Notes related to security corrections will not be listed in this release note. Information on relevant security corrections can be found in the SAP Support Portal within the Security Patch Day section.

## Fixed Issues for SAP BusinessObjects BI 2025 Patch 09

### SAP BusinessObjects BI Workspaces

SAP Note	Description
<a href="#">3626227</a>	BI Workspace Issue

### SAP BusinessObjects Business Intelligence platform

SAP Note	Description
<a href="#">3608419</a>	Error: "com.crystaldecisions.sdk.occa.report.lib.ReportSDKExceptio: org/apache/commons/configuration2/CompositeConfiguration---- Error code: -2147467259 [RSDK00000924] Error code name:failed" when importing a Crystal Reports for Enterprise report in Trans
<a href="#">3697416</a>	Scheduling reports via BI Launchpad in SAP BI 4.3 SP4 and SP5, the placeholder %SI_VIEWER_URL% is not being replaced and appears as plain text in the email body.
<a href="#">3696674</a>	"Invalid confidential channel (FWB 00032)" error happens intermitently on LogonWithToken
<a href="#">3705109</a>	Blank page during login to BILP (Windows AD SSO)
<a href="#">3595099</a>	Refresh tokens are not replaced on use, expire after 90 days for oauth workflows in BI
<a href="#">3653817</a>	Preventing Cycles while creating in User and User Group relationships
<a href="#">3697082</a>	Trusted Authentication with CORBA SSL fails in 4.3 SP04 patch 1500+, BI 2025 patch 600+, 4.3 SP05 patch 300+
<a href="#">3716215</a>	runbobsldds script failure due to missing class files
<a href="#">3684252</a>	When login via WinAD SSO it displays the URL instead of the configured name in app.name.short
<a href="#">3724948</a>	Publications fail / cluster communication fails after upgrade to 4.3 SP05 Patch 400 / BI 2025 Patch 800
<a href="#">3634176</a>	Scheduling a Web Intelligence Document fail with error if File path is greater than 256 characters
<a href="#">3628016</a>	"isHyperlink=true" is appended to the URL when opening hyperlinks in BI launchpad

### SAP BusinessObjects Information Design Tool

SAP Note	Description
3668960	"Associate List of Values" become checked after converting universe from unv to unx in Information Design Tool.
3714376	Using WITH clause with Hana generate Error: "WITH". The WITH clause is not allowed in derived tables. Use the @DerivedTable function if you want to include derived tables.. (IES 01028)
3618593	ERROR "An error has occurred see the log files" when user launch Information Design Tool
3677921	Find/Replace feature does not work with object containing special characters in Information Design Tool
3678207	Error: "Unexpected error: ..an invalid XML character was found in the value of attribute "description" .." when opening the Business layer for newly converted UNV universe to UNX
3617036	"Error getting schema information: Metadata Initialization Error" when using IDT to expand a Databricks Catalog
3663888	The description of a Universe duplicates and may become very large
3702746	Error "Could not initialize class com.businessobjects.i18n.monofmtlib_jni.monofmtlib" in Information Design Tool in BI 2025
3680212	Web Intelligence - Error "Unable to connect to the InfoStore"

### SAP BusinessObjects Semantic Layer

SAP Note	Description
3700465	In OLAP universes, BW presentation of dimension shifts from MIDDLE_TEXT to KEY when dragging related detailed dimensions in the Query Panel
3700715	Adaptive Processing Server with DSLBridge service is taking very high CPU usage after refreshing Web Intelligence document based on specific SAP BW query
3653605	Drill-down in a Web Intelligence report based on Teradata fails with [Teradata Database]{-3504) Selected non-aggregate values must be part of the associated group
3702539	Unable to utilize objects from different tables in query in Information Design Tool. Error: Custom query script validity check error.
3705898	Prompts dialog does not show up when refreshing Web Intelligence report based on SAP BW if user in OLAP connection uses variable with default value on BW side
3697773	Error occurs when refreshing SAP BW hierarchy node List of Values in Web Intelligence Prompts box
3708418	Wrong data displayed for SAP BW hierarchies in Web Intelligence report in case of query stripping
3712521	While creating a Web Intelligence report using SAP Datasphere parent hierarchy object, the data appears to be displayed in a flat structure rather than the expected hierarchical format
3713110	Error occurs when refreshing Web Intelligence document using SAP Datasphere Analytical Model containing Calculated Measure
3714620	Error occurs when refreshing Web Intelligence report based on SAP Datasphere Analytic Model containing restricted key hidden calculation measures with "Is Auxiliary" setting enabled
3671892	Existing Web intelligence schedules are failing with below error "[no data to fetch ("pmHana Variable xx.xx": no given values)]" after upgrading to SAP BusinessObjects Business Intelligence Platform 2025.

### SAP BusinessObjects Web Intelligence

SAP Note	Description
3667275	WIDx offline export - show/hide by variable
3702031	When opening a scheduled instance of a Web Intelligence document, after Refresh of Data mode, the data preview grid is wrongly replaced by report tabs of Design mode
3701615	Extra blank row was inserted after each row when exporting Web Intelligence report into CSV file

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3681901	"An internal error occurred while calling 'updateRS' API" occurs when modifying the report table in Web Intelligence
3596586	"Internal server error. (RWS 00070)" error is shown when trying to view Properties page of a publication in BI Launchpad
3698064	URL-based images with an extra space at the end do not render in a blank cell of a Web Intelligence document
3704527	In a Web Intelligence document, hide section when a block is empty is not working
3692084	Web Intelligence cannot open the Query Panel when the document uses many Business Layers with huge descriptions.
3705680	Scheduling a document with CSV format and charset Japanese (Shift_JIS) generates the output file in UTF-8
3616669	Error: An internal error occurred while calling 'updateRS' API (Error: ERR_WIS_30270) occurs when executing a modified query in Web Intelligence
3657483	"Corporate" palette is not available in Web Intelligence document, after adding VisualizationConfig.xml file
3708419	Empty values displayed in Web Intelligence document using option "Show empty dimension values" on blocks containing variables with objects from several queries
3709340	WebIntelligence shows tooltips with unwanted extra right and bottom borders.
3700490	Web Intelligence Processing Server crashes when exporting a hidden report element to CSV using Web Intelligence RESTful Web Service.
3708529	Error while creating Web Intelligence document based on Excel "Unable to create or update the Excel personal data provider: cannot open the workbook. (IES 10872)"
3699498	Web Intelligence document opened in a new tab doesn't take user theme in BILaunchpad
3681553	Schedule a Publication with Web Intelligence document without prompts on Central Management Console is Failed
3710247	Cannot set the Minimum and Maximum Value in Axis x when using a scatter plot in Web Intelligence document due to missing settings
3713398	In a WebIntelligence document, a dimension merged from numeric dimension objects shows #SYNTAX after migrating from BI4.2
3700932	Refreshing a Web Intelligence document based on the BEx Universe may take more time in BI 2025 compared to 4.3
3530204	The Relative Position of an inserted cell doesn't work properly (Top/Bottom side of... the cell, appear blank)
3686714	Exclusive Server Groups - WebI Report with BW connection
3649757	Adding a column or hiding/unhiding column from cross table, breaks the Web intelligence table layout.
3690539	Refreshing a Web Intelligence document in OpenDocument with a serialized session might throw an error.
3689370	Web Intelligence documents using HANA HDI variables failed after upgrading past SAP BI 4.3 SP4 Patch 9
3689370	Web Intelligence documents using HANA HDI variables failed after upgrading past SAP BI 4.3 SP4 Patch 9
3693519	Incorrect prompt option displayed in Schedule page for Web Intelligence document based on OLAP universe containing SAP HANA variable
3693825	Recurring scheduling of Web Intelligence document is failing or use wrong Prompt values after modification of the document.
3693825	Recurring scheduling of Web Intelligence document is failing or use wrong Prompt values after modification of the document.
3681369	No data is visible when attempting to schedule reports to the "Shared with me" folder in OneDrive
3678005	The headers are gone when drag object into Data Assign area for Web Intelligence Crosstab
3344629	Unhiding object, or hiding it in web intelligence document having FOLD/UNFOLD with breaks remove document formatting and data.
3698017	AdaptiveProcessingServer crashes with "Corba error..." when trying to run a query on XMLA universe source

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

<a href="#">3370207</a>	An Extra Row is added to table below Total/Sum Row and background color formatting done on Sum row disappears
<a href="#">3650493</a>	Performance issue while loading folders when saving a document in Web Intelligence
<a href="#">3655902</a>	When exported to PDF, hyperlink in Web Intelligence report label are not displayed in the generated PDF document
<a href="#">3667275</a>	WIDx offline export - show/hide by variable
<a href="#">3672584</a>	Web Intelligence does not keep the inactive open Web Intelligence documents when the user is working on at least one of the documents.
<a href="#">3672584</a>	Web Intelligence does not keep the inactive open Web Intelligence documents when the user is working on at least one of the documents.
<a href="#">3653611</a>	OData link generated from Web Intelligence with large number of records when consumed in Excel, shows partial records
<a href="#">3676907</a>	Few Entries missing in the NodeName_bobjslddsoutput.xml file

**SAP Crystal Reports 2025**

SAP Note	Description
<a href="#">3695662</a>	Error CRSDK00001013 [CRCAF00000042] occurs when setting dynamic recipients for publication using a non-administrator account with data source reference.
<a href="#">3704264</a>	Internal server error happens when reschedule a none-crystalreport instance.
<a href="#">3629798</a>	The <updated> field/tag was not presented in rpt/data.svc for CR2020 reports
<a href="#">3652359</a>	CR2020 Restful SDK: Interactive parameters should not be ignored in rpt/export and rpt/data.svc
<a href="#">3659085</a>	Http 500 error appeared when calling Crystal Reports Restful endpoint rpt/structure, data, data.svc and export.
<a href="#">3672811</a>	Guide users to use correct refresh URI for crystal reports and crystal reports for enterprise.

## Fixed Issues for SAP BusinessObjects BI 2025 Patch 08

### BI-BIP-SEC

SAP Note	Description
<a href="#">3674246</a>	[CVE-2026-0508] Open Redirect vulnerability in SAP BusinessObjects Business Intelligence Platform

### SAP BusinessObjects Analysis, edition for OLAP

SAP Note	Description
<a href="#">3679095</a>	In Central Management Console, unchecking the "Save Language" option in an OLAP connection does not preserve the expected language after reopening the connection

### SAP BusinessObjects Business Intelligence platform

SAP Note	Description
<a href="#">3697256</a>	[CVE-2026-24325] Cross Site Scripting (XSS) vulnerability in SAP BusinessObjects Enterprise (Central Management Console)
<a href="#">3690823</a>	LDAP users are not imported and logon fails with server referrals and special characters
<a href="#">3687851</a>	Install or upgrade or CMS Copy Data Source failing on Hana Database
<a href="#">3695912</a>	[CVE-2026-24324] Denial of service (DOS) vulnerability in SAP BusinessObjects Business Intelligence Platform (AdminTools)
<a href="#">3697256</a>	[CVE-2026-24325] Cross Site Scripting (XSS) vulnerability in SAP BusinessObjects Enterprise (Central Management Console)
<a href="#">3642697</a>	Inbox documents are not cleaned up according to Inbox Limits
<a href="#">3678282</a>	[CVE-2026-0485] Denial of service (DOS) vulnerability in SAP BusinessObjects BI Platform
<a href="#">3679325</a>	Central Management Server Query Timing Trace File Enhancement
<a href="#">3680414</a>	Opendocument link to a BusinessObjects PDF only shows first page when accessing from iOS device
<a href="#">3687737</a>	Reduce verbosity for HttpClient for CURL Operation
<a href="#">3684975</a>	Prevent access of user data for system account

### SAP BusinessObjects Semantic Layer

SAP Note	Description
<a href="#">3692484</a>	Different results are returned when refreshing twice a same report based on SAP BW query with prompts
<a href="#">3692185</a>	Error occurs when refreshing Web Intelligence report based on SAP BW query using Query Filter with Between operator
<a href="#">3693889</a>	Hierarchy levels are not displayed in Web Intelligence report based on SAP BW query using relative depth in member selection
<a href="#">3679252</a>	Loading connections and universes from repository takes long time in Information Design Tool.

## SAP BusinessObjects Web Intelligence

SAP Note	Description
<a href="#">3685290</a>	WebIntelligence Processing server crashes while modifying the query of a document with multiple dataproviders
<a href="#">3681904</a>	Web Intelligence SAP HANA HDI Prompt values were gone after upgrading from SAP BI 4.3 SP02 Patch 9 to SAP BI 2025 Patch 4
<a href="#">3671892</a>	Existing Web intelligence schedules are failing with below error "[no data to fetch ("pmHana Variable xx.xx": no given values)]" after upgrading to SAP BusinessObjects Business Intelligence Platform 2025.
<a href="#">3671892</a>	Existing Web intelligence schedules are failing with below error "[no data to fetch ("pmHana Variable xx.xx": no given values)]" after upgrading to SAP BusinessObjects Business Intelligence Platform 2025.
<a href="#">3689324</a>	Web Intelligence Query Panel does not manage filters based on Compound key attribute as expected
<a href="#">3598305</a>	An error occurs when saving a Web Intelligence document using Web Intelligence RESTful Webservice.
<a href="#">3685016</a>	In a WebIntelligence document, strings created using =GetLocalized() function is not visible in Translation Management Tool.
<a href="#">3691548</a>	For a WebIntelligence document based on UNV universe, the order of dimensions displayed in exported CSV file and in result object of query panel has changed
<a href="#">3689429</a>	Changing the name of Measure object is reverted to original name on Web Intelligence document refresh based on SAP Datasphere
<a href="#">3690599</a>	Custom format defined on date object in a saved Web Intelligence report reverts back after refresh or run query
<a href="#">3395315</a>	Context window does not appear when clicking "view script" in Web Intelligence document even though the option "reset context on refresh" is checked and "clear context" was applied.
<a href="#">3689408</a>	In a WebIntelligence document, delegated measure displays persistent #TOREFRESH
<a href="#">3693887</a>	Web Intelligence Processing Server crashes when adding an object to a table that contains a hierarchy with child first sort applied
<a href="#">3678950</a>	Web Intelligence processing server crashes when running a report after modifying objects in the query panel.
<a href="#">3682864</a>	In Web Intelligence, many menu options show unnecessary blank spaces before the actual entries

## SAP Crystal Reports 2025

SAP Note	Description
<a href="#">3700342</a>	Error "The start page cannot be greater than the stop page" When schedule report to print

## Fixed Issues for SAP BusinessObjects BI 2025 Patch 07

### BI-BIP-SEC

SAP Note	Description
3674246	[CVE-2026-0508] Open Redirect vulnerability in SAP BusinessObjects Business Intelligence Platform
3674246	[CVE-2026-0508] Open Redirect vulnerability in SAP BusinessObjects Business Intelligence Platform

### SAP BusinessObjects Business Intelligence platform

SAP Note	Description
3684390	Windows AD Plug-in Corruption when AD group(s) deleted from the winad backend
3684390	Windows AD Plug-in Corruption when AD group(s) deleted from the winad backend
3593344	BW events-based scheduling fails in 4.3 SP04 and later versions
3589745	Internal server error "RWS 00070" thrown when downloading Excel files using Restful SDK with tomcat port 8080
3301312	Schedule webi report to Google Drive fails when format is not Webi and instance title is Chinese
3647410	Ping Federate OpenID Single Sign-On fails in BILaunchPad with 'an error occurred'
3663277	Supported Ciphers with SAP BI
3668411	Implement Web Assistant proxy timeouts by default
3548027	Reposcan repair removes recurring instances of program object.
3654236	[CVE-2026-0490] Denial of service (DOS) in SAP BusinessObjects BI Platform

### SAP BusinessObjects Information Design Tool

SAP Note	Description
3651783	@Variable("DBUSER") function returns "Default" Data Source Reference value when used with Web Intelligence Rich Client
3639984	Incorrect German translation of "Duplicate Data/Business Security Profile" options in the Security Editor of Information Design Tool
3669513	Creating a Web Intelligence document on a converted UNX universe fails with error: "The object <Object_Name> has an invalid type. (IES 10710)"
3678078	Options in the Find/Replace window of Information Design Tool overlap when the language preference is set to German

### SAP BusinessObjects Semantic Layer

SAP Note	Description
3664334	Opening session to SAP Datasphere database in Web Intelligence takes a long time
3666186	Error occurs while refreshing a Web Intelligence report based on SAP BW query with variables and using prompt values that do not have corresponding data in the backend
3666095	While refreshing a Web Intelligence report based on SAP BW query and containing a block-level filter on a detailed object, no data is retrieved for the table where the filter is applied
3666095	While refreshing a Web Intelligence report based on SAP BW query and containing a block-level filter on a detailed object, no data is retrieved for the table where the filter is applied

## SAP BusinessObjects Web Intelligence

SAP Note	Description
3480992	E-mail addresses are not appearing as hyperlink in Web Intelligence after upgrading to SAP BusinessObjects Business Intelligence platform 4.3 Support Package 04 Patch 4
3480992	E-mail addresses are not appearing as hyperlink in Web Intelligence after upgrading to SAP BusinessObjects Business Intelligence platform 4.3 Support Package 04 Patch 4
3652389	"Show main panel" Web Intelligence bar buttons disappear when switching from Reading to Design Mode and back to Reading
3666649	A message disappears in a second while exporting Web Intelligence document
3667870	when * is added as allowed url , this will allow only http, https and mailto
3681543	[widx][RTL] Document option RTL is not kept in document exported in Widx
3665540	Error: "Your Web Intelligence idle connection has expired. Close this document and reopen." when editing Web intelligence cube's join in Data mode, and that causes Web Intelligence Server to crash.
3653274	The prompt dialog display slow when refreshing the Web Intelligence against the Hana database via universe
3661656	Language display behavior in Web Intelligence when "Language" field is set to any preferred language in SAP BW OLAP connection
3668825	Export the webi report Data content into CSV format by charset Japanese (Shift_JIS) but the output file is in UTF-8
3567040	Changing locale to Portuguese, values in prompt doesn't pick comma(,) as decimal separator of a number in BI Launchpad.
3669725	WebIntelligence processing server crashes when using nofilter formula on an expression with In block context modifier
3669255	"Please refresh your document to get this input control's list of values" warning displays when trying to get the Input control's list of values in Web Intelligence document
3659119	In BiLaunch pad, scheduling document with Excel Report option as format, the option is not taken into account
3665929	Adding ReportMode=Light with NAII to a Web Intelligence OpenDocument link is affecting how prompts being displayed
3324930	Scheduling to File system with %SI_DATE% placeholder doesn't show the date in the destination field in instance history
3658698	Converted universes having columns delimited with Back-Quote are unusable with Sybase connection
3670194	Data source field is empty, unable to save with FWB 00026 in specific OLAP connections in BI 2025
3667156	"#DATATYPE" error is displayed instead of Name of referenced query when using =NameOf(<Query name>) formula in web intelligence document.
3674375	Details without a parent are removed from web intelligence document Query Result Panel after editing their Query
3659119	In BiLaunch pad, scheduling document with Excel Report option as format, the option is not taken into account
3674520	Slowness in loading OLAP connections in Web Intelligence
3680177	Documet is opened in "new" window even if opening parameter is set to "current" window in the OpenDocument link
3685282	WebIntelligence Processing server crashes when modifying a variable based on the formula InputControlFilter

**SAP Crystal Reports 2025**

SAP Note	Description
<a href="#">3681767</a>	Crystal Reports designer crashes when opening a report containing OLE Object, migrated from Crystal Reports for Enterprise
<a href="#">3683658</a>	Product locale of Crystal Report Viewer 2025 is not displayed in preferred language selected during installation.

## Fixed Issues for SAP BusinessObjects BI 2025 Patch 06

### SAP BusinessObjects Business Intelligence platform

SAP Note	Description
<a href="#">3570654</a>	When performing right click on any folder extra space added in the list of options
<a href="#">3624978</a>	Recipients email address is getting split after certain number of characters when scheduling to email destination
<a href="#">3650226</a>	[CVE-2025-48976] Denial of service (DOS) in SAP Business Objects
<a href="#">3593869</a>	Custom banner message with special characters is incorrectly displayed in BI launchpad
<a href="#">3641908</a>	BI 4.3 - Drive is full with numerous LCMBIAR files under the Temp folder.
<a href="#">3641706</a>	Rescheduling reports with more than one system event based on file, "All Events" is changed to "Any Event" using the French language as PVL
<a href="#">3646222</a>	Trusted Authentication not working with load balancer
<a href="#">3646222</a>	Trusted Authentication not working with load balancer
<a href="#">3558513</a>	SFTP file transfer issue. Causing the file size to increase over time.
<a href="#">3589782</a>	Blank screen with section titles and input parameters not visible when running publication in test mode.
<a href="#">3619112</a>	Unable to export to LCMBIAR with security in promotion management
<a href="#">3645290</a>	LDAP users import fails in BI 2025 patch 300+, 4.3 SP05+ when common names have DN special character (commas, equals, plus, ...)
<a href="#">3650284</a>	Promotion Management Wizard (PMW) login in BI2025 fails if CORBA SSL is enabled
<a href="#">3620945</a>	Scheduling promoted crystal reports in BI Launchpad fail with error : Failed to decrypt the object, please get the latest object from the cluster and try again (FWB 00077)
<a href="#">3579636</a>	The secLdap plugin failed to connect to the specified hosts. (FWB 00028) error when configuring LDAP plugin on Linux
<a href="#">3651390</a>	[CVE-2025-42896] Server-Side Request Forgery (SSRF) in SAP BusinessObjects Business Intelligence Platform
<a href="#">3653378</a>	Accessibility issue in BI Launchpad
<a href="#">3653817</a>	Preventing Cycles while creating in User and User Group relationships
<a href="#">3644511</a>	Unable to import Web Intelligence report in TMT tool based on BW Datasource
<a href="#">3142102</a>	Unable to search instances with type "warning" in the CMC Instance Manager
<a href="#">3659789</a>	Issue with hyperlink from Business Object OpenDocument portal to BW4 Cockpit via hyperlink
<a href="#">3644131</a>	Leave Site? Pop up in browser when Browser's back, reload or close button was pressed in BI Launchpad and/or Open Document workflow
<a href="#">3664907</a>	Google Authorization server, test connection fails from Central management Console (CMC)

### SAP BusinessObjects Information Design Tool

SAP Note	Description
3586196	Connection window is greyed when opening OLAP connection in Information Design Tool
3588281	Server middleware mode not working with prompts and LOVs in Data Foundation and Business Layer in Information Design Tool
3633356	How to configure BI Platform for BigQuery connections using multiple projects
3421344	Error while refreshing a webi report based on UNX using Webi Rich Client if the connection has not the 'Download Connection Locally' granted.
3622481	Unable to use filters in universe converted to UNX in IDT
3649833	Replacement of tables defined in Data Security Profile in Information Design Tool are not working correctly : the tables in WHERE clause for sub-query aren't mapped.

### SAP BusinessObjects Semantic Layer

SAP Note	Description
3631028	"[Simba][BigQuery] (70) Invalid query: Duplicate column names in the result are not supported when a destination table is present. Found duplicate(s)." error when running Query using two columns with the same name from different tables based on Bigquery U
3650005	#MULTIVALUE or blank values are displayed for some numeric columns after refreshing Web Intelligence document based on SAP BW query containing hierarchy nodes
3648960	Some column values in Web Intelligence document based on SAP Datasphere display #UNAVAILABLE after it is refreshed
3644260	Running Web Intelligence query based on SAP Datasphere analytic model containing compound keys fails
3653157	List of values is sorted alphabetically for month prompt rather than in chronological order in Web Intelligence document based on SAP Datasphere
3655716	Dependencies of mapped variables are incorrect in Web Intelligence document based on SAP HANA OLAP connection
3662609	Refreshing Web Intelligence document containing query filter on attribute key based on SAP Datasphere is slow
3662721	Error occurs when refreshing Web Intelligence document based on SAP BW query containing variables with previous values

### SAP BusinessObjects Web Intelligence

SAP Note	Description
3629579	After an upgrade from SAP BusinessObjects Business Intelligence Platform 4.3 SP02 some users may get a blank page when accessing reports via OpenDocument URLs
3629503	Unable to drill on hierarchical dimension used in Web Intelligence Charts
3632180	Query script generation failed error after repointing web intelligence report to universe
3639389	Blank reports are generated when scheduling a publication with Web Intelligence document with prompt of type date.
3646810	Web Intelligence document data refresh does not work when an OData Data provider has a non authorized URL
3602329	Incorrect generation of SQL queries using hierarchical filters If the filter contains ', ' (comma and space) : web intelligence generates it as ',\ ' in the query at query level.
3647072	Web Intelligence RESTful SDK returns evaluated SQL instead of raw query.
3588234	No Indicator in loading of BOBJ report scheduler when clicking the 'Edit Prompt Values'
3595844	The Web Intelligence document is not lining up correctly with vertical scrollbar

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3608863	The "Last refresh date" of the List of Values of a Query Filter does not update in Web Intelligence Query Panel.
3649840	'Read content as' Hyperlink option for cell does not work in Web Intelligence report when using * as Authorized URL
3643292	Mismatch in order of tables in the FROM clause & joins after converting the dependent universe from UNV to UNX universe
3639389	Blank reports are generated when scheduling a publication with Web Intelligence document with prompt of type date.
3651868	sReportName Parameter is not taken into account if OpenDocument URL also contains sRefresh Parameter set to "Y"
3652460	WebIntelligence processing server crashes when opening a Web Intelligence Document
3645959	When using Aggregate function with measure as delegated in Web Intelligence Document throws Error
3643325	After Changing Web Intelligence source having custom query script data source from unv to unx , the script change from @prompt() to In list : In ('value1','value2', ...).
3645985	Recurring Web Intelligence scheduling instance is failing
3602347	Some values are being incorrectly filtered when using "element link" on Web Intelligence charts.
3654644	Web Intelligence document displays #MULTIVALUE error instead of data post migration.
3508928	The Web Intelligence Japanese date format is incorrect when scheduling it in Central Management Console
3654772	Query filter object set as 'Results from another query' goes missing after hiding query cubes in Web Intelligence
3520502	'Corse-du-Sud' and 'Haute-Corse' Counties from French Corsica's Region do not exist in Web Intelligence Geo Map
3640392	The "Internal error ("Unexpected XML serialization issue (cause: Unknown error while serializing GraphicInstance.")" is encountered when performing different operations in Web Intelligence
3656585	WebIntelligenceProcessingServer crashes because of a Universe Filter defined with an @Prompt function having invalid arguments
3625712	PersonalCacheLibrary folder appears when selecting a Data Source from Microsoft OneDrive in Web Intelligence
3661127	During the changesource workflow, the set variable dialog must popup for bex and hana data sources.
3660945	Edit Tooltip Option disappears while using Element Linking in Web Intelligence Document in BI 2025
3653879	Error "We found a problem with some content in '<File name .xlsx>'Do you want us to try to recover as much as we can?" happens while opening an Excel file exported from Web Intelligence document by Data Option
3664151	[WidX/Wasm] Fixes
3664151	[WidX/Wasm] Fixes
3664525	When creating a filter based on a grouped variable in a Web Intelligence document, values having special characters like '-' are shown as "0.#IND" instead of the group values.
3597825	In a WebIntelligence document "An internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270)" error is thrown when trying to merge variables based on objects from child cubes
3663982	In a WebIntelligence document, inner Join in Web Intelligence Data mode didn't get expected result when user Preferred Viewing Locale is set as Danish (Denmark)
3662382	When Scheduled a Web Intelligence report in CSV Archive format the file format changes to Unix when system hosted on Linux

## Fixed Issues for SAP BusinessObjects BI 2025 Patch 05

### SAP BusinessObjects Business Intelligence platform

SAP Note	Description
<a href="#">3538924</a>	Unable to open subfolders under a parent folder selected as "favorite" in BI Launchpad.
<a href="#">3595099</a>	Refresh tokens are not replaced on use, expire after 90 days for oauth workflows in BI
<a href="#">3630714</a>	No Go back button when trying to search an invalid keyword in the home page of BI launch pad
<a href="#">3630166</a>	The Japanese text was truncated vertically in the search result list in BI launch pad
<a href="#">3640481</a>	Error "Internal Server Error" in BI Launchpad when opening Analysis Office workbook
<a href="#">3604199</a>	The same "In case of alert, notify inbox of the users: Administrator" always showing in the Inbox Settings of Watch Details page

### SAP BusinessObjects Information Design Tool

SAP Note	Description
<a href="#">3611404</a>	Check Integrity fails with "Business object xx returns an incorrect data type" for a measure object using the result of an aggregate-aware dimensions.
<a href="#">3640205</a>	Encrypted Private Key File Support for Snowflake Key-Pair Authorization
<a href="#">3371379</a>	The list of values is not refreshed automatically when running web Intelligence document containing mandatory prompt created at universe level with default value.
<a href="#">3589652</a>	CMS Universe Connection fails from Information Design Tool in BI 2025
<a href="#">3597058</a>	Information Design Tool : issue deleting folder that contains folders.
<a href="#">3553417</a>	After Refresh Structure in Stored procedure Data Foundation, new objects cannot be added to the Business Layer

### SAP BusinessObjects Semantic Layer

SAP Note	Description
<a href="#">3633931</a>	Web Intelligence document based on SAP Datasphere displays String Data Type for objects with Timestamp Data Type
<a href="#">3634694</a>	The language settings of the OLAP connection is being ignored for the data in the Web Intelligence Report

## SAP BusinessObjects Web Intelligence

SAP Note	Description
3464148	The following database error occurred: Cannot parse the stored procedure query: parse error (line 2): Invalid character in input ':EL parse error (line 2): parse error parse error (line 2): Invalid syntax in SELECT clause.
3620212	Cell misalignment in exported Web Intelligence report to Excel
3621361	Date prompt is set to 1/1/1970 when refreshing Web Intelligence document based on SAP HANA view containing an Input Parameter with an invalid default value
3624835	Editing a Grouping Variable after renaming throws an error.
3610051	WSR 00999 "Internal error ("Illegal character ((CTRL-CHAR, code 16)) at [row,col {unknown-source}]: [56,5391]")" when getting Web Intelligence Document details using Restful API
3624955	Deployment of Web Intelligence extensions is missing standard HTTP header
3627303	Web Intelligence Exported Excel text in some cell content are randomly incorrect for bi directional when right To left document option is applied
3629007	Edit prompts option is loading endlessly while rescheduling a special instance in Web Intelligence
3466942	"No business layer sent back from server error" when trying to edit data provider for Web intelligence document saved with duplicated name of a dimension.
3629517	Prompt variants are not loaded after changing source from UNV to UNX
3617142	[CVE-2025-31672] Deserialization Vulnerability in SAP BusinessObjects (Web Intelligence and Platform Search)
3637625	Prompt Data Type Remains as Date Instead of Datetime After Changing Web Intelligence Report Source from UNV to UNX
3637569	The "Justify" text alignment feature does not work correctly for a row with a default font size of 10 or smaller in Web Intelligence documents
3633748	Web Intelligence Processing Server crashes when opening a Web Intelligence document containing custom sort on a merged dimension based on combined cubes
3506644	In migrated Web Intelligence Document, Group Variables lose their Geo Qualification after closing the document
3625660	Only 10 Shared Drives are shown when browsing Google Drive content
3595038	Web Intelligence Rich Client crashes after opening multiple documents in parallel
3638915	In a WebIntelligence document with multiple dataproviders, filters applied on table is ignored if "Avoid duplicate row aggregation" option is enabled
3637138	URL for Extension is incorrectly formed when the fully qualified domain name contains "PORTAL"
3641430	Some extra columns appear in Excel when exporting a Web Intelligence report with horizontal table and free cells
3642540	Web Intelligence Processing Server crashes when refreshing a document with multiple dataproviders and contains hide section when a block is empty
3644367	In a WebIntelligence document, #UNAVAILABLE is displayed for delegated measures when a filter is applied on a detail variable
3570681	@Variable function is solved without the quotes in query script
3589429	Error when exporting document with charts using REST API
3577312	The Format Display of a Variable created in Data mode is not kept in Design mode.
3601022	Column Headers are missing in MS Excel Export
3611273	"No data" is displayed for the Categories when trying to open or save a Web Intelligence document

**SAP Crystal Reports 2025**

SAP Note	Description
<a href="#">3628471</a>	Creating or converting a report based on Universe (UNX) containing more than one dimensions with the same name will return the values for one dimension only in Crystal Reports.
<a href="#">3640667</a>	Mixed Group Sorting order in Crystal Reports causes unstable sorting results
<a href="#">3596564</a>	Databricks OAuth SSO in Crystal Reports 202x

## Fixed Issues for SAP BusinessObjects BI 2025 Patch 04

### SAP BusinessObjects Business Intelligence platform

SAP Note	Description
<a href="#">3622372</a>	Unable to Stop Platform Search Indexing in CMC
<a href="#">3569742</a>	In CMC application HANA Authentication Test connection fails with null error message
<a href="#">3627615</a>	"Last Login Time" and "Last Login Application" showing "Not Available" In CMC and BI launchpad
<a href="#">3629684</a>	CMS logon Failure when Existing CMS Database is chosen during Install
<a href="#">3296019</a>	Unable to login to BI Launchpad with Split deployment
<a href="#">3577946</a>	File extension is getting missed after original file is replaced with new version file in BI launchpad
<a href="#">3611420</a>	[CVE-2023-5072] Denial of Service (DoS) vulnerability due to outdated JSON library used in SAP BusinessObjects Business Intelligence Platform

### SAP BusinessObjects Information Design Tool

SAP Note	Description
<a href="#">3593088</a>	Error: " incompatible combination of tables. (IES 01507)" when executing a query in Information Design Tool
<a href="#">3609710</a>	Web intelligence processing server crashes when using stored procedures on OLE DB connections

### SAP BusinessObjects Semantic Layer

SAP Note	Description
<a href="#">3559309</a>	A table is missing from FROM clause after converting UNV universe to UNX in generated SQL in Information Design Tool.
<a href="#">3624564</a>	Web Intelligence document based on SAP BW query with dependent variables fails with "Internal error" on refresh
<a href="#">3569742</a>	In CMC application HANA Authentication Test connection fails with null error message
<a href="#">3565649</a>	Prompts box takes a long time to display when refreshing Web Intelligence report based on SAP HANA INA connection with a calculation view containing variables
<a href="#">3598054</a>	"Unexpected keyword ANY" or "ALL" when refreshing Web Intelligence document having subquery with Google BigQuery
<a href="#">3602201</a>	One joins are generated differently after changing middleware and driver from Teradata to Bigquery

## SAP BusinessObjects Web Intelligence

SAP Note	Description
3612130	Comments icon is missing in the table context menu when opening a report using OpenDocument link or open in a new browser tab
3613794	No error is thrown when referencing a Data Mode variable in its own definition.
3615089	Updating the Format Display of a dataobject is not reflected in the object properties.
3616591	Custom tooltips in the Format rule does not show when enable the Freeze Header in Web Intelligence and scroll to right
3618078	When creating a custom sort based on a grouped variable, 0.#IND displays instead of the group values
3568139	Slow performance might be experienced at SQL generation time when using a very large UNX universe
3619628	custom palette did'nt works fine for widx
3622864	Charts Element linking & drill don't work in Web Intelligence when using particular browsers
3619952	In a WebIntelligence document, "#Error" occurs for formulas using objects from different dataproviders
3546684	After Modifying the Web Intelligence document, all the recurring scheduled instance keep the prompt value set on the original document
3567799	Scheduling a Web Intelligence document, entering the value 01/01/0001 is displayed as 01/03/001
3622854	Schedule button is not reacting while rescheduling
3622854	Schedule button is not reacting while rescheduling
3621875	Web Intelligence Processing Server crashes when creating a document using Web Intelligence document as a data source
3628679	Formula using DataSourceDescription function returns empty value in a Web Intelligence document
3628700	In Web Intelligence, using the dataprovider object directly in a formula returns its internal key
3629608	Web Intelligence Processing server crashes when using the formula URLEncode along with data containing unicode emoji characters
3630621	WIDX opens empty when exported from a Web Intelligence document including an object with DECIMAL type
3628176	Browser hangs while searching for objects in "Object Mapping" section of Web Intelligence document
3551483	Web Intelligence fails to drill up on a table header cell with complex formula.
3582687	Trusted authentication fails when Web Application port is above 32767
3279521	The second time change on Google sheet does not reflected on Web Intelligence document
3559417	Error messages related to cloud drives are not localized
3595853	Different SQL for subqueries between SAP BusinessObjects Business Intelligence Platform 4.2 and SAP BusinessObjects Business Intelligence Platform 4.3
3597498	When viewing the object dictionary in folders mode, the order of the folders is the not the same as the one from the query panel
3621517	Time Dimension is not visible after creation in the Available Objects Tree.
3604132	In a WebIntelligence document, Timedimension attributes are empty if the parent Dimension has only one value

### SAP Crystal Reports 2025

SAP Note	Description
<a href="#">3561070</a>	Spaces between words were removed, when text is formatted using HTML Text Interpretation, and viewed in Crystal Reports 2020 with Support Pack 04, and above
<a href="#">3583519</a>	Warning: We found a problem with some content '< File Name.xls >' when opening in MS Excel 365, an excel spreadsheet generated in Crystal Reports
<a href="#">3624359</a>	"SAP BW 7.x" connection is not visible in Crystal Reports Designer when creating SAP BW (DSL) report
<a href="#">3622596</a>	Dynamic image truncated on the right when viewing reports in Support Pack 02 and above of Crystal Reports 2020

## Fixed Issues for SAP BusinessObjects BI 2025 Patch 03

### SAP BusinessObjects Business Intelligence platform

SAP Note	Description
<a href="#">3559417</a>	Error messages related to cloud drives are not localized
<a href="#">3559939</a>	LDAP users import doesn't work properly when some common names have special characters
<a href="#">3554416</a>	Unable to Deploy AdminTools on the SAP Netweaver Server.
<a href="#">3589618</a>	"Resource not found: 45 (RWS 00009)" error occurs after user tried to log in to BI Launch pad when the user's home page is set to use Corporate Categories
<a href="#">3588273</a>	cmsdbsetup.sh update option allows a cluster key overwrite
<a href="#">3609664</a>	COM SDK cannot connect using legacy trusted authentication
<a href="#">3592959</a>	Expired schedule instances are deleted if set limit exceeds
<a href="#">3610372</a>	Trace curl in CMS logs during trusted authentication

### SAP BusinessObjects Information Design Tool

SAP Note	Description
<a href="#">3592464</a>	JVM Library path value in registry (Windows) or in config file (Linux) is incorrect
<a href="#">3587256</a>	error prompt when adding table in Information Design Tool for Secured connection

### SAP BusinessObjects Semantic Layer

SAP Note	Description
<a href="#">3615919</a>	Error occurs when refreshing Web Intelligence document based on SAP BW and containing hierarchical measures and grouping sets
<a href="#">3602519</a>	Refreshing Web Intelligence document occurs error "column or expression in SELECT is not valid"
<a href="#">3577774</a>	Key values are not returned when running Web Intelligence document based on SAP BW query if the key object is used with measures only

**SAP BusinessObjects Web Intelligence**

SAP Note	Description
<a href="#">3612624</a>	Email destination should not be available if Widx format is selected in Web Intelligence Scheduling
<a href="#">3612624</a>	Email destination should not be available if Widx format is selected in Web Intelligence Scheduling
<a href="#">3614272</a>	The action cannot be performed. (Error: INF WIS 30650) error message appears when opening web intelligence document with Rich Text element
<a href="#">3613794</a>	No error is thrown when referencing a Data Mode variable in its own definition.
<a href="#">3615734</a>	The selection of 'Custom Elements Interactions' option is not preserved in Design mode after saving and reopening the document
<a href="#">3611580</a>	WebIntelligence processing server crashes when filtering a document with document input control and have reference objects.
<a href="#">3577312</a>	The Format Display of a Variable created in Data mode is not kept in Design mode.
<a href="#">3582979</a>	Layout will goes wrong when change "Hide/Show
<a href="#">3462081</a>	"Footer Calculation" options are disabled (grayed out) for a table column based on a formula using Big Numbers.
<a href="#">3594716</a>	In a Web Intelligence document, List of values are empty for a drill filter based on an object part of a merged dimension
<a href="#">3592511</a>	Hyperlink is not generated in Web Intelligence Rich Client
<a href="#">3603414</a>	Error when inserting a Custom Element in Web Intelligence Rich Client
<a href="#">3609777</a>	Web Intelligence Postgres Free-handSQL validation fails with HTTP 500 error.
<a href="#">3608965</a>	When opening web Intelligence document saved with formula containing special character, the following error appears "The action cannot be performed."

**SAP Crystal Reports 2025**

SAP Note	Description
<a href="#">3611687</a>	Pictures not showing in excel after row 65,536, when exporting a report containing pictures to MS Excel (XLSX) from Crystal Reports

## Fixed Issues for SAP BusinessObjects BI 2025 Patch 02

### SAP BusinessObjects Business Intelligence platform

SAP Note	Description
<a href="#">3539708</a>	Incorrect button value displayed for German Language in BI launch pad
<a href="#">3557810</a>	BI Launchpad has 2 different screenId's used for webassistant to identify screens.
<a href="#">3555233</a>	Toggle Calender View is keep on loading when Preferred Viewing Locale and Product Locale set to France language.

<a href="#">3600885</a>	Adaptive processing server not running on assigned request port in BI 2025

### SAP BusinessObjects Information Design Tool

SAP Note	Description
<a href="#">3578559</a>	In Datafoundation qualifier or owner of Stored Procedure Table cannot be change
<a href="#">3371383</a>	Security Profiles are lost after conversion for linked universes

## SAP BusinessObjects Web Intelligence

SAP Note	Description
3573199	[CVE-2025-31326] HTML Injection vulnerability in SAP BusinessObjects Business Intelligence Platform (Web Intelligence)
3529672	Hide Web Intelligence "Free drill elements" and/or "Merged dimensions".
3325598	The value is selected randomly when there are multiple same values in the list for Web Intelligence prompt
3594953	First Column is missing after exporting & scheduling Web Intelligence document to Excel
3596254	Localized and multibyte sort don't respect ignorePunctuation in WidX
3595665	An "Unexpected element" error occurs when trying to rename a Variable after using it in a Web intelligence report element filter.
3595665	An "Unexpected element" error occurs when trying to rename a Variable after using it in a Web intelligence report element filter.
3597148	Freeze header is not working for the special Web Intelligence document upgraded from 4.2 to 4.3 version
3493881	Fold/Unfold option does not work if value contains " character (double quotation mark)
3597624	Exporting a large webintelligence report to pdf only exports some of the pages.
3525315	In Business Intelligence Launch Pad, the custom color palette icon displays the color customized with Theme Designer
3598733	Special Japanese character like is unable to display in PDF file when exporting from Web Intelligence report
3598593	Error "Action cannot be performed" occurs while opening a Web Intelligence document containing merged variables which has been performed a change source from .UNV to .UNX universe
3600423	In a WebIntelligence document, adding filters using detail variables and a measure variable returns empty measure values
3545044	Drill in hierarchy does not work anymore in Web Intelligence document based on SAP HANA view with Input Parameters
3601980	Cascading Prompts based on SAP HANA Calculation View do not filter list of values based on prompt selection in Web Intelligence Document.
3607171	You may experience poor performances when using a Web Intelligence document as a datasource
3602953	Refreshing a Web Intelligence document containing attribute of measure fails with 'processDPCommandsEx' API. (Error: ERR_WIS_30270)
3607300	EAC_BI2025 - Export to Excel - Wrong object order (not in QP order)
3609673	Adding an hyperlink to a Web Intelligence document is not working properly

## SAP Crystal Reports 2025

SAP Note	Description
3586828	Invalid Argument Provided. Java Server startup failure in various Crystal Reports Designer workflows when using CORBA SSL
3373992	Language change not getting applied for report options from BI launchpad
3607931	Message <script>>window.parent.actionCompletedCallback('done', {value:true, cmd:'refresh', id:'*****', reportStateInfo:'null'});</script> when scheduling reports on CMC

## Fixed Issues for SAP BusinessObjects BI 2025 Patch 01

### SAP BusinessObjects Business Intelligence platform

SAP Note	Description
3545516	Invalid extended passport error in dev_rfc.log file after successful logon to BI LaunchPad with any SAP user
3559553	Schedules are getting created when click on report name in report history BI launch pad
2843151	SAP IPS web tier dummy.action icons on BOE/CMC page
3492127	Schedule to OneDrive destination with instance titles containing German vowels (Ä/ä/Ö/ö/Ü/ü/) gets success however don't appear in the selected OneDrive Destination.
3568844	HTTP 500 Error or Logon failed for Restful Web Services while logging into BI launchpad
3574451	Promotion Management Wizard- Import zero object without dependency
3529643	Text truncated for filter panel of Recycle Bin when the Central Management Console (CMC) product and preferred viewing locale is set to German
3578093	Trusted Authentication not working for non-enterprise users in BI 4.3 SP4 Patch 10+ & BI 2025
3582687	Trusted authentication fails when Web Application port is above 32767
3585545	[CVE-2025-42988] Server-Side Request Forgery in SAP Business Objects Business Intelligence Platform
3585545	[CVE-2025-42988] Server-Side Request Forgery in SAP Business Objects Business Intelligence Platform
3582439	Leave Site? Pop up on BI Launchpad logoff and on browser's action like back, reload or close
3586013	[CVE-2025-43000] Information Disclosure Vulnerability in SAP Business Objects Business Intelligence Platform (PMW)
3588053	Monitoring application - Email Recipient changes to 'Null' after some time.
3589760	Creating users with REST API gives HTTP 500 Internal server error. (RWS 00070) error if password does not comply with policies

### SAP BusinessObjects Information Design Tool

SAP Note	Description
3578585	Relation JDBC Connection throws CONN_PROPERTIES Error

### SAP BusinessObjects Semantic Layer

SAP Note	Description
3573919	Authoring SDK: impossible to retrieve a connection shortcut for a CMS connection that contains a quote (') in the name.
3567557	Error occurs when editing query of Web Intelligence document based on SAP BW query containing hierarchical variables with wrong previous values
3586606	Unable to consume SubQueries in Web Intelligence Only for HANA Universes

### SAP BusinessObjects Web Intelligence

SAP Note	Description
3548605	Adjusting Universe filter order by drag and drop reverts back to original order once clicked on refresh/ apply changes and close

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3558646	Web intelligence processing server crashes when opening a document containing an aggregation function with a set expression
3560087	The associated dimension information for a detail object associated to a combined dimension is missing after reopening the Web Intelligence report
3553252	In a Web Intelligence document, the resulting cube is empty when creating a combined cube from two queries where one of them is empty In the "Data" menu.
3499421	The date format was displayed as tooltip for all the Webintelligence prompts
3561418	Extend Merged Dimension Values option is not working properly when a filter is added to a table
3300700	The Prompts... operator in the formula editor returns the Prompt name instead of the prompt text from the universe
3561304	Error while refreshing a Web Intelligence document using the "Value based Break" for a report variable based on a level object of a hierarchy
3555757	The order of dimensions displayed in exported CSV file and in result object of query panel has changed
3453067	Scheduling a Web Intelligence Document with "Track Data changes" option enable, fails with errors
3482796	The List of values header text is wrong after migrating a Webintelligence report from SAP BusinessObjects Business Intelligence Platform 4.2 to SAP BusinessObjects Business Intelligence Platform 4.3
3513378	Session variable like session_context('LOCALE_SAP') returns no data when Preferred Viewing Locale is set to Hebrew in BI Launchpad
3561955	"An internal error occurred while calling 'processDPCCommandsEx' API. " when trying to duplicate query in web intelligence document containing delegated measures.
3562397	Web Intelligence Document containing excel with name including german umlaut "ü throws error while viewing/refreshing/scheduling
3565594	When exporting a Web Intelligence Document with a cross table to CSV format, some data appears to be missing.
3567067	[WidX][Sorting] Localized and multibyte sort didn't works
3561427	Error "We found a problem with some content in '<File name .xlsx>'Do you want us to try to recover as much as we can?" happens while opening an Excel file exported from Web Intelligence document
3561377	The following error "The resource of type "Document" with identifier "xxxx" does not have any inner resources of type "yyyy"" appears when opening web intelligence document from BI LaunchPad.
3480496	In the Central Management Console, the schedule with notification email when failing is sent even if it's a warning
3561924	In a Web lintelligence document, usage of URL functions throws an error when the product local is Norwegian Bokmal.
3565080	Error occurs at Run Query if the Web Intelligence document used as a data source contains SAP BW queries with variables having the same name but different IDs
3570264	Web Intelligence processing server crashes when expanding a hierarchy
3443519	The object used Web Intelligence filter disappears if it's coming from Business Layer View where current user not allowed to see it although that object is part of other granted Business Views.
3443519	The object used Web Intelligence filter disappears if it's coming from Business Layer View where current user not allowed to see it although that object is part of other granted Business Views.
3572035	Prompt fields for interval values disappear after a manual search in Prompts box of Web Intelligence document based on SAP BW / HANA data source with variables
3554289	In a WebIntelligence document, objects based on cube created in data mode gets removed from merged dimension
3566045	Unable to use specific settings when using duplicated variables
3493405	In a WebIntelligence document, formulas based on objects having custom sort returns #ERROR
3548688	Dates in Input Control show incorrect format when the Preferred Viewing Locale is set to Hebrew
3572776	When changing a HANA data source to Freehand SQL, an error is generated

3573273	Error "Query script generation failed. See your administrator. while trying to invoke the method ..." when trying to refresh a web Intelligence document containing a subquery using the operator "OR" after mapping to converted universe.
3573498	When a Web Intelligence as a data source document contains measure variables or geo dimensions in the Result Objects section and a query filter prompt, an error is generated as soon as the query is run
3468883	Users without "Reporting: Enable document change" right cannot refresh Web Intelligence documents.
3577208	In export dialog, PDF Format - Page(s) from is not taken into account
3549848	'The content of element 'condition' is not complete. One of '{value}' is expected' error message appears when a report contains a '=#' as default prompt in Web Intelligence
3573525	Change source from a query based on a deleted local UNX generates an error
3578260	Unable to select the objects when Add a sort for Web Intelligence table if there are more than 100 objects in the query panel
3578207	Drill filter is not getting updated in filter bar of Web Intelligence document.
3578340	Deleted prompt filter reappears from duplicate query in Web Intelligence
3576566	A user who does not have access to see data provider of a web intelligence document still can see the SQL via function DataProviderSQL().
3578924	Unchecking the "Refreshable" option in a Web Intelligence document's query properties automatically reverts to checked after changing the source
3194840	Save As button gives error 'Communication error.' when Saving As a WebIntelligence report
3579645	Variable associated to the Query Cube is lost after a change source
3580382	Some labels of Extended parameters settings are not displayed when using Need4Viz custom elements in Web Intelligence document (Font label)
3582206	Web Intelligence Rich Client can crash when saving the document

<a href="#">3441817</a>	[CVE-2024-34684] Information Disclosure vulnerability in SAP BusinessObjects Business Intelligence Platform (Scheduling)
<a href="#">3707023</a>	Redirects to custom.jsp not working in BI
<a href="#">3560693</a>	[CVE-2025-23192] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence (BI Workspace)

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3560693	[CVE-2025-23192] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence (BI Workspace)
3565279	[CVE-2024-53677] Insecure File Operations vulnerability in SAP Business Objects Business Intelligence Platform (CMC)
3565279	[CVE-2024-53677] Insecure File Operations vulnerability in SAP Business Objects Business Intelligence Platform (CMC)
3440090	Deleted Objects from CMC displays broken icon in Recycle BIN
3710729	SAML Authentication not working for BI Launchpad.
3447377	Repository Diagnostic Tool (reposcan) with -repair option will remove all Input FRS files in BI 4.3 SP04+
3446892	The 'Edit' option when right clicking a promotion job in Central Management Console (CMC) is unresponsive.
3449093	[CVE-2024-33004] Insecure Storage vulnerability in SAP BusinessObjects Business Intelligence Platform (Webservices)
3711200	BI Launchpad logon page remains in English
3450296	Language for 'Done' button is not getting translated from BI Launchpad.
3658527	Users got subscribed automatically once clicking on any recurring schedule from History
3433545	[CVE-2024-42375] Multiple Unrestricted File Upload vulnerabilities in SAP BusinessObjects Business Intelligence Platform
3401677	CMS crashes intermittently in keydecoder.dll
3452580	Disable "everyone" option from user group while sending/Scheduling/Publication report to BI Inbox
3437636	Query statistics from Central Management Server don't specify which server processed operation
3436126	When exporting Documents/Categories/Favorites tiles from BI Launchpad the Excel file name generated is always Folders.xlsx.
3441430	Cannot view a user notification event in BI Inbox -> Alerts when the notification message contains double bytes words like Chinese, Japanese
3439224	The selected Alert details failed to be displayed in BI launch pad
3449625	CMS fails with error "License keys cannot be processed" after update to or fresh installation of BI 4.3 SP04+ with MySQL CMS DB
3452086	Blank .txt files can be uploaded in BI Launchpad 4.3
3407202	"From" field not fully disabled in Email Destination in BILP
3459398	Error: "java.lang.NullPointerException: while trying to invoke the method com.businessobjects.lcm.core.CMSLocal.getInfoObjectByCUID(java.lang.String) of a null object loaded from local variable 'cms' " when running LCM CLI while including job_cuid in the
3448471	Full Path error displayed while uploading EICAR file.
3429211	Long response time when querying FRONTIER tables in CMS Database when running Webi Intelligence Application in BI Launchpad
3445865	Schedule reports to file system fails with Error: destination directory error. [CrystalEnterprise.DiskUnmanaged]: [The user name or password is incorrect. ]
3446531	LCMBIAR file export from Websphere is corrupted
3445001	Remote instance in federator name incomplete and also other labels in german language.
3433545	[CVE-2024-42375] Multiple Unrestricted File Upload vulnerabilities in SAP BusinessObjects Business Intelligence Platform
3464029	BI Launchpad probe can't edit the authentication in 4.3
3431721	Crystal report objects are not opening from the Navigation list of the migrated workspace in BI 4.3
3458294	Report date time format and numbers are not displayed in English format when setting disable.locale.preference to true in FioriBI.properties.

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3456373	Search showing incorrect results in BI Launchpad when Product Locale is set to Hebrew
3434662	After changing the Page preference in BI Launchpad, Home Page is displayed for few seconds and then the selected report/folder is opened/displayed automatically
3470634	ReplaceFileVariables: error reading from '.tmp' writing to " in setupengine.log and ErrorsAndWarnings.txt files in a successful Install or Update scenario
3472781	Enterprise Session becomes obsolete when working with Raylight Web Service
3490778	"Auto Refresh is Called" message in report history is thrown every few seconds when there is a recurring instance
3494914	On AIX, documents scheduled to file destination with credentials appears as success even if they fail
3476643	Destination properties not appearing when schedule any report from BI Launch Pad
3498314	Logon to CMS from MTM doesn't work with Corba SSL configuration
3492339	Http Status 403-Forbidden Error while Re-Scheduling jobs from Promotion management in Central Management Console.
3492817	Document Last Instance from BI Admin Studio is showing incorrect data.
3443686	When copy a document into the folder where another file exists with the same name but a different type, a warning dialog box pops up as "Another object with the same name exists in the destination. A new name will be created for the object".
3500128	Memory corruption when traces are enabled in the CMS
3500397	Install monofmtlib_jni.dll to MTM jars folder to resolve refresh issue
3286598	"Info Object" field is blank after adding objects in get properties section when creating a new scenario based on the template "Change Document Ownership"
3426759	Workflow Assistant System Listing is empty if the user has no access to his own Inbox
3498026	Unable to run scenario with Non-administrator User in workflow assistant
3501687	Unable to expand folder hierarchy within
3503066	Output of scheduled programs is not visible in history
3503155	In Business Intelligence 4.3, right clicking on an object such as a Web Intelligence report in BI Launchpad takes a long time for the pop up dialog to appear
3502564	"Organize" option does not appear when clicking on more action button of documents in BI Launchpad Home page.
3499577	Instance status details not translated to German when setting German as product language
3505071	Hyperlink is not working for Report Schedule Status (Success/Failed)
3506394	Not able to view the history of a job
3506055	Report History Auto-Refresh feature does not refresh as expected in BI launchpad
3459553	Warning: There is no connection to the Auditing Data Store from the CMS in CMC -> Auditing with SQL Server database
3542649	Running and Recurring instance appears in Instance manager with completion time option.
3546381	Missing virtual descriptor in shared.library.utils - SAPJIRA
3544022	global.properties file defined in custom folder doesn't work properly for Central Management Console
3547431	CMS stops pulling audit events from auditees after some time
3542351	Emails are not being sent to 'CC' email addresses in the latest BI 4.3 SP04 patches 7 and 8
3548498	Workflow assistant SAP BO 4.3 hanging
3548789	Recurrence instance replace data is automatically set to "Replace existing schedule" instead of "Create new schedule from existing schedule" In BI launchpad.

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3369319	Message Box missing intermittently for E-mail Destination while scheduling a document in BI Launchpad (Fiori BILP)
3354983	White area in Fiori BILP when using dark mode
3391085	[Google Drive] Issue during request refresh token, It don't throw error when a refresh token is not provided.
3537657	System Events are unavailable for 'Trigger' option in BI Launchpad
3277317	JAWS ("Job Access with Speech") screen reader assistive tool is not announcing filter titles of search results from BI Launchpad and titles are not accessible
3553005	BO 4.3: Microsoft OneDrive - Report upload problem at Root Folder Location
3554930	BI Launch Pad log level defined in Central Management Console is not leveraged for Single Sign-On authentication
3382091	No warning displayed in BI Launchpad during scheduling to Multi-Destination
3341952	Cannot "Save As" Workflow Assistant in Central Management Console
3398949	Different folder/category path received when loading an OpenDocument URL in a browser which was set with a non-English language
3395789	CMS crashes in SecuritySubsystem.dll post upgrade from 4.2 to 4.3
2939081	CMS Database lock happens when creating users in Central Management Console
3396045	Unable to start SIA after disabling IPv4 (IPv6 only server)
3412742	Crystal Report Search in BI Launchpad returns a blank page
3432346	Navigating in a Web Intelligence report might become really slow
3357115	BI 4.3 SP3 - An arrow icon to expand folder is seen in BI Launchpad even when there are no further sub-folders underneath
3419175	QueryBuilder results page does not show details about query executed and duration of operation
3686793	When a document description is translated, it is either not applied or displayed incorrectly in the report's property section.
3416444	Event list is not shown when installing SAP BusinessObjects 4.3 into a non-English Windows server OS
3419878	Use of Wrong Operator in String Comparison of HSTS filter.
3267713	Scheduled shortcuts' "Last Run" column displays no data
3271052	xlsb excel files cannot be uploaded to BI Launchpad
3726126	Trusted Authentication stops working after upgrade to 4.3 SP04 patch 1600+, 4.3 SP05 patch 400+, BI 2025 patch 700+
3404763	Only 1000 Subfolders are viewable in left panel of BI Launchpad
3424819	Unexpected error in CMS traces about "Periodic Session info"
3406352	User can't edit settings in BI Launchpad - hangs with 3 moving dots
3423473	Third party users (SAP/LDAP/WinAD) are not imported and mapped to groups/roles correctly in 4.3 SP04
3418696	Webi Report Schedule failed with error "Object failed to run due to an error while processing on the Job Server." in 4.3 SP04 & SP04 Patch 100
3368986	"Currently Open Documents" drop down does not show all Web Intelligence Document that are opened through Document link
3427786	Failed to replace file with name containing double bytes characters in CMC
3287517	The scroll bar location is changed unexpected when there are a lot of instances in History page
3427760	Hyperlinks are not Working in Same Window for Crystal Reports 2020

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3431653	CMS crashes intermittently when server metrics are fetched
3433063	Cannot upload xlsx, csv, txt, pdf files from CMC
3424754	Unable to see image under category properties dialog in BI Launchpad
3433545	[CVE-2024-42375] Multiple Unrestricted File Upload vulnerabilities in SAP BusinessObjects Business Intelligence Platform
3435828	SAML SSO does not work for customized CMC URL (/example/CMC instead of /BOE/CMC)
3434391	Blank page after logging in BI Launchpad
3473435	History page of Analysis office workbook and Program instances is stuck in processing state
3467608	AddNode fails with error FWM 23025 (The CMS has terminated unexpectedly) against SQL Server CMS DB
3472705	BI 4.3 Unable to import selective user from lcmbar
3472347	Running the program failed with error code 1. error when scheduling Program Objects with CORBA SSL enabled on the server
3469683	User settings keep loading in BI Launchpad
3473462	Business objects BI launchpad BI Inbox not showing description for the reports.
3442305	Unable to view report after creating shortcut using context menu option in BI Launchpad
3479478	[CVE-2024-41730] Missing Authentication check in SAP BusinessObjects Business Intelligence Platform
3466401	Hyperlinks in Crystal Reports Migrated from 4.2 to 4.3 No Longer Work
3480674	Not able to promote comments using Promotion Management Wizard
3479556	Email notification is not working with Promotion Management schedules for non-authentication and non-SSL email destination.
3457963	BI Launchpad screen shows ? when logging out
3470909	Destination page hangs when try to add Microsoft OneDrive or Google Drive as schedule destinations if no Authorization Server is configured in Central Management Console
3506095	"Send To" Option is not available in BI Launchpad
3512512	Lumira documents fail to schedule with error (Vintela Servlet) / OpenDocument loop on Mac OS
3504066	Auditing events from specific servers are not emptied / written to the Auditing DB
3515653	Update 1 to Security Note 3433545: [CVE-2024-42375] Multiple Unrestricted File Upload vulnerabilities in SAP BusinessObjects Business Intelligence Platform
3384498	Automatic update of database credentials in WindAD authentication corrupt the password
3499117	Session Count for Concurrent Users in Central Management Console (CMC) under 'Sessions', 'Global System Metrics' and CMS Server Metrics show different values.
3513919	Unable to deploy of AdminTools.ear on Websphere Application Server
3513762	"HTTP 500- Internal Server error" is thrown when connecting to BILP or CMC with WinAD without providing password
3499852	Workflow Assistant scenario with Change Web intelligence Sources not changing
3401897	Workflow Assistant folder is not listed in 4.3.
3387770	'Options' Menu displayed with wrong language after changing Fiori BILP PVL Configuration
3510874	Error when accessing User Security page of a universe which has 2100+ principals
3532585	Error Improvements for Third Party Authentication Plugin Errors after Commit
3394276	CMC and Fiori BILP Language change to French disrupts Calendar colors in Fiori BILP instances view

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3400711	Error Received when running MultiTenancy Management Tool: "[ERROR] com/businessobjects/connectionserver/ConnectionServer\$ImplementationID"
3525794	[CVE-2025-0064] Improper Authorization in SAP BusinessObjects Business Intelligence platform
3407202	"From" field not fully disabled in Email Destination in BILP
3525794	[CVE-2025-0064] Improper Authorization in SAP BusinessObjects Business Intelligence platform (Central Management Console)
3527255	Images not rendering in BOBJ Email
3377117	'Full Name' value of existing winAD account in BI does not update to the AD displayName
3406150	Different status in "promote" and "test promote" results when the object to be promoted exists in the source and in the target systems with the same CUID but different hierarchy
3390002	Extra blank lines added to email body text when rescheduling instances in Fiori BILP
3396348	CMS Crash intermittently in module ebus-3-3-2-7.dll
3394416	Date format incorrect for the start and end date fields in recurrence when changing PVL
3529025	Insufficient maximum size of threads pool in Adaptive Processing Server
3524931	The Job "%(#title)" is displayed while rescheduling the job in promotion management in CMC
3404116	Report Title is not translated for Shortcut of the report translated in TMT.
3335671	The page is shown in English interface after entering Workflow Assistant in Central Management Console
3396906	Web Intelligence may throw an error 'The resource of type "." with identifier "." does not exist.'
3393190	JAWS ("Job Access with Speech") screen reader assistive tool is not accessing and announcing Header/Title All Documents (<Rounded Number of Documents >+)
3329842	Fiori BI Launchpad "Landing Page" is not correct when the "Preferred Viewing Locale" and "Product Locale" are set to Turkish language.
3410767	Unselecting "Schedule" related options under CMC -> Users and Groups -> <User Group> -> Fiori BI Launchpad Preferences do not hide the said columns under Instances tile in BI Launchpad
3374673	Corrupted object in the CMS database cannot be deleted
3413434	Prompt value gets rounded to nearest 16/20th character
3521171	BI 4.3 - Error "The message that appears is String index out of range: 0" in Multitenancy Management when using ODBC Driver
3533414	CMC does not start after upgrade to version 4.3 SP4 Patch 600 with HANA
3413928	No option to sort by Last Run in BI4.3 version
3413138	Emails are not received by users / SMTP 554 550 error when scheduling via SMTP destination in 4.3 BILP
3351400	Report history page doesn't show correct sorting order for instance list in BI Launchpad when filtering the list
3534474	Updating a document via RESTful API results in RWS 00009 error when Parent ID of document contains more than 9 digits.
3535225	"Marked as Read" alert appears instead of opening the report when navigating between folder and BI Inbox.
3536051	Additional URL has been added while generating Opendoc URL from BI Launchpad.
3531119	Unable to view latest Instance of WEBI report shortcut when smart view is set to View latest instance from BI Launchpad.
3538294	Business Objects 4.3 SP4 Patch 5 SSO Redirects to HTTP 500 error page
3527120	Error: The Web Assistant is not available. BILaunchpad may not have access to the internet, or the proxy is not configured seen on machines without internet access
3470374	Schedule to Email failed when setting Email format has display name in From Field

## SAP BusinessObjects Information Design Tool

SAP Note	Description
3459205	Unable to select required table in Data Foundation if Zoom level is changed
3703342	When using Server Middleware connection in Information Design Tool (IDT), it takes an excessive amount of time (up to 30 minutes or more) to display the required tables.
3697357	Using query from another result in webi filters, causes missing TIMESTAMP keyword in the generated Web intelligence SQL.
3446976	Unknown Reference Syntax Error in Information Design Tool
3710473	Click File->New Universe does not work in Information Design Tool 2025
3446838	"[Error 8017] [SQLState 28000] The UserId, Password or Account is invalid." error when testing relational connection in Information Design Tool via Secured middleware.
3450653	When using with Oracle database Listagg function, an error occurs: ORA-00979: not a GROUP BY expression
3460234	Universe conversion maps dimension to same table name/object name in wrong schema
3486798	An Universe is not displayed in the list when linking it to another universe
3464067	Unable to edit and test the connection from Information Design Tool if Secured connection is set to server middle ware and no drivers are installed locally
3379092	Data Security Profile give Errors in Information Design Tool for Universe: com.businessobjects.mds.datafoundation.Datafoundation.isDataFederator() of a null object returned from com.businessobjects.mds.datafoundation.Table.getDataFoundation()
3543799	"[Simba][BigQueryJDBCdriver](100068) Error fetching metadata. Message:BIGQUERY_DATASET_ERR" when trying to add tables from connection pane in the .dfx using JDBC Bigquery connection in Information Design Tool.
3719247	Creating a Business Layer on a specific SAP BW cube using Information Design Tool fails with error "Cube Invalid"
3720648	Projection Function when set to None leads to error in Information Design Tool
3414694	Date format applied in "Database Format" under advanced tab does not stick in Information Design Tool
3428930	Snowflake JDBC connection - Database field should mark not mandatory.
3399919	"Test Connection" when opening a SAP BW connection in Information Design Tool fails with error if "Encrypted communication" is enforced at BW server side.
3447496	After converting an UNV universe to UNX, check integrity fails on few joins with error The Column <NAME> involved in the join was not found in the data foundation <NAME>
3469417	Tables section are empty for objects when an UNV universe is converted to UNX universe
3464067	Unable to edit and test the connection from Information Design Tool if Secured connection is set to server middle ware and no drivers are installed locally
3424791	Date Time for a particular value is loading +1 hour / -1 hour of actual time
3413826	After exporting a Data foundation to PDF file, the option "Select only from list" result is always False

## SAP BusinessObjects Semantic Layer

SAP Note	Description
3555433	Hierarchy in prompt of Web Intelligence report based on SAP S/4 HANA view appears as flat structure
3442258	The error "No universe with cuid {0} found" may be raised when refreshing multiple Hana based Web Intelligence documents
3555433	Hierarchy in prompt of Web Intelligence report based on SAP S/4 HANA view appears as flat structure
3555433	Hierarchy in prompt of Web Intelligence report based on SAP S/4 HANA view appears as flat structure
3713460	Promoting job containing Web Intelligence Reports based on SAP BW universe generates lcmbiar file with significant size as compared with previous releases
3448329	Flat structure displayed in prompts of Web Intelligence document based on SAP BW query with Hierarchy Node Variable
3716636	Refreshing Web Intelligence document with # as mandatory SAP Datasphere prompt value returns no data
3717976	Error occurs when refreshing SAP BW based Web Intelligence report with Hierarchy Object prompted by Leaf Node Value
3450367	Adding a subquery with operator "Not Equal to", "Greater than", "Greater than or equal to", "less than" and "less than equal to" fails with error on executing the query
3466304	Executing a Bex query in Web Intelligence document fails with error "Invalid answers. System"" "
3472710	Mandatory Bex query variable not or wrongly detected
3506621	Web Intelligence Document based on SAP BW OLAP BICS fails with error while executing with variables answered
3537566	Refreshing a Web Intelligence Document based on OLAP BICS refreshes with no prompt screen and fails with error "Invalid answers... System ""
3548983	Web Intelligence document based on universe with SAP BW query takes much more time to be refreshed after upgrade
3402162	Result panel is restricting to add hierarchy object along with levels
3401635	Poor performance while running Web Intelligence document with a specific prompt value coming from SAP BW query
3714014	Applying a filter to a measure on a double structure in SAP BW based Web Intelligence document fails
3422220	Refreshing a Web Intelligence Document based on SAP BW query with specific hierarchy variables fails with error
3428702	Cascading prompt based on SAP BW variables in Web Intelligence document returns all values or "NO-Values" ignoring the selection
3426241	The translation of the class name in the tooltip of any web intelligence object is lost after running the query.
3299320	SL SDK outputs wrong original connection path for universe (unx) upgraded from 4.2 to 4.3
3662173	Incorrect SQL generation in WHERE clause when a Business Security Profile is duplicated
3410110	Filter on Dimension using a key or Caption of a node should return no Data in Web Intelligence
3412106	Hierarchies in List of values of SAP BW variables appear flat when refreshing Web Intelligence document
3533068	Applying a filter on a value which has single quote/apostrophe fails with error on execution on Google Big Query
3535055	Error occurs when creating Web Intelligence document based on OLAP connections pointing to SAP BW Multiprovider
3535822	Error occurs when refreshing or scheduling Web Intelligence document based on a particular SAP BW query
3537530	Refreshing Web Intelligence document based on two SAP BW queries returns incorrect results for numeric values of the second query

## SAP BusinessObjects Web Intelligence

SAP Note	Description
3431860	Count() returns wrong values in Web Intelligence document containing multiple dataproviders and merged dimensions.
3434227	Escape character ( \ ) is ignored when passing a value into Web Intelligence Query filter
3556265	Executing query never ends for web intelligence document based on Free Hand SQL.
3557459	[CVE-2025-0062] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence Platform (Web Intelligence)
3435337	Name of Web Intelligence document is translated while performing a "Save as".
3413251	Values that contain a single or double quotation mark in Label section of URL options for Web intelligence Opendocument URL, are interpreted as HTML and appear as "&apos;" or "&quot;".
3438767	In a WebIntelligence document, ReportFilterSummary() does not display hierarchical values selected in an InputControl
3428863	Web Intelligence Processing Server crashes while viewing a WebI document containing dimension variables with ifthenelse formula
3697357	Using query from another result in webi filters, causes missing TIMESTAMP keyword in the generated Web intelligence SQL.
3600863	Creating a new section in between two sections is not possible
3444598	Unable to filter target Web Intelligence report via Opendocument when the prompt name or value contains "+"
3442303	Scheduling a Web Intelligence Document based on Free-hand SQL data source fails with error if Data Tracking is ON
3426944	Web Intelligence Processing Server crashes when trying to add a dimension variable containing a formula with CurrentDate()
3477442	Remove formatting when doing modifications
3445327	"The resource of type "Document" with identifier "XXX" is not available (Cannot apply the security filtering on data for 'YYYY'.(IES 10847))." error when opening First time web intelligence document.
3447759	Crash when DataProviderKeyDate() is used as a parameter of a function
3447936	In BILaunchpad, the destination name for Microsoft Drive in details after a schedule success or fail is "Unknown destination"
3697451	The error "The expression "DPxx.Dyy" cannot be found in the document dictionary" may occur when switching to Design mode.
3713460	Promoting job containing Web Intelligence Reports based on SAP BW universe generates lcmbiar file with significant size as compared with previous releases
3713009	Refreshing List of values for a dependent prompt with dependencies answered shows "No Data"
3450564	In a WebIntelligence document, quotes are not escaped correctly when used in a formula
3440004	Root folders of Business objects are loaded instead of Excel file path used in Web Intelligence Document
3449808	An internal error "[[error.missingKeyDateForLOV] 0]" is occurring when using UNV BW universe based on a query that contains a Keydate variable without default value
3710257	Input controls stop functioning correctly after a tooltip displays a block from another report page in a Web Intelligence document.
3450326	Web Intelligence Document with multiple flows exported to Excel Data format shows a warning while opening
3446004	Header got disappeared unexpectedly after deleting row of cross table in WebI document
3454616	Removal of new inserted Row in a table when hiding/moving/editing objects from side panel
3440595	Columns / Rows in table with no reference to objects / variables in report disappear
3686370	Details of the format of a report element are missing from Web Intelligence RESTful Web Service output.

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3715557	Unable to refresh Web Intelligence document based on Excel data source
3427968	Unable to Schedule the Webi report in CSV format to File System destination.
3452777	Memory leak when opening Web Intelligence reports
3452777	Memory leak when opening Web Intelligence reports
3451363	Refreshing List of values for a dependent prompt with dependencies answered shows "No Data"
3440828	Web Intelligence Save As only shows 5000 folders
3454344	"The resource of type "Page" with identifier "1" does not exist" when opening a migrated Web intelligence document based on an excel source
3453773	When switching to Design mode with French PVL, Web Intelligence throws an error for documents created on US PVL with Grouping Variable based on decimal values.
3448288	Internal error ("Not on correct event type; expected START_ELEMENT, but was END_ELEMENT.") in Webintelligence Report when change View Local to Hungary
3453118	Mandatory filter prompt applied at Folder/Universe level is missing when "Use custom query script " option is selected in Web Intelligence Document
3284282	Color Palette changes from Legacy1 to Belize (Default) under "Show report element format => Style Settings" , when Web Intelligence Document is Migrated/upgraded from SAP BusinessObjects Business Intelligence Platform 4.2(or lower) to SAP BusinessObjects
3451216	Scheduling a Web Intelligence document to file system destination, '_' prefix is added in the instance file name when "Automatically Generated Name" is selected.
3460625	Web Intelligence RESTful Web Service fails to export any single Report Element to CSV.
3459478	"Failed to execute 'arrayBuffer' on 'Response': body stream already read" seen when refreshing a Web Intelligence report in BI Launchpad
3446450	OData Web Services Link generated from combined virtual cube in Web Intelligence document does not display correct measure values
3446845	In a WebIntelligence document, applying a sort on a numeric measure containing NAN values does not work.
3468431	WebIntelligenceProcessingServer and Web Intelligence Rich Client crash when refreshing List Of Values for specific SAP HANA variable prompt
3463195	Error: "Rule not respected ("Argument "strip" must not be null.") when trying to cut dimension from Rows or Columns in Web intelligence cross table having more than one object in Rows or Columns.
3467107	In a Web Intelligence document, ReportFilterSummary returns values for InputControls with AllValues
3472598	Web Intelligence RESTful Web Service never returns when listing all SAP Variables and Prompts with their List Of Values.
3463019	Export Data to all formats for Web Intelligence report is not working
3473109	MTM error: Unable to refresh objects
3473141	Cascading parameters dependencies order might not be respected by Web Intelligence.
3473244	Cascading parameters dependencies order is different from the previous releases
3471058	Web Intelligence Publications are not personalized / filtered if defined with Dynamic Recipients
3442782	Default Prompts values and types defined in Central Management Console are not reflected when scheduling Web Intelligence document in BI LaunchPad.
3480542	Validating the SQL when set to "Use custom query script " fails with error "Serialize couldn't find object in map"
3474246	Hide column option on table with breaks is not working properly when applied from "Display the feeding panel => Data Assignment"
3479289	Last Refresh Date always shows GMT time in Advanced Refresh dialog in Web Intelligence
3399803	Using Web Intelligence, cascading parameters dependencies order is different from the previous releases.
3488248	Opening a Web Intelligence Document fails with errors

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3483626	In a WebIntelligence document, associate dimension of detail object disappears if a merge dimension is used
3480641	Erreur java.text.ParseException: Unparseable number: "EUR" error after refreshing webintelligence after migration
3484160	Drill up on a table header cell of a Web Intelligence document fails with error "The drill instruction is incorrect".
3484392	Newly added object is not listed in the correct folder in Web Intelligence when select view mode as Folders in Show document dictionary panel
3475613	Passing a Date/Date Time filter to an Odata URL extracted from a Table of Web Intelligence Document does not work
3485998	Error occurs when refreshing Web Intelligence report with Query Filter depending on another Query
3481305	Web Intelligence RESTful Web Service should allow drill filter values not constrained to list of values.
3495504	Impossible to add a Query filter in Query Panel after an update settings while Changing Data Source
3476436	Webintelligence table layout corrupt after migration when it enabled the Show side header
3452575	The webi rich client crashes when refreshing a web intelligence document having many connections.
3229119	"No data" returned for Hierarchy prompt based on an Hana variable when searching for a value.
3476282	When scheduling a Web Intelligence document a prompt with a blank value will be displayed in history with #Dynamic Value
3475037	Export to Excel do not display Columns when those columns have Hiding condition different than Hiding condition for other columns in same table.
3469416	Default date in KeyDate properties of a Web Intelligence document based on BAPI UNV universe shows Nov 30, 1899 if no default value is detected
3502783	SAP Icon font applied on Unicode character goes blank/junk when exported to PDF format
3378421	Drill Filter values are not retrieved by Web Intelligence RESTful Web Service for Web Intelligence documents with the option "Refresh on open".
3490301	Web Intelligence translates the empty string "" into "[EMPTY_VALUE]" in prompt when refreshing a Web Intelligence document.
3504251	Overriding "Refresh on Open" option is ignored when saving a Web Intelligence as itself.
3497721	The error message "An internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270)" pops up when refreshing for the second time some Web Intelligence report that contain opendocument link
3504650	Removing an Input control from the group fails with Internal error
3504177	Complex answers are ignored by Web Intelligence RESTful Web Service when scheduling Web Intelligence documents.
3507133	Output data in scheduling instances were filtered according to Web Intelligence document default values instead of the values passed from the application
3488395	The data disappear when showing the hide dimension for the table
3508482	Context dialog box title is not translated according to Product Locale.
3469476	In SAP BusinessObjects Business Intelligence Platform 4.3 , Charts / Graphs shows no Error/Warning message when a measure with value which returns warning is used
3508375	In a Web Intelligence document, deleting a row from header in a cross table deletes the column instead
3491695	"org.apache.axis2.AxisFault Unable to find servers in CMS [NODENAME] could be down or disabled by the administrator. (FWM 01014)" error when trying to import document based on OLAP BW in Translation Management Tool
3542589	registry key EscapeCharactersForCSVExport issue.
3542733	Interval values not shown in prompt history page when scheduling a Web Intelligence document
3541887	Tile chart in Web Intelligence Document goes blank when upgraded from SAP BusinessObjects Business Intelligence Platform 4.2 to 4.3 higher version

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3535917	In a WebIntelligence document, Time Dimension objects based on an object disappears if the object format is changed in the universe
3542974	The error message "An internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270)" pops up when changing source from UNV universe to UNX universe
3512076	In a Web Intelligence document, associate dimension of detail variable disappears after a refresh
3544961	Web Intelligence report exported to CSV data archive returns two additional empty rows
3535550	Empty rows are added in cross table header when 'Show objects name' is enabled
3532506	Using detail/attribute objects from the classes/folders which are granted for user in Business security profile of universe fails with rights error on executing the query
3669574	When editing Web Intelligence SQL based on Free Hand SQL script and execute, variables shows #ERROR after Change source action.
3534925	Web Intelligence Processing Server crashes after modifying the query containing delegated measures.
3547186	Time zone issue in Webi Intelligence "Open" / "Save as" dialog box.
3470713	Geography attributes (Latitude, Longitude, Name) still appear in Web Intelligence document dictionary for hidden query
3533145	Web Intelligence Processing Server crashes when processing cubes with huge dataset
3385860	Error: "Unexpected keyword ANY" when refreshing a Webi report based on Google Big Query
3549085	Wrong values are displayed when adding (or subtracting) two variables with Count function in Web Intelligence document
3389871	Shortcut folders are no longer seen in Google Driver via Web intelligence
3469452	Comment() function shows previous comment or blank if a new comment is added after switching between the report tabs
3387312	In a WebiIntelligence document, a formula containing previous() and columnNumber returns #RECURSIVE
3549291	In a WebIntelligence document, merge of two dimensions disappears if one of dimension is a variable based on a grouping variable.
3535927	When a calculation which returns #DIV/0 is used in IF Else statement along with OR / AND conditions , output of the variable is always #DIV/0
3550296	Error occurs when browsing SAP HANA connection in Web Intelligence after running a search view on another connection
3390717	[ExcelDP] DocumentPath() and DatasourcePath() are not correct when file and report are located in Personal folder
3338076	Input Controls with reset on refresh flag do not update when scheduling a Web Intelligence document
3385737	Key date parameters appear while Scheduling migrated Web Intelligence document in Business Intelligence LaunchPad
3535534	Unable to apply a sort on a free cell based on a measure in a web intelligence document
3381027	Web Intelligence Document based on Free Hand Sql queries may take a long time to be opened
3392157	RESTful Web Services fails to get Web Intelligence Document details with long string variables
3338998	Exporting a huge Web Intelligence document to TXT format downloads an empty file.
3389386	Changing "Use BEx/HANA defined default values at runtime" option does not reflect in Web Intelligence document when re-opened
3383074	Getting error when clicked on "Restore previous results".
3554280	Webintelligence processing server crashes when manipulating a document has data transformations
3345744	fold/unfold Break Values for <Dimension> option is missing in Contextual Menu when dimension is hidden in table
3366717	Web Intelligence processing server crashes after upgrade

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3391134	Web Intelligence might throw a "Rule not respected" error when opening an old Web Intelligence document with Input Controls.
3392454	In a Web Intelligence document, some variables participating in a merged dimension get removed after a refresh
3396906	Web Intelligence may throw an error 'The resource of type "..." with identifier "..." does not exist.'
3397405	Incorrect file name when retrieving data from a Web Intelligence Extension Point
3384226	HTML is displayed as text while modifying the Dynamic recipients in Publication.
3349986	Web Intelligence displays an Input Control empty value as blank (i.e. nothing) instead of "[EMPTY_VALUE]" .
3398518	Web Intelligence Processing Server crashes while sorting List of values
3305367	In Web Intelligence, when using Change Source, hidden folders are visible in the target universe
3397151	In Web Intelligence document, empty values are displayed for certain formulas based on merged variables
3399249	Multiple OneDrive folders shown in Web Intelligence Fiori interface
3692981	Repointing Web Intelligence reports from UNV to UNX universes throws #DATATYPE error in report.
3415980	Exporting a Web Intelligence Document to PDF format generates 1 extra page in BI 4.3/4.2 when compared with BI 4.1
3720274	No data is returned when scheduling Web Intelligence document based on SAP Datasphere and containing a prompt on compound key attribute
3720274	No data is returned when scheduling Web Intelligence document based on SAP Datasphere and containing a prompt on compound key attribute
3417973	The resource of type "Input Control" with identifier "XX.XXX.lov" does not exist.
3721297	Web Intelligence documents containing combined cubes lose Geography enrichment and Time Dimension definitions after migration from SAP BusinessObjects Business Intelligence platform 4.3 Support Package 03
3409944	Web Intelligence RESTful Web Service might export incorrect data after a Web Intelligence document refresh.
3721792	Sort order in Web Intelligence document is not preserved when creating combined cube with flat hierarchical object
3413275	@Variable('DOCID') in connectinit parameter is returning empty value when is used in Web intelligence document via universe
3419770	Dependent prompts with cascading list of values are missing from Web Intelligence Prompts box
3414032	"An error has occurred from the server. The file that is required to create or update the query cannot be found on the file system. File not found ". (IES 10850) " when trying to create a web intelligence document based on Excel in Microsoft OneDrive.
3717063	Web Intelligence processing server crashes when table with measure formula returns empty values while table options 'Avoid duplicate row aggregation' is enabled and 'Show rows with empty measure values' is disabled
3723306	Place holder based on personalization mapping object in publication is not visible in email/SFTP destination.
3346671	Hide/Unhide object from a table resets width of other columns in the Cross table
3420870	In a Web Intelligence document, in data mode combining queries using left join returns wrong results
3421384	[CVE-2024-25646] Information Disclosure vulnerability in SAP BusinessObjects Web Intelligence
3413191	Invalid event being ignored, Event type id (10202) is missing mandatory details
3421743	Purging a Web Intelligence document containing merged dimension based on numeric type throws an error
3422678	Impossible to remove an object added on an axis of a cross table
3395708	The number type dimension is always formatted as xxxx.0 in Heat Map chart in Web Intelligence

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3391749	String Identifiers from a Web Intelligence Dynamic recipients document are displayed in decimal format within BI Launch Pad Publication User Interface and Publication scheduling has no recipient.
3400711	Error Received when running MultiTenancy Management Tool: "[ERROR] com/businessobjects/connectionserver/ConnectionServer\$ImplementationID"
3423407	When clicking on Web Intelligence Publication instance name within Publication history no artefacts are displayed within the list of publication output
3418907	The excel workbook is unable to open when exporting the Web Intelligence into Excel file with 0 row
3424399	Internal Error occurs when trying to open a document with special character in format
3425353	WebIntelligenceProcessingServer crashes when adding a formula based on a combined cube object to a Web Intelligence document
3425402	The list of values associated with parameter "0" is not refreshable error when sorting a list of values
3425680	Name of data source is not correctly displayed in some part of the products when it contains special characters.
3425724	Data source path is not correctly displayed when it contains accentuated characters
3405788	Unable to filter on columns in the Dynamic recipient list while scheduling publication in BI Launchpad
3426753	The state of a Web Intelligence document might not be correctly returned by Web Intelligence RESTful Web Service when keeping the document alive.
3423857	Filter Object prompt list is missing in prompt window while running the webi document in BI Launchpad
3339252	Invalid REST response format when using Restful SDK and getting a database error message
3428766	Web Intelligence cannot use skins at all if at least one of type "box" is declared in the configuration file "SkinConfig.xml".
2819138	Delegated Measures are not automatically refreshed by Web Intelligence when updating the values of a Drill Filter.
3422441	"%SI_DOCUMENT_HTML_CONTENT%" in the email body can not be shown when schedule a publication for web Intelligence reports with mhtml format
3339252	Invalid REST response format when using Restful SDK and getting a database error message
3430923	Web Intelligence Document based on .UNX generates multiple SQL statements for measures when compared with SQL generated using UNV
3431381	Prompts box takes a long time to display when refreshing Web Intelligence report built on SAP HANA XSA view from multiple HDI containers
3199047	The css style file was truncated if it contains full-width Japanese character when exporting it from Web Intelligence
3227168	BI Launchpad not retaining format when rescheduling a recurring instance.
3353040	Multiple random errors are noticed when accessing Web Intelligence Document
3433663	Web Intelligence fails to open a document with missing Shared Elements.
3435028	Duplicated query returns different objects than what is selected in query panel
3468954	Refreshing a Web Intelligence Document fails with error "Aggregate aware resolution failed"
3474512	Opening a WebIntelligence document with variables causes Webi Processing Server to crash
3471494	Concatenation of objects in web intelligence subquery based on Oracle source displays two different separators.
3474518	On changing option from "Use the query script generated by your query" to "Use custom query script", Validating the sql fails with error
3453379	Web Intelligence Processing server restarts randomly
3475211	Dynamic variable formula is set as default value into variable prompt dialogbox instead of result of the formula
3476650	Performance issue when opening a WebIntelligence document with a user with Business Security Profile defined

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3470936	The SQL generated is not correct after converting unv universe to unx in Web Intelligence
3477287	In the Query Panel of Web Intelligence, filter based on a date object displays a wrong format for the date value.
3478615	[CVE-2024-37179] Insecure File Operations vulnerability in SAP BusinessObjects Business Intelligence Platform (Web Intelligence)
3476332	Replacing / changing the formula of an object in the break headers of a cross table fails with RWI 00011 error
3432899	Not able to custom Data Series in Web Intelligence charts when color of chart uses dimension with many values.
3471456	Data values are overlapped in Web Intelligence Treemap via "Maximize report element".
3474126	HANA 'set variables' values are updated with dataprovider values
3479820	In a WebIntelligence document, the measure returns wrong values in the footer when the table body contains a merged dimension based on a hierarchy and flat dimension
3476785	Custom Order doesn't work with an object transformed in the WebI Data Model panel
3462675	Left Join in Web Intelligence data mode do not return correct results if keys are duplicated in secondary table (One to many relationship)
3487803	Web Intelligence Processing Server Crashes when using Min/Max function on a boolean dimension
3476999	Deleting the object from the table on which break is applied makes table header disappear / delete
3514208	Login to Central Management Console / Business Intelligence Launch Pad hangs after entering credentials and clicking login shortly after clicking on 'Design' mode in Web Intelligence
3514733	Web Intelligence takes a long time to load the list of folders or documents.
3488230	New format applied on a column in the table is lost once the document is saved, closed and opened back
3486373	Web Intelligence Document with Query filter type "Results from another query" fails with error on refresh
3514323	Show Object Name column's header in cross table does not update if objects position are swapped
3516285	A WebIntelligence document with joins on multiple cubes causes WebIntelligence Processing Server to crash
3511536	@functions does not show processed value in universe generated SQL after the execution of Web Intelligence Document
3518389	#REFRESH displayed in tables after refreshing Web Intelligence document containing virtual cube on multiple queries with Query Stripping activated
3508431	Drag & Drop an object to replace break header updated the incorrect row in Web Intelligence
3518047	Excel output exported from Web Intelligence is not working properly in Microsoft PowerBI
3506173	In a Webintelligence document, datetime object with milliseconds and nanoseconds are truncated during refresh
3506527	In the Central Management Console, when modifying prompts, the dialog box shows duplicated prompts for Publication
3521632	First requests to DSL Bridge Service in Adaptive Processing Server take long time to process
3521375	Group by Clause is generating wrong index when selected objects creates grouping sets in Web Intelligence
3474398	[CVE-2025-0061] Multiple vulnerabilities in SAP BusinessObjects Business Intelligence Platform
3401569	Date range prompt values disappear for Web Intelligence Publication
3383466	SAP BusinessObjects Web Intelligence calculation engine consumes a lot of CPU when processing "Trim" function for documents with large volume of data
3398881	Week starts with Sunday instead of Monday when PVL is set to Finnish and webi report is opened "In a new browser tab"
3367839	Scheduling Web Intelligence report to excel format fails with Temporary file error if the instance name starts with "CON."

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3523369	Web Intelligence RESTful Web Service Pool HTTP tracing not logged to BILP logs.
3403621	Report tab Bookmarks goes missing when Web Intelligence Document is exported to PDF format.
3523275	#INCOMPATIBLE or #CONTEXT or Incorrect measure values appears in Web Intelligence Documents that use Merge Dimensions based on variables
3509286	In a WebIntelligence document ,adding filters using detail variables returns empty measure values
3333056	It may take more time to view a Web Intelligence Document in 4.3 when compared with 4.2
3396924	Fold/Un-fold in Web Intelligence Document fails with error
3516392	Web Intelligence Processing Server crashes on opening a corrupted document
3407611	An error is displayed when refreshing a parameter List of Values within "Modify Prompt values" dialog box when scheduling a Web Intelligence document
3340989	Web Intelligence Processing Server crashes while opening a document with variables containing ReportFilter formulas, the following error appears : "Web Intelligence idle connection has expired."
3407502	Web Intelligence Document with junk character fails with error: "Internal error (" (Error: RWI 00200)")" on exporting to pdf format
3528485	Left to Right aligned content is not same when Web Intelligence Document is exported to pdf or Excel formats
3408484	Hyperlink in Web Intelligence document which is already in encoded format gets double encoded when exported to PDF.
3406950	"Values from list" option is disabled when applying a Query level filter from Web Intelligence Rich Client
3527896	Refreshing a Web Intelligence Document fails with error: "The query cannot run because it contains objects that reference incompatible tables"
3529672	Hide Web Intelligence "Free drill elements" using feature toggle in Central Management Console.
3348693	Save button is grayed out after modifying a created aggregated group of values (through manage group option) on a created web Intelligence document
3419770	Dependent prompts with cascading list of values are missing from Web Intelligence Prompts box
3396792	Keydate Parameters not Included in Web Intelligence report instances when scheduled via RESTful Web Services
3530057	Webintelligence Processing server crashes when opening a document with filter operand with invalid arguments
3347016	'EMPTY_VALUE' is lost automatically when editing a query in Web Intelligence
3470651	Hidden objects in a source Web Intelligence document are visible on target Web Intelligence document
3373376	The excel file, generated after exporting a Web Intelligence document that saved from Excel to CSV, contains garbled characters.
3529873	Web Intelligence server might crash when using Data Preview with WaaS documents.
3241184	In a WebIntelligence document, trying to merge numeric based dimensions based on FHSQL fails with error "The resource of type "Page" with identifier "1" does not exist"
3387642	Test Mode in a Publication is not working when we use only dynamic recipients for BI Launchpad.
3513402	"The action cannot be performed" error when trying to open web intelligence document based on FreeHand SQL.
3529840	Last selected prompt value is missing in Web Intelligence Document if prompt is created in UNV universe
3222300	In a WebIntelligence document, a formula based on WHERE operator causes WebIntelligence processing server to crash
3529854	In a WebIntelligence document, incorrect values are observed on variables containing merged dimensnions
3368305	In a WebIntelligence document, #MERGED_VAR_ERROR error while modifying a Web Intelligence document when it contains merge dimension
3491783	Selected values for Input Control are lost after scheduling a publication with profile value

3530241	Context pop-up reappears in Web Intelligence report after UNV to UNX conversion
3536613	Custom Sort of a variable based on a Data model combined cube is lost when the document is reloaded
3533935	An internal error occurred while calling 'getPages' API. (Error: ERR_WIS_30270)(WIS 30270) error occurs when exporting a Web Intelligence document containing NumberOfPages() in the hide condition to PDF format
3518959	Publication scheduling job takes wrong prompt values for Web Intelligence documents after upgrading from SAP BusinessObjects Business Intelligence Platform 4.2 to 4.3
3539672	'No data' displayed in Web Intelligence document when navigating in List of Values for SAP HANA hierarchical variable with dependencies
3539932	WebIntelligenceProcessingServer crashes while opening a document containing a query with multiple flows and with query stripping enabled

### SAP Crystal Reports 2025

SAP Note	Description
3558313	The Keycode is not valid and displayed as garbled code in License Manager
3435950	Static List of Values is not populating when scheduling a crystal report from BI Launchpad
3708175	Crystal Reports designer crashes after applying 'Set parameter order...' and trying to delete the duplicated parameter
3450783	"Failed to retrieve data" error for Databricks JDBC connection of Crystal Reports 2020
3715642	failed to get schema list for databricks jdbc connection
3461656	TLSv1.2 should be set to DB java server
3390198	Error Opening Report File... when opening a report with saved data in Crystal Reports Viewer, that was created in Crystal Reports 2020 - SP03 or higher
3465284	Crystal Reports 2020 crashed when refreshing reports with customized group settings in the latest updates
3466490	Unicode string column is displayed as empty for jdbc connection
3491819	Unable to update database configuration of all reports at a time from CMC
3498233	Special characters are not handled correctly when they are part of a word using HTML Text Interpretation in Crystal Reports 2020 SP4
3496516	Click Fit to Width and Full Page button on CR .NET SDK WPF Viewer will throw error
3497969	Crystal Reports shortcut with large data are taking time to load in Fiori Viewer (UI5).
3504248	Bullets or item number missing from list of items when formatting text using the HTML tag <ul> or <ol> in Crystal Reports
3388054	Image Gets Blurry while using CR ODBC Wire Protocol ODBC DSN
3548171	'Internal error: The Report Application Server failed' error appears after using 'Format Painter' for a field and trying to save the crystal report back to Enterprise
3388474	XY Scatter chart x axis label font, and font size not retained in Crystal Reports
3394053	Java server heap size is not allowed to set exceed 2GB in Crystal reports
3339577	Stored Procedures are not seen when creating a new Crystal report in Crystal Reports Designer
3400785	Left border of a table is missing when exporting a crystal report to XLSX format from Crystal Reports 2020
3412286	Error: "Failed to retrieve data from the database." occur after 10 minutes, when refreshing a report based on a Universe connecting to PostgreSQL via JDBC in Crystal Reports 2020
3715309	'Failed to parse data source: Cannot read properties of undefined (reading 'push')' error appears when creating a crystal report which uses BEx Query in Crystal Reports 2025

SAP BusinessObjects BI 2025 Patch 09 - Release Notes

3723489	CRE Migration: Syntax CurrentFieldValue
3396045	Unable to start SIA after disabling IPv4 (IPV6 only server)
3422141	Empty description shows on LOV dialog when parameter is configured as "Prompt with Description Only" but Description is empty
3413434	Prompt value gets rounded to nearest 16/20th character
3427680	Duplicated objects shows in list if Enterprise system is set as "Default system" in CCAW
3431061	Length restriction for parameter value does not take effect when schedule crystal report in BI Launchpad.
3435658	Default value of parameter is set to null when schedule crystalreport with stored procedure in BI Launchpad.
3475339	Some words are joined together, when the text is formatted with HTML Text Interpretation, and viewed in Crystal Reports 2020 - Support Pack 04, and above
3461656	TLSv1.2 should be set to DB java server
3482384	The name of the date parameters are changed automatically back to the original name in a crystal report after upgrading to Crystal Reports 2020 SP4 Patch 4
3491819	Unable to update database configuration of all reports at a time from CMC
3512109	BI Launch Pad 4.3 drops the zero after entering the prompt value in decimal
3403363	Data that contains tab character gets truncated on Crystal Reports when export to XLSX format
3491819	Unable to update database configuration of all reports at a time from CMC
3403784	Error when attempting to add a PostgreSQL Stored Procedure to a report in Crystal Reports
3400785	Left border of a table is missing when exporting a crystal report to XLSX format from Crystal Reports 2020
3103953	Unable to view the complete list of values in the Local Personalization window when working with Publications in BI Launchpad
3535081	Crystal Reports with html format related fields cause crash and scheduling issues
3536243	when multiple java server starts, some will be blocked
3535515	Registry settings to configure how the SQL Query is generated in Crystal Reports does not work
3538471	When opening a report migrated from CR2008 in CR2020, the application exits without any error message

**SAP Crystal Reports for Enterprise**

SAP Note	Description
3418863	Cannot migrate CR4E reports version prior to 4.3, using IDT Oracle version prior to 12 in a to BI4.3 system
3431493	Crystal Reports for Enterprise 4.3 fails to create document with VARCHAR data type with more than 255 characters from connection using PostgreSQL ODBC driver
