About this Document

This document contains important information about fixes present in SAP BusinessObjects BI 4.2 SP2. Before installing the software, we recommend that you read the entire document. To find more information about this release see: <http://help.sap.com>

SAP Notes for SAP Business Intelligence Suite 4.2 SP2

Dashboards and Presentation Design

SAP Note Link	SAP Note Title
2243270	Texts in Dashboard are truncated in BI Launch Pad after enable Menu Bar with screen resolution set as 1366×768
2256326	In Dashboards, the range slider in charts does not grays out the deselected part of slider in preview mode.
2258449	Dashboard(SWF) go to infinite loop of generating a massive amount of HTTP request to BI platform after ending the web service session in CMC
2261141	In SAP Dashboards, BEx technical name is not displayed on Query Browser and Query Panel
2262374	Refresh Dashboard off DSL Query, certain cells contain data may become empty.
2266965	Gauge Component needle pointing at wrong position in Dashboard

SAP BusinessObjects Analysis, edition for OLAP

SAP Note Link	SAP Note Title
2174123	"Any unsaved changes will be lost" warning message should not be displayed in Analysis edition for OLAP for users who have only Read rights or when no changes are applied to the opened document
2241928	Performance issue when running Web Intelligence report based on filter using wildcard
2244541	In a AOLAP report based on a BW BEx Query, incorrect result is displayed when changing the formula type variable.
2245964	Conditional formatting does not take effect within Analysis, edition for OLAP when there is a Key figure Structure in the columns
2250252	Creating a workspace in Analysis edition for OLAP keeps spinning and returns a timeout error
2260497	Format number and format date in Analysis edition for OLAP workspaces are not correct with OLAP connection based on HANA provider
2260594	When exporting to Excel, "OK" button and "Export Key and Text Values as separate columns" checkbox are not always enabled as expected
2261467	Popup menu to insert, rename and delete sheets is no longer visible in Analysis edition for OLAP workspace
2262567	Export to Excel contains duplicated rows

2264455	In an Analysis workspace that is built off of an OLAP connection that is connected to an MSAS database, after selecting "Display - Hide All", an AOC00041 error is shown.
2264701	In SAP BusinessObjects Business Intelligence platform 4.1, the Upgrade Management Tool (UMT) throws an error while migrating Voyager Workspaces from SAP BusinessObjects XI 3.1 versions.
2271131	In Analysis edition for OLAP, swapping a hierarchy to another from the Background Filters display an error
2271750	Take into account hierarchy attributes to display checkbox for 'Export Key and Text values as separate columns'
2272822	Export to Excel is slow and can lead to timeout for crosstabs containing millions of cells

SAP BusinessObjects Analysis Office

SAP Note Link	SAP Note Title
2149070	Analysis Office : Performance improvement over WAN
2260878	Analysis Office - Unusual characters in prompt values cause problems when scheduling
2265964	Security vulnerability in Apache.Commons. Collections

SAP BusinessObjects Business Intelligence Platform

SAP Note Link	SAP Note Title
2100761	Importing an LCMBIAR file which was generated by "schedule" with the same name as an existing job disables the "Promote" button in the job
2112579	Functionality to set the 'report content' to 'latest instance' while editing the report from 'navigation list' in BI workspace not working properly in IE
2138144	BI4.x: Translated reports cannot be opened from FRS: "The document cannot be retrieved from the FRS (WIS 30951)(Error: INF)" error is shown
2138413	The "Documents" page takes a long time to display after clicking the tab "Documents" in BI Launchpad
2140667	Platform Search indexing stopped working due to that 'Platform Search (To Be Extracted) Queue' contains reference(s) to non-existent object(s)
2165000	Incorrect metrics in default BIP watches
2165031	BI 4.1 SP06 : Simple DeskI with Free Hand SQL based on Teradata connection fails with error Free-hand SQL connection
2165267	BI 4.1 : Data Series "Line width" option does not take effect when changed in WebIntelligence radar chart

2178638	Roles list is empty when configuring enterprise system with /crystal/rptadmin
2188913	Error "GetDocumentInformation exception (Error: WRE 99999)" will display while accessing the Web Intelligence document from Widgets through Apache Load Balance
2188952	Scheduled job fails because an "Object failed to run due to an error while processing on Job Server"
2199887	BW parameter value not displayed after refreshing CR4E report in BI Launchpad
2201054	Passwords set for email destinations do not get deleted for other users when the administrator removes it.
2202086	When SSO for CMC is setup with trusted authentication url.exit parameter is needed
2204581	Unauthorized modification of displayed content in BI Workspace - custom JS
2213566	The time stamp displayed in the Instance Details of a scheduled publication matches the time zone where the Central Management Server computer is running rather than the currently selected time zone on the BI launch pad.
2213863	BI launch pad probe fails with error "Could not logoff" when "url.exit" is set in BIlaunchpad.properties.
2214371	Potential information disclosure relating to BI CMC -logs
2215011	In BI 4.2, Crystal Reports DataDirect 7.0.1 ODBC drivers cannot work in specific upgrade scenarios
2215348	BI 4.x - Object Package brings the security accross without ability to modify it during Promotion
2216165	Connection of universe disappears after Promotion
2220464	ADMIN TOOLS:Cross-Frame Scripting in newpwdform.jsp
2221132	The tabs in BI workspace are shown strangely in Internet Explorer 11
2221795	Creating a filter object in Information Design Tool based on a Parameter with comma in the name, the Parameter appears incorrectly in the @Prompt() function
2221865	Crystal Report DB password getting blank after promoting when override DB name is changed .
2222384	Report Convresion Tool does not release session on exit
2222472	TREND_DETAILS table needs to have all the metrics added
2225392	Potential information disclosure relating to Monitoring Application
2226692	Potential information disclosure relating to Monitoring Application
2227224	Search key in the Web Intelligence prompt displayed for Bex query variable may return un-needed data from the master data table
2229293	Publication Enhancement to introduce Scope Batch Size Limit Settings in CMC and BI Launch Pad

2229493	interactive Analysis probe name need to be changed to Web Intelligence probe
2229607	Default (Initial) parameter value in Crystal Reports for Enterprise (CR4E) doesn't show up when scheduling
2232185	The right side of the tab is shown strangely when accessing BI launch pad by IE 11
2232251	Potential denial of service in Monitoring Application
2233834	"Monitoring service is disabled. Only probes are available" when accessing monitoring
2235653	Feature to exclude Infoobjects from Platform Search indexing based on SI_KIND
2236210	Web Intelligence reports that contain variants have the variants removed after the migration
2237110	Migrating MyInfoView objects results in error
2237794	OpenDocument kills BI Launchpad session
2240058	Error when adding a core with translated format & list of value referring unknown object
2240773	When using the option "Delete All Messages" in BI Inbox from BI Launchpad, receive the error message "the property with ID SI_CUID does not exist in the object (FWM 02021)"
2241546	Self-join will be automatically generated in data foundation when creating SAP HANA Business Layer on a HANA View
2242599	Error: "Object failed to run because its constraints refer to missing objects." occurs for event based schedule jobs when the event got deleted
2243301	Multiple Enterprise sessions are creating for the same user when opening OpenDocument links with windows AD SSO and OpenDocument and BI Launchpad are not sharing the enterprise sessions, even if the user is accessing the OpenDocument links via the same browser
2243444	Error occurs when running combined query with incompatible measure objects and if universe (UNV) parameter "JOIN_BY_SQL" is set to "Yes"
2243723	The following database error occurred: [ODBC Driver] Syntax error near')' on line xx. (IES 10901) when reporting from a universe via ODBC in Web Intelligence
2245839	SAP BusinessObjects server metrics values (exposed via JMX Monitoring/APS service) are not displayed correctly in Wily Introscope .
2246329	Custom hybrid or health probe completes with 'Schedule Failed'
2248055	BI 4.1 - Windows 2012 is declared as "Windows 2008 6.2" in the CMC Servers metrics for C++ processes
2248482	Unable to play media (.mp4) files from BI Launchpad.
2249053	Wrong report in instance on retry when scheduling a copied Web Intelligence document

2249634	Unauthorized modification (iframe injection) of displayed content in BIWorkspace
2249638	Data Federation connection is selected automatically when promoting WebI document with Promotion Management
2252086	HTTP Status 500 error Occurs when navigating to the CMC Preferences in BI workspace page
2252193	Japan_Failed to create user notification event
2252963	The viewer could not process an event. com.sap.connectivity.cs.core.CSError [CRSDK00001087] ---- Error code:0 [CRWEB00000119]' when refreshing or scheduling a Crystal Report for Enterprise report based on freehand SQL query
2253492	Information Design Tool Query Panel hang if the query retrieves a lot of column and a lot of rows
2257444	Performance issue when trying to generate the SQL script when having a query using a context that has a lot of tables and joins
2257685	Derived metric value is Unknown on the Metric page if the server name contains space in it .
2258709	Cannot Edit connection with the pool mode set to "Disconnect after each transaction" modified by Universe Design Tool
2260514	When using Bex query, hierarchies selected in Query Panel may not be displayed into Web Intelligence document
2261637	"Platform Search scheduling Object" runs successfully even when APS hosting Platform Search service is stopped
2265964	Security vulnerability in Apache.Commons. Collections
2266144	RCT header logo comes in all over the report
2269115	New trace available for JCo client calls with size of packets exchanged
2271128	Business Layer Editor option "Generating names for business layer items" in Information Design Tool does not work for relational connection type "SAP R3 Release 4"
2273675	Authorization control in HANA system is not applied to View List in Web Intelligence
2274286	XSS in BI Documents send action.
2276442	In Information Design Tool Query Panel, if you double-click a filter it is not added in the query
493797	ML90 Settings for field selection "Limits"

SAP BusinessObjects Business Intelligence Platform SDK

SAP Note Link	SAP Note Title
2162478	Endless loop bug fixed for KPIScript.jar

2194489	Error: Item '4' does not exist in enumeration'null'. (FWM 04016), when attempting to save or open a report in Crystal Reports for Enterprise
2201709	In BI4.1 SP06, when adding objects in Version Management of the CMC, a yellow warning triangle appears saying "The Version in CMS is newer"
2208612	Google Chrome's browser fails with frownie face when BI 4.1 SSO is configured on 4.1 later SP's
2213353	CORBAResponseTimeout setting located in clientSDKOptions.xml is being ignored
2216627	New functions added in KPIScript.jar file

SAP BusinessObjects Desktop Intelligence

SAP Note Link	SAP Note Title
2065534	Universe Link security problem

SAP BusinessObjects Explorer

SAP Note Link	SAP Note Title
2157477	Exporting an Information Space to Web Intelligence format fails with an error when the type of a dimension is "Number"
2209934	Unable to reconnect to CMS' error when attempting to index some Information Spaces in a CMS clustered environment
2249483	An error may be thrown when opening the export window from an information Space based on BWA
2251100	Refresh events are not captured by the audit when an Information space is manually indexed.
2260895	Potential information disclosure relating to Explorer web application server

SAP BusinessObjects Live Office

SAP Note Link	SAP Note Title
2236855	Error refreshing more than 10 LiveOffice objects
2261022	After changing the preferred viewing locale in Live Office , The Web Intelligence document doesn't show the appropriate filtered data
2275086	In Live Office, refresh the section report off Webi report with changed prompt would throw an error.

SAP BusinessObjects Mobile

SAP Note Link	SAP Note Title
2226800	Cannot show [EMPTY_VALUE] in prompt LOV
2226898	Input Control always displays "All Values" as one of the option
2226920	Blank spaces are added to display text in place of line feed when wrapped is allowed on the table cell
2228956	Support for Query Drill on Document
2229088	When trying to export Information Space content and closing it abruptly creates a temp file

SAP BusinessObjects Web Intelligence

SAP Note Link	SAP Note Title
2075599	Modifying the query of a Web Intelligence document reporting off of UNV Universe to SAP BW BAPI removes prompt values when keydate reset
2129332	Data missing when exporting Web Intelligence report to XLS if a break is applied to a column
2164171	The last selected prompt values are ignored if clicking Prompts when creating a Web Intelligence recurring schedule
2180093	PromptSummary() predefined cell in a Web Intelligence report lists prompts in alphabetical order, rather than the correct order as specified in the BEx query
2199333	Width of table column changes when "Count/Max/Min" functions are applied.
2203185	Check Integrity replaces @Select with @aggregate_aware in Information Design Tool
2204903	Live office prompt dialog box error LO 02031 occurs when clicking on list of values column header to sort the list
2209316	Web Intelligence document keeps refreshing data if you create a Web Intelligence document in HTML mode with only database delegated measure and have "Automatic refresh when needed (#TOREFRESH not displayed on reports)" property checked in Central Management Console
2212581	Prompt values are being rounded off in case of UNX
2215640	In Web Intelligence reports, SQL statement is not updated when using contexts in Web Intelligence Rich Client and in Applet mode
2222407	Descendants option of a Tree List Input control on top level node of hierarchy object doesn't work after resetting several times using HTML report panel

2224551	An error "Object reference not set to an instance of an object" is seen when opening a Web Intelligence documents that contain OpenDocument links within Widgets
2225019	Web Intelligence document using Bex query with grouping sets runs much slower than same Bex query executed with RSRT transaction
2227228	Internet Explorer 10 may crash when selecting a prompt value or when mouse over prompt values on a Web Intelligence report using HTML mode
2228011	Values in selected field can be manually changed for Web Intelligence interval prompt created based on a Bex query in html mode
2228172	Report Conversion Tool fails to convert any Universe based Desktop Intelligence report if the source environment is SAP BusinessObjects Enterprise XI R2
2228294	Intermittent "API" errors are observed when searching a prompt's List of Values in Web Intelligence reports
2228916	Merged dimensions are not available for Add Element Linking option in Web Intelligence HTML mode
2230180	When removing a report level filter from a Web Intelligence document, you get the error 'Expected a ',' or ']' at character 3(Error: INF)
2230994	In Internet Explorer 8, "'" is displayed in Input controls, when apostrophe is used in the List Of Values
2232047	Drill filter applied to a dimension containing carriage return is not returning values in Web Intelligence HTML interface mode
2232222	Wrong results in Web Intelligence report after migrating Web Intelligence document
2232806	Cannot Copy & Paste measure variable when a Web Intelligence report has a large amount of data (about 1.5 million) in Java mode
2233335	In the Web Intelligence HTML interface, when duplicating a Query that contains a subquery, the editor hangs
2235502	Web Intelligence formatting rule gets duplicated
2236280	Arabic thousand separator appearing in wrong position
2236309	If a Web Intelligence report with a prompt is refreshed then closed, the session is then orphaned
2236328	An internal error occurred while calling 'openDocument' API (Error: ERR_WIS_30270) (Error: INF)
2236904	Cannot copy prompt value in Web Intelligence HTML mode
2238341	Some objects cannot be selected in the Web Intelligence HTML designer when hosted in a .NET browser control with IE 11
2239681	Tooltip shows if put mouse over chart in WebI HTML mode when using IE8
2240259	Error: com.businessobjects.sdk.core.server.CommunicationException \$UnexpectedServerException: Can't find info object with cuid: AVmJiqdOvoRBoU1vQCZydFE

2241490	A null value appears as "undefined" instead of EMPTY_VALUE in the Prompts Summary window when refreshing a Web Intelligence document in the Web Intelligence HTML interface
2242985	Unhandled Webl error with RCT
2243701	Custom Data Source Objects order is lost while changing object qualification in Query Panel
2243955	"RS must be validated" error occurs when adding new data provider into a Web Intelligence document
2244879	When AdaptiveProcessingServer server is down, the "Insert comment" buttons is not greyed after saving a document
2244945	The order of the prompts in Web Intelligence documents is incorrect under some scenarios
2245102	The pop-up text is incorrect when hovering the mouse over the prompt value window in Web Intelligence documents using the HTML interface
2245142	Users are unable to see the icons when they modify the Web Intelligence reports and use tools-->Turn Into-->More Transformations
2245600	Report Filter applied on a measure is returning incorrect results in Web Intelligence
2246413	No data is shown in a Web Intelligence document when using the PDF viewer in BI Launchpad
2246501	3 of 9 Barcode Font in a Web Intelligence document are not displayed in PDF View or in PDF Export
2248256	Name of variable is not displayed in Applet Mode
2248513	Search for objects that contains a word which appears in the document name does not take effect in Web Intelligence Java mode or Web Intelligence Rich Client
2248880	Web Intelligence containing a large number of variables cannot be opened anymore after saving
2248903	#ERROR is displayed if we use special character \$ with function "Group" in Web Intelligence
2250879	List of values of a hierarchy node variable displays inconsistently with selected value for hierarchy variable
2251342	The Run button remains greyed out in the Web Intelligence User Prompt Input interface when all expected prompt values are entered
2251500	Default selected location is wrong in Save Document window when Save as Web Intelligence document in View mode and the view mode is Web Intelligence Applet interface
2251711	Cannot insert a Shared Element that contains hierarchy object from a Bex query
2251713	Value axis numeric custom format is not correctly migrated from SAP BusinessObjects Enterprise XI3.1 to SAP BusinessObjects Business Intelligence platform 4.1
2251937	The default prompt values for Web Intelligence documents are incorrect in the Central Management Console

2252023	"Undefined" prompt header appears in HTML mode query panel prompt dialog box for Web Intelligence documents that use an Universe with prompt and a static list of values
2252425	Cross table structure changes when clicking on the "Apply" button in the "Assign Data" menu without performing any changes
2252425	Cross table structure changes when clicking on the "Apply" button in the "Assign Data" menu without performing any changes
2252477	There is an error when running multiple queries and one is empty in Java query panel
2252646	When exporting Web Intelligence documents to PDF, the resulting PDF trailer is formatted incorrectly
2253050	Clicking the Run button within the User Prompt Input tab in Web Intelligence documents does not return the expected data
2253215	"Error: RWI 00011" When Autofit Height is Enabled for a Very Large Cell in Web Intelligence
2253835	Clicking on a section in the Report Map links to an incorrect section / page of the Web Intelligence report
2253917	Universe security is computed before the document security in Web Intelligence
2254380	Error when opening a Web Intelligence report from BI Launchpad in "MODIFY" mode : "The action cannot be performed. (WIS 30650)"
2254971	Incorrect values are displayed in report due to change in list of values for input control with JAVA client
2255714	When opening a Web Intelligence document in HTML viewer that has a values from List Of Values, it does not use the cached List Of Values
2256711	The query panel preview is empty unless you refresh it before you switch query, in a multi query document
2257449	Report ID value in Web Intelligence Extension Points
2257656	Error occurs after clicking "Close" then "Apply changes and Close" in Web Intelligence query panel Result Objects area when data source is a BEx query containing mandatory BW variable with a default value setting
2258045	Ranking is not sorted correctly when section is present in a Web Intelligence report
2259161	Error message appears in Web Intelligence report when renaming a Variable which has a Detail Qualification with an associated merged Dimension object
2259308	Translated reports are partially consumed in Web Intelligence
2259346	Rows in Web Intelligence documents are cut off when viewing it from a link to a report block/report part when using Internet Explorer 9
2259788	Autofit width option is not working properly in Web Intelligence report
2259924	Web Intelligence report with Barcode characters such as Ñ (capital N letter with Tilde) or Ó (capital O letter with Acute) using code128.ttf font are not correctly exported to PDF

2260512	Paste of shared objects on not authorized universe/connection should return an appropriate error message
2260571	Combined Queries with in Web Intelligence documents change when it is refreshed
2261090	Web Intelligence document that contains many queries hangs when refreshing
2261126	Click the save button caused the whole page hanging in Java mode when user only has view objects right to the Web Intelligence document
2262238	Database Credential Mapping does not work in BI 4.2
2262278	The refreshed List of Values is not saved for optional prompts when switching between prompts in Web Intelligence
2263054	Input Control not working properly in HTML Report panel
2263153	Index aware prompt doesn't work as expected in Web Intelligence
2264132	Shared Element name is lost after inserting a new report in document and structure map
2264802	After removing a column/row with calculation, the footer of calculation does not disappear
2265277	Web Intelligence RESTful Web Service is too fast on small Excel files reupload
2265695	Unexpected Error when requesting information on Data Provider
2265696	Deleting a Shared Element deletes the depending universes
2265803	Audit save event (1008) is not generated when saving a Web Intelligence document or exporting a PDF into a local folder via a connected Web Intelligence Rich Client
2265814	Query as a Web Service shows large numbers in scientific format (engineering notation)
2265964	Security vulnerability in Apache.Commons. Collections
2266488	Some of the text in the Input Control wizard is the wrong color in Web Intelligence
2266942	Web Intelligence reports that have refresh on open checked no longer refresh on open after being migrated from a prior support pack
2267700	WebIntelligenceProcessingServer server crashed and restarted when canceling a query for several times in BI LaunchPad
2270555	Scheduling to SMTP destination fails with Web Intelligence RESTful web service.
2270762	The metadata provided by the Web Service is incorrect after switching dswsobje to process through Raylight (Restful)
2271311	Incorrect Instance ID returned when scheduling with a Web Intelligence report using Restful API
2272087	Web Intelligence report doesn't open any more after migration to a more recent release

2272387	User action in the Query panel of Java interface didn't extend the BI LaunchPad timeout
2272703	Invalid answers. System "<SID>" Specify a value for variable <VARIABLE NAME>. error appears in WebIntelligence
2272912	Web Intelligence scheduling using RESTful gives error
2273092	Error occurs when entering negative parameter for Lag function in Web Intelligence
2274427	After an upgrade of BusinessObjects Enterprise, comments in Web Intelligence are not displayed in the left pane
2275293	WRC 4.2 SP03 connection issue to CMS 4.2 SP01/SP02

SAP Crystal Reports 2016

SAP Note Link	SAP Note Title
2178933	Failed to retrieve data for crystal reports off universe having constant date type parameter
2204556	Crystal Reports dynamic lov is shared between sap users with row level security
2238403	Add registry key to switch PrintMode between PrintToPrinter and PrintOutputController in WinForm Viewer
2253291	Crystal Reports Designer 2013 takes a long time to retrieve a report from BI Platform if this report has thousands of instances
2253469	Could not copy OLE object as picture from Crystal report .NET Winform Viewer
2255761	Editing prompts values when scheduling a Crystal Report in BI Launchpad takes a long time if the report contains thousands of instances
2255770	Manual configuration is needed for JDE and Siebel Integration Kits after removing Oracle JRE from BOE or CR2016 Installer since 4.2 SP02
2256445	The custom formula which is created in Crystal report and contains ModificationDate, ModificationTime is not getting updated when it is scheduled
2257056	Prompt appeared repeatedly after setting the parameter of stored procedure to null for crystal reports in .Net viewer/IOMS.
2260218	Need extend password length for connection to pervasive database using btrieve driver
2263325	On .Net Framework 4.6 installed machine, "boj" undefined error will throw out when viewing a report via Crystal Report .NET WebForm Viewer in WebSite or WebApp
2265442	View Crystal Reports using Java Applet Viewer in Microsoft Edge browser and Chrome 45+, Redirect to DHMTL Viewer to avoid blank page.
2265964	Security vulnerability in Apache.Commons. Collections

2267580	When PrintMode set to PrintOutputController, CR.NET Winform Viewer cannot print the content of current tab, but always print the whole report
-------------------------	---

SAP Crystal Reports for Enterprise

SAP Note Link	SAP Note Title
2110047	Data type incorrect on Webi parameter
2184208	"An error has occurred Reading of delta part XXXXX deactivated" when using the search option for a mandatory BW parameter in Crystal Reports for Enterprise
2197639	No fields display in the Data Explorer when creating a report on a Universe Business Layer View in Crystal Reports for Enterprise
2222603	Crystal Reports 20xx reports lose their field formatting after being refreshed within Crystal Reports For Enterprise
2225475	Unable to use LONG or CLOB Oracle datatype in Crystal Reports for Enterprise
2241030	CR4E crashes when attempting to view the 'views' folder of a specific HANA database schema
2246798	Amazon Redshift drivers packaging with CRE
2249590	Select All Values button inactive in Crystal Reports for Enterprise parameter prompt screen
2250776	Chart Font Size in Crystal Reports for Enterprise changes automatically or is not retained
2258879	Crystal Reports for Enterprise hang when exporting a report to CSV or MS Excel that contains no data
2271851	In Crystal Reports for Enterprise, the file size of exported Excel with graphs is large than expected.

SAP Lumira, Server for BI Platform

SAP Note Link	SAP Note Title
2265964	Security vulnerability in Apache.Commons. Collections
