Notes related to security corrections will not be listed in this release note. Information on relevant security corrections can be found in the SAP Support Portal within the Security Patch Day section.

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 08 Patch 01

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
0002780568	Avoid multi-language search for objects which don't support name translation in BI Launchpad and Central Management Console
0002784310	OpenDocument error downloading WebI document saved in PDF format, located in BI Inbox, via Chrome: 'Failed - Server problem'
0002788673	Receive error: "An error occurred: Could not find the document." for all scheduled instances of Program Objects that have a text file as the resulting output.
0002828558	[CVE-2020-6245] Multiple Vulnerabilities in SAP Business Objects Business Intelligence Platform
0002846186	Tenant objects missing in Recycle Bin after deleting a tenant in Central Management Console
0002866332	Universe name is not captured in the Audit Database when refreshing a report WIRC
0002868095	'Contact Administrator' button in Fiori BI Launchpad gives 'refused to connect' error
0002872012	Folder Links not working in Fiorified BI Launchpad post promotion of Folders
0002872424	In Fiorified BI Launchpad, the numbed or documents listed under 'My Recently Viewed' list is inconsistent.
0002872457	Although [User Group BI Preferences] has not been selected when using Promotion Management Wizard, still 'BI Launch Pad Preferences' of user groups have been migrated.
0002874289	LCMSubversion service is not found after installation
0002874978	Send To function sends wrong report instance in Fiorified Launchpad
0002878282	When the creation of the InfoStore service fails, COM SDK clients crash
0002878555	Update 1 to Security Note 2735924 - [CVE-2019-0352] Improper session management in SAP Business Objects Business Intelligence Platform(CMC)
0002879953	Fiori BILaunchpad tile translation does not work for BI Categories
0002880908	Error: "RWS 00070, Internal server error" when using Restful Web Service with Tomcat
0002886314	Auto-execute startup scripts on reboot for tomcat does not start automatically
0002888389	Can't download file bigger than 2Gb in BILaunchpad
0002890769	Item Select Color does not work with Fiori Launchpad
0002895976	The child swf file cannot display in the SWF loader via opendocument link
0002896626	Error message in install log w.r.t MessagingQueueBroker stop
0002898077	[CVE-2020-6237] Information Disclosure in SAP Business Objects Business Intelligence Platform (dswsbobje Web Application)

SAP BusinessObjects Explorer

SAP Note #	SAP Note Text
0002900358	Single Sign-On login is no longer working in SAP Business Explorer 4.2 Support Package 8

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
0002805830	Core and Linked universe List of values
0002884786	Context window doesn't appear when attempting to refresh a query
0002888951	"Refresh failed" error message appears when click 'Synchronize Core' in the derived universe in Information Design Tool

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
0002717283	Prompt window may take a long time to appear using Web Intelligence document based on a huge complex UNX universe that owns a lot of Context with "neutral" join.
0002875036	An error "Failed to execute MDX query. Reason: Syntax Error" may happen when refreshing a Web Intelligence report based on SAP BW UNV Universe
0002893838	Query script generation failed. See your administrator. System XXX incorrect value xXXX for BW variable !XXXXX. (IES 00013) error happens in Web Intelligence
0002896756	Performance degradation while opening a Web Intelligence report created on SAP Hana Online data source.

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
0002731360	Current date function is not working as expected when used in the parameters with "between" operator In Information Design Tool and Web Intelligence
0002769138	Chart thumbnails are missing in the Turn Into dialog box when the Web Intelligence document is open via an openDocument or the Central Management Console
0002769804	When clicking the Update button within the Shared Elements tab of a Web Intelligence document, the error "...All such servers could be down or disabled by the administrator. (FWM 01014)(Error: INF)" appears
0002776620	'The web page cannot be found' comes up in Internet Explorer when selecting the document as a dynamic provider list in publication which has Hebrew name
0002779155	An error may be displayed in Web Intelligence HTML interface when navigating to a different report after changing a Drill Filter value
0002800425	Dynamic values are not used when scheduling a Web Intelligence document based on BW

0002800854	Cannot delete multiple Objects from the query panel of a Web Intelligence report in BI Launchpad using Google Chrome
0002811578	Modified Connection name does not get updated from the second attempt onwards in a Web Intelligence report based on Free Hand SQL datasource
0002813970	Prompts are not displayed while scheduling a Web Intelligence document based on SAP BW universe with an optional keydate with no previous and default value defined
0002828666	Cannot disable Bi-directional Page Scrolling in Web Intelligence reports
0002828973	Denying the access right "Send to Business Objects Inbox" doesn't work properly in Web Intelligence Interactive Viewer
0002843617	When creating a New Web Intelligence Document , No table is added in to the Body of the Web Intelligence Document if "Apply changes and Close" option is selected
0002844123	In Web Intelligence HTML interface, Unable to Move or Swap or change the order of objects added in a Table or a Block with EDGE browser
0002844490	Charts based on a custom color palette in a Web Intelligence document may not be displayed after upgrading SAP BusinessObjects Business Intelligence Platform
0002847691	Object used in the Query Filter (Object from this query) disappears and shows "Pick an object" if we hide the respective Class in Universe
0002848364	Enabling the option "Use new Interactive Viewer for document linking outside of the BI Launch pad" does not behave as expected
0002848715	Error occurs at Run Query after adding a query based on SAP HANA view containing variables and cancelling "Set Variables" dialog
0002849992	Data as a Web Service are not retrieved when run through Web Intelligence RESTful Web Service.
0002853936	Folding and refreshing a Web Intelligence document which holds large amount of data takes a lot time after upgrading the environment from 4.1 SP5 to 4.2 SP5 P11
0002854020	When trying to open a Web Intelligence report with the preference "Use the new Interactive Viewer for document linking outside of the BI Launch pad" the error "Error (WSR 00402) Resource is not reachable" appears
0002857933	Hyperlinks are added into break footer when adding a hyperlink on table body cells of a Web Intelligence report generating #MULTIVALUES error in the break footer cells
0002861711	Assign data window becomes unresponsive while editing a Web Intelligence report in HTML Interface when auto refresh mode is activated
0002863178	Data goes missing in PDF while exporting/scheduling a Web Intelligence report to PDF format
0002866380	Unable to add a second value to a Filter containing a "Between []" or "[] Not Between" operator based on a "Selection Option" of a SAP BW Variable
0002869847	max.tree.children.threshold is not taking effect for the Save As dialog in Open Document
0002870490	FreeHand SQL is not getting captured in Auditing Database
0002870755	Exporting or Scheduling a Web Intelligence document to CSV format failed with 'getBlobChunk' API error if the data size is more than 2 GB
0002873600	In a Web Intelligence report, un-checking the table option Show Columns for which all measures = 0 hides a cross table

0002874480	Wrong time is displayed if the formula is based on a variable in Web Intelligence
0002875134	Table filter does not work correctly when using a combination of OR and AND conditions in a Web Intelligence report
0002875661	Incorrect prompt values are shown on the History page for the running Web Intelligence instances when the prompt value is a dynamic value from Bex query
0002876383	Web Intelligence Rich Client performance issue loading connection list
0002876423	Refreshing a Web Intelligence document may fail with setRecursionLimit() error
0002877035	After selecting one value from a List Of Values, hovering over the Prompt value will select or deselect value in NetWeaver Enterprise Portal
0002877335	Error ' The referenced cell location cannot be because its target doesn't exists anymore ' when clicking 'Show Referenced Cell ' in Web Intelligence HTML Interface
0002877365	Report Level Filter and Block Level Filter is ignoring '“Null Values” if '“Not in list” operator is used in Filter Condition
0002880804	[CVE-2020-6222] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence Platform (Web Intelligence HTML interface)
0002881368	#ERROR appears when trying to use the formula RelativeDate(31/12/1968;Number; YearPeriod) function in Web Intelligence
0002882457	Refreshing a Web Intelligence document may unexpectedly stop WebIntelligenceProcessingServer server intermittently
0002882871	Not all List of Values for mandatory SAP HANA or BW variables without default values are refreshed automatically in Web Intelligence purged documents
0002883496	Tables of a Web Intelligence report are wrongly displayed in page mode and when the report is exported to PDF
0002883593	WebIntelligenceProcessingServer server crashes under Linux environment while using variable having duplicate values in 'INLIST' function
0002883617	In Web Intelligence, document links using the UserResponse function as a prompt parameter do not support intervals
0002883902	When scheduling a Web Intelligence report based on a Bex query with an Exit variable, the schedule page displays the Data Provider name (Query name) next to all the prompts
0002884403	In a Web Intelligence document, applying filter on Merged variables returns no data
0002885250	Web Intelligence Table format - Start on New Page option in Page mode does not work properly if scaling is applied.
0002885680	Modifying Webintelligence document with Geography objects caused WIReportServer to crash
0002886836	The column disappear when exporting the Web Intelligence document into Excel
0002888704	WIReportServer crashes when deleting a table filter on a document with "Extend merged dimension values" option enabled
0002890233	An error "Cannot connect to the OLAP source WIS 00000" may occur when using Web Intelligence Rich Client to connect to BW via BICS
0002891296	A Web Intelligence Dimension or Detail Variable changes to a Measure Variable when creating a new Measure Variable to aggregate it

0002891754	An error appears when disabling/enabling the Web Intelligence Processing Server in the Central Management Console
0002891764	Refreshing excel based Web intelligence Document results generates Linux core dump
0002891802	A locked HANA account will trigger a Web Intelligence Processing Server crash when querying through JDBC Relational Connection
0002892616	Web Intelligence Rich Client crashes / Web Intelligence Processing Server restarts while exporting the Web Intelligence documents to .xlsx format
0002895528	Error "(400) JAXBException" occurs in Web Intelligence Interactive Viewer when refreshing report based on SAP BW query after selecting values from Prompts

SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
0002863625	Crystal Reports for Enterprise crash when adding a parameter corresponding to a Bex Query Selection Option Variable on the report
0002865355	Open Document on a Crystal Reports for Enterprise report does not show parameter prompt when custom output format is specified
0002870332	Crystal Report for Enterprise recurring schedule instance with format 'New Paginated Text' or 'New Tab Separated Text' fails after BI Update

SAP Crystal Reports 2013

SAP Note #	SAP Note Text
0002863731	[CVE-2020-6219] Deserialization of Untrusted Data in SAP Business Objects Business Intelligence Platform (CR .Net SDK WebForm Viewer)
0002878493	When exporting a report to Text format from Crystal Reports, it generates extra blank pages
0002893460	If a table name contains dot letter, it will throw error while setting table location.
0002895564	The APPLICATIONUSER is empty when query the HANA Context in Crystal Reports designer.

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
0002875582	While creating an iview, unable to view the document folders from NW portal.

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 08 Patch 02

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
0002876368	Importing any Analysis edition for OLAP workspace into Translation Management Tool fails with various errors
0002896339	Analysis edition for Olap measure formating is incorrect

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
0002700975	Unable to 'lock' and 'unlock' in Version Management.
0002861529	Emails are not received for Monitoring Alerts with SMTP SSL configured
0002876947	Replication Operation Unsuccessful exception in tomcat logs in case of load balance scenario
0002878006	Invalid duration in Crystal Reports events of scheduled document
0002885953	Cannot add recipients when scheduling to BI Inbox if the user didn't have rights "Schedule to SMTP"
0002897504	Scheduling report to File System in IE11 hangs when "Schedule to Inbox" right is not granted
0002902323	"Invalid confidential channel (FWB 00032)" error happens during login within clustered environment
0002905836	[CVE-2020-6269] Information Disclosure in SAP Business Objects Business Intelligence Platform
0002910903	Event_ Detail _Value is blank in Audit database when the destination type is SFTP in BI Platform 4.2
0002911696	Operating System patch level prerequisite fails - BI 4.2 install fails on SuSE 15 SP1
0002912708	[CVE-2020-6278] Cross-Site Scripting (XSS) vulnerability in SAP Business Objects Business Intelligence Platform (BI Launchpad and CMC)
0002914488	List of Bundled SAP JVM versions shipped with selected Patches of SAP BusinessObjects Business Intelligence Platform 4.x

SAP BusinessObjects Dashboard Design

SAP Note #	SAP Note Text
0002904634	Cannot save the dashboard to repository when getting data via Live Office queries
0002909343	The input text picture does not show correctly in Dashboard HTML mode
0002911070	After upgrade, the Error: "org.apache.commons.codec.binary.Base64.(I)V" is displayed when refreshing a dashboard document based on MSSAS-based universe.

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
0002853439	Information Design Tool : The display of Security Profiles Group is limited
0002876063	Information Design Tool SDK : SAP DBTech JDBCb insufficient privilege:
0002881369	In Information Design Tool, Business Layer saved as text generate an error
0002883904	Salesforce ODBC driver Crashes IDT
0002901499	In Information Design Tool the conversion of a local unv to Another folder/ Change destination folder doesn't work
0002903542	Information Design Tool - Check integrity fails on Stored Procedure UNIX universe using prompt with parameter

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
0002895490	Live Office crashes when clicking the question mark to select anywhere in Office 64bit.

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
0002896756	Performance degradation while opening a Web Intelligence report created on SAP Hana Online data source.
0002899395	Web Intelligence report using OLAP connection on SAP HANA View returns incorrect value for dimension based on column with TIME Data Type
0002904502	Prompts with the same name do not automatically merge in the Prompts window within Web Intelligence documents
0002906586	Hierarchy Levels from Bex query are no longer available when refreshing

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
0002845079	Web Intelligence query panel scroll bar cut in half vertically in Internet Explorer
0002859352	Random WebIntelligenceProcessingServer restart and does not change to running state until manually restarted
0002877098	Modified custom SQL script is not retained after changing the data source in Web Intelligence report
0002891914	An error occurred from the prompt dialog. (LO 02031) : error occurs when Live Office refreshing the List of Values of a prompt
0002894321	Options Constant or dynamic badly selected within prompt summary page for WebIntelligence Document Publication
0002895911	Accessing SAP HANA OLAP Connection with Server Type 'Multi-Tenant'; fails from Web Intelligence Rich Client
0002896586	The list of Geographic Elements is not readable in "Edit as Geography" Dialog Box under FireFox
0002897355	The value entered in a Document Input Control based on constant variable is not kept when switching between report tabs in Web Intelligence documents
0002901550	WebIntelligenceProcessingServer server crashes in case of delegated measures and when a grouping set query returns empty result set
0002903017	Wrong time is displayed by FormatDate when timezones of server and browser are different
0002903511	Cannot refresh or schedule a Web intelligence document when two identical prompt names with xml input
0002906602	Prompt value mismatch occurs in Web Intelligence reports based on SAP HANA View with variables having same prefixes
0002906616	Error: global.properties (No such file or directory) when clicking 'Save As' in BI Launchpad HTML mode
0002910749	In BI launch pad, running query containing mandatory prompt with empty value generate an error
0002911189	In Web Intelligence, GeoMaps doesn't show up if the geography object has NULL value in it
0002913367	A user is able to upload any file as a CSS Stylesheet, and then corrupt the Web Intelligence document

SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
0002883899	Option to show the Description Only for parameter value is not working in SAP BI LaunchPad when using the SAP UI5 Prompt Screen, for report created in Crystal Reports for Enterprise
0002884330	Crystal Reports for Enterprise Active Directory SSO fails with WSE99999
0002896935	When creating or editing a formula, Crystal Reports for Enterprise crash with the error: JRC00004220
0002903554	Boolean Parameter does not show the Description in the SAP UI5 Prompt Screen, despite the parameter was set to only show the description in Crystal Reports for Enterprise
0002904079	Crystal Reports for Enterprise Discrete Parameter with a List of Values with a Value and a Description, only shows the Value selected in the SAP UI5 Prompt
0002904509	Crystal Reports for Enterprise Dynamic Cascading Parameter does not vizually show as being related when viewed in the SAP UI5 Prompt in SAP BI LaunchPad
0002904618	Crystal Reports UI5 Prompting: "Run" button enabled when some mandatory parameter not filled
0002913052	Fail to create report in Crystal Reports for Enterprise using HANA 2.0 OLAP Connection which it's created off HANA View
0002913085	[UI5 Prompt] Fail to set value for Prompts created in Query Panel off Bex Query

SAP Crystal Reports 2013

SAP Note #	SAP Note Text
0002901219	Failed to save report into SAP system using SAP Toolbar via standard transport
0002901736	Viewing Crystal Reports Instances under load may trigger database refresh

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 08 Patch 03

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
0002572536	Filter description translation is taking the filer name in Translation management tool for migrated Universes or crystal reports
0002849967	[CVE-2020-6276] Cross-Site Scripting (XSS) vulnerability in SAP Business Objects Business Intelligence Platform(Bipodata)
0002878652	Full Control Owner right not correctly inherited when cutting and pasting public folder under personal folders
0002889731	User search is not working in Fiorified Launchpad (Performance)
0002893309	Enterprise Logon Restriction is not working if a user is logging in by Trusted Authentication
0002900597	Schedules to SFTP on Solaris fail with "Error performing SSH handshake with the server"
0002908328	Installing BI 4.2 SP08 aborts on Linux Machines with Missing Libraries error
0002911380	Updating Web Intelligence Documents from unv to unx universes using the BI Automation Framework fails if the Data Source for one of the Query is missing
0002912708	[CVE-2020-6278] Cross-Site Scripting (XSS) vulnerability in SAP Business Objects Business Intelligence Platform (BI Launchpad and CMC)
0002914075	While upgrading to latest BI 4.2 Support Pack, Windows Features dialog box pops up stating .NET Framework 3.5 couldn't be installed
0002914463	Scheduling Destination tab slow to load when many users exist in the system
0002914634	Error communicating with origin site. Failed to fetch the MIME part content
0002917743	[CVE-2020-6281] Cross-Site Scripting (XSS) vulnerability in SAP Business Objects Business Intelligence Platform(BI Launch pad)
0002921517	Servers crash reading auditing files
0002924189	Could not find the main class: org.apache.activemq.artemis.boot.Artemis. Program will exit.
0002925827	[CVE-2020-6300] Cross-Site Scripting (XSS) vulnerability in SAP Business Objects Business Intelligence Platform(Central Management Console)
0002935791	[CVE-2021-21444] Clickjacking vulnerability in SAP Business Objects Business Intelligence Platform (CMC and BI Launchpad)

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
0002876063	Information Design Tool SDK : SAP DBTech JDBCb insufficient privilege:
0002906329	PostgreSQL JDBC driver - “citext” datatype error: “Exception Non supported datatype 1111” is displayed while parsing citext datatypes in Universe.
0002924569	Information Design Tool : Problem in conversion @Select UNV to UNX Path Error
0002926848	In Information Design Tool, Multiple SQL flows generated for measure objects even they are in the same context (UNX type universe only)

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
0002931569	Prompt issue in Live Office using Webi report with HANA / SAP Variables in BI4.2 SPx

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
0002895425	Error while changing the owner or qualifier of one or more tables in a .unx universe using Semantic Layer Java SDK API.
0002896756	Performance degradation while opening a Web Intelligence report created on SAP Hana Online data source.
0002900682	Data may be missing in a Web Intelligence report that has more than 50 values for a BW variable
0002912081	Dashboards based on BICS connection throwing XLS 000009 while trying to invoke the method com.businessobjects.mds.olap.protocol.bics.BICSClient.getCube() of a null object loaded from local variable 'bicsClient' error after upgrading
0002912881	Unassigned value set as default value for a Date variable with in BEx Query are not showing in Web Intelligence Documents

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
0002682845	Searching within Web Intelligence Rich client and Web Intelligence Applet interface does not highlight items properly
0002733317	Combined row Restrictions applied on user groups is ignored in Web Intelligence Rich Client 3 Tier mode
0002740681	"Cannot drop here - the object is incompatible" message appears when adding a dimension to a table in Web Intelligence report

0002794684	For Taiwan Chinese locale, Web Intelligence schedule fails with error "Internal error occurred: Can't find resource for bundle java.util.PropertyResourceBundle,key schedule.prompts.noprompts. Contact your administrator"
0002809140	Cancel the refresh takes a long time in Web Intelligence HTML interface
0002824798	Geo map does not show values in Web Intelligence report with variables on merged object and "Extend merged dimension" enabled
0002878713	Apply changes in all Queries sharing the same Data source Option is Disabled for Web Intelligence Documents based on universe
0002887539	Input Control using an empty or constant variable is displayed in Web intelligence Report Input Controls instead of Document Input Controls
0002890399	SAP HANA Input Parameters / Variables are visible in Prompts box although options 'Use BEx/HANA defined default values at runtime' and 'Set as prompt' are unchecked in Web Intelligence document
0002899709	A blank empty row is added when exporting a Web Intelligence document to Excel 2007 using Web Intelligence RESTful Web Service or Web Intelligence Interactive Viewer.
0002903889	Web Intelligence report scheduled with BW prompts set to "Dynamic Value" fails with error "while trying to invoke the method com.sap.sl.parameter.Parameter.getAnswerInformation() of a null object loaded from local variable 'parameter'"
0002903912	When the font is not available, the report should be display with the default font, but BILaunchpad shows a random font
0002904568	The error "The action cannot be performed" error appears when opening a Web Intelligence document
0002906114	Error when opening a migrated Web Intelligence report with a crosstab with Web Intelligence HTML interface
0002909786	Entry Field Input control in Web Intelligence accepts only 250 characters in Web Intelligence HTML interface
0002911381	Query level prompt values are reset automatically after modifying HANA Variables in Web Intelligence HTML Interface
0002912402	When rescheduling a Web Intelligence instance, the prompt values from the previous schedule are not retained
0002913073	Browsing folders using Web Intelligence RESTful Web Service might throw an internal error.
0002915725	Web Intelligence Java Applet sorts report list in alphabetical order instead of Last Modified date
0002917215	No warning message is displayed when editing a query after deleting a used condition from universe in Web intelligence Rich Client
0002917878	Table columns are aligned incorrectly when using a Right To Left language in the Web Intelligence Interactive Viewer
0002918912	Error occurs in Web Intelligence HTML Interface when refreshing a report after selecting [EMPTY_VALUE] in prompts for SAP HANA hierarchy based variables
0002925537	Renaming the Query name resets the Custom script in Web Intelligence (UNV)
0002928347	Saving/Modifying Web Intelligence Document fails with 'An internal error occurred while calling 'saveDocumentToCorporate' API. (Error: ERR_WIS_30270) (Error: INF WIS 30270)' error after upgrading

0002930128	[CVE-2020-6325] Multiple Vulnerabilities in SAP BusinessObjects Business Intelligence Platform
0002930395	unexpected exception handling lead to process core dump
0002930830	Web Intelligence RESTful Web Service should not return any occurrences array in a Webi Intelligence document details.
0002931459	Universe name appears to be Null when performing a change source from Web Intelligence Rich Client
0002931541	Universe Outline is missing in Web Intelligence query panel in HTML mode (UNV)

SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
0002880976	NULL option missing from the SAP UI5 Prompt screen in SAP BI LaunchPad for report created in Crystal Reports for Enterprise
