***Notes related to security corrections will not be listed in this release note. Information on relevant security corrections can be found in the SAP Support Portal within the Security Patch Day section.***

## **Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 07 Patch 01**

### **BI-BIP-ACP**

<b>SAP Note #</b>	<b>SAP Note Text</b>
<a href="#">0002742002</a>	Improper alignment of user name in BI Administrators' Cockpit

### **BI-BIP-ADC**

<b>SAP Note #</b>	<b>SAP Note Text</b>
<a href="#">0002637997</a>	[CVE-2019-0303] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence Platform (Administration Console)

### **BI-BIP-LO**

<b>SAP Note #</b>	<b>SAP Note Text</b>
<a href="#">0002746776</a>	Data is not retrieved using Live Office with BOE default PVL on Windows German operation system.
<a href="#">0002748002</a>	Publication WebI report doesn't work in Live Office when its instance including Enterprise Recipients.
<a href="#">0002761844</a>	Can't insert WebI page footer when the report contains WebI section.

### **BI-RA-WBI-FE-FIO**

<b>SAP Note #</b>	<b>SAP Note Text</b>
<a href="#">0002751523</a>	Hyperlinks do not open when viewing a document using Web Intelligence Interactive Viewer on iOS Safari
<a href="#">0002766265</a>	Web Intelligence document fails to open in the Web Intelligence Interactive Viewer when using an openDocument URL with a range as prompt parameter

## SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
<a href="#">0002726089</a>	When using the "Copy Content" feature in AOLAP, if a hyphen is present no copy is performed before the hyphen.
<a href="#">0002745062</a>	HANA HTTP connection to an HANA view with Text Join does not populate data corresponding to the Preferred Viewing Language

## SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
<a href="#">0002761597</a>	Error "HTTP 500" appears on the content tab when editing a "Navigation List" which contains a Document with a filename in Russian on BI Workspace via the BI Launchpad

## SAP BusinessObjects Business Intelligence mobile applications

SAP Note #	SAP Note Text
<a href="#">0002758946</a>	Freezed Breaks applied in the Webi document is not respecting in SAP BI Mobile App.

## SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
<a href="#">0002701027</a>	[CVE-2019-0398] Cross-Site Request Forgery (CSRF) vulnerability in SAP BusinessObjects Business Intelligence Platform (Monitoring application)
<a href="#">0002727143</a>	Editing a Monitoring watch displays incorrect rules and behaves inconsistently
<a href="#">0002732135</a>	Lumira Bookmark folders missing in Promotion Management -> Add Objects
<a href="#">0002732345</a>	History page goes blank in CMC after closing (using cross option) the reschedule window for any existing instance
<a href="#">0002742798</a>	Translation Management Tool is failing to import Xliff file for SAP Lumira Document
<a href="#">0002752615</a>	Promotion Management Fails when destination logon user has third-party/LDAP alias.
<a href="#">0002756900</a>	UpdateDBWithNewColumnsAndIndexes errors traced in Central Management Server logs
<a href="#">0002756903</a>	Events and Server Groups missing in Manage Dependencies when promoting AO Workbooks with recurring schedules
<a href="#">0002759052</a>	User cannot access public folder in Fiorified Launchpad after denying personal folder access
<a href="#">0002763464</a>	Auditing doesn't store data in database when event has unsupported detail
<a href="#">0002764132</a>	Replace option for rescheduling object

## SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
<a href="#">0002708426</a>	&#x2018;Index 0, Size 0&#x2019; error message appears when converting a .unv universe to .unx in Information Design Tool
<a href="#">0002742789</a>	With SAP Authentication, SAP user cannot unlock the universe in Information Design Tool

## SAP BusinessObjects Report Conversion Tool

SAP Note #	SAP Note Text
<a href="#">0002734710</a>	Error "Not Converted : <report name> - Free-hand SQL connection problem" while converting Free-hand SQL based Desktop Intelligence to Web Intelligence reports using Sybase ASE 15.7

## SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
<a href="#">0002741620</a>	"Arithmetic overflow error converting expression to data type int." error message occurs when validating a join in Information Design Tool
<a href="#">0002745589</a>	An error may occur when trying to use Hana attributes objects through a relational universe access
<a href="#">0002751470</a>	[CVE-2019-0348] Encryption not enforced in SAP BusinessObjects Business Intelligence Platform (Web Intelligence)

## SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
<a href="#">0002604061</a>	Error messages may occur in Web Intelligence when updating the Excel file in the Query Panel
<a href="#">0002662965</a>	After converting Free Hand SQL based Desktop Intelligence documents to Web Intelligence reports, renaming free hand SQL queries causes issues
<a href="#">0002726646</a>	The error "Invalid data in the column date" appears when creating a Web Intelligence Document using a Text file as the data source
<a href="#">0002732358</a>	When clicking a Hyperlink object that contains the parameter &sViewer=fiori in BI Launchpad, it incorrectly opens in Web Intelligence HTML interface instead of the Web Intelligence Interactive Viewer
<a href="#">0002732792</a>	Incorrect Chart data is displayed when exporting Web Intelligence report containing Pyramid or Funnel charts to PDF or Excel
<a href="#">0002734943</a>	Incorrect prompt values are shown on the summary screen in completed Web Intelligence instances when rescheduling or running recurrent schedule
<a href="#">0002736193</a>	Web Intelligence document returns a "processDPCCommandsEx" when using dimension variables depending on measure variables

0002736499	Optional prompts based on custom date exit variables are not applied to a recurring Web Intelligence document scheduled
0002738061	Prompt constant values are not being updated when scheduling a Web Intelligence report in BI Launchpad with document containing data providers based on the same bex or hana queries
0002738333	Web Intelligence schedules going into "Failed" state instead of "Warning" state irrespective of delivery rule set when "Number of retries" is not set to zero.
0002738854	Hierarchy Node values may not be displayed at correct level after upgrade from SAP Business Intelligence 4.1 to SAP Business Intelligence 4.2.
0002739297	Extra tab delimiter is added when exporting Web Intelligence report to text file after migration
0002739439	Value-based break on a dimension with type number or date does not display Break header and footer in Web Intelligence report
0002741005	"You do not have access to one or more data providers; only the ones to which you have access will be refreshed.(WIS 30286)" error when refreshing Web Intelligence based on Excel dataprovider
0002742844	Invalid session. Please close your browser and log on again. (WIH 00013) error message appears when trying to assign data to a chart of a Web Intelligence report after opening it via opendocument
0002744386	WebIntelligenceProcessingServer stays in &#x201C;Starting&#x201D; state and becomes unresponsive when trying to perform automated change source (UNV to UNX SAP Note: 2432962) on multiple Web Intelligence documents
0002744781	"Add Element Link" option is grayed out in Web Intelligence HTML interface when report table contains hierarchy objects
0002748597	IllegalArgumentExpection error occurs when canceling a refresh of a Web Intelligence report based on Excel Data Provider
0002748603	Text is not well centered inside merged header cell in page mode or PDF for cross table for Web Intelligence document
0002750015	Format number option is lost in a Web Intelligence report after changing the measure type from Number to Decimal with aggregate function
0002750792	Cannot select a manually entered prompt value by pressing the Enter key in the prompts window using Web Intelligence Rich Client / Java Applet interfaces
0002752645	Running MultiTenancy Management over Web Intelligence documents causes WebIntelligenceProcessingServer server to crash
0002752671	Apply and Close fonctionnality is not correctly applied when using an OLAP universe with a keydate
0002753437	Hidden objects at Universe level are not working as expected in Web Intelligence HTML mode
0002753713	An error message is displayed while you try to replace the old Database connection of Free Hand SQL for a Web Intelligence document by a new valid Database connection
0002754484	When creating or updating a data filter based on a referenced cell using Web Intelligence RESTful Web Service, an error is thrown.
0002754860	Web Intelligence Rich Client is crashing when a complex formula with aggregation is added to the chart axis values of a Stacked Bar chart
0002755348	In a Web Intelligence report with large data set, when node 1 is collapsed in the outline, break total is duplicated on each page, in Quick Display Mode

0002756035	The last two merged rows of a table of a Web Intelligence report are hidden by the Page footer in Quick Display mode
0002756493	When saving a Web Intelligence report after applying formatting rules on a variable which is Decimal data type, the WIS 30270 error appears
0002757384	Cannot use &#x201C;Value(s) from List&#x201D; filter in Web Intelligence query based on Universe from Bics connection with BW variable
0002761135	Variables or formulas using the ReportFilterSummary() function do not dynamically update other variables or formulas of a Web Intelligence report
0002761410	The Navigation Map does not return the expected report page in a complex Web Intelligence report when using Web Intelligence HTML interface
0002763476	When you edit the formula of a merged dimension object used in chart of a Web Intelligence report, the Formula Editor window is empty
0002764513	[CVE-2019-0333] Information Disclosure in SAP Business Objects Business Intelligence Platform (Web Intelligence and CMC)
0002765045	In the "User Prompt Input" tab of a Web Intelligence report, the "Run" Button is not working when the prompt filter contains a date object and "Select only from List" is checked in the prompt properties
0002765113	In a Web Intelligence Document HTML Mode, Calendar picker is still showing Today instead of Now for a DateTime Object
0002767633	The "Measure names" does not display in the Stacked Column chart's Assign Data dialog when editing the Web Intelligence document in HTML mode
0002768380	WebIntelligenceProcessingServer hangs when saving a big report to Excel file or to Portable Document Format file

## SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
0002657394	Chart Legend is sorted in incorrect order in Crystal Reports for Enterprise when using Series
0002697094	Crystal Reports Error: 'CRSDK00001152' when refreshing a report based off a Bex Query that uses Selection Optional Variable, which is used in a formula or sub-report linked parameter, in Crystal Reports for Enterprise
0002751228	When scheduling Crystal reports for Enterprise document which contains double bytes prompt name, error occurs after apply the prompt values in SAP UI5 interface
0002762952	Value does not align vertically when the value equals zero, despite the fields are vertically aligned in Crystal Reports for Enterprise

## SAP Crystal Reports 2016

SAP Note #	SAP Note Text
<a href="#">0002723475</a>	After upgrading to BI 4.2 SP6, users from different domain cannot retrieve data from SAP-system in Crystal Reports
<a href="#">0002743916</a>	DHTML viewer does not honor number field formatting as set in Crystal Reports
<a href="#">0002761099</a>	Crystal Reports Application Server can't start on Linux when BOE is installed under folder with inode64

## Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 07 Patch 02

### BI-BIP-LO

SAP Note #	SAP Note Text
<a href="#">0002764711</a>	The excel extension will be changed when secondly Save to Repository in Live Office

### SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
<a href="#">0002768433</a>	Export Analysis for OLAP report to Excel does not export all the analysis Workspace tabs

### SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
<a href="#">0002753935</a>	HTTP 500 error when refreshing an Inbox directory list in BI Workspace
<a href="#">0002764733</a>	[CVE-2019-0326] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence Platform (BI Workspace)
<a href="#">0002771221</a>	[CVE-2019-0334] Cross-Site Scripting (XSS) vulnerability in SAP Business Objects Business Intelligence Platform (BI Workspace)

### SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
<a href="#">0002671935</a>	Inconsistent behavior on session management for those created through the Restful SDK API
<a href="#">0002734544</a>	The user status is not correctly updated in Central Management Console when Re-enable account after N minute(s) is checked
<a href="#">0002768154</a>	Users can see only 5 objects in a folder in Fiorified BI Llaunchpad when recycle bin is disabled
<a href="#">0002769260</a>	boe_cmdsd crashes (segmentation fault) in libsecuritysubsystem.so
<a href="#">0002775546</a>	SAP Users are not imported in groups when creating SAP authentication
<a href="#">0002776807</a>	CMS crashes on Unix when SESSION_LOGGING=1 or logon fails

## SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
<a href="#">0002769710</a>	Unable to remove Filter from the Query Panel in SAP BusinessObjects software, after applying the Microsoft update KB4090007 on MS Windows 10

## SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
<a href="#">0002760316</a>	"The following database error occurred: ORA-00934: group function not allowed here. For information on this error, see article 2054721 of the SAP Knowledge Base in the SAP Help Portal (IES 10901) (WIS 10901)" error message appears when refreshing a Web Intelligence report

## SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
<a href="#">0002628326</a>	Translated prompt text disappears after changing some queries' data source in Web Intelligence
<a href="#">0002717362</a>	Geo Map in Web Intelligence document is not exported to PDF or Excel outputs when its "Number of Ranges" parameter is set to "0"
<a href="#">0002721967</a>	Denying the "Create and Edit Queries based on Universe" right does not affect editing .unx Queries in Web Intelligence
<a href="#">0002730118</a>	Error "This query cannot be edited" happens when creating a Web Intelligence report based on Excel in Applet mode if right "Desktop Interface - enable local data providers" is denied
<a href="#">0002737923</a>	Hidden universe objects are still visible when adding a Query Filter with "Equal to" operator and "Object from this Query" option in Web Intelligence Rich Client / Java Applet
<a href="#">0002741508</a>	Subquery with Detail object disappears from Query Filters of Web Intelligence documents based on UNV universe in Web Intelligence Rich Client / Java Applet interface
<a href="#">0002754655</a>	When creating a Web Intelligence report, the query panel shows the description of the universe instead of the name
<a href="#">0002760478</a>	When using an Excel spreadsheet as a datasource of a Web Intelligence report in the Web Intelligence HTML viewer, the data range in the Custom Data Provider is ignored
<a href="#">0002768380</a>	WebIntelligenceProcessingServer hangs when saving a big report to Excel file or to Portable Document Format file
<a href="#">0002769208</a>	After migrating a Web Intelligence Document from SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 05 Patch 3 to SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 06 Patch 5, adding a column to the table fails with #REFRESH error after a refresh
<a href="#">0002770792</a>	A Manually entered value cannot be selected in the Prompts window of the Web Intelligence HTML interface
<a href="#">0002772414</a>	Error message "A filename cannot contain any of the following characters" is observed when saving a Web Intelligence report locally in Web Intelligence Rich Client
<a href="#">0002772786</a>	NullPointerException occurs when refreshing List Of Values with hierarchy of Web Intelligence documents based on a BEX universe with keydate
<a href="#">0002777282</a>	When adding a Break in a Web Intelligence document, then switching to Structure view results in a "ERR_WIS_30270" or "WIJ 20003" error
<a href="#">0002779632</a>	The Report Element in section/body of the Web intelligence Document, marked as &#x201D;Repeat on every page&#x201C; for both Horizontal and Vertical, does not repeat on every page when viewing in Page Mode

## SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
<a href="#">0002771018</a>	In report created in Crystal Reports for Enterprise, incorrect Boolean parameter value displays in the SAP UI5 Prompt screen
<a href="#">0002771525</a>	For report based off a BEx Query created in Crystal Reports for Enterprise, CTRL-A command does not add or remove all the parameter values in the SAP UI5 Prompt screen

## SAP Crystal Reports 2016

SAP Note #	SAP Note Text
<a href="#">0002762919</a>	RAS crashes when exporting from particular reports which have a chart depends on print time.
<a href="#">0002762927</a>	WeekDayName function output is different in Crystal Reports on Windows 10, Windows Server 2016, when the preferred viewing locale is set to: German(Austria)
<a href="#">0002767744</a>	The last line of SAP online Prompting would be hidden if Prompting page longer than 1 screen when schedule a report in BI LaunchPad

## Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 07 Patch 03

### BI-BIP-LO

SAP Note #	SAP Note Text
<a href="#">0002783980</a>	Live Office shows wrong data with Publication instances and Enterprise recipients.

### BI-RA-AO-XLA

SAP Note #	SAP Note Text
<a href="#">0002790792</a>	Opening Analysis Office Workbooks or Presentations fails with HTTP 500

### BI-RA-WBI-FE-FIO

SAP Note #	SAP Note Text
<a href="#">0002784768</a>	Empty value is passed as "Undefined" through OpenDoc link for an optional BEx variable in Web Intelligence Interactive Viewer
<a href="#">0002787297</a>	"Match case" prompt setting is grayed out and set to "YES" for Query Filters based on BEx query in Web Intelligence Interactive Viewer

### SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
<a href="#">0002752278</a>	Pages are blank when printing BI Workspace
<a href="#">0002784043</a>	Error while opening BO workspace containing Document Explorer with Open document URL
<a href="#">0002788710</a>	HTTP 404 error while viewing BI workspace from Fiori Launchpad
<a href="#">0002790620</a>	HTTP Status 403 ? Forbidden when running

### SAP BusinessObjects Business Intelligence mobile applications

SAP Note #	SAP Note Text
<a href="#">0002711789</a>	Error after initial password of Enterprise user is changed in SAP BI Mobile
<a href="#">0002763334</a>	If Format Number is declare as Null for Zero values then Web Intelligence Document is not inheriting the Format Number declared for Zero value

## SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
<a href="#">0002716730</a>	Promotion Management Wizard gets &#x201C;Operation failed! GetRelatedDependenciesFailed&#x201D; error
<a href="#">0002755674</a>	While logging off from BI Launchpad Next Generation, WebIntelligenceProcessingServer sessions are not released
<a href="#">0002770368</a>	Unable to set option "User can change password" for users when using RESTful SDK
<a href="#">0002775108</a>	HTTP 404 error when viewing Web Intelligence document in Fiori BILaunchpad
<a href="#">0002779775</a>	Fiorified BI Launch pad customization is not showing correct background color as designed in Theme Designer
<a href="#">0002786154</a>	Excel Uploaded via New BI Launchpad Could not be opened in webi Application
<a href="#">0002786747</a>	Hovering mouse over the Description column, some characters are URL-encoded
<a href="#">0002791409</a>	Improve search of content in folders of Central Management Console
<a href="#">0002798979</a>	SNC name of SAP System no longer support spaces

## SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
<a href="#">0002780557</a>	'The following database error occurred: (CS) "DBDriver failed to load : /opt/sap/sap_bobj/enterprise_xi40/dataAccess/connectionServer/drivers/lib64/libdbd_uxodbc35.so (Library does not exist)" .
<a href="#">0002781271</a>	Refresh Structure is disabled on Multisource Enabled Universe (MSU)

## SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
<a href="#">0002718540</a>	"Unencrypted communication is rejected by this system..." message when trying to connect to BW server using Web Intelligence Rich Client or Information Design Tool
<a href="#">0002723970</a>	The error 'The query cannot run because it contains objects that reference incompatible tables.' is not displayed when adding incompatible objects in a Web Intelligence report
<a href="#">0002781548</a>	SAP Business Warehouse precalculated variable list of values may not be displayed in Web Intelligence report
<a href="#">0002787516</a>	Prompts are not getting Merged properly when trying to create a Web intelligence Document based on a Unx universe which was converted from a UNV Universe

## SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
<a href="#">0002752679</a>	Navigating between the sections of a Web Intelligence report using navigation map is not working properly when the outline option is enabled
<a href="#">0002769166</a>	The Calendar Picker displays Today instead of Now for a DateTime Object in User Prompt Input Panel of a Web Intelligence report
<a href="#">0002774782</a>	Web Intelligence reports that contain only dynamic prompts based on universe parameter with keep last values unchecked fail when scheduled
<a href="#">0002777881</a>	"An Internal error occurred while calling 'processDPCommandsEx' API. (Error:ERR_WIS_30270)" error displays when refreshing Web Intelligence document after a change source action
<a href="#">0002778250</a>	Cannot create a Web Intelligence document based on an Excel data source in the HTML Interface when using Safari 12.1
<a href="#">0002781877</a>	The WebIntelligenceProcessingServer server crashes several times a day
<a href="#">0002784734</a>	Error occurs when trying to create a Web Intelligence report based on an Excel datasource
<a href="#">0002785272</a>	An error is raised while trying to schedule a Web Intelligence document with contexts and prompts
<a href="#">0002785335</a>	Functions like LastExecutionTime() and CurrentTime() are showing wrong time if Current Time Zone From Infoview Preferences is set to Moscow
<a href="#">0002786133</a>	Get "Your comment is too long. You cannot exceed 2000 bytes. (Error: RWI 00711) (Error: INF)" in SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 07
<a href="#">0002788074</a>	Table structure gets distorted when changing the background color of rows or columns in Web Intelligence HTML interface
<a href="#">0002788472</a>	Performance issue while opening a Web Intelligence report
<a href="#">0002791436</a>	Exporting or scheduling a Web Intelligence document to Excel crashes the WebIntelligenceProcessingServer server
<a href="#">0002793191</a>	Error occurs when searching in List of Values of Member Selector prompt of a Web Intelligence document based on a HANA OLAP connection
<a href="#">0002793415</a>	Support on Japanese era name change in Web Intelligence from May 1st, 2019

## SAP Crystal Reports 2016

SAP Note #	SAP Note Text
<a href="#">0002779660</a>	Support on Japanese era name change in Crystal Reports from May 1st, 2019

## Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 07 Patch 04

### BI-BIP-LO

SAP Note #	SAP Note Text
<a href="#">0002784458</a>	The Web Intelligence part is inserted into different excel file or error "The handle is invalid" happens in Live Office
<a href="#">0002793489</a>	Extra cell border is shown when refreshing a Power Point Live Office block after adding values to the input control list in the webi report
<a href="#">0002793872</a>	The error: "Object reference not set to an instance of an object" displays when refreshing LiveOffice against the Web Intelligence report with context.
<a href="#">0002800749</a>	"Method 'System.Exception.HResult' Not Found" error occurs when refreshing live office after upgrade to BI4.2 SP7
<a href="#">0002806485</a>	Live Office objects cannot take the right prompt values when refreshing all the objects against the same WebI report part by different binding values

### BI-RA-WBI-FE-FIO

SAP Note #	SAP Note Text
<a href="#">0002802566</a>	Name of Filter Operator chosen for Calendar Input Control appears in English, even after changing the Locale to a different language, in a Web Intelligence Document opened with Web intelligence Interactive Viewer

### SAP BusinessObjects Business Intelligence mobile applications

SAP Note #	SAP Note Text
<a href="#">0002790614</a>	In Xcelsius 4.2 SP07 Mobile Preview (mobile fit to screen) and (mobile Original Size) is not working , when user preview the document it shows blank space.

## SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
<a href="#">0002697523</a>	BI launchpad drop down button for Opened Documents in Fiorified BI Launchpad appears in extreme left in IE 11 for 'SAP BELIZE DEEP' theme.
<a href="#">0002750899</a>	SIA take long time to stop after all other BI processes have stopped
<a href="#">0002755534</a>	In Promotion management third party user group hierarchy is not kept for existing user group
<a href="#">0002756879</a>	Scheduling to SFTP destination results in error
<a href="#">0002789670</a>	Login to BI Platform web applications slows down over time
<a href="#">0002790285</a>	Clicking on Web Intelligence Document Link fails with 'HTTP Status 500 Internal Server Error';
<a href="#">0002791445</a>	Loading Destinations tab in scheduling scenario is slow even when send to Inbox is disabled
<a href="#">0002796499</a>	Schedule history page for Analysis Workbook shows "???" characters when using Russian language in Fiorified BI Launchpad
<a href="#">0002796606</a>	User cannot delete instances in Fiori Launchpad
<a href="#">0002807180</a>	[BOTCIT] can not access any links inside CMC application using load balancer in Chrome and Firefox browsers

## SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
<a href="#">0002753041</a>	The error: "Rule not respected ("Argument "IntervallId" must be smaller than 2.")" happens in Live Office
<a href="#">0002757981</a>	An additional blank space added to the column value when exporting to MS Excel a Web Intelligence report is based on MS SQL stored procedure
<a href="#">0002773552</a>	Formula LastDayOfMonth(CurrentDate()) displays incorrect last date for March month in Web Intelligence report
<a href="#">0002778774</a>	(--No value--) is displayed in List of Values for Cascading Prompt when creating a Web Intelligence report based on SAP HANA Online and using Web Intelligence HTML interface
<a href="#">0002780984</a>	WebIntelligenceProcessingServer frequently crashes and goes to failed status

<a href="#">0002785560</a>	Empty cell is displayed when applying &#x201C;default aggregation&#x201D; sum on delegated measure associated with a merged dimension in Web Intelligence report
<a href="#">0002787423</a>	Error message #REF_DATANOTFOUND appears for a reference, when the referenced cell is available on another tab in a Web Intelligence report
<a href="#">0002794684</a>	For Taiwan Chinese locale, Web Intelligence schedule fails with error "Internal error occurred: Can't find resource for bundle java.util.PropertyResourceBundle,key schedule.prompts.noprompts. Contact your administrator"
<a href="#">0002794959</a>	0 KB CSV file is generated when exporting or scheduling a Web Intelligence document to CSV format if the data size is more than 2 GB
<a href="#">0002795219</a>	Changing Data Source of a Web Intelligence Document drops Merge applied on Variables at Report level
<a href="#">0002797152</a>	In a Web Intelligence Document, Filter Bar fails to filter values when the filter is based on specific functions
<a href="#">0002801625</a>	Web Intelligence document hangs or displays no data when opened from Google Chrome version 75.0.3770.80
<a href="#">0002802263</a>	In Web Intelligence, the RelativeDate function does not work properly when using a leap year day and YearPeriod
<a href="#">0002803488</a>	When trying to create a Web Intelligence report based on Excel file , the following error occurred: Unable to create or update the Excel personal data provider
<a href="#">0002803714</a>	In the Web Intelligence HTML Interface it should not be allowed to move the Input Control when it belongs to a Group
<a href="#">0002803996</a>	In Web Intelligence HTML interface you cannot change the variable set as default value of an Input Control based on a Time Dimension detail

## SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
<a href="#">0002799237</a>	Error parsing special characters when scheduling Crystal Reports For Enterprise prompt values
<a href="#">0002804789</a>	Crystal Reports for Enterprise user gets re-prompted when switching pages
<a href="#">0002808432</a>	Add Oracle 19c Support on Crystal Reports for Enterprise by using Oracle 18c middleware for both JDBC and OCI.

## SAP Crystal Reports 2016

SAP Note #	SAP Note Text
<a href="#">0002767682</a>	Crystal reports scheduled on BI 4.2 SP5 bad performance comparing with BI 4.0
<a href="#">0002798749</a>	Option: 'Automatically publish to Enterprise' is not displayed when saving a report to SAP BW from Crystal Reports on MS Windows 10
<a href="#">0002804857</a>	Scheduling Crystal reports to Excel 97-2000 format results in dramatically mis-aligned, blank or no data
<a href="#">0002807028</a>	Blank page displays when viewing SAP reports with optional variables in BI LaunchPad using core prompting

## Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 07 Patch 05

### BI-BIP-DEP

SAP Note #	SAP Note Text
<a href="#">0002811431</a>	Unable to log into SAP BusinessObjects Explorer webapp when deployed on JBOSS 7.1 EAP

### BI-BIP-LO

SAP Note #	SAP Note Text
<a href="#">0002807051</a>	The sort order is changed after refreshing the Live Office upgrading from XI 3.1 to BI 4.2 SP06 due to the Duplicate Rows options picked.

### BI-RA-WBI-FE-FIO

SAP Note #	SAP Note Text
<a href="#">0002799552</a>	'Open in Designer' option for Web Intelligence Open Document URL does not redirect the user to Web Intelligence Interactive Viewer
<a href="#">0002818035</a>	When opening a Web Intelligence document through Document link, the Optional Prompt appears in Web Intelligence Interactive Viewer even if no value is selected

### SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
<a href="#">0002820547</a>	In BI Workspaces, blank spaces in report titles are replaced with %20

## SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
<a href="#">0002739625</a>	Filename will be garbled when using Restful API POST http://<baseURL>/infostore/folder/<folder_id>/file to upload a file which the file name has double byte characters
<a href="#">0002764119</a>	Analysis for Office&#x304B;&#x3089;CMC&#x30ED;&#x30B0;&#x30AA;&#x30F3;&#x6642;&#x306B;&#x30D1;&#x30B9;&#x30EF;&#x30FC;&#x30C9;&#x5909;&#x66F4;&#x8981;&#x6C42;&#x304C;&#x51FA;&#x306A;&#x3044;
<a href="#">0002766244</a>	Fiori Launchpad and RESTful calls fail with load balancer
<a href="#">0002802381</a>	Placeholder %SI_DATE% doesn't display correct value in Email body when scheduling publication to mHTML format
<a href="#">0002803360</a>	Schedule to Email Destination fails when created from Fiorified BI Launchpad when SSL is enabled.
<a href="#">0002804250</a>	Unable to import any Web Intelligence document using Translation Management Tool in BI 4.2 SP07
<a href="#">0002805437</a>	The text label for Confirm New Password is cut off when using Japanese locale
<a href="#">0002806864</a>	AdminTools.properties file getting updated after Patching
<a href="#">0002808342</a>	Blank page appears when using Open Document URL in a Web Intelligence / Crystal report in BI Launchpad / CMC or Fiori launchpad
<a href="#">0002808854</a>	Web Intelligence Publication with Dynamic recipient report fails instantly
<a href="#">0002809115</a>	Central Management Console (CMC) hangs when checking relationship on objects containing Russian characters in their names.
<a href="#">0002810358</a>	Clicking Crystal Report date range parameter button gives "HTTP 400 Bad Request" when viewed via WACS
<a href="#">0002810810</a>	Takes Over 60 Seconds to Return Could not find document error
<a href="#">0002811406</a>	Error: SetSIASStateWithRetry: ControlINTService failed stopping service servernamexxx after 5 retries
<a href="#">0002817463</a>	BO Fiorified Launchpad Customization Issue
<a href="#">0002818198</a>	Internal server error (RWS 00070) when accessing relative path in Fiori Launch Pad
<a href="#">0002820470</a>	Installation of BI Suite on UNIX is taking long time and outputs errors to setup logs
<a href="#">0002822163</a>	%SI_DATE% doesn't pick up timezone information

## SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
<a href="#">0002811106</a>	"libdbd_oci12.so" SAP BusinessObjects driver is used to connect to "Oracle18c"
<a href="#">0002812278</a>	Missing rows in a Web Intelligence document based on a universe using a Character Large Object (CLOB) and where data is exceeding 32k
<a href="#">0002816883</a>	HANA JDBC connection workload properties are incorrectly set

## SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
<a href="#">0002805877</a>	The error "Query script generation failed. See your administrator. Inconsistent answers. BW system <SID> returns Value '<VALUE>' for variable <VARIABLE> is invalid (IES 00013)" is displayed when refreshing the List Of Values of a Web Intelligence report
<a href="#">0002818001</a>	Context selection window popping up for a query which generates the same SQL in Information Design Tool

## SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
<a href="#">0002781167</a>	Loading / wait cursor may not be displayed while performing a refresh action on a Web Intelligence document having different Chart types in Web Intelligence HTML interface
<a href="#">0002795504</a>	The WebIntelligenceProcessingServer server crashes while Exporting or Scheduling a huge Web Intelligence document
<a href="#">0002800246</a>	Tooltip is not shown when dragging & dropping objects from outline to report in a Web Intelligence document under Chrome or Firefox
<a href="#">0002801238</a>	Error occurs when using Drill Up & Drill Down in a Web Intelligence document with several charts in Web Intelligence HTML interface with Internet Explorer
<a href="#">0002802758</a>	Query Filter Prompt window shows the vertical and horizontal scroll bars in the Web Intelligence HTML Interface when accessed from Internet Explorer 11
<a href="#">0002802814</a>	Value(s) from the list drop down in filter is grayed out in the Web Intelligence query panel
<a href="#">0002805123</a>	Changing operand from 'In list' to 'Equal to' in query filter shows different behavior in Web Intelligence HTML Interface
<a href="#">0002805179</a>	Unable to create Web Intelligence report when the option 'Use the new Interactive Viewer for document linking outside of the BI Launch pad' is checked in preferences of BI Launchpad
<a href="#">0002806304</a>	A blank Dashboard document is seen when opened or refreshed if it is based on a Query As A Web Service having a prompt value containing commas
<a href="#">0002806398</a>	Hovering the Mouse over Universe / Business Layer Views in Query Panel displays Name instead of displaying Description

0002807243	In the Query Panel of a Web Intelligence Document, Subquery Details are not displayed properly when the document was created using the Web Intelligence HTML Interface
0002807363	Web Intelligence report which uses dependent queries do not schedule as expected
0002808207	Dynamic value and constant value Prompts are not visible while scheduling a Web Intelligence document
0002809345	The error "The server memory is full. (WIS 30280)" appears while exporting a Web Intelligence document to Excel
0002809646	Error occurs while refreshing a Web Intelligence report using a formula with a synchronized dimension whose name is the same as a Data Provider
0002810610	In a Web Intelligence report, modifying a table having Value based break based on a contextual dimension makes the table disappear
0002811521	The first page shows no data in Quick Display mode for Web Intelligence document which contains large data in the 1st break
0002812529	Recurring publication fails after adding optional prompts to Web Intelligence document
0002812931	When calling /dataset API on report elements that are vertical table headers using Web Intelligence RESTful Web Service, an error is returned
0002814007	[CVE-2019-0396] Missing XML Validation vulnerability in SAP BusinessObjects Business Intelligence Platform (Web Intelligence HTML interface)
0002814779	In a Web Intelligence document, chart size is shrunk when exported to xlsx if placed on the right side of a table
0002816111	Cannot assign a negative value in a Custom Range within Heatmap Charts on Web Intelligence documents
0002816382	When creating a DataProvider based on an UNV universe with filter and operands IsNull or IsNotNull using Web Intelligence RESTful Web Service, an error is thrown
0002817075	Cut and Paste Table / Cells does not work in Web Intelligence HTML Mode
0002817540	'Remove from Merge' option is not visible for merged detailed objects of a Web Intelligence report when using the Web Intelligence HTML Interface
0002817937	[CVE-2019-0382] XSS vulnerability in SAP Business Objects BI Platform (Web Intelligence)
0002817945	[CVE-2019-0374] Multiple Cross-Site Scripting (XSS) vulnerabilities in SAP BusinessObjects Business Intelligence Platform (Web Intelligence HTML interface)
0002818250	Web Intelligence cell width increases when setting background color for merged cell and another cell which is on the same line
0002819605	The refresh of a single data provider of a multi providers Web Intelligence report triggers logs for all data providers in audit DB
0002819707	Cell alignment of Measure object changes after expanding outline under "structure only" mode in a Web Intelligence document
0002819895	Tomcat may shut down unexpectedly when opening several Web Intelligence documents using Web Intelligence HTML interface
0002820982	Web Intelligence Publication with personalization fails when scheduled with option &#x201C;One database fetch per recipient&#x201D;
0002822125	Grouping an object having more than 1000 rows shows partial results in Web Intelligence HTML Mode

<a href="#">0002822438</a>	The wrong formula is displayed in the Formula Editor when working with charts in Web Intelligence documents with Web Intelligence HTML interface
<a href="#">0002824313</a>	Error 'IDictionaryExpressionFilter.getExpression() (Error: INF )' while trying to switch document structure and filters option in Web Intelligence HTML Interface

## SAP Crystal Reports 2016

SAP Note #	SAP Note Text
<a href="#">0002806436</a>	Prompt window does not show the first parameter prompt when refreshing a report with dynamic cascading parameter in Crystal Reports

## Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 07 Patch 06

### BI-BIP-ADC

SAP Note #	SAP Note Text
<a href="#">0002774788</a>	MessagingQueueBroker (ActiveMQArtemis) service will not start after platform repair / upgrade actions

### BI-BIP-INS

SAP Note #	SAP Note Text
<a href="#">0002742160</a>	Removal of Deprecated Tomcat Java options added in bundled Tomcat
<a href="#">0002784358</a>	BI Tomcat Authentication settings lost during upgrade

### BI-BIP-LO

SAP Note #	SAP Note Text
<a href="#">0002834212</a>	Pop up the warning message after changing the password in Live Office.

### SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
<a href="#">0002816668</a>	Latest Instance option does not work when viewing BI workspace in Fiori Launchpad
<a href="#">0002817164</a>	Date format is displayed incorrectly for documents viewed within BI Workspace in Fiori BI LaunchPad
<a href="#">0002820389</a>	In fiori BI Workspace, heading formats are incorrect in Text Modules.

### SAP BusinessObjects Business Intelligence mobile applications

SAP Note #	SAP Note Text
<a href="#">0002826782</a>	[CVE-2020-6196] Denial of service (DOS) in SAP BusinessObjects Mobile (MobileBIService)

## SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
<a href="#">0002742817</a>	Central Management Server database objects are removed due to failed CRC check in clustered environment
<a href="#">0002774175</a>	Resful Web Service on Tomcat using Windows AD SSO fails with VSJ error
<a href="#">0002787151</a>	Enterprise users that migrated from XI3.1 to BI4.2 SP06 are not able to change their password
<a href="#">0002793498</a>	Error: Interface requested not found : csLIB when running a Multitenancy job including UNX
<a href="#">0002810904</a>	CMS and AJS servers show OS as Windows Server 2012 when using Windows Server 2016 and higher
<a href="#">0002812001</a>	Category cannot have image assigned when it contains certain special character in Fiorified BI Launchpad
<a href="#">0002814820</a>	OpenDocument via Hyperlink shows blank page in Fiori BI Launchpad
<a href="#">0002819769</a>	AdminTools is not working with JAVA 7
<a href="#">0002823181</a>	Error: Wrong number of parameters in URL
<a href="#">0002826383</a>	Hovering mouse over successful or failed instance does not show its details in Central Management Console (CMC) and BILaunchpad
<a href="#">0002827003</a>	Dynamic recipients receive multiple emails from publication when there are less recipients than the batch size
<a href="#">0002830578</a>	[CVE-2019-0395] Cross-Site Scripting (XSS) vulnerability in SAP BusinessObjects Business Intelligence Platform (Fiori BI Launchpad)
<a href="#">0002831421</a>	Optimize hostname resolution for remote hosts in BI Platform SDK
<a href="#">0002833957</a>	Sorting infostore objects in Restful SDK is not working

## SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
<a href="#">0002783802</a>	Refreshing a Web Intelligence document based on a unix universe that connects to a stored procedure returns an error
<a href="#">0002838148</a>	Users are being forcefully logged out of Web Intelligence Rich Client

## SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
<a href="#">0002810434</a>	The following error message appears when passing value that contains '@prompt' as a filter prompt answer using Web Intelligence report : An internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270) (Error: INF)
<a href="#">0002814021</a>	Error message occurs when refreshing a query on top of multi source universe in Information Design Tool : Variable '<Table name>' is invalid in the SELECT list/HAVING clause because it is not contained in an aggregate function or the GROUP BY clause
<a href="#">0002817058</a>	Factorized prompt in a Web Intelligence document based on a SAP HANA universe with multiple views should be mandatory if at least one of the variables is mandatory
<a href="#">0002826001</a>	The list of value for hierarchy involved into a cascaded prompt workflow added in Core Data Services View is displayed as Flat format instead of Tree structure
<a href="#">0002834981</a>	Attributes having a Decimal data type in the SAP HANA Calculation View is shown having a String data type in Web Intelligence

## SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
<a href="#">0002737639</a>	Right clicking a value in the Web Intelligence HTML viewer when in reading mode does not allow copying the value
<a href="#">0002777223</a>	Prompts are duplicated when refreshing a Web Intelligence report using variables from a SAP HANA Universe with multiple views
<a href="#">0002785741</a>	The following error message occurs while running a Web Intelligence report created on a single source universe : The following database error occurred .. Login failed for user @variable(&#x2018;DBUSER&#x2019;) .. (IES 10901)(WIS 10901)
<a href="#">0002788540</a>	Chart Legends 'Visible' turn into 'Automatic' in Web Intelligence report after upgrade from SAP BusinessObjects Business Intelligence platform 4.1 to 4.2 Support Pack 06
<a href="#">0002790492</a>	Function Currenttime() in Web Intelligence Report returns incorrect time in Linux Server
<a href="#">0002793051</a>	Web Intelligence Interactive Viewer may not filter data correctly from element links based on Date(Time) objects
<a href="#">0002817138</a>	When several Web Intelligence reports are opened in Web Intelligence Applet interface, if you quickly navigate between reports, the name of the tab Home or Documents changes to one of the report which is open
<a href="#">0002817952</a>	'Apply changes and close' in query panel does not work correctly in Web Intelligence HTML Interface after getting message "You cannot run this query because it will produce cartesian product"
<a href="#">0002819895</a>	Tomcat may shut down unexpectedly when opening several Web Intelligence documents using Web Intelligence HTML interface
<a href="#">0002820048</a>	WebIntelligenceProcessingServer server shuts down unexpectedly after upgrade
<a href="#">0002820835</a>	When accessing any biprws raylight URLs (http://host:port/biprws/raylight/*) in a browser or other tool, a HTTP 404 is returned

0002821404	When applying Break and Fold to a Web Intelligence report in Quick display mode, the data is displayed wrongly and each new page starts with the last values displayed in the previous page
0002821525	"[IllegalArgumentException] <pageIndex> (Error: RWI 00011) (Error: INF )" is observed when selecting "Expand all" for Bex hierarchy object in a Web Intelligence report and using Web Intelligence HTML Interface
0002822953	"[IllegalArgumentException] <pageIndex> (Error: RWI 00011) (Error: INF )" occurs when refreshing a Web Intelligence report based on a Bex query
0002823178	WebIntelligenceProcessingServer server shuts down unexpectedly when refreshing a Web Intelligence document with hierarchies
0002824041	Web Intelligence Rich Client Fails with "IDT 23140" error, while trying to access UNX universe (using UNC Path )
0002826953	Recurring publication or scheduling fails after adding optional prompts and deleting prompts to Web Intelligence document
0002827547	Web Intelligence RESTful Web Service to change data source fails when a Web Intelligence document uses the prompts based on Universe parameter or List of Values
0002828874	"unable to retrieve structure information from the provided source. (CDS 15103). (IES 10853)" appears while creating a Web Intelligence report based on a web service
0002829425	Scheduling a Web Intelligence document created with the German locale and with Prompts of type Date from a BI LaunchPad with an English locale fails
0002829838	In Web Intelligence HTML Mode, an error is displayed when user switch to document structure and filters navigation mode or navigates between tabs of the report
0002829880	Adding a Universe parameter in a universe after the creation of a Web Intelligence document based on this universe causes an error when scheduling this document in prompt page
0002833347	When using input forms with a custom list of values but no default value, Web Intelligence Interactive Viewer may not filter correctly Web Intelligence documents
0002836980	"Comments" in contextual menu must be disabled for user with no right to create comment
0002841405	Error in log files for recurring scheduled Web Intelligence documents with missing sources for prompts

## SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
0002733484	Function: 'CurrentCEUserName', does not display the user name in Crystal Reports for Enterprise

## SAP Crystal Reports 2016

SAP Note #	SAP Note Text
0002826263	Failed to run reports off xml datasource with null value existing for non-string data.
0002828980	The number is not displayed and error happens when exporting to Excel data only after applying the solution in SAP note 2743916

## Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.2 Support Package 07 Patch 07

### BI-RA-WBI-FE-FIO

SAP Note #	SAP Note Text
<a href="#">0002841426</a>	A blank page is displayed when switching between documents opened in Web Intelligence Interactive Viewer using OpenDocument links
