## About This Document

This document contains important information about fixes present in SAP BusinessObjects BI 4.2 SP7. Before installing the software, we recommend that you read the entire document. To find more information about this release see: <http://help.sap.com>

## SAP BusinessObjects BI Suite Fixed Issues 4.2 SP7

### Information Design Tool

SAP Note Link	SAP Note Title
<a href="#">2705807</a>	'Could not register connection '<Connection_name>'. The network layer and database is not a valid supported connectivity' error message displaying when using MS Excel 2013, 2016 and Sybase ASE 15.7 drivers in a multi source universe in Information Design Tool
<a href="#">2733590</a>	dfx column descriptions is showed as either empty/ garbled sentences when connected to Oracle 12C R2

### SAP Business Intelligence Platform

SAP Note Link	SAP Note Title
<a href="#">2638175</a>	[CVE-2019-0251] Cross-Site Scripting (XSS) vulnerability in SAP Business Objects Fiori Launchpad
<a href="#">2645331</a>	Core dumps are generated when running "cscheck ds" or "cscheck find".
<a href="#">2645920</a>	Cannot promote overrides using CTS+
<a href="#">2646258</a>	DFO assert failures in logs during CMS start: the payload property is owned by another file
<a href="#">2661966</a>	Memory leak when using CORBA SSL in 4.2 SP05
<a href="#">2662595</a>	Free-hand SQL based WebI report using Sybase ASE Open Client connection calling Stored Procedure fails with "Not Converted: PDP Stored Procedure Connection" error
<a href="#">2672756</a>	"View objects that the user owns" is not working properly when applied to Personal Folders
<a href="#">2675960</a>	Empty list and error occurs when accessing Inboxes in Central Management Console
<a href="#">2678117</a>	Application name is not displayed correctly when logging into Fioried BILaunchpad using WinAD SSO.
<a href="#">2679322</a>	Some schedule jobs which are based on Calendar are not triggered by File Based Event
<a href="#">2679800</a>	[4.2 SP05] Unable to refresh RCT converted freehandsql report which contain both @prompt and @variable
<a href="#">2682543</a>	Cannot disable/enable user account by Restful API when this account contains multiple alias
<a href="#">2684107</a>	Import/ upload objects from BI Launchpad creates strtsxxx.tmp files
<a href="#">2686255</a>	Tomcat 8.5.X fails to start after implementing SAP Note 2088195
<a href="#">2688205</a>	Enabled HTTP Basic Authentication -for WACS - timezone service doesnt work

2689156	BI 4.2 SP05 installation failed with DB2 11.1 on Linux 7.3&7.4
2692521	Unable to navigate to Categories in Fiorified Launchpad
2693423	IOMS installer use Port 80 for SSL Site configuration and fails.
2694137	BI4.2 SP06 upgrade failed with INS13 if not using static IP
2694847	WinAD and SAP users with same name are not mapped under single User account
2696023	Prompt for Mandatory Bex Query Variables display the technical name, instead of the description for report based off SAP BW Bex Query in Crystal Reports for Enterprise, and viewed in SAP BI LaunchPad
2696259	Version Management - "Get Version" and "Get Copy of Version" does not restore or add the version specific object into the CMS
2697093	In 4.2 SP06, files to SFTP destination are truncated and corrupt
2697723	Searching for content in Central Management Console is slow
2698285	UMT process stays in memory after closing application.
2701152	BI Workspaces display Flash files incorrectly in BI 4.2 SP6
2701212	The Web Page module in BI workspace cannot display CMC well
2701687	Cannot edit password when creating a new user after viewing a disabled user in Central Management Console (CMC)
2704149	Typo in CmcApp.properties file
2704303	Only Root Folder is available for exclusion in Delete Tenant interface
2704398	Edge v41.16299.611.0: Accessing Office documents (Excel, Rtf ....) hangs BI Launchpad.
2704962	password incorrect SAP Authentication
2706083	Downloaded Pdf does not show the correct value
2706193	.properties files updated in webapps\BOE\WEB-INF\internal and other locations are not kept through updates
2706745	Unused demo code to be removed from Data Federator
2706816	Output query to trace file when it fails to execute due to timeout
2707007	Workspace will not refresh when called from openDocument
2708119	Changing the Enterprise Password, terminates the users' Third-Party active sessions in SAP Business Intelligence Platform
2708121	Improve performance of loading Platform Search application page in Central Management Console
2708152	Performance of loading CMC page when user has no view right on some objects
2708281	BOBJ CTS doesn't work after Solman 7.2 U
2710839	Reduce amount of traces and remove some errors from log file
2710945	An extra .xls is added in the filename when schedule a Web Intelligence document to BI Inbox with EXCEL format

2710983	freessl201-14.0.4.15-A.jar issue while running Measurement tool for windows with SSL
2711677	SAML SSO is Not working for Information Platform Services (MiniBIP)
2712900	Opening a second browser tab with the same BI Launchpad session freezes the Documents objects panel of the first BI launchpad tab
2713278	Lumira Designer Connection issue: LANG=1024
2715342	Restriction of TLS version for SSL communications in SAP Business Intelligence Platform
2717901	Cannot upload local file which extension is upper case after applying limit the file type with the method in SAP Note 2315665
2722583	Error when creating WebI documents with sub-queries for tenants in MTM
2723208	'Web Assistant' is by default enabled for all users in Fiorified BI Launchpad for each login
2724568	Error on upgrade from SAP BI Platform 4.1 on BusinessObjects_LCM_dfo.xml
2724603	Logon time takes several minutes with Fiori Launchpad
2724906	Changes done at PVL (Product Viewing Locale) are not getting reflected on Calendar picker values in Scheduling tab within interactive Launchpad (Fiori)
2725425	Performance of looking for a BOE service has negative impact on product operations
2727143	Editing a Monitoring watch displays incorrect rules and behaves inconsistently
2727183	Cannot Delete the tenant in 4.2
2727564	[CVE-2019-0259] Unrestricted File Upload vulnerability in BO 4.2/ Visual Difference
2728998	Slow to add Publication Recipients in BI
2731121	Trouble Embedding Webi Web Parts Into BIWorkspace Navigation List
2731512	DFO assert failures in logs during CMS startup for file BusinessObjects_XL_XcelsiusEnterprise_pin.xml
2731735	Improve load time of Source Documents tab for creation of publication
2731742	CMS may crash when an account's password is modified
2734660	The Version Management is not working in HEC
2737329	Cross-Site Scripting (XSS) vulnerability for hyperlink in BI Launchpad
2737339	In Infoview, right-click on a Web Intelligence report and click the Modify, HTTP Status 400 &#x2013; Bad Request is returned.
2737599	BI Administrator Cockpit is not displaying data for Document instances for today filter
2738064	Reduce duration to retrieve Usergroup tree in Central Management Console
2739553	Rollback not enable for the job created/exported via web and imported via CLI
2741819	Generic Blsizing link in system Configuration Wizard
2743951	Configure minimum value to trace Central Management Server query timing

## SAP BusinessObjects Analysis

SAP Note Link	SAP Note Title
<a href="#">2663053</a>	Headers are repeated when exporting an Analysis edition for OLAP workspace to CSV file format.
<a href="#">2699207</a>	In the "Measure Format" dialogue box, some UI components may overlap others components
<a href="#">2701477</a>	Different corrections and improvements are brought in SAP BusinessObjects Business Intelligence Platform by updating the BICS libraries to version 2.44.
<a href="#">2701979</a>	Analysis component name under Properties is not retained after reopening the Analysis for OLAP workspace
<a href="#">2705266</a>	Viewing AO Workbook containing HANA http data-source gives 500 server error on BI Launchpad / CMC
<a href="#">2713715</a>	Analysis edition for OLAP is freezing when filtering on a hierarchy containing a slash or a backslash character in its name or in its list of values.
<a href="#">2715325</a>	Conditional Formatings are not reflected properly in Excel after export, when the workspace contains a non-displayed hierarchy.

## SAP BusinessObjects Dashboards

SAP Note Link	SAP Note Title
<a href="#">2681001</a>	When running a dashboard, the labels of the Combo box cannot exceed the canvas border.
<a href="#">2732741</a>	SAP Dashboards fails to launch on Windows 10 machines with error message Adobe Flash player 9 or above is needed.
<a href="#">2741645</a>	The tab order cannot be changed in Tabset component in Dashboard

## SAP BusinessObjects Desktop Intelligence

SAP Note Link	SAP Note Title
<a href="#">2670158</a>	DCP does not show the Slice & Dice Menu Bar
<a href="#">2707368</a>	Using credential mapping in Desktop Intelligence documents connecting to BI 4.2 Support Pack 05 Patch 4 results in a database error

## SAP BusinessObjects Live Office

SAP Note Link	SAP Note Title
<a href="#">2730147</a>	Can't insert comments on WebI section part
<a href="#">2735926</a>	Live Office can't support some WebI elements position well in PPT.

## SAP BusinessObjects Mobile

SAP Note Link	SAP Note Title
<a href="#">2699002</a>	BOE 4.2 SP6 No securityContext.xml in MobileBIService webapps directory

## SAP Business Objects Web Intelligence

SAP Note Link	SAP Note Title
<a href="#">2484308</a>	Incorrect sql script is generated in query panel when using prompt filter based on hidden object in a Web Intelligence report
<a href="#">2599538</a>	Failover is not working in Web Intelligence Applet mode
<a href="#">2632924</a>	Reset button for calendar input control does not work in Web Intelligence Interactive Viewer
<a href="#">2638436</a>	Functions list is not displayed when typing in the Formula bar of Web Intelligence HTML interface
<a href="#">2646190</a>	In Chrome, cannot select the right universe in the universe list when creating a Web Intelligence document if there are too many universes and the name contains Japanese words
<a href="#">2654251</a>	When creating a Web Intelligence query based on Free Hand SQL data source, the Query Name is not updated if you changed the name in Query Properties and click Run Query
<a href="#">2655162</a>	Updating a Shared Element will delete the underlying Input Control in Web Intelligence
<a href="#">2655932</a>	#TOREFRESH warning is missing on charts in Web Intelligence Interactive Viewer
<a href="#">2656658</a>	Incorrect values may be displayed when hovering the mouse cursor over data points on chart with 2 Y-axes in Web Intelligence documents
<a href="#">2670567</a>	List of values is refreshed automatically in Web Intelligence prompts
<a href="#">2680829</a>	When merging 2 cells and aligning with an existing border, an extra border is added in Web Intelligence
<a href="#">2682477</a>	Table outline doesn't work as expected when "Right to Left content alignment" option is set in Web Intelligence HTML mode
<a href="#">2682935</a>	Calendar selection for prompts not working when using the Web Intelligence Interactive Viewer for Web Intelligence Reports
<a href="#">2683420</a>	Error while opening a Web Intelligence document using Web Intelligence HTML interface after upgrading the system
<a href="#">2685472</a>	Prompt variant with non ascii characters does not take effect in Web Intelligence HTML interface with Internet explorer browser on a 32 bits client machine
<a href="#">2691052</a>	Mouseover on a Web Intelligence Box Plot char showing additional wrong information.
<a href="#">2692705</a>	Web Intelligence schedule error: "Query Script Generation failed"
<a href="#">2693796</a>	No data appears in a successfully completed instance of a Web Intelligence document
<a href="#">2694251</a>	OpenDocument link with "Current Window" parameter opens in a new browser tab instead of the same window when performed from Web Intelligence Interactive Viewer

2694927	Prompt values are not retained while rescheduling a Pending/Recurring Web Intelligence report instance scheduled to Web Intelligence Format
2695210	[CVE-2019-0237] Information Disclosure in SAP BusinessObjects BI Central Management Console
2695489	Blank column appears when hiding column whose table header or footer is merged
2695624	An error has occurred when creating a variable with the same name or starting with the same first characters of an existing object in Web Intelligence report
2696038	User can drag and drop objects to create table in Web Intelligence even if the "Reporting - insert and remove reports, tables, charts and cells" right is denied
2696714	[CVE-2019-0262] Cross-Site Scripting (XSS) vulnerability in WebIntelligence BILaunchPad
2697228	When checking the option "Show object name" in the Format Table menu of a cross table of a Web Intelligence report, the background color of the row is set to black
2698014	Webservice(QaaWS) is trimming off space of prompt values before to send the query to the database
2698815	Marks in prompt summary are truncated in Web Intelligence HTML interface after migrating
2699174	Issues with title and legend location in chart when formatting Area Display in a Web Intelligence document
2699524	Canceling a Refresh action on a Web Intelligence document opened with Open document URL with parameter sViewer=fiori doesn't work
2700140	Change time level is not applied in the report in Web Intelligence Interactive Viewer after navigating through the navigation map
2700378	Browser Console shows error when using opendoc with sViewer=fiori and sInstance=Last
2701395	Error:" exception raised: java.util.NoSuchElementException" is encountered when scheduling Web Intelligence documents containing prompts with default values
2701664	A prompt window unexpectedly appears in the Web Intelligence Interactive Viewer when opening a document from an OpenDocument link
2701762	In the Central Management Console, the values for Vertical/Horizontal records in the Quick display mode properties don't match in BI LaunchPad with the values of Rows/Columns in Quick Display
2704405	Comment Field shows previous comments when exporting a Web Intelligence report to PDF
2704580	When creating a Web Intelligence document using Excel files or Text files as data sources, the application can't distinguish these data sources files
2704615	Unable to fold back an unfolded Web Intelligence column in Web Intelligence Interactive Viewer
2704640	Charts and images may not be correctly displayed in Web Intelligence Interactive Viewer when several instances of the same Web Intelligence document are open simultaneously
2705294	View script window is getting grayed out for users with advanced security rights

2705944	Javascript error in palette.js when setting iframe size to zero while viewing an Opendocument Page
2707253	The Calendar Picker displays Today instead of Now when prompt comes from universe object in a Web Intelligence report
2708145	Firefox setting to view PDFs in browser may be ignored when opening a Web Intelligence document in PDF format
2708347	Format Number is not taken into account in Web Intelligence when it is defined in the Assign Data panel
2708354	Not able to create a prompt variant which has a single or a double quote character in the name in a Web Intelligence report
2708361	Cannot apply prompt variant with value of type date time in Web Intelligence HTML interface
2708432	"Create prompt variant" dialog box: "Select All" button is enabled even if all prompts are selected
2708577	The drill on a dimension contained in a merged dimension is not working using the Web Intelligence RESTful service
2708987	Inconsistent formatting is applied when changing the size of a chart (width and height), using measurement unit 'centimeter' in Web Intelligence document set with Web Intelligence HTML interface
2708992	In Web Intelligence HTML interface, edit a break based on a null value raises an error
2709190	Text getting truncated in the document preview when attempting to print a report in Web Intelligence
2709447	Web Intelligence Interactive Viewer cannot display more than 11 variants in list when refreshing Web Intelligence document
2710010	Web intelligence Change Source fails with error "While trying to invoke the method com.sap.sl.dataprovider .getDataSourceHeader() of a null object loaded from a local variable 'dataProvider';"
2710307	Adding NAll=Y parameter to a Web Intelligence openDocument link does not prompt for Optional prompts
2710905	Intra Document link does not work in Web Intelligence Interactive Viewer using an iPad
2711800	Charts disappear when navigating to the current page using the Navigation panel in Web Intelligence Interactive viewer
2711949	Selected object is missing in the "result from another query" filter when merge is applied for Web Intelligence document in HTML Mode
2711963	Web Intelligence report fails to load the document link if 'Target area within the Document' option is checked and the report tab is named with accentuated character
2712562	Unable to remove optional prompt values for Web Intelligence reports when rescheduling
2712612	Default column caption for hierarchical prompts is omitted by Web Intelligence RESTful Web Service
2712683	OpenDocument to a Web Intelligence report set to open in PDF renders a blank report

2712688	Charts may not be displayed until scrolling down the report when viewing documents using Web Intelligence Interactive Viewer in Google Chrome
2713802	Customizations set in the Central Management Console for 'Query panel Toolbar=> Add query'; to hide 'TEXT'; as data source is not getting reflected to the Web Intelligence HTML interface
2714038	Apply a Query level filter on Dimension numeric Object with Operator 'In list'; or 'Not in list'; and selecting values from list Getting error message WIS 10703
2714385	An internal error is thrown by Web Intelligence RESTful Web Service when exporting a Web Intelligence document to ZIP (HTML) with additional ZIP entries
2715837	"Query script generation failed. See your administrator. Inconsistent answers. BW system <SID> returns Specify a value for variable <Variable_Name> (IES 13)" error is thrown in Web Intelligence Interactive Viewer when searching for List of Values in the Prompt window
2715993	Bad performance issue when editing the data provider in Web Intelligence HTML interface
2716195	Undo operation cancels more than one action in Web Intelligence Rich Client or Applet interface
2716755	Document Structure and Filters panel came to blank after Undo operation to cancel the recent added filter in Web Intelligence HTML interface
2717156	Selecting a node from tree view to refresh a Web Intelligence document through Web Intelligence RESTful Web Service may lead to an error
2717806	Mozilla Firefox: Unable to create a new custom Palette for a chart in Web Intelligence HTML interface.
2717934	Nothing happens when trying to perform an "Edit as a Geography by name" on a variable with double byte Japanese characters using Web Intelligence HTML interface
2718566	In Web Intelligence HTML interface, Time Dimensions are not visible in a available objects pane if parent dimension contains attributes
2720541	Failed to parse report element (error: INF) error appears in a Web Intelligence document having a filter on empty hierarchical caption
2720552	In some cases the chart's legend fails to be displayed when viewing reports using Web Intelligence Interactive Viewer
2721531	Hardly possible to select the color and opacity when creating a new custom Palette in Web intelligence HTML interface using German language
2723588	An internal error is thrown by Web Intelligence RESTful Web Service when getting details of a merged expression built on hierarchical expressions.
2724400	The last item for a cascading List of Values is not well displayed in Web Intelligence Interactive Viewer
2725287	Some Buttons, from change source dialog, are still in English even setting the Product Locale as Japanese in HTML viewer
2726394	Section properties are not handled correctly when updating specification using the Web Intelligence RESTful service
2727450	Images in subfolder of the default SAP BusinessObjects Business Intelligence Platform images folder are not displayed by Web Intelligence Interactive Viewer

2728830	Web Intelligence HTML interface freezes when moving from a query to another which is corrupted
2728857	Calendar widget is grayed when updating an input control based on a date time object type
2728920	Creating a report in a Web Intelligence document through Web Intelligence RESTful Web Service may throw an error if "Track Data Changes" is not enabled
2729912	Range definition does not work properly on charts in Web Intelligence HTML interface
2729937	mHTML format generated from a Web Intelligence publication fails to open successfully
2730143	Right to Left content orientation of table columns is not working properly in Web Intelligence Interactive Viewer
2730804	Different behaviors for Element function between HTML and Applet mode when editing a Web Intelligence report if right "Reporting - create and edit input controls" is denied
2731234	In Web Intelligence HTML mode , Query Filter value entered in the 'Type box' of prompt is automatically getting selected while selecting a value from List of Values
2731664	Formatting Locales are not taken into account when you schedule a Web Intelligence document
2732223	Line Width cannot be reduced to 0 in Line Chart when creating a Web Intelligence Report using the HTML Interface
2732578	Details objects are missing when creating an Element Link or an Input Control in Web Intelligence
2732585	The previous values are cleared if List Of Values uses cascading prompt in the universe
2732747	An alert should not be assigned several times to a cell when using Web Intelligence RESTful Web Service
2733340	Impossible to add an Excel query after selecting "Open in Designer ..." in Web Intelligence Interactive Viewer
2733504	Cannot duplicate a Formatting Rule for some Web Intelligence document in HTML viewer
2734717	In Web Intelligence, the objects list is not filtered when arranged by Data Source in the Create Element Link wizard
2734916	When a Web Intelligence report is created from a local Excel file in Web Intelligence Rich Client, its settings cannot be edited in BI launchpad
2735378	When updating the specification of a Web Intelligence report using Web Intelligence RESTful Web Service, the returned status is always the same even if the sent specification is different or invalid
2735799	In BI Workspace, report parts appears blank when they are used with Web Intelligence report with Prompts and with 'Refresh on Open' option enabled
2736249	Resetting the selection of an input control using Web Intelligence RESTful Web Service should use default values if any
2737767	Object is shown as missing source when doing "Change data source" on all data provider queries in Web Intelligence HTML Interface
2738359	Refreshing a Web Intelligence document with cascading prompts using Web Intelligence Interactive Viewer may throw an error.

<a href="#">2739214</a>	The List Of Values screen overlaps The last value when trying to apply a custom sort to a column in a Web Intelligence Report with Mozilla FireFox in Web Intelligence HTML Interface
<a href="#">2739564</a>	Impossible to run query with Temporal Sets when mixing Prompt and List of values operands with Between / Not Between operator
<a href="#">2741496</a>	Prompt answer cannot be modified for BEx range variable without list of values associated in Web Intelligence Interactive Viewer
<a href="#">2748749</a>	In Web Intelligence HTML interface it should not be possible to define a default value on an Input Control if it belongs to a group
<a href="#">2753437</a>	Hidden objects at Universe level are not working as expected in Web Intelligence HTML mode

## SAP BusinessObjects Web Intelligence

SAP Note Link	SAP Note Title
<a href="#">2311763</a>	Blank rows appear in Excel when exporting a Web Intelligence report even though "hide when empty" is enabled
<a href="#">2565201</a>	Web Intelligence document performance issue for complex variables
<a href="#">2592247</a>	DataDirect drivers for Web Intelligence are missing after installation on UNIX operating systems
<a href="#">2593435</a>	Second cancellation of Web Intelligence report is slow in BI Launch pad Java applet and Web Intelligence Rich Client
<a href="#">2595870</a>	Incorrect data is shown in Web Intelligence reports based on a BEx query smart measure since updating to SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 04
<a href="#">2623115</a>	Geographic chart content disappears after creating a merged dimension in Web Intelligence
<a href="#">2623183</a>	"com.businessobjects.rebean.wi.exception.InputFormException \$InputFormSetDocPropertyException: Cannot update document property for report ID: 234 (Error: ??? 00)" error message appears when performing the Undo action in Web Intelligence
<a href="#">2623673</a>	Description of a Detail variable with an Associated dimension disappears from the Variable Editor after re-opening the Web Intelligence document
<a href="#">2625278</a>	PREVIOUS function return wrong result in the break header/footer of the crosstab in Web Intelligence document
<a href="#">2632898</a>	After creating a Free Hand SQL Web Intelligence report, if the connection name is changed it does not get updated on the Web Intelligence report
<a href="#">2638653</a>	Error: "The following database error occurred: [Data Federator Driver] [Server] [Connector 'xxxxxx'] The SAP BW server reported an exception: com.sap.conn.jco.JCoException: (103) JCO_ERROR_LOGON_FAILURE: System received an expired SSO ticket on sapbwp sysnr 49. For information about this error, please refer to SAP Knowledge Base Article 2054721 on the SAP Support Portal. (IES 10901)" happens
<a href="#">2641029</a>	Where operator with measure condition has no effect on Reference Object of a Web Intelligence report

2643497	Error may appear while opening Web Intelligence Rich Client in Standalone mode what is not connecting to the network
2646012	Web Intelligence document is not displaying data in Serbian cyrillic when OLAP connection is defined with any Serbian cyrillic language
2656065	Prompts based on BEx Variables may not be merged even if they have the same data type and use the same prompt text.
2674798	Incorrect value is displayed in Tile charts when filtering by an empty or null value from an Input Control in Web Intelligence
2678958	The following database error occurs after running a Web Intelligence report on a UNV universe on top of Teradata database : "[Teradata][ODBC Teradata Driver][Teradata Database] GROUP BY and WITH...BY clauses may not contain aggregate functions. For information about this error, please refer to SAP Knowledge Base Article 2054721 on the SAP Support Portal. (IES 10901) (Error: INF )&#x201D;
2680835	GeoMap appears blank for 'Jammu and Kashmir' state in Web Intelligence document
2681667	'Apply security filtering on open' option is not working correctly when opening Web Intelligence report
2681907	After setting rows restriction on Universe side, no partial result warning is displayed when running a Web Intelligence document based on Universe from MSAS 2008 cube
2685829	Web Intelligence reports fail due to maximum sessions reached error
2687880	Slow performance seen while navigating tabs in specific Web Intelligence reports
2688827	Web Intelligence report generates incorrect SQL when Linked UNV universe contains Access Restrictions.
2691134	Web Intelligence report may hang when refreshing List of Values
2692585	Web Intelligence report showing partial data result when it is based on a universe that contains a stored procedure with multiple execute statements
2693566	Merged dimensions become unmerged in Web Intelligence documents based on a BEx query (direct BICS)
2693797	Web Intelligence document based on OLAP BICS connection is not extracting all members from hierarchy that contains LinkedNode
2694265	The error "Universe generation failed for resource id" may appear when creating a Web Intelligence document based on a BICS connection
2697112	"Invalid SET statement in the triggered action" error message appears when clicking on Run query in Web Intelligence
2697172	Incorrect object name in Web Intelligence when creating query based on Free hand SQL
2698532	The error "Security profile stored in object '<CUID>' is not accessible by current user, the security to apply cannot be retrieved. Contact your administrator. (IDT 23148)" appears in Rich Client
2699105	Images may appear distorted in PDF files when exported from Web Intelligence documents
2699224	Conditional Formatting is not getting copied from one report tab to another in Web Intelligence report

2700732	Memory leak and performance issue when refreshing Web Intelligence document with BW datasource after upgrading to 4.2 SP6 (UNV based on BW)
2703813	Incorrect SQL generation when query stripping is enabled and there is a parameter defined in Object WHERE clause in universe level
2704153	Refreshing a List of Values based on a HANA Input Parameter or Variable is much slower in Web Intelligence 4.2 Support Package 06 than in earlier versions
2705897	GeoMaps based on a variable and used in a chart cannot be displayed when the Web Intelligence document is saved and reopened
2706348	Error when running a query of a Web Intelligence report based on a Stored Procedure universe with Date as Parameter
2706426	Refreshing a document in Web Intelligence Rich Client fails with the error "An internal error occurred while calling ProcessDpCommandsEx API (Error: ERR_WIS_30270) (WIS 30270) "
2706510	The font size in chart may change in Web Intelligence documents migrated to SAP BusinessObjects Business Intelligence Platform 4.2
2707058	Incorrect value is returned in DatesBetween and TimeBetween function with WeekPeriod
2707140	Blank column is displayed for Time dimension attributes if the parent dimension contains some empty values in the dataset of a Web Intelligence report
2709068	Saving a Web Intelligence document with a dimension variable containing Dataprovider () throws an error
2710250	An error "Missing Cube Name" may appear in the list of values within a prompt window in Web Intelligence documents
2711393	Some erratic behavior, including unexpected shutdown and memory leak, may appear when exporting complex Web Intelligence document
2711816	Web Intelligence Fold/Unfold functionality doesn't work on Multi-values Breaks
2711999	Platform Search Indexing never completes on large CMS repository with 1 or 2 logical CPUs
2713148	Filter on a time dimension additional attributes gives incorrect results in a Web Intelligence report
2713543	Folded breaks generate multiple frames in Web Intelligence reports
2714187	Manually entered prompt values for complex selection variables are not show in the cell with PromptSummary() function after refreshing the report
2714589	The cache generated in scheduling process is not used when exporting a Web Intelligence instance to PDF, EXCEL format
2715094	Inconsistent search result during filtering on facets/categories
2717362	Geo Map in Web Intelligence document is not exported to PDF or Excel outputs when its "Number of Ranges" parameter is set to "0"
2717586	Warning message "The custom script has been reset" is not displayed when Custom SQL is updated
2718449	Can't apply custom sort to a variable which is based on a grouping variable in a Web Intelligence report

2718510	When auto width option is checked for Table columns, Hidden Columns are visible when document is displayed in Design/structure Only
2719756	WebIntelligenceProcessingServer sever crashes with error "[IllegalArgumentException] <pageIndex>" when a Web Intelligence document has GeoMaps
2720399	Refresh Failure when running end to end trace
2721540	"Error: Provider Selection Object: Initialization Issue (Error: INF )" is showing up when refreshing a Web Intelligence report based on a BEx query
2722509	Wrong Week number for Time dimension in WebIntelligence for Fiscal calendar
2724261	Chart title in Web Intelligence always displays "My Title"
2724352	Count() returns wrong values in Web Intelligence document containing multiple dataproviders and merged dimensions
2724353	Error #MULTIVALUE occurs when using NoFilter() function in Web Intelligence document
2724693	Empty sections are still visible in Web Intelligence document even if 'Hide section instances when empty' option is checked
2724741	In Web Intelligence documents with incompatible dimensions in a table, #DATASYNC is not displayed when 'Avoid duplicate row aggregation' option is checked
2727506	When refreshing list of values of a Web Intelligence document based on a BEx query, the memory of the DSL Bridge Service keeps growing
2728256	Custom and automatic titles in chart within Web Intelligence documents are replaced by the default title "My Title" after migration
2728347	Web Intelligence reports with Hindi fonts are not getting exported properly to PDF format from both Web Intelligence Rich Client as well as BI Launchpad
2728799	In a Web Intelligence Document, Hierarchy is flattened in the Table while adding a detail object
2728904	Font Tahoma used on a Web Intelligence document is fall backed on Unix, text used in a cell may wrap when it should not
2729359	The error "Universe generation failed for resource id" may appear when creating a Web Intelligence document based on a BICS connection involving calculated variable
2729849	Table Borders are missing in Web intelligence document when exported to PDF format
2730578	Error occurs with Query Filters in Web Intelligence document based on universe using derived tables with "@Execute(List of Values)" expression
2731660	In Web Intelligence Document, &#x201C;Apply changes and close&#x201D; generate error when trying to create an HANA document with mandatory variable having no default values
2731696	The error "SAP DBTech JDBC: [2048]: column Store Error : Search Table Error" appears when refreshing a Web Intelligence document based on a HANA Calculation View
2731883	Cannot expand the hierarchy object when it is placed into the section cell and set with a default expansion value
2732815	In a large table at the bottom of some pages, some rows are truncated in page mode or when exported the document to PDF

<a href="#">2733408</a>	When scheduling a Web Intelligence document with the delivery rule "the scheduled content contains data", the result is a warning even if there is 1 Row of data in the document
<a href="#">2734052</a>	Hidden rows are still visible when viewing a Web Intelligence document in Structure only mode
<a href="#">2736392</a>	Web Intelligence documents are going to "success" status even when Server Group Right is denied when scheduled
<a href="#">2737440</a>	BW variable using Selection option type with wildcard Pattern default values is not getting displayed under Prompt query filter in Web Intelligence report
<a href="#">2737836</a>	Refreshing a Web Intelligence report based on a BEx query takes more time in SAP BusinessObjects Business Intelligence platform 4.2 SP05 Patch 8 than with previous version
<a href="#">2737844</a>	Web Intelligence document scheduled in the Inbox is not saved in WID format and cannot be deleted
<a href="#">2738854</a>	Hierarchy Node values may not be displayed at correct level after upgrade from SAP Business Intelligence 4.1 to SAP Business Intelligence 4.2.

## SAP Crystal Reports

SAP Note Link	SAP Note Title
<a href="#">2661600</a>	Searching Crystal Report with multiple groups/subreports in Crystal Reports' dhtml viewer will take a long time and might crash the viewer
<a href="#">2674326</a>	Selected parameter value displays as technical value, instead of displaying it's description, for report based off SAP BW Bex Query in Crystal Reports for Enterprise, and viewed in SAP BI LaunchPad
<a href="#">2684812</a>	Parameter prompts for values, despite the values were already supplied in the OpenDocument URL, for report created in Crystal Reports for Enterprise, when using SAP UI5
<a href="#">2695971</a>	Error: 'An error occurred while generating a new report template. No error.' when attempting to create a report in Crystal Reports off an SAP BW BEx Query using the SAP menu
<a href="#">2704976</a>	The Thai fonts are incorrect when exporting the report into a PDF file
<a href="#">2705442</a>	PDF417 barcode shows incorrectly in CR .NET SDK Winform viewer
<a href="#">2708198</a>	Memory Leak in SAP Crystal Reports Server, OEM Edition
<a href="#">2708744</a>	Passing an X-SAP-LogonToken using Crystal reports Javascript API creates an additional session.
<a href="#">2712222</a>	File menu should be disabled when viewing Crystal Reports in Fiorified BI Launchpad
<a href="#">2717306</a>	The CPU usage of bw publisher service is always high
<a href="#">2717935</a>	Suppress Embedded Field Blank Lines also looks at static text and does not suppress.
<a href="#">2720012</a>	Error: 'The database table <Table Name> cannot be found', when refreshing a report based off Salesforce.com in Crystal Reports

<a href="#">2737740</a>	&#x201C;View Vendor&#x2019;s Web Site&#x201D; button is removed from Select Barcode Type dialog box in SAP Crystal Reports designer.
<a href="#">2741227</a>	Memory leak in CrystalReports RAS .net/com SDK

## SAP Crystal Reports for Enterprise

SAP Note Link	SAP Note Title
<a href="#">2609867</a>	Parameter field(s): {?Name} are in use and require a value. (CRS 314) (CRS 302) When Scheduling Crystal Reports
<a href="#">2653006</a>	Incorrect values in Hierarchy field in Crystal for Enterprise report connected to BW 7.5
<a href="#">2671471</a>	Some 15 digit numeric prompt value converted to scientific notation in Crystal Reports for Enterprise
<a href="#">2697094</a>	Crystal Reports Error: 'CRSDK01152' when refreshing a report based off a Bex Query that uses Selection Optional Variable, which is used in a formula or sub-report linked parameter, in Crystal Reports for Enterprise
<a href="#">2697576</a>	Subfolders are not displaying in the Open Report dialog window in Crystal Reports for Enterprise 4.2 - Support Pack 06
<a href="#">2709709</a>	HANA 2 OLAP connection does not work in CR4E Designer
<a href="#">2715039</a>	Incorrect report details returned post BI upgrade for Crystal reports for Enterprise report containing groups based on Hierarchies
<a href="#">2715651</a>	Error: 'Crystal Reports has encountered an unexpected error and needs to close. CRSDK01016' when refreshing a report based off a Universe connecting to a Time Dependent SAP BW Cube
<a href="#">2718554</a>	Interactive Filter UI crashes CR4E Designer in some case
<a href="#">2723796</a>	Default Parameter values NOT retained for Crystal Reports for Enterprise if parameter is passed through the OpenDocument link
<a href="#">2724946</a>	Adding com.azalea.ufl.BarcodeLibrary lib always generates an error
<a href="#">2727572</a>	After changing the Group Type 'For Each Record' in a chart, the Legend Label text cannot be modified in Crystal Reports for Enterprise
<a href="#">2730114</a>	Loading UFL lib with invalid APIs wouldn't crash CR4E Designer any more
<a href="#">2735673</a>	Crystal Reports RAS SDK replace database connection fails when using DBOptions._doNotVerifyDB
<a href="#">2743303</a>	In Crystal Report for Enterprise, Fail to create report with big decimal off Oracle Database using JDBC connection
<a href="#">2743360</a>	Fail to logon to HANA at first refresh for CR4E local report when that HANA Connection entry doesn't exist in Server Connection list.

## Semantic Layer

SAP Note Link	SAP Note Title
---------------	----------------

2603481	HANA input parameter not appears in Translation Management Tool Prompts section when translating Web Intelligence report
2640333	In Information Design Tool, UNV/UNIX conversion of parameter with List of Values should change the 'D' parameter type into 'DT' type if the preference Date->DateTime is set
2669289	Information Design Tool lacks memory when opening and closing huge resources many times
2676562	Delegate Search Fails In UNIX
2683450	No data retrieved when using date type Query Filter in Web Intelligence report based on SAP HANA OLAP connection
2693612	Unable to modify Business Security profiles for particular universes, using the Security Cache class with java SDK.
2695054	After convert unv universe to unx in Information Design Tool, some Outer Join direction was changed unexpected
2696999	Primary Keys are removed from Attributes when Saving a Business Layer with the Semantic Layer SDK
2699525	On SDK check integrity return error on hidden object
2705593	Unable to delete Universe Business Filters using Java SL SDK.
2712191	One hour earlier than the correct time shows for the setting date when selecting day light saving change date (e.g 07/10/2018) for date prompt when scheduling WebI document or setting default time for date type parameter in information design tool
2714777	Cannot edit a joined column in derived table and saving with no errors in Information Design Tool
2720360	'Failed to publish: <universe name> ' error message seen in the Status column when converting a stored procedure based .unv universe to .unx universe in Information Design Tool
2721710	Performance regression on Web Intelligence Hana based report having hierarchies
2723970	The error 'The query cannot run because it contains objects that reference incompatible tables.' is not displayed when adding incompatible objects in a Web Intelligence report
2735	Query Panel filter: hierarchical list of value using contexts fail with below error UNKNOWN ERROR
2736809	'Parameter Test has an invalid formula associated with it.' error is seen during Parameters and Lists of Values Integrity Check in Information Design Tool
