Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 02 Patch 01

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3044847	Receiving error when SNC is enabled on role import "Initialization of destination bwservername failed: Logon data incomplete"
3127025	Fiori BI Launchpad content pane shows incorrect header when Landing Page is set to Public Folders
3131451	Special characters used in comments are not imported correctly via LCMBIAR
3118264	JMX Thread build up in Tomcat / WACS hosting biprws
2979333	BI Version Management Deletes Universe Security Profile
3121032	“.” Character is present in “Directory” entry field ,when scheduling a Document from BI Launchpad (4.3)
3128217	Failed schedules don't show the reason of failure
3128337	Incompatibility between applications and BusinessObject platform in 4.3 SP02
3115597	The value cannot be NULL. Parameter name: cookies error occurs when logging into BI from AFO

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3136710	DataFederator drivers fails to parse build version after January 1st, 2022
3128743	Edit an OLAP "HANA1.0" connection in Information Design Tool do not display information
3071505	@DerivedTable() function content doesn't get inherited in the linked universe in Information Design Tool
3126041	“Visualize Loop” is not detecting Loop when complex join is used in Information Design Tool.

SAP BusinessObjects Live Office

SAP Note #	SAP Note Text
3134805	Live Office is slow to render Webi data in Excel

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3134089	Filter on measure is ignored in case of multiple data provider
3089955	Web Intelligence reports and schedule that contain hierarchy prompt values after migration from UNV universes to UNX universes
3106238	Indian currency symbol "₹" (Rupee) is not getting exported to pdf from Web Intelligence Document
3109964	When exporting Web Intelligence report to PDF or CSV Archive format, some special columns data will be blank
3106426	Internal error ("Index: 6, Size: 6") happens when trying to move up / down break in Web Intelligence
3113491	"No data" is displayed when refreshing the list of value of a query prompt filter if Hana variables prompt are not "set as prompt"
3115303	Query name is missing from filter objects in Report Filter panel
3113730	Date Prompts use incorrect format when scheduling Web Intelligence Reports with English (Canada) locale
3043384	Refreshing a WebIntelligence report with manually entered SAP BW variables values changes the values to "Undefined"
3117173	Recurring publication with interval prompt created in SAP BusinessObjects Business Intelligence Platform BI 4.1 release fails after migration to SAP BusinessObjects Business Intelligence Platform BI 4.2 release
3117460	Unable to select all List of values by clicking on shift + Left mouse (4.3)
3093581	Web Intelligence Document with large number of Data providers fails when we click on edit query
3111372	After migrating Web Intelligence documents from 4.2 to 4.3, the "All" value in Input Controls will not work
3118727	Product Viewing Locale (PVL) selected in preferences is affecting the format of Date time that is manually entered in Data Time prompt (4.3)
3119804	In Live Data Connect, missing error message when the query has a "contains" or "LIKE" operator
3117890	Web Intelligence might throw the error "The formula 'null' is not valid." when changing the layout of a cross table.

3109721	Personalization is not applied to a Publication's next run after modification of a merged dimension in the Web Intelligence document
3120296	Export data as xlsx could return cached previously generated data as csv
3120369	Web Intelligence discards custom sort when renaming a variable.
3120607	Report Input Controls based on constant value are not visible in Web Intelligence Filters side panel.
3117198	Blank space is observed between the columns when a break is applied on a table In Web Intelligence
3121558	The "Save" button is not available after resetting a "geography" dimension.
3035008	Web Intelligence might throw an error when changing an Input Control value with a decimal separator.
3130935	In Web Intelligence report Section 2 is starting on the same page as Section 1, even though "start on new page" is selected.
3094737	In Fiori BI Launchpad, WebIntelligence report level variables are not visible in the "report field" dropdown under the Local Profiles on the "Personalization" section when setting up or editing a Publication's properties.
3123453	The searched value cannot apply on the drill filter when viewing Web Intelligence report in BI Launch Pad
3035008	Web Intelligence might throw an error when changing an Input Control value with a decimal separator.
3124469	Value Based Break does not work
3132728	Merged hierarchy dimension disappears from table after refreshing the document
3047491	Selected Filter values are not captured in SQL Script generated in Web Intelligence report in Business Intelligence 4.3
3133395	QuerySummary() returns wrong number of rows in case of Web Intelligence report based on OData service pointing to an empty table
3106938	Product Locale is still English in some places of WebI report in BI Launch pad of BusinessObjects 4.3 even a non-English product locale is already set
3101100	Web Intelligence Processing Server crashes while using a dimension variable with having where function
3091091	Technical name may be displayed for Bex query and objects into Web Intelligence Query Panel
3123051	A copied block from the 2nd section to the bottom of the 1st section in Web intelligence document, is copied always in the top of the 1st section.
3120994	Mouse over tool tip not showing "Description" while hovering a universe's predefined filter from web intelligence query panel.
3124756	#COMPUTATION is displayed when using a Geo Dimension with hidden detail
3123165	Impossible to update a Report Input Control as Document Input Control when creating in the Web Intelligence Manage Filter Bar dialog

3123559	Webintelligence report will only display in one page if there is hidden column in the report
3122676	Web Intelligence Document fails with error "Query script generation failed" if "Set as prompt" option is unchecked for a variable in Set variable screen
3125138	In a Web Intelligence document which is migrated from SAP BusinessObjects Business Intelligence Platform 4.1 version to SAP BusinessObjects Business Intelligence Platform 4.3 with a crosstab and drill filter when adding a dimension into crosstab a blank e
3122564	Web Intelligence document link opened in new browser tab is tagged "undefined" as browser tab name instead of displaying Document name
3035008	Web Intelligence might throw an error when changing an Input Control value with a decimal separator.
3105380	Dataprovider name is displayed instead of merged dimension values if the name of merged dimension is same as a dataprovider
3103470	The "Type" of an object in the Web Intelligence Query Panel unexpectedly changes from String to Number
3035008	Web Intelligence might throw an error when changing an Input Control value with a decimal separator.
3126396	Variable names under available object list ignore spaces in their names
3103953	Unable to view the complete list of values in the Local Personalization window when working with Publications in BI Launchpad
3116153	[OPENDOC][CONTEXT] IsC parameter does not work in Opendocument command
3117369	Missing Target Report Names list in sReporntame parameter menu
3127466	SQL syntax error occurs when refreshing query based on SAP HANA universe and containing prompt on numeric measure
3107156	Cannot create Web Intelligence document based on Excel source where its name contains special character like %
3127949	Single Quote is not present in text qualifier when scheduling Web Intelligence report from BI launchpad
3120485	BW/HANA Key figure' attribute icon changed to "Folder" icon when editing in Web Intelligence query panel
3128593	Key column disappears after switching prompt and refreshing the List of Values in Web Intelligence report with multiple prompts
2928107	Global Profiles in publication doesn't get applied to all queries in report causing recipients to not receive restricted data.
3120533	Prompt Order not persisted in Query Properties box of Web Intelligence document after a Move Up or Move Down
3127266	Performance issue with WebIntelligence documents while switching values in a table filter

3128169	Extra space was added for every string when scheduling Web Intelligence into CSV
-------------------------	--

SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
3075081	When creating new formula, Crystal Reports for Enterprise hangs
3124825	In Crystal Reports for Enterprise, QR Code including Arabic characters displays "?????" after scanning.

SAP Crystal Reports 2013

SAP Note #	SAP Note Text
3061053	The crystal report takes a lot of time after upgrading to BI 4.3
3114904	Crystal Reports Cascading prompts are empty after selecting first prompt when scheduling in Fiori BI Launchpad
3128082	Fiori BI Launchpad showing incorrect database logon for Crystal Reports after Reschedule
3127186	System list display empty when create SAP connectoin in SAP CrystalReports

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 02 Patch 02

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3145370	Pioneer Services ships an unused and deprecated Xstream library
3132065	Analysis edition for OLAP report generates many BICS PROV_GET RESULT_SET

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3128529	HTTP 404 error when clicking on Analysis Office Workbook or Object Package in Fiori BI Launchpad
3138141	CMS crashes when scheduling reports with hidden server groups
3133045	Publications intermittently fail after binding the BI servers to a hostname
3119477	Categories are not translated in 4.3 BILaunchpad
3135883	Publications' Properties page will not display in BI Launchpad
3140904	SAML is not working in 4.3 SP02
3129282	Not able to open Agnostic report type in Fiori Launchpad
3142155	In 4.3 BI Launchpad, Category tiles marked as "Favorite" do not align properly with other Favorite tiles in the Safari browser.
3145769	[CVE-2022-27667] Information Disclosure vulnerability in CMC
3145769	[CVE-2022-27667] Information Disclosure vulnerability in CMC
3146361	File Event Properties not listing after migration from 4.2 to 4.3 SP02
2979455	Error : "Info object with ID document: XXXXX not found. (RWS 000012)" when viewing Lumira document in BI launchpad
3147079	Potential dead lock in BusinessObjects servers
3147531	CMS crashes on login with SAP logon tickets on AIX
3110860	RWS 000012 error seen when opening Lumira documents via hyperlink in BILP
3103547	Testing HANA Authentication fails in Central Management Console
3130497	[CVE-2022-27671] CSRF token visible in one of the URL in SAP Business Intelligence Platform.
3116798	Serialized Enterprise Session length is too long
3033238	Linked translated Lumira document not displayed in the correct language in Fiori Launchpad
3102041	SSO SAML implementation not work if we rename BOE war name
3129752	SAC user provisioning but there's a hardcoded hostname/port in the code
3124391	SBOB_SCIM_RWS 00002 error seen when performing user provisioning from BI Platform to SAC in a distributed BI Platform environment

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3124468	Universe Design Tool displays 4.2 instead of 4.3 as a version in Help menu.

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3136233	New SAP HANA Relational Connection not visible when creating Web Intelligence document
3138702	When applying 'Equal to' operator in query filter prompt, it doesn't restrict to 1 value, it allows selection of multiple values in Web Intelligence
3117901	Refreshing a Web Intelligence Document based on a Bexquery with HierarchyNode variable fails with error "ABEND RS_EXCEPTION (000)"

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3132650	"No Data" is displayed when asking for the list of values of a cascading prompt built on the Universe
3129856	"Purge Last Selected Prompt Value" option is not working correctly when Web Intelligence document has dependency variables from bex query and "Use BEx query defined default values at runtime" option is checked.
3135958	"internal error occurred while calling 'processDPCommandsEx' API. (Error: ERR_WIS_30270)" when trying to modify Web Intelligence prompts values during schedule.
3136835	Custom sort on merged dimension is ignored in specific Web Intelligence documents
3137225	Element linking doesn't work with opendoc light mode
3135059	Web Intelligence Element link does not filter EMPTY values.
3118004	If there is already a temporary document in the personal folders, then auto-save does not work intermittently.
3137356	A pop up displays an error in Live Office when inserting a universe with keydate and other variables
3120335	In the dialog box "Select a Query", displayed path of the Data Source is wrong when Data source is a Google sheet (temporary local path is displayed rather than Google Drive path)
3138694	The formula of a constant variable is not set as default value when creating an Input Control based on the constant variable in Web Intelligence

3135059	Web Intelligence Element link does not filter EMPTY values.
3135059	Web Intelligence Element link does not filter EMPTY values.
3124964	Errors may be visible in the traces of WeIntelligenceProcessingServer server when refreshing a list of values based on SAP BW
3127968	Performance degrade rendering WebIntelligence documents while changing report filter values when it contains dimensions with currentdate and currenttime functions
3137031	When refreshing a Web Intelligence report with large data volume, the WebIntelligenceProcessingServer server may run endlessly
3123611	In Business Intelligenc Launchpad, it's impossible to enter code in a cell that has been set as Hyper Text Meta Language
3139995	Unexpected transparency when choosing chart colors
3119422	When creating a Web Intelligence document based on SAP BW, 'No values to display' is returned when browsing the same connection a second time
3120451	Web Intelligence Query Panel - Available Object Dialog box is empty when adding a filter type : Query on Query
3142225	Web Intelligence should allow Footer Calculation using Sum or Average when applied to a numeric dimension.
3017482	Stacked Chart fails when we use Custom Format Data series and set Opacity to 0% (transparent) for a measure
3037669	Enlarge a gauge speedometer chart caused duplicate maximum value label in Web Intelligence
3141208	Refresh a WebIntelligence Document based on UNV universe returns an error when the Adaptive Processing Server is not running the DSL Bridge service
3142769	Tomcat and any supported WAS crashes with OutOfMemory error in SAP BusinessObjects Business Intelligence Platform 4.3
3144670	Web Intelligence might throw an internal error after editing a Custom Data Provider (Excel, FreeHand SQL, ...).
3120451	Web Intelligence Query Panel - Available Object Dialog box is empty when adding a filter type : Query on Query
3090822	Prompts for Web Intelligence reports migrated to SAP BusinessObjects Business Intelligence Platform 4.3 are slow to open
3142678	"Must declare scalar variable "@variable"" or "The following database error occurred: parameter marker count incorrect. For information about this error, xxx IES 10901)" errors when opening a web intelligence document based on Free Hand SQL.
3144685	When exporting a Web Intelligence document to PDF, some pages appear with overlapping content, duplicate content appears on multiple pages, or unexpected blank pages appear.

3141278	When upgrading to SAP BusinessObjects Business Intelligence Platform 4.2 Support Package 09, Web Intelligence documents may take much longer to refresh
3101447	Exception raised when refreshing a web intelligence document based on Excel file
3147095	Date Filter on Query based on Excel files is not displayed correctly in QuerySummary()
3148991	Error occurs at Refresh Data Preview if a prompt with default values is set on Member Selector in case of a query based on Web Intelligence document as a data source
3148691	Web Intelligence should not retrieve other Personal Categories than the user's ones.
3120937	Some query properties like, Enable query stripping and Allow other users to edit all queries, don't work with personal data provider.
3149496	WebIntelligence Processing Server crashes while processing corrupted variables
3151078	The data provider cannot be displayed because is not supported in the repository
3150440	An error occurs when user refresh or edit document which is created by Web Intelligence Rich Client based on an Excel file located on a shared drive.
3142769	Tomcat and any supported WAS crashes with OutOfMemory error in SAP BusinessObjects Business Intelligence Platform 4.3
3112662	Adding a new object on top of existing object replaces the existing object with new object instead of adding object on top (4.3)
3115916	Cannot see filter sets objects in BI Launchpad Query Panel outline
3115916	Cannot see filter sets objects in BI Launchpad Query Panel outline
3114569	Error "Internal Error: "Unparseable date"" when trying to group Date dimensions in Web Intelligence document.
3121000	The Refresh button is disabled after using an incorrect prompt
3108118	Error "Unable to create or update the Excel personal data provider: cannot open the workbook. (IES 10872) (Error: INF WIS 10872 " when creating hyperlink to Web Intelligence document having Excel source.
3133025	Tomcat (and any supported WAS) crashes with OutOfMemory error when HTTPS is configured
3120401	In Web Intelligence Query panel , Changing an object data type from String to Number changes back to string when we reopen the document
3103953	Unable to view the complete list of values in the Local Personalization window when working with Publications in BI Launchpad
3126773	Pop up the keydate dialog when refreshing WebI report created on the universe with the keydate.
3120872	In Web Intelligence, HANA mapping between variable and input parameter is not correctly taken into account

SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
3135588	Scheduling Crystal Reports For Enterprise report in Crystal Report format fails with error: "CRS 300003"
3140628	Export of Crystal Reports for Enterprise document to PDF file format doesn't set Natural Language property in the PDF document catalog
2923528	When viewing report in SAP BI LaunchPad, asterisk character (*) indicating a Mandatory Parameter is either not appearing or not highlighted in red in SAP UI5 Prompt.
3123907	When copying and pasting data from a spreadsheet generated by exporting a document to Ms Excel (xlsx) file format, an error appears

SAP Crystal Reports 2013

SAP Note #	SAP Note Text
3142868	Unable to export the Crystal Report into any format with error "The numeric method failed. Try different parameter values"
3148521	"Unable to process your request" when clicking group tree items in Crystal Reports

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 02 Patch 03

BI-RA-WBI-FE-QP

SAP Note #	SAP Note Text
3165424	Manually entered SAP BW variable value is reset to blank when running query from Web Intelligence Query Panel

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3113667	Hyperlink object created using OpenDoc URL appending with the parameter &instance=Last does not show the latest instance
3147722	[BILP] Theme selection is not user friendly.
3142102	Unable to search instances with type "warning" in the CMC Instance Manager
3150108	URL in Hyperlink document is now limited to 1024 characters
3050604	Tomcat doesn't shutdown in 4.3 SP01 on Linux after running ./tomcatshutdown.sh
3151325	Installer fails to add License Key during 4.3 SP02 installation on unix
3060011	Prompts with date time value don't display correct value when rescheduling a Web Intelligence instance
3060011	Prompts with date time value don't display correct value when rescheduling a Web Intelligence instance
3154330	Hiding Database Credentials and Authorization Tokens tabs in BILaunchpad
3154763	Repair issue in Crystal Server and BOE
3147547	Incorrect sorting of reports in 'Last updated' column by Ascending or Descending order type via Fiori BI Launchpad
3107904	Platform Search indexing is very slow in large repositories
3081165	"The alias email or alias name is not unique" error when attempting a manual login with SAML enabled

SAP BusinessObjects Business Intelligence Platform Portal Integratio

SAP Note #	SAP Note Text
3167430	[CVE-2022-31591] Privilege Escalation vulnerability in SAP BusinessObjects (BW Publisher Service)

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3132468	Shared Projects issues with Information Design Tool while getting remote resources from a non English Repository
2907412	Schedule-To-Dependencies & Schedule-To-Dependants do not show values - CMS DB Driver

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3151816	Error occurs when searching or refreshing List of Values for prompts in Web Intelligence document based on S/4 HANA CDS View
3048473	Web Intelligence report prompt order changes after migrating from SAP BusinessObjects Business Intelligence Platform 4.2 to 4.3

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3140169	Scheduling Web Intelligence Publications fails with error: Query Script Generation after changing prompts values for a subset of prompts.
3145676	Scheduling a Web Intelligence Document from BI Launchpad fails with error message; The property with ID SI_LOCALE does not exist in the object (FWM 02021)
3146450	No data is returned when scheduling a Web Intelligence document with a Prompt value [EMPTY_VALUE]
3120908	Error occurs when trying to edit Web Intelligence document based on Web Intelligence OData Web Services after a logout and login
3153878	Dependant optional Web Intelligence prompts not answered are not displayed at second refresh
3147972	No data is retrieved by Web Intelligence RESTful Web Service for Data Provider flow in plain text format.
3149487	Web Intelligence might throw an error when creating an Input Control with a decimal default value.
3151550	Filtering EMPTY_VALUE is not working in WebIntelligence documents
3154142	The button to access to the Free Hand SQL Editor is not grayed in the query panel toolbar, even the right is denied.
3153343	The relative position does not work in the Web Intelligence report when the report contains multi pages

3115862	If a variable is created with report filter summary formula and a section is created on it, the table disappears
3037592	When viewing a Webintelligence report that contains sections in page mode an extra blank page is added
3157603	Performance issue when performing a Save as action in both BI Launch Pad and Web Intelligence Rich Client
3166946	In Web Intelligence Query Panel, Duplicate a query after moving it (right/left) will generate a bad Query name suffix (NaN)
3167136	Charts might not be displayed if the RESTful Web Service is configured with an uncommon base URL.
3119420	"Use BEx/HANA defined default values at runtime" option remains checked after unchecking it in Web Intelligence Set Variables box
3141485	Unable to make a change file path when the datasource file is unavailable (e.g. deleted from the Central Management Console).
3141485	Unable to make a change file path when the datasource file is unavailable (e.g. deleted from the Central Management Console).
3169625	Refresh popup window is stuck and doesn't go away while refreshing two or more Intelligence documents at same time.
3156482	Web Intelligence freeze headers do not work when using a crosstab with more than 2 row headers
3111372	After migrating Web Intelligence documents from 4.2 to 4.3, the "All" value in Input Controls will not work
3152098	In a WebIntelligence document, custom sorts on merged dimensions are removed while modifying the merged dimension
3151680	Rescheduling Web Intelligence report in "Excel - Report" format gets changed to "Excel - Data" format
3151680	Rescheduling Web Intelligence report in "Excel - Report" format gets changed to "Excel - Data" format
3150949	Not able to disable "Design mode" for web Intelligence report in SAP BusinessObjects Business Intelligence platform in 4.3 Support Package 2
3156482	Web Intelligence freeze headers do not work when using a crosstab with more than 2 row headers
3156691	When cancelling an update or creation of an input control, there is a typing error in the warning
3156957	Prompt is duplicated after renaming the prompt in SQL Script
3110466	Autofit width to content is unexpected checked in the newly added column of a table in Web Intelligence, even autofit-width:no is default defined in WebIDefaultStyleSheet.css
3158244	Web Intelligence Interactive Viewer throws an error when drilling on a hierarchy having a null value.

3156007	In Web Intelligence, if a cell on a report has more than one URL, no matter which URL is clicked on, the last URL in the list is that is run
3120808	Sessions of type "Logon without client ID" are created when opening a Web Intelligence document but not released.
3151815	In BILaunchpad, with WebIntelligence document, in the query panel, the Query on Query dialog box loads infinitely
3098764	Collapse All Hierarchies filter is not functioning properly only the active hierarchy is collapsed
3164222	The resource of type "Report element" with identifier "x" does not exist" when using cut option in Web Intelligence reports.
3159434	"Show/Hide keys" Custom Settings set for Input Control is lost when exiting its window in web Intelligence document.
3157603	Performance issue when performing a Save as action in both BI Launch Pad and Web Intelligence Rich Client
3165677	Properties on a publication with Web Intelligence documents is not working
3165604	All report elements are not visible in the Structure list within Web Intelligence documents in SAP BusinessObjects Business Intelligence Platform 4.3
3166803	Custom elements might no longer be selected after switching between the reports
3099887	BW client sessions not released when changing source from Restful SDK API

SAP Crystal Report for Enterprise

SAP Note #	SAP Note Text
3154631	Error while opening multiple Crystal Reports for Enterprise(CR4E) report based on BW data source via CMC/BI Launchpad/Open document
3135615	SAP Crystal Reports for Enterprise document containing Text fields over 10124 bytes, spanning multiple report pages, causes errors when cycling through pages of the report in BI Platform web viewer

SAP Crystal Reports 2013

SAP Note #	SAP Note Text
3159916	Crystal Reports LOV takes a long time to load or empty when scheduling in BI 4.3 Fiori BI launchpad in a clustered environment
3166500	Yield function in CR 0 - American 30/360 (default) generate error
3150054	Slow time to open a report with Java RAS SDK in BI4.2 SP9 after upgrading from BI4.1
3107518	The property with ID SI_LOCALE does not exist in the object (FWM 02021)
3159561	Exporting corrupted files in XLSX from Crystal Reports 2020.

Fixed Issues for SAP BusinessObjects Business Intelligence Suite 4.3 Support Package 02 Patch 04

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3165195	Cannot resize header height in Analysis edition OLAP workspace when using Chrome or Edge

SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
3152123	BI 4.2 BI Workspaces migrated or upgraded to BI Platform 4.3 may not display

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3145895	BI 4..2 Error "The authentication credentials do not permit the operation. (FWB 00061)" when exporting to LCMBiar using SDK
3169239	[CVE-2022-29619] Information Disclosure to user Administrator in SAP BusinessObjects Business Intelligence Platform 4.x
3168250	Error: "http 500" when opening opendocument link from one Web Intelligence document to another
