# 1 What's New in SAP Asset Intelligence Network

The table provides an overview of new and changed features. You can search through the table and filter content by status and category.

Category	Feature	Status	Description	More Information
Master Data	Code Lists	Changed	<p>If you are the owner of the code list, you can now add reference to the code list.</p> <p>You can add only one reference. You can delete the existing reference and update a new one.</p> <p>If the code list is shared with you, then you can only view them and not edit or delete them.</p>	<a href="#">Adding, Updating, and Deleting Code Lists</a>
Master Data	Functional Locations	Changed	You can now assign failure modes to functional locations in the <b>Failure Mode</b> section.	<a href="#">Adding Information in the Documentation Section</a>
Master Data	Failure Modes	Changed	You can now assign functional locations to failure modes in the <i>Assignments</i> section.	<a href="#">Creating a Failure Mode</a>
Master Data	Equipment Search	Changed	Using the <i>Equipment Search</i> app, you can now search for equipment using the free text form of manufacturer name.	<a href="#">Equipment Search</a>
Processes	Documents - Work Orders, Operations, and Notifications	Changed	The <i>Add Document</i> dialog that displays when adding a document to a Work Order, Notification, or Confirmation is enhanced so that the mandatory fields are auto-filled.	

**i Note**

*Description* field is auto-filled only after selecting the file.

Category	Feature	Status	Description	More Information
Processes	Work Orders and Operations	Changed	<ul style="list-style-type: none"> <li>If you are the owner of a work order or operation and you have shared it with your business partners, the <i>Shared With</i> and <i>Collaboration Status</i> columns on the work orders and operations list pages, <i>Operations</i> section of the work order object page and <i>Operations</i> section of the <i>Manage Work Orders</i> page display the business partners with whom you have shared the work order or operation and the respective collaboration status.</li> <li>The <i>Shared With</i> and <i>Collaboration Status</i> columns are empty if: <ul style="list-style-type: none"> <li>The work order or operation is not shared with any business partner.</li> <li>If you share and then unshare the work order or operation.</li> </ul> </li> </ul> <div style="border: 1px solid #ccc; background-color: #f0f0f0; padding: 10px; margin: 10px 0;"> <p><b>i Note</b></p> <p>After unsharing, if you share it with the same business partner again, the collaboration status history is retained.</p> </div> <ul style="list-style-type: none"> <li>If you are not the owner of the work order or operation.</li> <li>You can now filter, group, and sort the work orders and operations based on the business partners they are shared with and their collaboration status using the <i>Shared With</i> and <i>Collaboration Status</i> filters.</li> </ul>	
Processes	Confirmations - Work Orders and Operations	Changed	<ul style="list-style-type: none"> <li>You can view the list of confirmations for all the operations associated with a particular work order using the <i>Confirmations</i> section of the work order object page.</li> </ul>	<a href="#">Viewing a Confirmation</a>

Category	Feature	Status	Description	More Information
Processes	Notifications - Functional Locations	New	You can assign failure mode to a notification created for a functional location.	<a href="#">Assigning Failure Modes to Business Objects</a>

# Important Disclaimers and Legal Information

## Hyperlinks

Some links are classified by an icon and/or a mouseover text. These links provide additional information.

About the icons:

- Links with the icon : You are entering a Web site that is not hosted by SAP. By using such links, you agree (unless expressly stated otherwise in your agreements with SAP) to this:
  - The content of the linked-to site is not SAP documentation. You may not infer any product claims against SAP based on this information.
  - SAP does not agree or disagree with the content on the linked-to site, nor does SAP warrant the availability and correctness. SAP shall not be liable for any damages caused by the use of such content unless damages have been caused by SAP's gross negligence or willful misconduct.
- Links with the icon : You are leaving the documentation for that particular SAP product or service and are entering a SAP-hosted Web site. By using such links, you agree that (unless expressly stated otherwise in your agreements with SAP) you may not infer any product claims against SAP based on this information.

## Videos Hosted on External Platforms

Some videos may point to third-party video hosting platforms. SAP cannot guarantee the future availability of videos stored on these platforms. Furthermore, any advertisements or other content hosted on these platforms (for example, suggested videos or by navigating to other videos hosted on the same site), are not within the control or responsibility of SAP.

## Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.

The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

## Example Code

Any software coding and/or code snippets are examples. They are not for productive use. The example code is only intended to better explain and visualize the syntax and phrasing rules. SAP does not warrant the correctness and completeness of the example code. SAP shall not be liable for errors or damages caused by the use of example code unless damages have been caused by SAP's gross negligence or willful misconduct.

## Bias-Free Language

SAP supports a culture of diversity and inclusion. Whenever possible, we use unbiased language in our documentation to refer to people of all cultures, ethnicities, genders, and abilities.
