1 SAP Retail Execution Mobile App – Feature Scope Description

The SAP Retail Execution mobile app is a next-generation mobile application enabling field sales representatives for consumer packaged goods to win at the shelf. Its mission is to help CPG sales teams to make informed choices about 'Where To Go?', 'What To Do?' and 'What To Sell?' with the goal of maximizing sales.

This feature scope description shows you which features are provided with the SAP Retail Execution mobile app.

Feature	Description
Dashboard	Get a greeting mentioning the total count of visits including the critical visits for the day along with the total number of visit and objective KPIs for the day. Quickly access visits for the day to get directions and details.
Visit Management	With the calendar view and visit view, you can view, add, modify, reschedule, and cancel your visit for the day.
Visit Details	Get an overview of the key visit KPIs along with details of the visit and the related account.
Visit Route/Map View	See the accounts planned to be visited for the day along with the suggested route and points-of-interests (POIs) using the map view.
Attachments View	Download and view the attachments related to the visit as well as the attachments related to the visit related tasks.
Objective Management	See the objectives related to your visits. You can also add, modify, cancel, and delete objectives related to visits. Objectives include both task and survey objectives. Only checklist surveys are supported in beta scope.
Visit Execution	Check-in and check-out capability with accurate time-stamp capturing and calculation of the actual time elapsed.
Notes Management	See any note associated with a visit or a visit-related objective and add, modify, or delete them.
Survey Submission	See the survey related to the visit such as checklist survey and modify and submit the survey.
Dark Mode	The SAP Retail Execution mobile app supports dark mode on iOS and Android.
Deep Linking	Use deep links to access store directions using the default Apple/Google maps.
Demo Mode	A demo mode including demo data is available in the app. No purchase of a license for SAP Retail Execution is required to use the demo mode. The basic visit execution flow is supported.
Offline Capability	The SAP Retail Execution mobile app supports offline mode on iOS and Android.
Support Logs	The SAP Retail Execution mobile app supports the upload of logs on iOS and Android.

Videos Hosted on External Platforms

Some videos may point to third-party video hosting platforms. SAP cannot guarantee the future availability of videos stored on these platforms. Furthermore, any advertisements or other content hosted on these platforms (for example, suggested videos or by navigating to other videos hosted on the same site), are not within the control or responsibility of SAP.

Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.

The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

Example Code

Any software coding and/or code snippets are examples. They are not for productive use. The example code is only intended to better explain and visualize the syntax and phrasing rules. SAP does not warrant the correctness and completeness of the example code. SAP shall not be liable for errors or damages caused by the use of example code unless damages have been caused by SAP's gross negligence or willful misconduct.

Bias-Free Language

SAP supports a culture of diversity and inclusion. Whenever possible, we use unbiased language in our documentation to refer to people of all cultures, ethnicities, genders, and abilities.
