV with Query Stripping enabled in Web Intelligence
0002481909	Web Intelligence RESTful Web Service is unable to export a report page range from report element references with a colon ':' or a hyphen '-'
0002482275	No data is returned in Live Office under some scenarios when inserting a universe query and using a "Between" query filter based on Date object
0002482627	The "Set Variable" dialogbox is sized incorrectly in Web Intelligence in HTML mode on lower resolution screen display settings
0002483361	Web Intelligence RESTful Web Service should allow : and - as parts of a report map node reference.
0002483379	Web Intelligence Publication with Delivery Rule sending blank PDF reports to the dynamic recipients if the source document contains a cell with "=" value
0002483499	Duplicated rows/columns are created in crosstab when hierarchy objects are part of the row and column headers of a Web Intelligence report
0002483591	Error "Object reference not set to an instance of an object" occurs when inserting a universe query into Live Office with multi constant date filter or numeric filter
0002483903	In Web Intelligence document, "set alignment" raises error : Cannot set property; definition not found: text-v-align (Error:INF)
0002483917	Inconsistent data type conversion in Web Intelligence when using RunningMin() and RunningMax() functions in a variable
0002483952	'Palette Style' option is not available when modifying a Web Intelligence report in Applet mode
0002484068	Clicking Cancel on the report Prompt box in Web Intelligence HTML mode will cause the report to not prompt when refreshed
0002484308	Incorrect sql script is generated in query panel when using prompt filter based on hidden object in a Web Intelligence report
0002484743	Error occurs when clicking the prompt one by one after selecting value for all prompts in Live Office
0002484971	Timebetween throws #ERROR when using CurrentTime or reference object as an argument in a Web Intelligence report
0002485222	DateBetween or TimeBetween used with empty date returns wrong values in a Web Intelligence report
0002485974	Input controls based on a variable are not working in the Web Intelligence HTML interface
0002486299	Error occurs when refreshing a Web Intelligence document based on Excel spreadsheet which begins and ends with empty cells
0002486984	Prompt variant operators used in Web Intelligence report based on a SAP HANA view are not correctly stored
0002487325	Interpolation function returns inconsistent results in some cases in Web Intelligence reports
0002487522	"expected element name 'SubQuery' and not 'DP'" error appears when changing source in a Web Intelligence document containing a nested subquery
0002487614	Cannot merge detail objects in Web Intelligence document

0002487708	"A filter contains a wrong value. You cannot run this query" message is displayed when using measure as query filter with results from another query operand in Java applet or Web Intelligence Rich Client
0002488125	Removed object is replaced by #SYNTAX after a 'change source' operation on a Web Intelligence document using Web Intelligence RESTful API
0002488438	Cannot create New Rule in Web Intelligence when using Web Intelligence HTML Interface when the Product Locale does not use latin alphabet
0002488979	Error "[Data Federator Driver][Server] Index '2' in GROUP BY list is greater than the number of projections" appears when drilling in Web Intelligence document on multisource universe
0002490247	Hidden classfolder in UNV/UNIX universe still appears in Query Panel of Web Intelligence document
0002490267	Break properties set for some object gets switched with other objects or Web Intelligence hangs after quickly move some objects up when there are more than 3 objects set as break in Web Intelligence HTML interface mode
0002490407	Web Intelligence reports lose the saved context if you make any change in an unrelated join in the universe
0002490472	Query name of a Merged Dimension is not displayed through the Assign Data sorting option on a chart in Web Intelligence Java mode
0002490655	Query Panel is not shown when creating a Web Intelligence report based on a BEx query with "Preferred Viewing Locale" set to "Greek"
0002490715	The browser hangs after saving a Web Intelligence document when working in the HTML Interface
0002490746	Data are not displayed properly in Web Intelligence Geomaps when latitude and longitude values corresponds to 8 decimal places
0002490898	"Your security profile does not include permission to edit the document (Error: ERR_WIS_30252)" error displays when refreshing some Web Intelligence documents
0002490923	Tutorials icon in Web Intelligence help directs to an incorrect URL
0002490934	Incorrect date values may be displayed for a date field in Web Intelligence document based on an HANA view when refreshing the report
0002491104	Could not open some documents with visualization having a custom palette
0002491261	Element linking does not work with the "Geo Choropleth Map" in Web Intelligence documents
0002491506	When a shared element used in a Web Intelligence report is unlinked, the "manage dependencies" dialog box in promotion management still shows the shared element as dependent
0002492056	The Web Intelligence Applet hangs when creating a Group with at least one Input Control of type Check Boxes with a large amount of values
0002492220	Column 0 objects displays as selected prompt value for Multi-columns List of values although other column was set as mapping values when running a query based on UNIX universe in Live Office
0002493153	Searching in SAP Variables list of values through Web Intelligence RESTful Web Service leads to an error.
0002493467	Adding Prompt in BEx query causes "Universe generation failed" error message in Web Intelligence

0002494896	'An internal error occurred while calling 'answerPromptsEx' API. (Error: ERR_WIS_30270) (Error: INF)' error message appears when changing the prompt values in Web Intelligence
0002495963	Creation or refresh time is very long in Web Intelligence with BICS connectivity if BW characteristics have high number of attributes
0002496033	Date values in the universe query filter getting reset to the current date in Live Office when modifying the existing query
0002496144	"Query exceeded fixed time limit: . (IES 10902)" error when running a Web intelligence query based on a Teradata datasource
0002496786	Opening a Web Intelligence document in the HTML interface takes much longer than when opening the same document in Java mode or with Web Intelligence Rich Client
0002497656	Images in Web Intelligence reports are repeated on the last page of Excel exports
0002497841	Unable to enter more than 50 characters in prompt window search text box in Web Intelligence HTML mode
0002497884	"An error occurred from specify query panel. (LO 02032)" error when creating Live Office report with a universe and set an object which has "Associate a List of Values" property unchecked as prompt
0002497941	Unable to add object as filter in Live Office query panel
0002498337	Date values entered into a prompt are incorrect in resulting scheduled Web Intelligence documents
0002498406	Subquery / Database Ranking filters created in Web Intelligence Applet interface are not correctly displayed in Web Intelligence HTML interface
0002498667	Web Intelligence complex document with cross tables and multiple breaks generates lot of false errors in logs when exporting document in Excel format
0002498989	Wrong prompt is displayed when selecting a value from 'Values from List' option in a query filter
0002499474	Data in web intelligence report is changed after refreshing, saving and reopening the saved report
0002499855	Table in a Web Intelligence document may be cut off when using Double style cell border in HTML mode
0002502033	Cannot delete report level filters using the Web Intelligence HTML Interface if there is more than one filter
0002503353	The order of prompts changes when refreshing several times a Web Intelligence document with HANA views
0002503676	Hyperlink Issue with special character "<" in Web Intelligence
0002504110	Filter for measure objects stops working when the type of the object is changed in Web Intelligence
0002504301	Some objects are no longer available in the universe errors occurs when changing data source from UNV to UNX universe if the query contains a subquery filter with more than two objects
0002504540	Applying a report filter on a merged dimension returns incorrect values for BICS-based web intelligence report
0002504636	After a refresh, incorrect number of rows is shown in the Export window of Web Intelligence report

0002505488	Web Intelligence document hangs when changing number format for one column and then performing Format Cell action on multiple columns in Web HTML interface
0002505531	In Web Intelligence, Free Hand SQL as data source is not removed even after denying the option for the user group
0002506008	The "Save As" window in Web Intelligence Rich Client is larger than the screen resolution
0002506157	WebIntelligenceProcessingServer server restarts itself when running a complex Web Intelligence report based on MSAS
0002506345	Cannot refresh a Web Intelligence report that owns a prompt when trying to use a "Prompt Variant" to answer it.
0002507551	HTTP 500 error when using Opendocument link to an Excel scheduled instance from Web Intelligence
0002508734	The first letter of a hyperlink, which uses a HTML tag in its text, is excluded from the link when saving the Web Intelligence report to PDF
0002509189	'A problem is encountered. The requested action cannot be completed' error message appears when refreshing a Free-hand SQL statement in a Web Intelligence report
0002509653	Error message in Web Intelligence is not localized into product locale language
0002510862	Web Intelligence Document created programmatically under My Favorites\~Web Intelligence folder should not be used, so we renamed them and add [dont_use_] in the name of these documents.
0002510906	Web Intelligence documents schedules fail with Error: exception raised: com.businessobjects.sdk.core.CoreException
0002512341	BI 4.2 Export panel while exporting Web Intelligence document is not correctly sized on HTML mode
0002513179	A wrong safety belt error message may be displayed in Web Intelligence
0002513244	The "set as prompt" option of HANA variables is ignored by Web Intelligence RESTful Web Service.
0002513564	The error "cannot open report, error --> Index: 6, Size: 6 (Error: INF)" appears when opening a Web Intelligence document in the HTML Interface
0002514468	Cannot create a Web Intelligence document based on an excel datasource when the excel sheet name is in hebrew language
0002514965	Web Intelligence Fiori Interface Floating Toolbar buttons are not responding in Internet Explorer 11
0002515936	Whole text column is replaced by a wrong column header text when renaming and changing order of column headers in a Web Intelligence vertical table
0002516427	"An internal error occurred while calling 'processDPCommands' API. (Error:ERR_WIS_30270)" when clicking Track->Show Change in Web Intelligence
0002516860	If you use the prefix IsR in open Document Link with complex bex prompts, the child document does not open correctly when clicking on the hyperlink in Web Intelligence with HTML mode
0002516878	Web Intelligence report on Excel sheet does not display correct sheet name in Web Intelligence HTML interface
0002517242	Some columns of a Cross table headers might be duplicated when exporting the Web Intelligence report to PDF

0002517401	Incorrect @Prompt function type behavior with Web Intelligence Free-Hand SQL reports in HTML mode
0002517716	#SYNTAX error appears in a Web Intelligence report when using a Shared Element which contains a formula with a carriage return in a variable
0002517896	List of Values for optional prompt is always needed to be refreshed
0002518336	Charts are showing a broken link when using the new Web Intelligence Fiori viewer
0002518578	Error: "500 Internal error" when trying to get the structure of a Web Intelligence report containing a Gauge or tile chart using RESTful SDK
0002519435	Taking a long time to display the prompt window in migrated Web Intelligence documents
0002519721	WebIntelligenceProcessingServer server will crash when refreshing the specific Document using Query On Query
0002520037	Applying a filter on a merged dimension in a Web Intelligence document gives empty results
0002520095	Web Intelligence Input controls which holds < > & characters in their names are lost when migrated through Upgrade Management tool
0002520108	Search is mandatory to get List of value of Universe prompt with default list of values used in Web Intelligence document within Fiori BILaunchpad
0002520333	WebIntelligenceProcessingServer may close and restart when viewing a Web Intelligence report which holds a variable set as details and associated to another variable
0002520693	The Calendar Picker in a Query Filter defaults to UTC rather than the Locale Time Zone in the Web Intelligence Java interface
0002520863	The import of the modified WebIDefaultStyleSheet.css is reverted if the Format Report box is opened
0002521391	Cannot modify freeze header properties after migrating a Web Intelligence report
0002523290	[CVE-2018-2432] Header Manipulation vulnerability in BI LaunchPad and CMC
0002525326	Cannot change the Format Pattern of a Pie chart when editing a Web Intelligence document in HTML mode
0002525775	Merged dimension name does not appear as expected in the Filter bar within the Web Intelligence HTML Interface
0002526146	Issue with refresh of List Of Values and with hierarchical List Of Values in Live Office using WebI Documents
0002526213	A schedule command may take some time to start when user has modified a set of prompts on a Web Intelligence document
0002526217	Unable to create a Query As A Web Service document by clicking the "New" icon
0002526622	A Hidden Sub-class folder in UNV/UNX universe still appears in the Query Panel of a Web Intelligence document
0002526759	An extra line appears when spline line parameter is enabled in Web Intelligence Line chart
0002527124	Merged dimensions are displayed as expanded in Web Intelligence

0002527169	In the prompt dialog box, the column header of the list of values widget is not available through keyboard navigation and is not readable by a screen reader in the Web Intelligence HTML mode
0002527403	When a calendar object is set in a query filter, upon refresh if the calendar value is entered as a constant an error message "No data to retrieve" is displayed in Web Intelligence HTML mode
0002527541	SAP BW variables are shown duplicated with Web Intelligence RESTful Web Service or Web Intelligence Interactive Viewer.
0002528013	When a HTML tag is used in a universe object description, the tag is visible in available object tooltip
0002528067	The error "incorrect value for data source variable" may be displayed when refreshing a Web Intelligence report that contains an interval variable
0002529629	Query as a Web Service Designer is stopping unexpectedly
0002529717	When dragging a Detail object into the Result Objects window of the Web Intelligence Query Panel, the associated Dimension is not added automatically
0002529820	BI Launchpad freezes when choosing the option "Stay on this page" while navigating between tabs.
0002530073	Error "The page range you have selected does not exist" may occur when scheduling a complex Web Intelligence document as PDF
0002530707	WebIntelligenceProcessingServer server is stopping unexpectedly when refreshing a Web Intelligence document that has a lot of variables
0002530732	Layout becomes strange when viewing a Web Intelligence report in page / PDF mode after migrating from SAP BusinessObjects Business Intelligence platform 4.0 SP09 path 8 to 4.2 SP03
0002531012	When creating a connection in 'Query as a Web Service Designer' application, the validation of the URL does not work from time to time
0002531105	Web Intelligence report keeps loading in Web Intelligence HTML Mode when using non-english Product Locale setting
0002531586	Part of border line of a table header or row cell may not be displayed correctly when adjacent to merged cells in Web Intelligence Java mode
0002531991	If prompt text includes special characters as "ó", OpenDocument hyperlinks in Web Intelligence documents do not work in Internet Explorer
0002532031	8-bit jpg images are missing in exported PDF from a Web Intelligence document
0002532213	Refreshing a Web intelligence document with hierarchy having default level expansion throws an error
0002532603	The interface is blocked and an error is shown when opening a Web Intelligence document which is based on an unavailable BICS connection
0002532716	Table border might not get exported to PDF when a custom format style including a padding has been applied to the document table
0002532945	In BI Launch Pad, when scheduling a Web Intelligence document, the prompt panel may take some time to be displayed
0002533025	WebIntelligenceProcessingServer server crashes when document has a merged variable

0002533324	Empty values are ignored by Web Intelligence RESTful Web Service when refreshing a document.
0002533399	Default level expansion doesn't work as expected in SAP BusinessObjects Business Intelligence Platform 4.2
0002533563	Highlighting a chart area appears in a wrong spot when scaling a Web Intelligence document to one page through page mode using the Applet mode
0002534793	Web Intelligence HTML query panel does not allow to change the location of Result Objects
0002534819	Parts of error message are displayed in English in Web Intelligence Rich Client although Product locale and Preferred viewing locale are set to a different language.
0002534880	Columns of multicolumn prompts might be scrambled by Web Intelligence RESTful Web Service
0002534885	Customer Exit variable is not picked up correctly from BW system when refreshing Web Intelligence report based on BICS authored universe
0002534902	java.lang.NullPointerException error may appear intermittently when editing a Web Intelligence document with Web Intelligence Rich Client
0002535273	Incorrect data is returned when refreshing a Web Intelligence report based on a universe containing HANA input parameters using current date function
0002535760	RESTful service performance slower than expected for certain calls
0002535876	Missing prompts in Translation Management Tool when translating a Web Intelligence report
0002536613	Using Internet Explorer, an error, "The webpage cannot be found", is displayed when trying to insert UserResponse predefined cell in Web Intelligence HTML editor for a prompt with Russian prompt text
0002536855	Web Intelligence UI Extension Points are no longer visible when using HTTPS to view Web Intelligence reports
0002536883	After migrating a Web Intelligence document, table header cells in report might have extra blank space
0002537405	After connecting to BW using BICS from Web Intelligence, some RFC / SM04 / AL08 sessions are not released
0002537833	"Run Queries" button may not be displayed after modifying and deleting a query in Web Intelligence Java Applet mode query panel
0002538287	When using the prompt entry calculator in Web Intelligence Applet mode for a number prompt, a semicolon delimiter is added after every number
0002538552	"Publish Shared Elements" security right is missing after upgrading SAP BusinessObjects Business Intelligence Platform from 4.1 SPxx to 4.2 SPxx
0002538852	WebIntelligenceProcessingServer server fails when opening a Web Intelligence document containing variables having a manual entry previous value
0002538976	Images displayed using URLs in Web Intelligence with either no file extension or a JPEG extension are not getting exported to PDF or Excel
0002540057	Options might be duplicated in the Format Chart dialog box when enabling or disabling Data Label Displaying Mode option in Web Intelligence html mode
0002541329	Selection of a grouped input control is reset by Web Intelligence RESTful Web Service on selection update of other input controls ahead in the filter path.

0002541577	Scroll buttons are missing from the group selector list in Web Intelligence
0002541710	The calendar picker has a different behavior within the Query Panel of the Web Intelligence HTML Interface and Applet
0002541857	Values from list option are grayed out when refreshing a Web Intelligence report with query filter through Web Intelligence Rich Client in Standalone connection mode
0002542164	Recurring scheduled Web Intelligence reports are getting failed intermittently with an error: "member can not be null" after upgrade
0002542453	Web Intelligence report on UNX retains the custom query script even though it gives error on validating
0002542640	JSON image map JavaScript is not inserted into HTML report exported by Web Intelligence RESTful Web Service.
0002543937	An error "Flat mode is not supported (WIS 0000)" may occur when refreshing Web Intelligence document based on a BICS connection
0002543995	In Web Intelligence, the fold unfold option is greyed out for all pages except last page
0002544969	Through Web Intelligence RESTful Web Service, changing with a number the selection of an input control based on a text constant variable, will transform this variable to numeric
0002545382	Migrated Web Intelligence reports with Formatting rules might have incorrectly formatted cells in HTML mode
0002545792	Disconnecting from HANA Online does not clear the objects catalog in Web Intelligence HTML mode and #SYNTAX error will be shown in the report
0002545959	Prompt names in the PromptSummary() function are not translated according to the locale settings in Web Intelligence
0002546784	When using Opendocument, Web Intelligence reports with optional prompt will prompt twice
0002547013	Replacing an EXCEL file hangs when the Web Intelligence document based on this EXCEL file is opened
0002547193	Incorrect value is returned from RefValueDate function when there is no data tracking in the Web Intelligence document
0002547374	Filter on detail variable returns no value for measure in Web Intelligence report with merged objects
0002547669	In Web Intelligence RESTFUL Web Service, @primary attribute returns incorrect value when used with a cascading prompt in a Web Intelligence report
0002547712	Error : 'member cannot be null' when scheduling a Web Intelligence document with viewing locale set to English (United States)
0002547837	Hana variables should be tagged as 'sapVariable' instead of 'prompt' by Web Intelligence RESTful Web Service.
0002548061	Internal error is shown when refreshing Web Intelligence documents based on multiple data providers when parallel query functionality is enabled
0002548930	When the query script contains a line break in @Prompt, the List of Values after the break will be excluded in Web Intelligence based on FH-SQL source
0002548945	Web Intelligence CSS may not be migrated properly from Business Intelligence 4.1 to Business Intelligence 4.2

0002549098	Error occurs when refreshing a Web Intelligence report using Query Filters with 'Result from another query' on queries based on universes
0002549706	In Web Intelligence HTML interface, error occurs when viewing list of values for Query Filters after clicking once on the Cancel button in the Prompts box
0002550054	Conditional formatting applied to multiple columns Web Intelligence table is lost when the table is used as a shared element
0002550314	Empty instance is generated when scheduling a Web Intelligence report that contains prompts with a list of values based on custom hierarchy
0002550505	Scheduled Web Intelligence reports stay in running state and never get completed until WebIntelligenceProcessingServer server is restarted
0002550864	An error is displayed when launching multiple threads to change data providers for Web Intelligence reports using RESTful Web Services
0002551100	The ReportFilterSummary() formula does not work in Web Intelligence Rich Client
0002551458	Decimal measure object may disappear from a chart when included in a formula of a Web Intelligence report
0002552240	WebIntelligenceProcessingServer server restarts or hangs several times per day
0002555352	Round function on divided result from two measures gives a wrong value when changing the type of one of the measures to Decimal in a Web Intelligence document
0002555642	Web Intelligence HTML viewer hangs after sorting a column containing hyperlink and using 'Advanced Sort' option
0002555831	When scheduling a Web Intelligence document based on a HANA data source that contains prompts with dynamic values, the schedule fails with an error
0002555894	When you export a Web Intelligence report to CSV Archive, the merged cells of the table contained in the csv file don't have a good format
0002556611	Custom Element Icon not displayed in the Turn Into dialog box of Web Intelligence
0002556641	Formatting Rule Editor works inconsistently in Web Intelligence Rich Client and Java Applet
0002557145	The browser freezes when trying to validate large Free Hand SQL in Web Intelligence reports
0002558433	WebIntelligenceProcessingServer server crashes when a document have a formula with RelativeValue and a section
0002558484	When exporting a Web Intelligence document to CSV format, Empty String option is not displayed
0002559057	URL of Hyperlink is not displayed when using 'Advanced Sort' option with Java mode
0002559202	Formatting a cell in a Web Intelligence Report in HTML viewer hangs and causes the Report Filter bar to disappear
0002559291	If you add a block filter and set the operand as "Equal To" in a Web Intelligence document, then you cannot manually provide a value as it goes undetected
0002560952	#ERROR or #COMPUTATION is displayed for formulas with RelativeValue while changing filter values in a Web Intelligence report
0002562011	Child report retrieves all the data when clicking on the hyperlink in Web Intelligence with HTML mode

0002562058	Cannot perform a Change Source on document migrated from SAP BusinessObjects Business Intelligence XI 3.1
0002562288	Web Intelligence report containing delegated measure shows #TOREFRESH or blank when using along with a detail variable
0002562372	The type of measure which is not used in the report is reverted back to Number when changing data source in the Web Intelligence Document with Query Stripping enabled
0002562932	When closing an opendocument link of a Web Intelligence report in BI Launch pad Java Applet, the browser throws a pop up dialog warning
0002563221	In the Web Intelligence HTML interface, in the BEX query case, sorting the list of values generates an exception java.lang.IllegalArgumentException: unexpected state: DISPOSED
0002563539	WebIntelligenceProcessingServer server failover does not work when refreshing the List Of Values of a prompt
0002563656	When rescheduling a Web Intelligence document from the Instance History for a previously scheduled instance with dynamic values selected, an error appears
0002564332	Scheduled report attachment name is missing from details returned by Web Intelligence RESTful Web Service
0002564431	Long Formulas will be truncated when using "Hide when following formula is true" on a report table after re-opening the Web Intelligence document
0002564968	The far right column in the list of values is truncated in the Prompts window of a Web Intelligence report
0002565036	Unable to display Detail objects when trying to assign data for a Web Intelligence report table
0002565201	Web Intelligence document performance issue for complex variables
0002565815	The Alignment buttons do not work in the Web Intelligence HTML mode
0002566604	Refresh of Web Intelligence reports hangs in BI LaunchPad and WebIntelligenceProcessingServer server crashes
0002566613	"Default" option of "Images DPI" doesn't inherit the default value from "output.dpi" property in "caching_media_profiles.xml" file when exporting a Web Intelligence report to PDF format
0002566875	Incorrect behaviour of '=RefValueUserResponse()' formula in a Web Intelligence report with Information Design Tool prompt parameter
0002566886	Web Intelligence report based on multiple BEx queries containing a hierarchy with Enable Prompt option in the Member Selector throws error in the Prompts window: "java.lang.IllegalArgumentException:Unexpected state: DISPOSED"
0002567319	Increment of Input control does not work in Web Intelligence document
0002568459	A query based on '@prompt defined as numeric datatype in Universe Design Tool' should not allow to enter alphabets in the Web Intelligence HTML interface
0002569524	Hierarchical dimensions behave incorrectly in Web Intelligence HTML Interface if "Refresh on Open" is enabled
0002569599	Decimal separator of the Relative position in the Format table window is a dot instead of a comma when using Danish locale settings in Web Intelligence preferences
0002569906	Web Intelligence document loses merged dimension on refreshing documents based on BEx queries

0002570137	[EMPTY_VALUE] appears when no value is selected for an optional prompt in a publication based on multiple Web Intelligence source documents.
0002571785	Contexts validity should be checked by Web Intelligence RESTful Web Service
0002571800	Cannot update the format of a cell in Web Intelligence RESTful service
0002572397	Not able to create a comment using Web Intelligence Desktop Interface
0002572415	Not able to create a Shared element using Web Intelligence Desktop Interface
0002572809	Cannot drag and drop available object into a table in a Web Intelligence document which is converted from Desk Intelligence and then migrated
0002573944	Prompt values are incorrectly saved when there are two or more source documents in a Web Intelligence Publication
0002573998	Border preview areas are inconsistent after choosing "set all borders" for rule display and then re-edit the rule
0002574121	Images displayed using URLs in Web Intelligence with no file extension and upper case letters used at the end of the URL are not getting exported to Excel or PDF
0002574450	An error pops up when opening the sorts dialog box of a Web Intelligence document through FIORI BI Launch Pad if Tomcat hosts the Web Intelligence RESTful Web Service.
0002574554	In Web Intelligence FIORI interface, Fold/Unfold option is not working with nested sections of identical names
0002574659	The left panel part of a Web Intelligence document opened using the "Document link" functionality does not work well
0002575408	OpenDocument opens a link to web page URL in a new browser tab in Internet Explorer 11 when Current window is selected
0002575701	The left panel part of a Web Intelligence document opened using the "Document link" functionality does not work well in design mode
0002577070	Free cell in Web Intelligence report overlapping any other report element makes the report element become unreadable
0002577572	Embedding document details into occurrence details should be possible through Web Intelligence RESTful Web Service
0002577788	The Format Painter tool does not work as expected in the Web Intelligence HTML Interface
0002577989	The last rows of a table spreading vertically across multiple pages may not be visible when it is preceded by a report element that is repeated on each page of a Web Intelligence report
0002578315	Some table cells height may appear bigger than expected on some existing Web Intelligence documents when opened in HTML mode
0002578656	Some of the cell's border might be missing when exporting a Web Intelligence document as Excel
0002579043	WebIntelligenceProcessingServer server is stopping unexpectedly if you launch a dashboard with closeDocument=true
0002579390	Manually input multi Constant values does not work in Web Intelligence document
0002581938	Element linking on a column chart doesn't retrieve the value when hovering on the chart column in Web Intelligence

0002582282	Live Office should work even if the Web Intelligence report selected has an unknown value
0002582356	Pages rendering is not stored in server cache when viewing documents in Web Intelligence Fiori Interface
0002582874	In BI Launch pad, the value used for Prompts when first scheduling a Web Intelligence document is not kept when rescheduling it
0002582880	When table cells have asymmetric border setting, the table becomes bigger and can overlap with another Web Intelligence report element underneath
0002583420	Today's date is automatically entered in the Query Filter for Date objects in the Web Intelligence HTML Interface
0002583422	List of data providers needing to be refreshed should be returned by Web Intelligence RESTful Web Service
0002583643	Unable to add a new sort on a block in Web Intelligence Interactive Viewer
0002583857	Save menu item in Web Intelligence Fiori Interface remains disabled after changes when the same document is opened twice
0002587546	You can't merge dimensions when there is an existing merged dimension with the same name in Web Intelligence
0002587707	Cell with "Start on a new page" option is not moved to the correct page in Web Intelligence report
0002588067	Web Intelligence HTML, the date picker is not displayed in the List of Values dialog box for objects of date type
0002588613	Scheduling a Web Intelligence document with a prompt without previous answer but with a default answer fails
0002588686	In the section navigation map of the Fiori BI Launchpad, long labels are truncated and the control that allows to discover sub-sections is not actionable anymore
0002588829	Dashboard based of QAAWS queries failed to return result when multiple values (comma separated) are passed to prompts
0002589298	An error message is displayed after a "Save As" action on a document opened from the Inbox
0002590891	Delivery Rules checkboxes are not checked when the instance of a Web Intelligence document is rescheduled
0002593435	Second cancellation of Web Intelligence report is slow in BI Launch pad Java applet and Web Intelligence Rich Client
0002595870	Incorrect data is shown in Web Intelligence reports based on a BEx query smart measure since updating to SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 04
0002599538	Failover is not working in Web Intelligence Applet mode
0002604061	Error messages may occur in Web Intelligence when updating the Excel file in the Query Panel
0002604116	In Web Intelligence, dual axis chart has 2 origins if multiple objects are assigned to the value axis
0002623115	Geographic chart content disappears after creating a merged dimension in Web Intelligence

0002623183	"com.businessobjects.rebean.wi.exception.InputFormException \$InputFormSetDocPropertyException: Cannot update document property for report ID: 234 (Error: ??? 00000)" error message appears when performing the Undo action in Web Intelligence
0002623673	Description of a Detail variable with an Associated dimension disappears from the Variable Editor after re-opening the Web Intelligence document
0002625278	PREVIOUS function return wrong result in the break header/footer of the crosstab in Web Intelligence document
0002628326	Translated prompt text disappears after changing some queries' data source in Web Intelligence
0002629226	Recurring Web Intelligence schedules have wrong prompt values, Prompt's text has been changed within the document after scheduling
0002632898	After creating a Free Hand SQL Web Intelligence report, if the connection name is changed it does not get updated on the Web Intelligence report
0002632924	Reset button for calendar input control does not work in Web Intelligence Interactive Viewer
0002638436	Functions list is not displayed when typing in the Formula bar of Web Intelligence HTML interface
0002641029	Where operator with measure condition has no effect on Reference Object of a Web Intelligence report
0002643497	Error may appear while opening Web Intelligence Rich Client in Standalone mode what is not connecting to the network
0002646012	Web Intelligence document is not displaying data in Serbian cyrillic when OLAP connection is defined with any Serbian cyrillic language
0002646190	In Chrome, cannot select the right universe in the universe list when creating a Web Intelligence document if there are too many universes and the name contains Japanese words
0002654251	When creating a Web Intelligence query based on Free Hand SQL data source, the Query Name is not updated if you changed the name in Query Properties and click Run Query
0002655162	Updating a Shared Element will delete the underlying Input Control in Web Intelligence
0002655932	#TOREFRESH warning is missing on charts in Web Intelligence Interactive Viewer
0002656065	Prompts based on BEx Variables may not be merged even if they have the same data type and use the same prompt text.
0002656585	Exporting a report element to PDF with Web Intelligence RESTful Web Service adds extra unwanted margins on the right and at the bottom
0002656658	Incorrect values may be displayed when hovering the mouse cursor over data points on chart with 2 Y-axes in Web Intelligence documents
0002657670	[CVE-2018-2473] Denial of service (DOS) in Web Intelligence Richclient 3 Tiers Mode
0002661886	Detail variable using merged dimensions in a Web Intelligence document with multiple dataprovder returns wrong value
0002662965	After converting Free Hand SQL based Desktop Intelligence documents to Web Intelligence reports, renaming free hand SQL queries causes issues
0002670567	List of values is refreshed automatically in Web Intelligence prompts

0002674798	Incorrect value is displayed in Tile charts when filtering by an empty or null value from an Input Control in Web Intelligence
0002678685	The query panel in the Web Intelligence HTML Interface is displayed minimized in the top-left corner when clicking on 'restore' button
0002680829	When merging 2 cells and aligning with an existing border, an extra border is added in Web Intelligence
0002680835	GeoMap appears blank for 'Jammu and Kashmir' state in Web Intelligence document
0002681667	'Apply security filtering on open' option is not working correctly when opening Web Intelligence report
0002681907	After setting rows restriction on Universe side, no partial result warning is displayed when running a Web Intelligence document based on Universe from MSAS 2008 cube
0002682477	Table outline doesn't work as expected when "Right to Left content alignment" option is set in Web Intelligence HTML mode
0002682935	Calendar selection for prompts not working when using the Web Intelligence Interactive Viewer for Web Intelligence Reports
0002683420	Error while opening a Web Intelligence document using Web Intelligence HTML interface after upgrading the system
0002685472	Prompt variant with non ascii characters does not take effect in Web Intelligence HTML interface with Internet explorer browser on a 32 bits client machine
0002687880	Slow performance seen while navigating tabs in specific Web Intelligence reports
0002691052	Mouseover on a Web Intelligence Box Plot char showing additional wrong information.
0002691134	Web Intelligence report may hang when refreshing List of Values
0002692585	Web Intelligence report showing partial data result when it is based on a universe that contains a stored procedure with multiple execute statements
0002692705	Web Intelligence schedule error: "Query Script Generation failed"
0002693566	Merged dimensions become unmerged in Web Intelligence documents based on a BEx query (direct BICS)
0002693796	No data appears in a successfully completed instance of a Web Intelligence document
0002694251	OpenDocument link with "Current Window" parameter opens in a new browser tab instead of the same window when performed from Web Intelligence Interactive Viewer
0002694927	Prompt values are not retained while rescheduling a Pending/Recurring Web Intelligence report instance scheduled to Web Intelligence Format
0002695210	[CVE-2020-6189] Information Disclosure in SAP BusinessObjects BI Central Management Console
0002695489	Blank column appears when hiding column whose table header or footer is merged
0002695624	An error has occurred when creating a variable with the same name or starting with the same first characters of an existing object in Web Intelligence report
0002696038	User can drag and drop objects to create table in Web Intelligence even if the "Reporting - insert and remove reports, tables, charts and cells" right is denied
0002696714	[CVE-2019-0262] Cross-Site Scripting (XSS) vulnerability in WebIntelligence BILaunchPad

0002697112	"Invalid SET statement in the triggered action" error message appears when clicking on Run query in Web Intelligence
0002697172	Incorrect object name in Web Intelligence when creating query based on Free hand SQL
0002697228	When checking the option "Show object name" in the Format Table menu of a cross table of a Web Intelligence report, the background color of the row is set to black
0002698014	Webservice(QaaWS) is trimming off space of prompt values before to send the query to the database
0002698532	The error "Security profile stored in object '<CUID>' is not accessible by current user, the security to apply cannot be retrieved. Contact your administrator. (IDT 23148)" appears in Rich Client
0002698815	Marks in prompt summary are truncated in Web Intelligence HTML interface after migrating
0002699105	Images may appear distorted in PDF files when exported from Web Intelligence documents
0002699174	Issues with title and legend location in chart when formatting Area Display in a Web Intelligence document
0002699224	Conditional Formatting is not getting copied from one report tab to another in Web Intelligence report
0002699524	Canceling a Refresh action on a Web Intelligence document opened with Open document URL with parameter sViewer=fiori doesn't work
0002700140	Change time level is not applied in the report in Web Intelligence Interactive Viewer after navigating through the navigation map
0002700378	Browser Console shows error when using opendoc with sViewer=fiori and sInstance=Last
0002701395	Error:" exception raised: java.util.NoSuchElementException" is encountered when scheduling Web Intelligence documents containing prompts with default values
0002701664	A prompt window unexpectedly appears in the Web Intelligence Interactive Viewer when opening a document from an OpenDocument link
0002701762	In the Central Management Console, the values for Vertical/Horizontal records in the Quick display mode properties don't match in BI LaunchPad with the values of Rows/Columns in Quick Display
0002704405	Comment Field shows previous comments when exporting a Web Intelligence report to PDF
0002704580	When creating a Web Intelligence document using Excel files or Text files as data sources, the application can't distinguish these data sources files
0002704615	Unable to fold back an unfolded Web Intelligence column in Web Intelligence Interactive Viewer
0002704640	Charts and images may not be correctly displayed in Web Intelligence Interactive Viewer when several instances of the same Web Intelligence document are open simultaneously
0002705294	View script window is getting grayed out for users with advanced security rights
0002705897	GeoMaps based on a variable and used in a chart cannot be displayed when the Web Intelligence document is saved and reopened
0002705944	Javascript error in palette.js when setting iframe size to zero while viewing an Opendocument Page

0002706348	Error when running a query of a Web Intelligence report based on a Stored Procedure universe with Date as Parameter
0002706426	Refreshing a document in Web Intelligence Rich Client fails with the error "An internal error occurred while calling ProcessDpCommandsEx API (Error: ERR_WIS_30270)(WIS 30270) "
0002706510	The font size in chart may change in Web Intelligence documents migrated to SAP BusinessObjects Business Intelligence Platform 4.2
0002707058	Incorrect value is returned in DatesBetween and TimeBetween function with WeekPeriod
0002707140	Blank column is displayed for Time dimension attributes if the parent dimension contains some empty values in the dataset of a Web Intelligence report
0002707253	The Calendar Picker displays Today instead of Now when prompt comes from universe object in a Web Intelligence report
0002708145	Firefox setting to view PDFs in browser may be ignored when opening a Web Intelligence document in PDF format
0002708347	Format Number is not taken into account in Web Intelligence when it is defined in the Assign Data panel
0002708354	Not able to create a prompt variant which has a single or a double quote character in the name in a Web Intelligence report
0002708361	Cannot apply prompt variant with value of type date time in Web Intelligence HTML interface
0002708432	"Create prompt variant" dialog box: "Select All" button is enabled even if all prompts are selected
0002708577	The drill on a dimension contained in a merged dimension is not working using the Web Intelligence RESTful service
0002708987	Inconsistent formatting is applied when changing the size of a chart (width and height), using measurement unit 'centimeter' in Web Intelligence document set with Web Intelligence HTML interface
0002708992	In Web Intelligence HTML interface, edit a break based on a null value raises an error
0002709068	Saving a Web Intelligence document with a dimension variable containing Dataprovider() throws an error
0002709190	Text getting truncated in the document preview when attempting to print a report in Web Intelligence
0002709447	Web Intelligence Interactive Viewer cannot display more than 11 variants in list when refreshing Web Intelligence document
0002710010	Web intelligence Change Source fails with error "While trying to invoke the method com.sap.sl.dataprovider .getDataSourceHeader() of a null object loaded from a local variable ‘dataProvider’"
0002710250	An error "Missing Cube Name" may appear in the list of values within a prompt window in Web Intelligence documents
0002710307	Adding NAII=Y parameter to a Web Intelligence openDocument link does not prompt for Optional prompts
0002710905	Intra Document link does not work in Web Intelligence Interactive Viewer using an iPad
0002711393	Some erratic behavior, including unexpected shutdown and memory leak, may appear when exporting complex Web Intelligence document

0002711800	Charts disappear when navigating to the current page using the Navigation panel in Web Intelligence Interactive viewer
0002711816	Web Intelligence Fold/Unfold functionality doesn't work on Multi-values Breaks
0002711927	While performing a Change Source based on a Web Intelligence document, BW Nested prompt only loads List Of Values of Default value assigned instead of selected value
0002711949	Selected object is missing in the "result from another query" filter when merge is applied for Web Intelligence document in HTML Mode
0002711963	Web Intelligence report fails to load the document link if “Target area within the Document” option is checked and the report tab is named with accentuated character
0002712562	Unable to remove optional prompt values for Web Intelligence reports when rescheduling
0002712612	Default column caption for hierarchical prompts is omitted by Web Intelligence RESTful Web Service
0002712683	OpenDocument to a Web Intelligence report set to open in PDF renders a blank report
0002712688	Charts may not be displayed until scrolling down the report when viewing documents using Web Intelligence Interactive Viewer in Google Chrome
0002713148	Filter on a time dimension additional attributes gives incorrect results in a Web Intelligence report
0002713543	Folded breaks generate multiple frames in Web Intelligence reports
0002713802	Customizations set in the Central Management Console for “Query panel Toolbar=> Add query” to hide “TEXT” as data source is not getting reflected to the Web Intelligence HTML interface
0002714038	Apply a Query level filter on Dimension numeric Object with Operator “In list” or” Not in list” and selecting values from list Getting error message WIS 10703
0002714187	Manually entered prompt values for complex selection variables are not show in the cell with PromptSummary() function after refreshing the report
0002714385	An internal error is thrown by Web Intelligence RESTful Web Service when exporting a Web Intelligence document to ZIP (HTML) with additional ZIP entries
0002714589	The cache generated in scheduling process is not used when exporting a Web Intelligence instance to PDF, EXCEL format
0002715837	"Query script generation failed. See your administrator. Inconsistent answers. BW system <SID> returns Specify a value for variable <Variable_Name> (IES 00013)" error is thrown in Web Intelligence Interactive Viewer when searching for List of Values in the Prompt window
0002715993	Bad performance issue when editing the data provider in Web Intelligence HTML interface
0002716195	Undo operation cancels more than one action in Web Intelligence Rich Client or Applet interface
0002716755	Document Structure and Filters panel came to blank after Undo operation to cancel the recent added filter in Web Intelligence HTML interface
0002717156	Selecting a node from tree view to refresh a Web Intelligence document through Web Intelligence RESTful Web Service may lead to an error

0002717362	Geo Map in Web Intelligence document is not exported to PDF or Excel outputs when its "Number of Ranges" parameter is set to "0"
0002717586	Warning message "The custom script has been reset" is not displayed when Custom SQL is updated
0002717806	Mozilla Firefox: Unable to create a new custom Palette for a chart in Web Intelligence HTML interface.
0002717934	Nothing happens when trying to perform an "Edit as a Geography by name" on a variable with double byte Japanese characters using Web Intelligence HTML interface
0002718449	Can't apply custom sort to a variable which is based on a grouping variable in a Web Intelligence report
0002718510	When auto width option is checked for Table columns, Hidden Columns are visible when document is displayed in Design/structure Only
0002718566	In Web Intelligence HTML interface, Time Dimensions are not visible in a available objects pane if parent dimension contains attributes
0002719756	WebIntelligenceProcessingServer sever crashes with error "[IllegalArgumentException] <pageIndex>" when a Web Intelligence document has GeoMaps
0002720541	Failed to parse report element (error: INF) error appears in a Web Intelligence document having a filter on empty hierarchical caption
0002720552	In some cases the chart's legend fails to be displayed when viewing reports using Web Intelligence Interactive Viewer
0002721531	Hardly possible to select the color and opacity when creating a new custom Palette in Web intelligence HTML interface using German language
0002721967	Denying the "Create and Edit Queries based on Universe" right does not affect editing .unx Queries in Web Intelligence
0002722509	Wrong Week number for Time dimension in WebIntelligence for Fiscal calendar
0002723588	An internal error is thrown by Web Intelligence RESTful Web Service when getting details of a merged expression built on hierarchical expressions.
0002724261	Chart title in Web Intelligence always displays "My Title"
0002724352	Count() returns wrong values in Web Intelligence document containing multiple dataproviders and merged dimensions
0002724353	Error #MULTIVALUE occurs when using NoFilter() function in Web Intelligence document
0002724400	The last item for a cascading List of Values is not well displayed in Web Intelligence Interactive Viewer
0002724693	Empty sections are still visible in Web Intelligence document even if 'Hide section instances when empty' option is checked
0002724741	In Web Intelligence documents with incompatible dimensions in a table, #DATASYNC is not displayed when 'Avoid duplicate row aggregation' option is checked
0002725287	Some Buttons, from change source dialog, are still in English even setting the Product Locale as Japanese in HTML viewer
0002726394	Section properties are not handled correctly when updating specification using the Web Intelligence RESTful service

0002726646	The error "Invalid data in the column date" appears when creating a Web Intelligence Document using a Text file as the data source
0002727450	Images in subfolder of the default SAP BusinessObjects Business Intelligence Platform images folder are not displayed by Web Intelligence Interactive Viewer
0002728256	Custom and automatic titles in chart within Web Intelligence documents are replaced by the default title "My Title" after migration
0002728347	Web Intelligence reports with Hindi fonts are not getting exported properly to PDF format from both Web Intelligence Rich Client as well as BI Launchpad
0002728799	In a Web Intelligence Document, Hierarchy is flattened in the Table while adding a detail object
0002728830	Web Intelligence HTML interface freezes when moving from a query to another which is corrupted
0002728857	Calendar widget is grayed when updating an input control based on a date time object type
0002728904	Font Tahoma used on a Web Intelligence document is fall backed on Unix, text used in a cell may wrap when it should not
0002728920	Creating a report in a Web Intelligence document through Web Intelligence RESTful Web Service may throw an error if "Track Data Changes" is not enabled
0002729849	Table Borders are missing in Web intelligence document when exported to PDF format
0002729912	Range definition does not work properly on charts in Web Intelligence HTML interface
0002729937	mHTML format generated from a Web Intelligence publication fails to open successfully
0002730118	Error "This query cannot be edited" happens when creating a Web Intelligence report based on Excel in Applet mode if right "Desktop Interface - enable local data providers" is denied
0002730143	Right to Left content orientation of table columns is not working properly in Web Intelligence Interactive Viewer
0002730578	Error occurs with Query Filters in Web Intelligence document based on universe using derived tables with "@Execute(List of Values)" expression
0002730804	Different behaviors for Element function between HTML and Applet mode when editing a Web Intelligence report if right "Reporting - create and edit input controls" is denied
0002731234	In Web Intelligence HTML mode , Query Filter value entered in the Type box; of prompt is automatically getting selected while selecting a value from List of Values
0002731660	In Web Intelligence Document, Apply changes and close; generate error when trying to create an HANA document with mandatory variable having no default values
0002731664	Formatting Locales are not taken into account when you schedule a Web Intelligence document
0002731883	Cannot expand the hierarchy object when it is placed into the section cell and set with a default expansion value
0002732223	Line Width cannot be reduced to 0 in Line Chart when creating a Web Intelligence Report using the HTML Interface
0002732358	When clicking a Hyperlink object that contains the parameter &sViewer=fiori in BI Launchpad, it incorrectly opens in Web Intelligence HTML interface instead of the Web Intelligence Interactive Viewer

0002732578	Details objects are missing when creating an Element Link or an Input Control in Web Intelligence
0002732585	The previous values are cleared if List Of Values uses cascading prompt in the universe
0002732747	An alerter should not be assigned several times to a cell when using Web Intelligence RESTful Web Service
0002732815	In a large table at the bottom of some pages, some rows are truncated in page mode or when exported the document to PDF
0002733340	Impossible to add an Excel query after selecting "Open in Designer ..." in Web Intelligence Interactive Viewer
0002733408	When scheduling a Web Intelligence document with the delivery rule "the scheduled content contains data", the result is a warning even if there is 1 Row of data in the document
0002733504	Cannot duplicate a Formatting Rule for some Web Intelligence document in HTML viewer
0002734052	Hidden rows are still visible when viewing a Web Intelligence document in Structure only mode
0002734717	In Web Intelligence, the objects list is not filtered when arranged by Data Source in the Create Element Link wizard
0002734916	When a Web Intelligence report is created from a local Excel file in Web Intelligence Rich Client, its settings cannot be edited in BI launchpad
0002734943	Incorrect prompt values are shown on the summary screen in completed Web Intelligence instances when rescheduling or running recurrent schedule
0002735378	When updating the specification of a Web Intelligence report using Web Intelligence RESTful Web Service, the returned status is always the same even if the sent specification is different or invalid
0002735799	In BI Workspace, report parts appears blank when they are used with Web Intelligence report with Prompts and with 'Refresh on Open' option enabled
0002736193	Web Intelligence document returns a "processDPCommandsEx" when using dimension variables depending on measure variables
0002736249	Resetting the selection of an input control using Web Intelligence RESTful Web Service should use default values if any
0002736392	Web Intelligence documents are going to "success" status even when Server Group Right is denied when scheduled
0002736499	Optional prompts based on custom date exit variables are not applied to a recurring Web Intelligence document scheduled
0002737440	BW variable using Selection option type with wildcard Pattern default values is not getting displayed under Prompt query filter in Web Intelligence report
0002737639	Right clicking a value in the Web Intelligence HTML viewer when in reading mode does not allow copying the value
0002737767	Object is shown as missing source when doing "Change data source" on all data provider queries in Web Intelligence HTML Interface
0002737844	Web Intelligence document scheduled in the Inbox is not saved in WID format and cannot be deleted
0002737923	Hidden universe objects are still visible when adding a Query Filter with "Equal to" operator and "Object from this Query" option in Web Intelligence Rich Client / Java Applet

0002738061	Prompt constant values are not being updated when scheduling a Web Intelligence report in BI Launchpad with document containing data providers based on the same bex or hana queries
0002738333	Web Intelligence schedules going into "Failed" state instead of "Warning" state irrespective of delivery rule set when "Number of retries" is not set to zero.
0002738359	Refreshing a Web Intelligence document with cascading prompts using Web Intelligence Interactive Viewer may throw an error.
0002738854	Hierarchy Node values may not be displayed at correct level after upgrade from SAP Business Intelligence 4.1 to SAP Business Intelligence 4.2.
0002739214	The List Of Values screen overlaps The last value when trying to apply a custom sort to a column in a Web Intelligence Report with Mozilla FireFox in Web Intelligence HTML Interface
0002739297	Extra tab delimiter is added when exporting Web Intelligence report to text file after migration
0002739439	Value-based break on a dimension with type number or date does not display Break header and footer in Web Intelligence report
0002739564	Impossible to run query with Temporal Sets when mixing Prompt and List of values operands with Between / Not Between operator
0002741005	"You do not have access to one or more data providers; only the ones to which you have access will be refreshed.(WIS 30286)" error when refreshing Web Intelligence based on Excel dataprovider
0002741496	Prompt answer cannot be modified for BEx range variable without list of values associated in Web Intelligence Interactive Viewer
0002741508	Subquery with Detail object disappears from Query Filters of Web Intelligence documents based on UNV universe in Web Intelligence Rich Client / Java Applet interface
0002741649	Prompt variant name does not show in Available Prompt Variant list of a Web Intelligence report and using Web Intelligence HTML interface
0002742844	Invalid session. Please close your browser and log on again. (WIH 00013) error message appears when trying to assign data to a chart of a Web Intelligence report after opening it via opendocument
0002744386	WebIntelligenceProcessingServer stays in “Starting” state and becomes unresponsive when trying to perform automated change source (UNV to UNX SAP Note: 2432962) on multiple Web Intelligence documents
0002744781	"Add Element Link" option is grayed out in Web Intelligence HTML interface when report table contains hierarchy objects
0002746051	Wrong values are displayed when using sum of runningsum in the footer of a Web Intelligence report with Extend Merged Dimension property enabled
0002748597	IllegalArgumentException error occurs when canceling a refresh of a Web Intelligence report based on Excel Data Provider
0002748603	Text is not well centered inside merged header cell in page mode or PDF for cross table for Web Intelligence document
0002748749	In Web Intelligence HTML interface it should not be possible to define a default value on an Input Control if it belongs to a group
0002750015	Format number option is lost in a Web Intelligence report after changing the measure type from Number to Decimal with aggregate function
0002750792	Cannot select a manually entered prompt value by pressing the Enter key in the prompts window using Web Intelligence Rich Client / Java Applet interfaces

0002751422	The length of a Local Variable name created in Web Intelligence is limited to 50 characters in Web Intelligence HTML interface
0002751523	Hyperlinks do not open when viewing a document using Web Intelligence Interactive Viewer on iOS Safari
0002752645	Running MultiTenancy Management over Web Intelligence documents causes WebIntelligenceProcessingServer server to crash
0002752671	Apply and Close functionality is not correctly applied when using an OLAP universe with a keydate
0002752679	Navigating between the sections of a Web Intelligence report using navigation map is not working properly when the outline option is enabled
0002753041	The error: "Rule not respected ("Argument "Intervalld" must be smaller than 2.)" happens in Live Office
0002753437	Hidden objects at Universe level are not working as expected in Web Intelligence HTML mode
0002753713	An error message is displayed while you try to replace the old Database connection of Free Hand SQL for a Web Intelligence document by a new valid Database connection
0002754484	When creating or updating a data filter based on a referenced cell using Web Intelligence RESTful Web Service, an error is thrown.
0002754655	When creating a Web Intelligence report, the query panel shows the description of the universe instead of the name
0002754860	Web Intelligence Rich Client is crashing when a complex formula with aggregation is added to the chart axis values of a Stacked Bar chart
0002755348	In a Web Intelligence report with large data set, when node 1 is collapsed in the outline, break total is duplicated on each page, in Quick Display Mode
0002755480	Impossible to set a border on only one side of the cell in a formatting rule of a Web Intelligence report in Web Intelligence HTML interface
0002756035	The last two merged rows of a table of a Web Intelligence report are hidden by the Page footer in Quick Display mode
0002756493	When saving a Web Intelligence report after applying formatting rules on a variable which is Decimal data type, the WIS 30270 error appears
0002757384	Cannot use “Value(s) from List” filter in Web Intelligence query based on Universe from Bics connection with BW variable
0002757981	An additional blank space added to the column value when exporting to MS Excel a Web Intelligence report is based on MS SQL stored procedure
0002760478	When using an Excel spreadsheet as a datasource of a Web Intelligence report in the Web Intelligence HTML viewer, the data range in the Custom Data Provider is ignored
0002761135	Variables or formulas using the ReportFilterSummary() function do not dynamically update other variables or formulas of a Web Intelligence report
0002761410	The Navigation Map does not return the expected report page in a complex Web Intelligence report when using Web Intelligence HTML interface
0002763476	When you edit the formula of a merged dimension object used in chart of a Web Intelligence report, the Formula Editor window is empty
0002764513	[CVE-2019-0333] Information Disclosure in SAP Business Objects Business Intelligence Platform (Web Intelligence and CMC)

0002765045	In the "User Prompt Input" tab of a Web Intelligence report, the "Run" Button is not working when the prompt filter contains a date object and "Select only from List" is checked in the prompt properties
0002765113	In a Web Intelligence Document HTML Mode, Calendar picker is still showing Today instead of Now for a DateTime Object
0002766265	Web Intelligence document fails to open in the Web Intelligence Interactive Viewer when using an openDocument URL with a range as prompt parameter
0002767633	The "Measure names" does not display in the Stacked Column chart's Assign Data dialog when editing the Web Intelligence document in HTML mode
0002768380	WebIntelligenceProcessingServer hangs when saving a big report to Excel file or to Portable Document Format file
0002769166	The Calendar Picker displays Today instead of Now for a DateTime Object in User Prompt Input Panel of a Web Intelligence report
0002769208	After migrating a Web Intelligence Document from SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 05 Patch 3 to SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 06 Patch 5, adding a column to the table fails with #REFRESH error after a refresh
0002770055	Maximizing the query panel in the Web Intelligence HTML viewer does not take up the entire window
0002770792	A Manually entered value cannot be selected in the Prompts window of the Web Intelligence HTML interface
0002772414	Error message "A filename cannot contain any of the following characters" is observed when saving a Web Intelligence report locally in Web Intelligence Rich Client
0002772786	NullPointerException occurs when refreshing List Of Values with hierarchy of Web Intelligence documents based on a BEX universe with keydate
0002773552	Formula LastDayOfMonth(CurrentDate()) displays incorrect last date for March month in Web Intelligence report
0002774315	List of Values for hierarchy node variable may load forever in Web Intelligence Interactive Viewer
0002774782	Web Intelligence reports that contain only dynamic prompts based on universe parameter with keep last values unchecked fail when scheduled
0002777223	Prompts are duplicated when refreshing a Web Intelligence report using variables from a SAP HANA Universe with multiple views
0002777282	When adding a Break in a Web Intelligence document, then switching to Structure view results in a "ERR_WIS_30270" or "WIJ 20003" error
0002777881	"An Internal error occurred while calling 'processDPCommandsEx' API. (Error:ERR_WIS_30270)" error displays when refreshing Web Intelligence document after a change source action
0002778250	Cannot create a Web Intelligence document based on an Excel data source in the HTML Interface when using Safari 12.1
0002778774	(--No value--) is displayed in List of Values for Cascading Prompt when creating a Web Intelligence report based on SAP HANA Online and using Web Intelligence HTML interface
0002778877	The Fold/Unfold option disappears after each selection (Folding/Unfolding the value in table) in the Web Intelligence HTML interface

0002779632	The Report Element in section/body of the Web intelligence Document, marked as <code>&#x201D;Repeat on every page&#x201C;</code> for both Horizontal and Vertical, does not repeat on every page when viewing in Page Mode
0002780984	WebIntelligenceProcessingServer frequently crashes and goes to failed status
0002781167	Loading / wait cursor may not be displayed while performing a refresh action on a Web Intelligence document having different Chart types in Web Intelligence HTML interface
0002781287	Web Intelligence report failed to open with "RWI 00011" or "WIJ 20003" error, when there is RelativeValue function in formula
0002781877	The WebIntelligenceProcessingServer server crashes several times a day
0002783589	Web Intelligence HTML interface freezes when changing the name of an Input Control Group using Hebrew language in Internet Explorer 11
0002784734	Error occurs when trying to create a Web Intelligence report based on an Excel datasource
0002784768	Empty value is passed as "Undefined" through OpenDoc link for an optional BEx variable in Web Intelligence Interactive Viewer
0002785183	Error message "A problem is encountered. The requested action cannot be completed" is displayed when creating a Web Intelligence document based on a .txt file and using the Web Intelligence HTML interface
0002785272	An error is raised while trying to schedule a Web Intelligence document with contexts and prompts
0002785335	Functions like LastExecutionTime() and CurrentTime() are showing wrong time if Current Time Zone From Infoview Preferences is set to Moscow
0002785560	Empty cell is displayed when applying <code>&#x201C;default aggregation&#x201D;</code> sum on delegated measure associated with a merged dimension in Web Intelligence report
0002785741	The following error message occurs while running a Web Intelligence report created on a single source universe : The following database error occurred .. Login failed for user <code>@variable(&#x2018;DBUSER&#x2019;)</code> .. (IES 10901)(WIS 10901)
0002786133	Get "Your comment is too long. You cannot exceed 2000 bytes. (Error: RWI 00711) (Error: INF)" in SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 07
0002787297	"Match case" prompt setting is grayed out and set to "YES" for Query Filters based on BEx query in Web Intelligence Interactive Viewer
0002787423	Error message <code>#REF_DATANOTFOUND</code> appears for a reference, when the referenced cell is available on another tab in a Web Intelligence report
0002788074	Table structure gets distorted when changing the background color of rows or columns in Web Intelligence HTML interface
0002788472	Performance issue while opening a Web Intelligence report
0002788540	Chart Legends 'Visible' turn into 'Automatic' in Web Intelligence report after upgrade from SAP BusinessObjects Business Intelligence platform 4.1 to 4.2 Support Pack 06
0002788703	Universe Outline is missing in Web Intelligence query panel in HTML mode
0002789686	The limit for custom Date/time's fields is set to 20 characters in a Web Intelligence report
0002790492	Function Currenttime() in Web Intelligence Report returns incorrect time in Linux Server

0002790583	"No data to retrieve" is shown when opening a child report in Web Intelligence through document link as the prompt value is passed with a wrong thousands separator
0002791436	Exporting or scheduling a Web Intelligence document to Excel crashes the WebIntelligenceProcessingServer server
0002793051	Web Intelligence Interactive Viewer may not filter data correctly from element links based on Date(Time) objects
0002793191	Error occurs when searching in List of Values of Member Selector prompt of a Web Intelligence document based on a HANA OLAP connection
0002793415	Support on Japanese era name change in Web Intelligence from May 1st, 2019
0002793917	Cannot create a Web Intelligence document based on a Text data source in the HTML Interface when using Safari 12.1
0002794684	Web Intelligence schedule fails with error "Internal error occurred: Can't find resource for bundle java.util.PropertyResourceBundle,key schedule.prompts.noprompts. Contact your administrator"
0002794959	0 KB CSV file is generated when exporting or scheduling a Web Intelligence document to CSV format if the data size is more than 2 GB
0002795219	Changing Data Source of a Web Intelligence Document drops Merge applied on Variables at Report level
0002795504	The WebIntelligenceProcessingServer server crashes while Exporting or Scheduling a huge Web Intelligence document
0002795573	Cannot create Web Intelligence document base on text file with double byte name
0002797152	In a Web Intelligence Document, Filter Bar fails to filter values when the filter is based on specific functions
0002799552	'Open in Designer' option for Web Intelligence Open Document URL does not redirect the user to Web Intelligence Interactive Viewer
0002800246	Tooltip is not shown when dragging & dropping objects from outline to report in a Web Intelligence document under Chrome or Firefox
0002801238	Error occurs when using Drill Up & Drill Down in a Web Intelligence document with several charts in Web Intelligence HTML interface with Internet Explorer
0002801625	Web Intelligence document hangs or displays no data when opened from Google Chrome version 75.0.3770.80
0002802263	In Web Intelligence, the RelativeDate function does not work properly when using a leap year day and YearPeriod
0002802566	Name of Filter Operator chosen for Calendar Input Control appears in English, even after changing the Locale to a different language, in a Web Intelligence Document opened with Web intelligence Interactive Viewer
0002802758	Query Filter Prompt window shows the vertical and horizontal scroll bars in the Web Intelligence HTML Interface when accessed from Internet Explorer 11
0002802814	Value(s) from the list drop down in filter is grayed out in the Web Intelligence query panel
0002803010	Cancel button cannot be displayed in Mandatory prompt List Of Values window when refreshing Web Intelligence document from interactive launchpad under Japanese locale
0002803488	When trying to create a Web Intelligence report based on Excel file , the following error occurred: Unable to create or update the Excel personal data provider

0002803647	Variables are visible in Prompts box although options 'Use BEx/HANA defined default values at runtime' and 'Set as prompt' are unchecked in Web Intelligence report
0002803714	In the Web Intelligence HTML Interface it should not be allowed to move the Input Control when it belongs to a Group
0002803977	Default universe icon missing in preferences of BI Launchpad
0002803996	In Web Intelligence HTML interface you cannot change the variable set as default value of an Input Control based on a Time Dimension detail
0002805123	Changing operand from 'In list' to 'Equal to' in query filter shows different behavior in Web Intelligence HTML Interface
0002805179	Unable to create Web Intelligence report when the option 'Use the new Interactive Viewer for document linking outside of the BI Launch pad' is checked in preferences of BI Launchpad
0002806304	A blank Dashboard document is seen when opened or refreshed if it is based on a Query As A Web Service having a prompt value containing commas
0002806354	Error occurs when running a query in a Web Intelligence document based on a SAP HANA Universe in which 'Prompt to User' option is unselected for an optional variable without default value
0002806398	Hovering the Mouse over Universe / Business Layer Views in Query Panel displays Name instead of displaying Description
0002806988	Inserting a Shared Element in to the Web intelligence Document loads forever or fails with BOException Error
0002807243	In the Query Panel of a Web Intelligence Document, Subquery Details are not displayed properly when the document was created using the Web Intelligence HTML Interface
0002807363	Web Intelligence report which uses dependent queries do not schedule as expected
0002808207	Dynamic value and constant value Prompts are not visible while scheduling a Web Intelligence document
0002809011	The list of values cannot be searched in the Liveoffice query panel when list of values are multicolumn and the search is not on an item of the main column
0002809345	The error "The server memory is full. (WIS 30280)" appears while exporting a Web Intelligence document to Excel
0002809646	Error occurs while refreshing a Web Intelligence report using a formula with a synchronized dimension whose name is the same as a Data Provider
0002810610	In a Web Intelligence report, modifying a table having Value based break based on a contextual dimension makes the table disappear
0002811521	The first page shows no data in Quick Display mode for Web Intelligence document which contains large data in the 1st break
0002812529	Recurring publication fails after adding optional prompts to Web Intelligence document
0002812931	When calling /dataset API on report elements that are vertical table headers using Web Intelligence RESTful Web Service, an error is returned
0002814007	[CVE-2019-0396] Missing XML Validation vulnerability in SAP BusinessObjects Business Intelligence Platform (Web Intelligence HTML interface)
0002814779	In a Web Intelligence document, chart size is shrunk when exported to xlsx if placed on the right side of a table

0002815063	Some of the Folders are missing to browse if we access from left panel Shared Element
0002815065	Optional and mandatory prompt order have a different alignment in prompt window of a Web Intelligence document
0002816111	Cannot assign a negative value in a Custom Range within Heatmap Charts on Web Intelligence documents
0002816382	When creating a DataProvider based on an UNV universe with filter and operands IsNull or IsNotNull using Web Intelligence RESTful Web Service, an error is thrown
0002817075	Cut and Paste Table / Cells does not work in Web Intelligence HTML Mode
0002817138	When several Web Intelligence reports are opened in Web Intelligence Applet interface, if you quickly navigate between reports, the name of the tab Home or Documents changes to one of the report which is open
0002817540	'Remove from Merge' option is not visible for merged detailed objects of a Web Intelligence report when using the Web Intelligence HTML Interface
0002817571	Newly created Web Intelligence report runs the database query twice
0002817831	Wrong data displayed in Web Intelligence instance containing Input Control with Reset on Refresh option checked
0002817937	[CVE-2019-0382] XSS vulnerability in SAP Business Objects BI Platform (Web Intelligence)
0002817945	[CVE-2019-0374] Multiple Cross-Site Scripting (XSS) vulnerabilities in SAP BusinessObjects Business Intelligence Platform (Web Intelligence HTML interface)
0002817952	'Apply changes and close' in query panel does not work correctly in Web Intelligence HTML Interface after getting message "You cannot run this query because it will produce cartesian product"
0002818035	When opening a Web Intelligence document through Document link, the Optional Prompt appears in Web Intelligence Interactive Viewer even if no value is selected
0002818113	Apply changes in all Queries sharing the same Data source; Option is Disabled for Web Intelligence Documents based on OLAP connection / OLAP Universe
0002818250	Web Intelligence cell width increases when setting background color for merged cell and another cell which is on the same line
0002818310	An error is raised when adding a string for a number object in custom sort dialog
0002818362	Line style cannot be changed on Line chart in a Web Intelligence report
0002818728	Preferred Viewing Local setting cannot reflect on document property when using "Use browser locale" in Interactive Launch Pad using Chrome browser
0002819605	The refresh of a single data provider of a multi providers Web Intelligence report triggers logs for all data providers in audit DB
0002819707	Cell alignment of Measure object changes after expanding outline under "structure only" mode in a Web Intelligence document
0002819895	Tomcat may shut down unexpectedly when opening several Web Intelligence documents using Web Intelligence HTML interface
0002820048	WebIntelligenceProcessingServer server shuts down unexpectedly after upgrade
0002820686	Highlighting linked elements doesn't work with Web Intelligence HTML interface in Reading Mode

0002820835	When accessing any biprws raylight URLs (http://host:port/biprws/raylight/*) in a browser or other tool, a HTTP 404 is returned
0002820982	Web Intelligence Publication with personalization fails when scheduled with option “One database fetch per recipient”
0002821404	When applying Break and Fold to a Web Intelligence report in Quick display mode, the data is displayed wrongly and each new page starts with the last values displayed in the previous page
0002821525	"[IllegalArgumentException] <pageIndex> (Error: RWI 00011) (Error: INF)" is observed when selecting "Expand all" for Bex hierarchy object in a Web Intelligence report and using Web Intelligence HTML Interface
0002822125	Grouping an object having more than 1000 rows shows partial results in Web Intelligence HTML Mode
