Notes related to security corrections will not be listed in this release note. Information on relevant security corrections can be found in the SAP Support Portal within the Security Patch Day section.

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 01 Patch 01

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
2996474	Unable to view, edit or create Web Intelligence documents when using Chrome 87+ (Version 87.0.4280.66, 88.0.4324.182) and Microsoft Edge 87+
2999550	Errors are visible in WebIntelligenceProcessingServer server log file at startup

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 01 Patch 02

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
2990301	BI4.3 Missing scroll bar in description when enlarging Properties Window
2992083	Connectivity from the commentary service to the Audit Database hosted on MS SQL fails post upgrade to BI 4.3
3007712	Fiori BILP hangs after scrolling in a folder in 4.3 SP01 and Patch 100
3011880	Error: "Internal server error. (RWS 00070)" when using Restful SDK to list usergroups
2982809	Can't paste file from BI Inbox to My Folders/Personal Folders in Fiori Launchpad
3002579	Instances in Inbox shows: Internal server error. (RWS 00070)
2981427	'Last Run' column data is blank within BI Launchpad's 'Recently Run Documents'
2971002	Recycle Bin in CMC does not show correct total item number and paging information
2992180	OpenDocument link with encoded restful token prompts user to enter credentials
2980403	Last Run time of report objects displays the current time
3002297	Secure HTTPS connection changes to not secure when searching in the Recycle Bin in CMC
2976838	FWM 02045 error during SAML SSO login after move of BOE webapp
2982124	Intermittent "Internal Error. (CRR 00040,)" while trying to Edit Prompt Values in BI 4.3 Fiori BI Launchpad
3006847	Scheduling report with Calendar in BI Launchpad always use the first Calendar content in the list
2996732	Scheduling report with Calendar in CMC always chooses the first Calendar in the list

SAP BusinessObjects Business Intelligence Platform Portal Integratio

SAP Note #	SAP Note Text
2989406	'SNC name of the partner system not in ACL system' error message appears, when trying to create a new Crystal report using SNC with SSO configured in Crystal Reports

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
2973439	BI JCO Connection Error No RFC destination was defined for the server 'xxxx'
2994781	Error in Information Design Tool when editing a Data Federator connection
2984611	SQL compilation error occurs using a Snowflake datasource in Information Design Tool
2992731	Connection fails when using generic Odata 2.0 connector trying to connect to S/4 Hana Cloud
2992280	Universe Error "Nonsupported data type - 155" occurs on Azure JDBC connectivity when contains Data Type DATETIMEOFFSET
2989317	Universe Design Tool crashes unexpectedly when creating a custom Hierarchy

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
2896806	Refreshing a Live Office Document takes longer than similar workflow in Web Intelligence

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3009529	Error occurs when refreshing a Web Intelligence document based on SAP BW and containing a hierarchy with an invalid member in the defined Member Selection
2980969	Some objects are no longer available in the universe. (IES 00001)" error message appears when a filter object consumed in the core universe Information Design Tool
3007928	Query Panel hangs when creating a new query on top of a complex Universe which contains Business Layer Views

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
2992764	An internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270) when validating a custom SQL contains @prompt function in Web Intelligence 4.3
2991781	Repeat on every page for Horizontal caused strange behavior in Web Intelligence report

3008653	Unfolding a break generates empty pages in Web Intelligence Document
3001416	Cannot display one of the merged dimension values in Web Intelligence document
2966796	Editing the layout settings of a block using Web Intelligence fails with error : "The formula "null" is not valid."
2948779	Clicking on View Script fails with error due to @aggregate_aware function appended to the SQL
2998286	An error 'The resource of type "Parameter" with identifier "1" does not exist' occurs with BW dependant variables
2996247	Bad row height in Web Intelligence document which contains special characters with option "Autofit height to content" enabled
2998667	Input Control based on a Variable or merged dimensions shows only 'All values' option in Web Intelligence report
3001322	Newly added geo-dimension is not considered by consuming document
2962086	Show rows with all measure values = 0" option doesn't work when enabling "Avoid duplicated row aggregation
2998147	Message '#TOREFRESH' is observed even after refreshing a Web Intelligence document with delegated measures and merged dimensions
3001223	Web Intelligence hangs when trying to edit or when using Fold/Un-Fold in a Web Intelligence document.
2986739	Error message appears when selecting + or - button to expand or collapse hierarchy in Web intelligence
2961103	Web Intelligence Document fails with error, if we run the query without passing a value in BW date optional variable prompt
2988197	In Web Intelligence, Colors of the image are getting distorted when an image is added in to a cell and set display to stretch
3002521	Web Intelligence reports with variables fail to refresh with error: Exception occurred. The cause was : com.crystaldecisions.enterprise.ocaframework.OCAFrameworkException \$AllServicesDown: Unable to find servers in CMS <SERVER>:6400 and cluster <SERVER>:640
3000435	Web Intelligence document having merged dimensions and ranking on a constant variable hangs
3006225	Invalid list of data sources in Offline mode with Web Intelligence Rich Client
3003538	Error :The query cannot be refreshed; the structure of "Query 1" does not match. (IES 10854) (Error: INF WIS 10854) in Web Intelligence report
3003576	Web Intelligence processing server crash when there is a scheduled job workflow that save report into xlsx format.
3008521	Refreshing Webintelligence documents with variables causes WIReportServer to crash

SAP Crystal Reports 2013

SAP Note #	SAP Note Text
2999030	Crystal Reports designer stops working when right clicking on a custom function.
3009145	Warning detected when open the xlsx file
3012320	Crystal Reports 2020 starts with corrupted ToolBar and then crashes in few seconds
2994394	With nosniff filter enabled, scheduling prompts appear as raw javascript text
2999970	Unable to schedule Crystal reports with dynamic prompts in Fiori BI launchpad with user Non-Administrators
2999919	Unable to schedule a Crystal report with Null prompt values from Fiori BI launchpad

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 01 Patch 03

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3016486	"InvalidTupleForSortException:Tuple sorting" error is displayed in Analysis edition for OLAP

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
2944691	Reschedule option for successful publication instance not available in the BI Launchpad in BI 4.3
3006063	Sort Function in Title column is mixing sub-folders and documents in BI Launchpad Fiori (BILP Fiori)
3009109	Change in behaviour w.r.t pagination in Central Management Console and BI Infoview
3012613	Content will not load after scrolling down in Fiori BILP - 4.3 SP01
3004922	Navigation behavior changes between BI 4.2 and BI4.3 in Fiori Launchpad
3013498	Users unable to view objects in Personal Folders if the objects were placed there by another user
2999277	Updating Web Intelligence Documents from unv to unx universes using the BI Automation Framework (2906634) fails with error
3009601	Folder navigation issue in Central Management Console after accessing Workflow Assistant

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3004945	Error message "Specified RDBMS is invalid: XXXX" when multiple Connection Server java servers are deployed and accessed through C++ CORBA mode
3008615	An error occurs when trying to custom hierarchy based List of value with Impala Cloudera in Information Design Tool
2980515	[Data Federator Driver] [Server] [Connector 'connection name'] ConnectionServer has reported an Exception: String index out of range: 3 error in Web Intelligence
2996900	Collapse ('-') and expand ('+') buttons are missing in the top right hand corner in the Aggregate navigation window in Information Design Tool
3021357	'Invalid variable name' error may occur when executing a query based on a HANA view
2972775	Cascading (hierarchy) prompts created in a unv universe do not work as expected in Web Intelligence after conversion to unx

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
3002327	Refreshing Chart objects inserted from Web Intelligence Document fails with error in Live Office
2978940	Cannot refresh Live Office query to get the specific Japanese character
2970931	The error "The picture can't be displayed" will show up when inserting Web intelligence chart into Excel by Live Office
3005856	The Live Office query prompt value set to different prompts after upgrading from XI 3.1 to BI 4.2 when refreshing twice.
2991310	Getting error popup while executing universe in Live Office with WebSphere 9 deployment.

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
2973860	Web Intelligence fails with error "WIS 00000" while trying to create a Document on HANA Calculation view (4.3)
3015644	Multiple queries against the same BW OLAP connection are not executed in parallel.
3007313	Min(RowIndex()), Max(RowIndex()) result changed after upgrading from SAP BusinessObjects Business Intelligence Platform 4.1 to SAP BusinessObjects Business Intelligence Platform 4.2

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3002703	When using sOutputFormat=P or E in the Open Document URL to open a Web Intelligence, the page hangs
2978873	When a Web Intelligence report has many data providers their names can overlap
2987808	Failed to refresh a migrated Web Intelligence based on HANA connection in SAP BusinessObjects 4.3
3016832	When you add a query to a document and select option "add this table in a new report" the current report is displayed instead of the new created report
3016832	When you add a query to a document and select option "add this table in a new report" the current report is displayed instead of the new created report
3017600	Changing the month or year in Date picker for Web Intelligence Prompts does not update the displayed month or year tile in the calendar
3017540	Web Intelligence report Right To Left orientation is incorrect when using Arabic Product Locale in SAP BusinessObjects Business Intelligence 4.3
3019166	Multiple selection is not possible when using "Not In List" operator in Web Intelligence Report Filter box
3019758	Error occurs while opening Web Intelligence document containing wrong Geo Object
3020362	Chart colors are not changed when updating an existing custom palette using Web Intelligence.
3020362	Chart colors are not changed when updating an existing custom palette using Web Intelligence.
3021432	When trying to schedule a Web Intelligence report to CSV in BILaunchpad, the blank Text Qualifier is not an option
3021115	Error occurs while opening migrated Web Intelligence report containing geography dimension object using Latitude/Longitude

3010512	Drill Filter shows "No Filter" in Filter Bar after saving a WebIntelligence document with Drill filter
3027166	In Web Intelligence, the prompt screen appears when opening a child report containing optional prompt through an opendocument hyperlink
3023026	Prompts gets missing in Web Intelligence report when migrated to Business Intelligence 4.3
3025053	Selection mark (tick) does not appear if we try to select multiple List of Values in a prompt using "Shift/Ctrl + Mouse click"
3026122	RefValue function results in a crash in Web Intelligence document when Track Data Changes is activated
3023163	Web Intelligence reports are showing #TOREFRESH when running the report the first time
3025642	When scheduling, Web Intelligence Publications fails with error: Query Script Generation failed
2956268	Scheduled reports may randomly fail with error "Scheduled reports are randomly fails with errors: Unable to connect to service WebiPlugin.WebiSession from server (FWM 01006) (Error: INF)"
2996888	Calendar picker for date objects do not work as expected if Product Viewing Locale is set to English(UK) in Web Intelligence Report
2987808	Failed to refresh a migrated Web Intelligence based on HANA connection in SAP BusinessObjects 4.3
2991551	Pre-defined Date formats are not working as expected if Product Viewing Locale is set to English(Australia)
3000318	WaaS does not work in Web Intelligence Rich Client
2899030	Object Description information is not displayed in the tooltip when mouse over the object in Result Objects and Query Filters in Web HTML Query panel for Web Intelligence
3002616	"Communication Error" when viewing Web Intelligence report formatted with image URL
2991882	Block level filters are not working on multi data provider Web Intelligence documents
2991329	Filter on a detail variable gives wrong results in a multiple data provider Web Intelligence document
2991551	Pre-defined Date formats are not working as expected if Product Viewing Locale is set to English(Australia)
3001874	Empty Value is replaced by "?" when Parent Document answers a Hana Variable Prompt in Child Document using Opendoc functionality,
3005670	4.3 Fiori BI LaunchPad Scheduling: when a prompt value of type date time is entered an offsert corresponding to browser time zone is applied to the value entered

3006225	Invalid list of data sources in Offline mode with Web Intelligence Rich Client
-------------------------	--

SAP Crystal Reports 2013

SAP Note #	SAP Note Text
3014710	After updating to Crystal Server 2020 - Not able to use and select repository items.
3014697	PNG Image too big if viewed/printed with Crystal Reports
3016129	In the Business View Manager, when attempting to add a Table in a Data Foundation that use a JDBC connection to the database, it displays: 'no items found...'

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 01 Patch 04

BI-LUM-SRV-BIP

SAP Note #	SAP Note Text
2979455	Error : "Info object with ID document: XXXXX not found. (RWS 000012)" when viewing Lumira document in BI launchpad

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
2953231	Fiori Launchpad Preferences Missing after update to 4.3 from 4.2 SP03 or earlier

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3028774	Search pattern is displaying short_text presentation values instead of the text presentation used for the display in Web Intelligence based on BICS Connection after upgrade to SAP BusinessObjects Business Intelligence Platform 4.3

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3026675	JavaScript code does not execute when used in a Web Intelligence document in the Web Intelligence viewer
3031704	Publication : Failed status when Prompt is a range on a document based on BEX query
2973860	Web Intelligence fails with error "WIS 00000" while trying to create a Document on HANA Calculation view (4.3)
2990532	Refreshing LOV for a SAP HANA Variable using Web Intelligence fails with error "The resource of type "Parameter" with identifier "2" does not exists".
3041795	The message"This document has been migrated" is an error instead of a warning or reminder
3004780	Clicking on Hyperlink fails with error: "An error occurred while parsing value '<Date Time Value>' of type 'Date'"
3044768	Unable to apply filter on Detail variable through Manage Filters option in Web Intelligence Document
2983659	In a WebI report, Hana prompts take more than 3 minutes to display
3020399	Edit Prompt values dialog box doesn't open up while scheduling a Web Intelligence document in BI Launchpad for document based on a context that has been removed after document creation

SAP Crystal Reports 2013

SAP Note #	SAP Note Text
3037025	The property with ID SI_FORMAT_XLS_REMOVE_HYPERLINK does not exist in the object (FWM 02021) error in format tab while scheduling a crystal report.

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 01 Patch 05

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3044181	Update of XStream to version 1.4.16 in Analysis for OLAP
3008960	On Unix platform, Web Intelligence fails connecting to Connection Server

SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
3008098	Viewing a BI workspace does not work after rename in BI 4.3

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3013543	Scheduled jobs go to failed state with SMTP SSL destination on Linux/Unix in BI 4.3
3018631	Instances Calendar view hangs on Fiorified BI
3063048	[CVE-2021-33697] Reverse Tabnabbing in SAP BusinessObjects Business Intelligence Platform (SAP UI5)
3036209	In Promotion management ,Unable create the job it's throwing action failed error
3034992	No Email Text Editor when the product locale of the account is set to Non-English in Fiori Launchpad
3015026	Adding File System Shared Directory path
2881874	Fiori BI Launchpad does not provide detailed Error Message for Analysis for Office workbook's Failed Instances
3031320	Cannot type in 'Change Management ID' field in 'Promote' Window of Promotion Management in Central Management Console (CMC)
2982615	Product Locale is still English in some places of Fiori BI Launch pad even though non english locale is set
3039287	"Java plugin for ClientAction is not loaded" warning messages in Trace log
3015140	Scheduling to email in BI Launchpad fails when using a STARTTLS enabled SMTP server
3038093	Reschedule a report to excel or pdf format is not possible from Instances menu of Fiori Launchpad

3033224	Search filters in the Fiori BI Launchpad do not exist
3039871	BI launchpad hangs when removing objects from favorites
3012378	File not uploaded to Folder using Restful Webservice SDK
3023084	Shortcut to report shows no instances in History page within Fiori BI Launchpad
3041890	Admin Studio and Monitoring applications Metric's pages display the 'Servers' hierarchy once for each node in the environment
3022589	Categories and subcategories are not sorted alphabetically in tree view within Fiori BI Launchpad
3044480	Promotion Management Wizard fails to export or import the security associated with selected applications
3036016	No Paste shortcut option available in the context menu in BI launch pad even the user has right of Add object to the folder for Shortcut
3044939	BI Workspace creation dialog looks slash
3006682	Universe overloads exclusion in Promotion Management Wizard (PMW)
3015931	Communications issues between servers on Unix
3017146	Destination login freezes in promotion job summary screen
3017722	Promotion management not overriding HANA JDBC Connection 'Database Name' and 'Host Name'
2988189	The options "Replace existing schedule" and "Create new schedule from existing schedule" do not appear when rescheduling a recurring schedule
3027772	java instance name Is there in promotion URL getting blocked
3005974	JMX Thread buildup in Monitoring Service on APS with hosts metrics enabled

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
2980515	[Data Federator Driver] [Server] [Connector 'connection name'] ConnectionServer has reported an Exception: String index out of range: 3 error in Web Intelligence
3042895	Refresh Structure Does not reflect latest changes on Multi source Information Design Tool Universe
3025095	In Information Design Tool, not able to set default value twice on member selector
3027101	Aggregate_Aware including key is causing wrong SQL

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
3021955	Excel freezes/hangs when executing an excel macro with Live office add-in enabled.

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3035088	Crystal Reports for Enterprise documents based off BEx Queries with hierarchies return invalid results after migration to BI 4.3.
3006742	Only the State property of BIItem objects can be changed. (SLS 24023), Error while saving linked universe with custom attributes with java Semantic SDK in BI 4.2
1764353	Universe Designer LOV Errors with Query Banding Feature

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3008814	When changing the source of a query using the Change Source wizard, a "'processDPCommandsEx' API (Error:ERR_WIS_30270)" error appears in Web Intelligence
3030922	Group Input control scrollbar is missing in Web Intelligence report Business Intelligence 4.3
3033708	Error (Error: RWI 00014) (Error: INF) appears when viewing or modifying a webintelligence report with section using Internet Explorer.
3028235	Opening a Web Intelligence document containing PNG images that fail to open may lead to a memory leak
3001971	Randomly, while opening a Web Intelligence document, you get a dialog box displayed with the following errors "com.sap.sl.datasourceinfo.impl.DataSourceInfoImpl" or "internal error"
3035268	Web Intelligence query panel does not retain UNX Business Layer view when modifying the data provider in HTML interface
3035268	Web Intelligence query panel does not retain UNX Business Layer view when modifying the data provider in HTML interface
3037545	In WebI Rich Client, it is impossible to open a document from Inbox
3013733	Hyperlinks tool tips displayed horizontally even if the text contains word wrapping in SAP BusinessObjects Business Intelligence 4.3

3034661	Unable to access Tool bar menus like "File", "Data", "Analyze" options in Web Intelligence Document Using <Tab> key on keyboard (4.3, 508 Accessibility issue)
3039147	No data displayed in migrated Web Intelligence document containing delegated measures based on relational universe
3038444	Applying two or more filters on a table with merged dimensions displays blank table in the Webintelligence report
3038608	Filter bar is not showing the object details when drill filter is applied
3040311	Web Intelligence Rich Client cannot display list of values for hierarchy dimensions in query panel
3040853	Refreshing Web Intelligence reports that retrieve large data gives "Communication error" in BI Launchpad
3038056	Webi processing server consumes 100 % of CPU while trying to view the Webintelligence report having multiple sections in page mode.
3042466	[HTML][Free Hand SQL StoredProcedure] In WebIntelligence, Cancelling the Refresh of a query does not work as expected
3042270	There is no option in Web Intelligence Document to select font size below 6
3041959	Calendar picker selection in Input Control shows a day less than what we selected in Web Intelligence calendar
3036002	Error (RWS 00070) when removing source documents from Web Intelligence Publication
3043339	Drill filter shows previously loaded List of Values instead of showing newly generated values from Web Intelligence Document refresh
3037592	When viewing a Webintelligence report that contains sections in page mode an extra blank page is added
3040371	Prompts are duplicated in migrated Web Intelligence document using custom query based on SAP HANA universe containing view with variables
3019345	Sort feature doesn't work correctly in a Web Intelligence cross-table when applied on a measure with aggregation function None
3043360	List of Values for prompts in Web Intelligence Interactive Viewer loads partial results and fails with error "Rule not respected"
2948654	Web Intelligence Processing Server crashes sporadically at int_initializeLOVParameterDependencies during document refresh in a Linux environment
3043368	Report does not display data from the second page after applying Drill in Web Intelligence Interactive Viewer (Fiori)
3043146	In Web Intelligence, the option "Apply changes in all queries sharing the same data source" is grayed out when trying to change the data source
3036330	Error "The object '[object name]' at position [no.] does not exist in the report. (IES 10006)" appears when parsing a variable that has object name in more than one line

3033070	Prompt properties option "Prompt with List of Values" modification does not reflect in Web Intelligence report
3050420	Create a variable with qualification detail and without an Associated dimension, the error "You have entered an invalid variable. Please enter another variable" appears
3000540	Error "Cannot find path of BusinessLayerItem" is thrown when performing Change source by user having restricted access in Web Intelligence
3013085	[EMPTY_VALUE] displayed in prompt values in schedule page if no value is selected
3015113	Error when modifying scheduling prompt values from BI launchpad and then from the same browser window switching to CMC, login, scheduling, modify prompts
2967166	An error is observed while Scheduling a Web Intelligence document based on an Hana Calculation View that contains variables when using an OLAP connection
3009947	Cannot upload the image as the Web Intelligence formatting rules background in SAP BusinessObjects Business Intelligence Platform 4.3
3028166	An internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270) when validating a custom SQL contains @prompt function in Web Intelligence
3044701	Search does not return the correct SAP HANA views at Web Intelligence document creation
2726425	The option "Generate separate CSV per Data Provider" generates only one CSV file even though the report have multiple data provider when clicking on instance in history page.
3001971	Randomly, while opening a Web Intelligence document, you get a dialog box displayed with the following errors "com.sap.sl.datasourceinfo.impl.DataSourceInfoImpl" or "internal error"

SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
3011612	After upgrading to BI 4.2 SP 8 Patch 6, the added description for the 'Display Label' is ignored in a chart, when the source is a Running Total in Crystal Reports for Enterprise
3049478	Crystal Reports for Enterprise Viewer 4.3 does not display decimal part of Microsoft SQL Server ODBC NUMERIC fields

SAP Crystal Reports 2013

SAP Note #	SAP Note Text
3032154	RWS 00070 error happens when reschedule Crystal reports based on BW data source in BI Launch Pad
3034517	The edit value page get hang after clicking the Edit Value link to set the parameters for Crystal Reports scheduling.
3040067	Export Options having "Isolate Report/Page Sections" and "Isolate Group Sections" do not work for Crystal Reports Viewer SDK
3036575	Scroll bar is missing in SAP Style prompt page when view a SAP report in SAP BusinessObjects 4.3 BI Launch Pad.
3035391	When scheduling Crystal Reports in Fiori BI Launchpad with prompt option "Prompt when viewing" disabled, prompts do not appear.
3036509	Crystal Reports Schedule Prompts dialog does not allow empty value when selecting from LOV
3042519	Error: "An error occurred while downloading the report from the SAP system.", when opening a report stored on SAP BW from Crystal Reports
3045774	Size and position conditional formula values of a text object cannot be get/set using RAS SDK
2981185	The text alignment is not expected when opening the report directly in Crystal Reports 2016
3044906	Crystal Reports scheduled from Fiori BI Launchpad with empty value for any mandatory range parameter will not fail
2433436	Data Object cannot be opened/accessed. Details: Table-level security check failed error displayed in Crystal Reports designer

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 01 Patch 06

BI-DEV-JAV-BE

SAP Note #	SAP Note Text
3048458	GetRelatedDependenciesFailed error message in Promotion Management & PMW

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3047192	Error when sending Analysis edition for OLAP workspace to BI Inbox in Fiori Launchpad
