SAP Business Intelligence Suite 4.3 Support Package 4 Release Notes

THE BEST RUN

Notes related to security corrections will not be listed in this release note. Information on relevant security corrections can be found in the SAP Support Portal within the Security Patch Day section.

SAP BusinessObjects Analysis, edition for OLAP

SAP Note #	SAP Note Text
3330444	Analysis edition for OLAP workspace does not show up in "Currently Open Documents" after doing a Save as on an existing workspace
3250141	Unable to print or export Analysis for OLAP (AOLAP) reports to PDF
3330444	Analysis edition for OLAP workspace does not show up in "Currently Open Documents" after doing a Save as on an existing workspace
3262810	[CVE-2023-0022] Code Injection vulnerability in SAP BusinessObjects Business Intelligence platform (Analysis edition for OLAP)
3276318	AOC00041 error occurs when opening a workspace based on Microsoft Analysis Services source within Analysis edition for OLAP application
3315456	Copy content in Analysis edition for OLAP does not take into account all content in cell
3324440	Field in OLAP Connection to configure maximum number of cells has limit of seven digits
3321831	AOC0041 error is returned while creating a calculation after dragging dimensions and measures based on a Microsoft SQL Server Analysis Services data source into an Analysis edition for OLAP layout
3326291	Warning popup message "OAD Error" and "ODA06100" is displayed after inserting a Custom Calculation in Analysis edition for OLAP workspace
3340825	"The requested export operation was not completed successfully. Try the operation again. If the problem persists, please contact your administrator." error appears when exporting an Analysis edition for OLAP workspace to PDF file format
3262716	Prompt values of an Analysis edition for OLAP workspace overlaps with the report title when viewing the exported PDF file

SAP BusinessObjects BI Workspaces

SAP Note #	SAP Note Text
3291546	BI workspace content is blank when switching back from another report
3291491	After upgrading to 4.3 SP2, some Business Intelligence Workspaces are not editable in free form mode
3348085	Vertical scroll bar is missing in BI Workspace based on columns with several documents in each one.
3291546	BI workspace content is blank when switching back from another report
3269594	Fix the fit to desired space when looking content
3276460	BIW issue on opendocument
3278237	[BIW] - Not opening when add Images in Text Module and Webi Report in freeform
3279117	BIW - Issue with Hyperlink and Webi in B
3274840	Hyperlinks not working in BI Workspace after upgrade.
3314100	BI Workspace issue when Navigation list with more than 10 Webi reports.
3323651	BI Workspace Freeform Edit issues
3327734	Unable to see all the folders while creating workspace.
3269594	Fix the fit to desired space when looking content
3271293	BIW Issue on Template module small display

SAP BusinessObjects Business Intelligence platform

SAP Note #	SAP Note Text
3283745	Unable to close reports, eg Webi (Click X) from drop down title bar list in BILP when a hyperlink exists
3282825	Invalid characters displayed on CCM Cluster name and tomcat cluster name properties.
3279296	Text is truncated under Account Preference Page of BI Launchpad for German Language.
3043163	WACS is getting installed in custom install with only CMS feature
3261475	In Business Intelligence 4.3 BI Launchpad, right clicking on a document shortcut and selecting Modify does nothing
3280615	Fiori Interface loads forever when clicked on Test Mode option on a publication shortcut

SAP BusinessObjects Business Intelligence platform

3280081	Webi report associated with both unv and unx after promotion
3291171	Custom page with public folder navigates to personal folder in BI launchpad
3290726	Existing content in Message body will be duplicated after inserting placeholder when scheduling publication or report to Email
3277292	JAWS ("Job Access with Speech") screen reader assistive tool is not announcing when navigating through Empty column/row values of folder/report
3292791	After installation of Lumira 2.4 patch 5 on BI4.3SP03 Lumira server can not be seen in server list
3291427	Opening a Web Intelligence document when using sRefresh=N does not work as expected when opening in BI Launchpad
3254667	Errors occur in Adaptive Processing Servers in BusinessObjects Enterprise
3293378	Timings for Central Management Server query execution are incomplete
3244828	Platform Search queries the CMS database every 30 seconds
3043163	WACS is getting installed in custom install with only CMS feature
3286081	RESTful filter name on users does not return exact criteria
3298961	[CVE-2023-28765] Information Disclosure vulnerability in SAP BusinessObjects Business Intelligence Platform (Promotion Management)
3299501	Publication displays partial folder list in left-pane folder hierarchy when browsing for Source Document and Dynamic Recipients reports
3303199	CMS crashes in schedulersubsystem.dll
3316942	Blank page when logging into BILP as specific users
3326985	Monitoring history data is garbled
3333781	BI Launchpad Account Preferences not updating after refreshing BI Launchpad Home page.
3323408	Multi Destination Schedule to Microsoft OneDrive is not showing accurate status
3324625	Unable to click on "browse" to change the user security
3340700	Unable to schedule Crystal Report from BI launchpad
3342885	Hand symbol is not displayed when navigating between folders' names in Fiori BI Launchpad (Fiori BILP)
3334735	Could not delete multi alerts in BILaunchpad in BI4.3SP3
3330770	Users are unable to open non-admin categories folder from the BI Launchpad
3337795	Unable to use the relative path while creating Hyperlink.
3343944	Settings preferences for Fiori Launchpad

SAP BusinessObjects Business Intelligence platform

3342992	Migrated publication properties hangs and keeps on loading
3344205	SAP Authentication logins fail with error USER_OR_PASSWORD_INCORRECT after update to 4.3 SP03 Patch 400
3329714	Incorrect OpenDocument Link is generated from BI Launchpad.
3340428	BI Launchpad not using Browser Default locale for Date Format
3342188	Schedules based on the calendar are showing as "Pending" status in CMC, but in Launchpad, it's showing as "Recurring"
3345685	Central Management Console help page opens wrong version document
3346471	Inconsistencies in the metrics and watches in Monitoring Application.
3335169	Auditing is broken when using MySQL as Audit Database in BI 4.3 (Commands out of sync)
3311696	Unable to hide "Personal folder" and "My Subscribed Alerts" in 4.3 SP3+
3349626	Last Modified time of UNX and WebI Document from Source is not retained in Destination post promotion.
3337722	Command "ccm.exe -display" shows incorrect labels and values
3335150	Alert cannot be opened from My Inbox in SAP BusinessObjects 4.3 Support Pack 03
3348246	BO language issue BI Launchpad
3308859	Existing recurring schedules are adjusted by +1/-1 hour when US Daylight Saving Time happens
3334981	Incorrect time displayed for instance in Calendar View
3244933	No option to search for only Title or Full Name for BI users when scheduling reports in 4.3 BI Launchpad
3353761	Logo appears to be smaller in BI launchpad login page
3340979	System Events are not sorted in Alphabetical order in BI launchpad.
3324785	Landing page does not open up with the specified folder when its title includes a forward slash "/"
3347910	Creation or promotion of objects with a long name fails
3332818	Fiori Launchpad Text on Buttons is override from colour selected for Title Text in the Theme Designer
3359088	Possible deadlock in CMS or Audit database if rollback fails
3335335	Unable to replace an excel file in Central Management Console.
3359909	ThemeDesigner 500 internal server error

SAP BusinessObjects Business Intelligence platform

3277401	Can't disable user by using Business Intelligence Platform RESTful Web Service APIs in BI 4.3 SP02 Patch 8.
3358616	Monitoring data not being deleted from Audit Database
3329842	Fiori BI Launchpad "Landing Page" is not correct when the "Preferred Viewing Locale" and "Product Locale" are set to Turkish language.
3359733	A successful promotion job lists items failure tab
2876944	Unable to generate Data: Failed to retrieve RMIServer stub appears in BI Administrators' Cockpit
3356624	Error "RWS 00070" when downloading a replaced Excel file using Restful SDK
3365779	RESTful Web Services authentication API fails when Windows AD SSO is enabled
3291912	In Business Intelligence Launchpad, the Title Box in the Properties panel is too small to contain the report name
3366868	Restful API ignores MIME when uploading
3367652	Check and repair broken relationships with RepoScan
3367251	BI Launchpad session timeout does not work if biprws is configured with ending slash(/)
3332556	The double bytes value passed as prompt value in OpenDocument link is garbled in the 1st time access when Tomcat server is restarted
3363346	Cannot replace existing HTM file in BI 4.3
3369747	Performance issue in the CMS on MiniBIP
3385443	Different error messages from biprws after killing the session in CMC and Not a relevant error Message
3383984	Format of Date (Recieved On) in BI-Inbox doesn't follow Preferred Viewing Locale-settings
3377394	Shortcut in search results opens in new browser tab.
3256532	Very long CMS queries on Audit database
3391085	[Google Drive] Issue during request refresh token, It don't throw error when a refresh token is not provided.
3277317	JAWS ("Job Access with Speech") screen reader assistive tool is not announcing filter titles of search results from BI Launchpad and titles are not accessible
3385566	Publication properties page hangs in Fiori BILP if the report source name is all numeric
2528535	The Monitoring Database on Sybase ASE is Missing Data Due to NULL values
3226074	The message "No data" appears when searching for valid users while sending a report to a user's BI Inbox

SAP BusinessObjects Business Intelligence platform

3260152	Error:"while trying to invoke the method java.lang.String.charAt(int) of a null object loaded from local variable "targetPath"" when opening instance in Temporary storage
3254253	Sorting / Filtering in the Fiori BI Launchpad in 4.3
3273230	Race condition in the initialization of a cryptographic library.
3274736	Http 404 Missing Page error for CMC in MINI BOE/IPS installation in 4.3 SP03 RC build
3261777	Keine Daten displayed in Monitoring Watch History in BI 4.x
3277320	Type of Document name (web intelligence, lumira etc..) in Recent Document section has lower Color contrast ratio of 4.5:1
3256059	Platform Search not working after upgrade to 4.3 SP2 Patch 2 Hotfix 4
3279284	File Event query hitting frequently (but not regularly) CMS post BI 4.3 SP2 P5 upgrade
3250537	Searching in BILaunchpad is slow post BI 4.3 SP2
3280219	Audit events are not pushed into database
3281541	Crystal instance error "An XSD Exception
3284152	Navigation to home page (BILP) is slow in 4.3 SP03
3306006	Reports contains special character in any report WEBI or Crystal report gives blank title when we right click on schedule option.
3307833	[CVE-2023-28762] Information disclosure vulnerabilities in SAP BusinessObjects Business Intelligence Platform
3266345	When using "SMTPFrom=False" property, the error "The "To" and "From" email addresses cannot be empty" is encountered when Email Notifications are enabled in a schedule (BI 4.3)
3305816	BI 4.3 admin studio inside watches "History" showing "No Data"
3250223	A blank home page is received after logon in Fiori BI Launchpad (Fiori BILP) with a specific user
3304794	BI Launchpad Search results over a certain total prevent scrolling down page to see full results in BI 4.3
3255348	Webi schedule and Publication properties pages hang with 3 dots behavior in Fiori BI Launchpad
3309522	Scripts startservers/stopservers/ccm.sh fails on Linux if OS user is defined in LDAP
3313484	[CVE-2023-30740] Information Disclosure vulnerability in SAP BusinessObjects Business Intelligence platform
3300955	Huge Stdout .log tomcat logs are been generated.

SAP BusinessObjects Business Intelligence platform

3312863	Unable to promote more than 1000 sub-groups
3307712	Receive 'Please enter a valid Redirect URL' error attempting to complete Authorization Server configuration
3213260	Email destination 'Message' text box not visible when scheduling from BI Launchpad
3316606	JSDPC file destination strings appear in AJS metrics
3313950	Start date of Business Hours scheduling option changes after scheduling a report
3306648	schedule report to Email destination via office 365 domain fails
3310785	HTTP 404 missing page displayed when clicking on logoff on session timeout warning in BILaunchpad
3321781	SSO / Trusted Authentication not working for OpenDocument after upgrade to 4.3 SP03
3320355	[CVE-2023-40622] Information Disclosure vulnerability in SAP BusinessObjects Business Intelligence Platform (Promotion Management)
3320702	[CVE-2023-36917] Password Change rate limit bypass in SAP BusinessObjects Business Intelligence Platform
3321325	Error while launching Multitenancy Manager
3285216	BI 4.3 - Intermittent query accessing CMS_InfoObjects7 table blocks subsequent process threads / queries in the database
3324827	Reports arranged in alphabetical order which are scheduled to BI Inbox
3299961	"There is no step available" warning displayed while using Guided Tour in BI Launchpad
3297982	Scheduling Web Intelligence documents to destinations (eg SMTP, SFTP) always shows "success" even if it failed
3275705	Central Management Server crashes when triggering a User Notification Event
3330971	Scheduling to printer with APOS Distribution Server in BI Launchpad fails
3332012	User Interface improvements in Central Management Console
3333003	Central Management Server has poor performance and SQL queries block often in system database
3371178	Delete all history older than setting does not work in monitoring DB based on HANA
3366549	User's properties deleted when using Restful Web Services to update one or few user attributes
3365784	SBOP users cannot change third-party authentication passwords
3372629	sorting on Inbox columns does not work anymore after upgrade

SAP BusinessObjects Business Intelligence platform

3370445	Page hangs when scheduling Publication in Crystal Server 2020
3370094	US Date Format is appearing in scheduled output
3374740	No SIA created during installation of BusinessObjects Platform
3347208	Incorrect session count of concurrent users in CMS server Metrics after killing concurrent session in BI Admin Studio
3374707	BI Launchpad doesn't display all reports after setting browser zoom to 175% and scrolling down to bottom
3287536	The browser is blinking while navigating to folders on BI Launchpad
3369319	Message Box missing intermittently for E-mail Destination while scheduling a document in BI Launchpad (Fiori BILP)
3384365	Unexpected error message on initial password change in SAPR3 authentication
3265619	Job server child crashes if certificate is invalid in SMTP TLS configuration
3264853	In BI Launchpad when scheduling a Analysis for Office report and using French as the language, the prompts UI buttons are not translated to English
3121710	During login, confidential channel is created in the wrong CMS
3238887	Renaming the translated report name under Fiori Launchpad doesn't work.
3267191	Cannot filter for Failed and Recurring status instance in documents' history page if the BI launch pad product locale is set as Japanese
3264819	Default Web Intelligence probe fails when refresh parameter is set to true.
3219694	Change Password page in BILP does not adhere to sap.system.client.visible settings

SAP BusinessObjects Information Design Tool

SAP Note #	SAP Note Text
3305327	Some columns are blank when running the BI on BI query containing Webi-To-Unv attribute
3316561	BI 4.3: UDT in Citrix Crashes When Editing Object
3331365	Alias tables with joins are overlapped after copy past to another data foundation.
3333588	"The following database error occurred: (CS) "Bad Connect String Format : USER" . For information about this error, please refer to SAP Knowledge Base Article 2054721 on the SAP Support Portal. (IES 10901)" error message appears when refreshing a query ba
3368165	Parameter reset to default value for DataFedorator Connector Configuration is not saved
3244065	The Matches Pattern does not work for the value %xxxx% When creating WebI report base on the universe against the S/4 Hana CDS View via Odata service
3271486	After converting a unv universe to unx in Information Design Tool, the SQL generated for a query is incorrect and contains extra "Where" conditions
3278462	Typo correction in Information Design Tool preferences, "CheckIntegrity" instead of "Check Integrity"
3277560	"while trying to invoke the method java.lang.string.length() of a null object loaded from local variable 'lovName'" Error when printing Business layer of a linked universe or "save as" in Information Design Tool.
3301780	While importing a universe, Universe Design Tool (UDT) crashes
3303312	Publishing an universe using the Semantic Layer Java SDK fails after upgrade to SAP BusinessObjects Enterprise 4.3 Support Package 03
3299694	Teradata 17 ODBC does not work in Universe connections on AIX
3283738	Information Design Tool is not updating Database format to a valid format during conversion of universe from Universe Design Tool.
3323260	Error while adding a Stored Procedure to a Data Foundation in the Information Design Tool
3327450	In an existing UNX universe, it is not possible to create a new Class based on a Stored Procedure
3336853	After converting a unv universe to unx, query panel generate SQL with missing some shortcut joins.
3334562	Different SQL for aggregation is generated after converting universe from unv to unx.
3253312	"Error refreshing the business layer index: 116, size: 115"

SAP BusinessObjects Semantic Layer

SAP Note #	SAP Note Text
3290210	Error occurs when refreshing Web Intelligence report based on S/4HANA CDS view with null DataCell
3285284	Cannot run the WebI report based on a BEX variable having "Non Compounded Keys" via Opendocument after upgrading to AP BusinessObjects Business Intelligence Platform 4.3 Support Package 02 Patch 8
3301920	Error occurs when refreshing Web Intelligence report based on SAP BW Query after upgrading to SAP BusinessObjects Business Intelligence Platform 4.3 Support Package 03
3303729	Error occurs when refreshing some Web Intelligence reports based on SAP BW query with variables
3339466	Error occurs when executing query containing a measure using a Denodo Data Source "Invalid GROUP BY expression. 'xx' cannot be projected" in Information Design Tool.
3319212	Hierarchy object disappears when refreshing Web Intelligence document based on OLAP connection after re-login to BI Launchpad
3340143	Web Intelligence "Prompt Hint" functionality does not work with queries based on SAP BW and SAP HANA INA connections
3340057	Manual value entered to answer a Web Intelligence Query Filter prompt based on a BW data source may retrieve incorrect data and may create performance issue.
3344882	Error occurs when refreshing Web Intelligence report based on SAP BW connection defined on an Infoprovider and including a cube selection
3276944	The generated TO_CHAR function for the integer object missing its second argument in Information Design Tool query panel
3278030	Error occurs when running query on Web Intelligence report based on S/4HANA CDS view with variables
3266478	Warning message not displayed when entering invalid prompt value, for report created in Crystal Reports for Enterprise, based off a BEx Query that uses customer exit variable (BAdI)
3314261	Error occurs when refreshing Web Intelligence document having multiple data providers using the same SAP BW query with an invalid default variable value
3319212	Hierarchy object disappears when refreshing Web Intelligence document based on OLAP connection after re-login to BI Launchpad
3318630	Error occurs when refreshing Web Intelligence reports based on SAP BW connection using Message Server login mode
3315170	WebIntelligence report based on a Bex Query may not retrieve the data when opening it by using an opendocument formula
3316596	Values selected to answer a Web Intelligence Query Filter prompts based on a BW data source may retrieve incorrect data

3328974	Full outer join is not generated with ANSI 92 standard at universe based on Snowflake ODBC.
3375017	List of values in some Hierarchy Node with variable appears flat in Web Intelligence Document
3375567	Error occurs when refreshing a second time a Web Intelligence report based on multiple SAP BW queries
3376057	'Error executing query. near "(" : syntax error' error message appears when executing a Query with cascading List of Value in Information Design Tool
3381177	Query filter with constant values returns no data in Web Intelligence document based on SAP BW query containing objects with specific memberAccess presentation
3269721	Values entered for Customer Exit variables are ignored when refreshing Web Intelligence report based on SAP BW universe

SAP BusinessObjects Web Intelligence

SAP Note #	SAP Note Text
3285152	Web Intelligence Processing Server crashes when using function Mode on a variable containing dimension objects
3284595	Schedule a Web Intelligence report failed by error: "Cannot build the query or generate the reports. (WIS 30351)" after upgrading to BI 4.3 SP02 Patch 800
3288340	Universe caching behavior for List of value available prompt when using UNV type univers does not correctly work
3248382	Publication Local Personalization Shows 'undefined'
3276923	Adding "noDocument=true " parameter to Web Intelligence OpenDocument link fails with error
3268061	"Prompt with list of values" is selected after first run of query panel even if "Associate list of values" option in Business layer of Universe is unchecked
3292428	"processDPCCommandsEX" error when user refresh document
3136943	In a Web Intelligence document based on BW / BICS, prompt values are unexpectedly displayed as Text instead of Key when searching into the list a second time
3227216	A mapping error occurs when trying to use Change Source on a Web Intelligence report from unv to unx universe
3294189	In a Web intelligence document, a table filter based on a variable with Running functions with reset doesn't work when Avoid Duplicate rows aggregation is enabled.
3293020	BI 4.3 - Tomcat is stuck in "stopping" status when being stopped from CCM
3280005	Dynamic recipients does not show in the list in publication and in Preview display

SAP BusinessObjects Web Intelligence

3295300	In a Web intelligence document, an attribute of a time dimension returns wrong values
3294952	When trying to do a "Save As" in Web Intelligence, any folders that are not within the first one thousand in the location are not shown
3296730	In a WebIntelligence document, creating a variable of type detail causes WebIntelligence Processing Server to crash
3294189	In a Web intelligence document, a table filter based on a variable with Running functions with reset doesn't work when Avoid Duplicate rows aggregation is enabled.
3229097	Refreshing the list of values for a Hana variable from a WebIntelligence report may display an error: "An Error occurred while providing answers..."
3297754	In a Web Intelligence document, filtering on variables returns empty values for the variables which has formulas based on merged objects
3297482	Web Intelligence Document fails with "WIS 00000" error on adding new query based on SAP BW query containing variables with multiple entries
3298606	Web Intelligence cannot open recovery versions of scheduled instances of Web Intelligence documents.
3299116	Refreshing the List of values for SAP HANA Dependent variable may fail with error "Invalid column name" in Web Intelligence
3295352	The following database error occurred: Can't group on 'group_concat(xx)'. For information about this error, please refer to SAP Knowledge Base Article 2054721 on the SAP Support Portal. (IES 10901)" when running web intelligence document.
3300064	Aggregation function is incorrect after turning a String Dmension to Numeric Measure using Web Intelligence.
3302027	Error occurs when expanding a hierarchy in a WebIntelligence document
3300549	"Query Timeout" defined on a jdbc connection does not work when running query on Web Intelligence document based on SAP HANA view
3300690	An error "Web Intelligence idle connection has expired" may occur when refreshing a Web Intelligence Document using HANA calculation view that owns Input parameter
3302799	Some Web Intelligence documents schedule fail with error message: java.lang.NullPointerException
3293571	Refreshing a FreeHand SQL query added with WebIntelligence RESTful Web Service throws an error.
3301662	In a WebIntelligence document, applying a table filter make measure values disappear
3208585	Following error occurs while opening a modified Web Intelligence document "The resource of type "Document" with identifier "xxxx" is not available (The action cannot be performed)".

SAP BusinessObjects Web Intelligence

3296101	Web Intelligence RESTful Web Service does not consider a user's Product Locale.
3076418	Cells width of merged cells get broken when applying Unmerge, after changing one of table cells width
3312586	[CVE-2023-39440] Information Disclosure vulnerability in SAP BusinessObjects Business Intelligence Platform
3334844	In a WebIntelligence document, default level expansion doesn't work with certain documents
3335858	"Web intelligence idle connection expired" error when opening migrated Web Intelligence document.
3328764	DPI is considered by Web Intelligence only the first time when exporting a document.
3311903	Live Office queries take much more time after upgrading from BI 4.3 SP01 patch 8 to BI 4.3 SP02 patch 5
3338407	Prompt order changes from Pre-define to Alphabetical order in Web Intelligence Document
3338954	In a WebIntelligence document, persistent #TOREFRESH is displayed after modifying the query based on unv based universe
3337946	Setting a query filter to "values from List" displays incorrect Hana variables as dependent prompts
3337890	"Create Custom Order "option is disabled if changes are made on a variable.
3340989	Web Intelligence Processing Server crashes while opening a document with variables containing ReportFilter formulas, the following error appears : "Web Intelligence idle connection has expired."
3340931	Migrated Web Intelligence document containing folded breaks displays only first page
3340565	BI Variants do not keep path of hierarchical values with Web Intelligence.
3285108	Error: "Unable to create or update the Excel personal data provider: cannot open the workbook. (IES 10872)" is occurring while refreshing a Web Intelligence report on an Excel data source
3332552	Web Intelligence Document allows user to click on "Apply changes and close" with an invalid value in Query filter
3329951	Web Intelligence Processing Server crashes while refreshing the duplicated query after query modifications
3342496	A scheduled Web Intelligence document fails with a "ERR_WIS_30270" error
3344466	Web Intelligence should allow drilling on incompatible objects.
3342002	Custom elements chart's color palette reverts automatically back to the Belize default palette

SAP BusinessObjects Web Intelligence

3339927	It is very slow to display the List of values in the Input Control after refresh the Web Intelligence in BI Launch Pad
3344388	Web Intelligence reports based on a Free-hand SQL will ignore query filters on the first refresh
3345166	Accessing Recent Web Intelligence Documents in Rich Client Offline mode fails with error
3311133	Hiding an object in chart's Category axis removes it from Data Assignment section
3343307	Publications or Scheduled Web Intelligence documents fail with the error "Cannot build the query or generate the reports. (WIS 30351)"
2921088	Universe hidden objects are removed from Result Objects Section and Script of existing Web Intelligence Documents
3347233	The resource of type "Page" with identifier "1" does not exist when opening certain WebIntelligence document
3298340	The height size of a Web Intelligence Blank cell with "read content as" option set to "Image URL" can no more be reduced less than 1.04in.
3329502	Creating a vTable using REST APIs does not apply CSS styles to all columns
3298126	Unable to adjust the height of section in a Web Intelligence Document
3347722	In a WebIntelligence document, using an incompatible dimension in a running function caused Web Intelligence Processing Server to crash
3348707	Web Intelligence Processing Server crashes : Internal Error ("recv() failed: I/O error during read: java.net.SocketException: Connection reset")
3349874	Right to Left aligned content is not same when Web Intelligence Document is exported to pdf or Excel formats
3350708	Exporting / Scheduling Web Intelligence Document to pdf format produces a corrupted pdf file
3340254	The unchecking "show side header" option does not hide the side header and also automatically marking it checked within seconds in Web Intelligence
3352015	Web Intelligence throws an HTTP 503 error when it is unable to open a Web Intelligence document.
3310494	Child nodes and levels for hierarchy disappear after refreshing Web Intelligence document based on SAP BW connection
3345841	In a Web Intelligence document, backward slash keeps on adding in comments added in a variable
3350460	Web Intelligence throws an error when selecting "[NULL_VALUE]" in an Input Control of type "DateTime".
3350312	Unable to edit the Freehand SQL based Web Intelligence query after migration

SAP BusinessObjects Web Intelligence

3340593	Unable to create a publication with PDF or Word document and Web Intelligence documents in BI Launchpad
3356968	Duplicate dynamic recipients rows in Web Intelligence document Publication
3356044	In "Folder" view, Web Intelligence sorts the dictionary folders alphabetically instead of Data Source order.
3354095	Scheduling a Web Intelligence Document with Customized Prompt Order fails with error "Cannot build the query or generate the reports. (WIS 30351)"
3303860	The instance generated from the schedule shows the data of the last manual refresh of the Web Intelligence Document while enabling the query stripping from both the "Query Preferences" and from the "Documents Properties" and enabling the data tracking wit
3357558	Dependent prompts with cascading list of values are missing from Web Intelligence Prompts box
3331260	Dependent prompt is displayed twice on selecting "use custom query script" option in Web Intelligence Document
3345841	In a Web Intelligence document, backward slash keeps on adding in comments added in a variable
3243500	Error in publication when choosing Web Intelligence report as Dynamic Recipient if Refresh on open is enabled
3360988	Excel file exported from Web Intelligence Document fails with error while opening
3352015	Web Intelligence throws an HTTP 503 error when it is unable to open a Web Intelligence document.
3325611	WIPS "Current number of sessions" not released when Web Intelligence documents are added to BI workspace used as BI Launchpad custom "Home" page
3361667	Refreshing Web Intelligence document based on SAP HANA views with dynamic variables is very slow after upgrade
3339214	LaunchPad history displays wrong values for Web Intelligence scheduled instances with dynamic parameters
3363376	Excel file exported from Web Intelligence Document fails with error/warning while opening
3363197	"Web Intelligence idle connection has expired." error in Web Intelligence document with variables containing "InputControlFilter" formulas.
3367505	Removing a free cell from a report's folded section may lead to a Web Intelligence Processing Server crash
3366247	In a WebIntelligence document, newly added delegated measure displays persistent #TOREFRESH or blank values
3345505	Default aggregation option is disabled for Smart measures

SAP BusinessObjects Web Intelligence

3366172	Web Intelligence Processing Server crashes when removing tables containing variables with currentdate or currenttime formulas
3357566	Opening Web Intelligence document (no refresh on open) containing custom elements displays puzzle image instead of the custom element chart.
3216136	Web Intelligence rich client is very slow after patch upgrade.
3247588	Some column charts with custom palette display wrong bar colors in Web Intelligence document
3381739	Free Hand SQL (FHSQL) with prompt returns no data in Web Intelligence Document on first refresh
3385968	Refreshing certain WebIntelligence documents containing delegated measures crashes WebIntelligence Processing Server
3358097	Reschedule a Web Intelligence document with mandatory key parameter value is failing with error "Invalid numeric prompt"
3339301	Scheduling a Publication based on Web Intelligence document with optional interval Prompts generates an instance with no data.
3257016	In Business Intelligence 4.3, there are Web Intelligence functions that are listed but are not working and are undocumented
3387800	Switching to "Design" mode a Web Intelligence document with several queries takes a longer time than with previous versions.
2976086	Dynamic and Constant value selection option is missing from the prompt selection window when scheduling Web Intelligence reports
3255458	In a Web Intelligence chart, the default Red Palette for color 22 contains purple instead of a shade of red
3349154	Decimal values used in query filter appears rounded in the query script when using French Preferred Viewing Locale with "value(s) from list" Web intelligence query filter.
3259165	#MULTIVALUE or #UNAVAILABLE is displayed on formulas like sum(<delegated measures>) in break footer
2870490	FreeHand SQL is not getting captured in Auditing Database
2976086	Dynamic and Constant value selection option is missing from the prompt selection window when scheduling Web Intelligence reports
3260845	LO02031 error occurs in the search at the bottom of the prompt when acquiring WebI data in LiveOffice
3252431	An error appears when repointing a Web Intelligence document to another universe using the Change Source wizard
3261618	Expanding tree node in member selector doesn't work
3373858	Create BI Workspace with report part, after Save+Close+Reopen the Selected Report part cannot be unselected

SAP BusinessObjects Web Intelligence

3373858	Create BI Workspace with report part, after Save+Close+Reopen the Selected Report part cannot be unselected
3381027	Web Intelligence Document based on Free Hand Sql queries may take a long time to be opened
3381027	Web Intelligence Document based on Free Hand Sql queries may take a long time to be opened
3393347	Values selected in Navigation Map are not updated when the selected value is filtered out
3228539	In Business Intelligence, Webintelligence reports with large amounts of data can be rendered improperly and cause large spaces between sections and missing data
3254905	Create a Web Intelligence document base on Universes data source/ Select a Universe list displays less universes than available in the system
3262737	In Web Intelligence documents, hidden charts are not visible in Structure mode
3262353	Performing a "Change Source" workflow on a Web Intelligence document results in the error "Web Intelligence idle connection has expired" in BI Launchpad
2976086	Dynamic and Constant value selection option is missing from the prompt selection window when scheduling Web Intelligence reports
3338998	Exporting a huge Web Intelligence document to TXT format downloads an empty file.
3338998	Exporting a huge Web Intelligence document to TXT format downloads an empty file.
3262222	Folding break values is generating unexpected blanks and pages from a webintelligence document.
3245154	The list of universes when creating a new report in Web Intelligence takes longer to load than SAP BusinessObjects Business Intelligence Platform 4.2
3389386	Changing "Use BEx/HANA defined default values at runtime" option does not reflect in Web Intelligence document when re-opened
3345744	fold/unfold Break Values for <Dimension> option is missing when dimension is hidden in table
3390040	Selecting a cell in block makes screen jump to top left corner highlighting selected cell
3366717	Web Intelligence processing server crashes after upgrade
3391134	Web Intelligence might throw a "Rule not respected" error when opening an old Web Intelligence document with Input Controls.
3382729	Web Intelligence block is removed after deleting long column and set "Fit to page" display.
3322298	Objects used in Nested filters goes missing from Web Intelligence query panel

SAP BusinessObjects Web Intelligence

3396906	Web Intelligence may throw an error 'The resource of type "..." with identifier "..." does not exist.'
3254697	Oracle stored procedure called from FHSQL runs twice
3274761	Web Intelligence RESTful Web Service incorrectly reports extra columns in dataset.
3276239	Prompt is duplicated after renaming the prompt in SQL Script
3275223	Delete a dimension in a WebIntelligence document containing a table with hierarchy the following error appears "Index 16 of array with length 3 Exception"
3375578	Unable to collapse and extend the hidden breaks after migrating the WebI report from BI 4.2 to BI 4.3 SP03
3272896	Document option "Permanent regional formatting" is not keeping in Web Intelligence Document
3274355	The error " The resource of type "Document" with identifier "XXXX" is not available (An Internal error occurred while calling 'openDocument' API (Error: ERR_WIS_30270))" when opening the Web Intelligence document.
3226770	There is no "No data to retrieve" warning pop-up in WebI document when editing the query panel and refresh report in BI4.3
3273421	Default Date value hardcoded in @prompt shows a different Date when refreshed with Product Viewing Locale (PVL) set to English (United Kingdom) (FHSQL)
3384226	HTML is displayed as text while modifying the Dynamic recipients in Publication.
3274652	Pie chart disappears from the report if "Sector Color" contains a dimension with a single value and the "Start Angle" is different of 0
3276395	Mouse over of Pie charts does not display percentage in Web Intelligence report
3366717	Web Intelligence processing server crashes after upgrade
3349986	Web Intelligence displays an Input Control empty value as blank (i.e. nothing) instead of "[EMPTY_VALUE]" .
3227158	After upgrade the product version from BI 4.2 SP 8 to 4.3 SP2 P2, the "Retrieve empty rows" is not working as expected in Web Intelligence
3277915	Web Intelligence Processing Server crashes when turning a table containing hierarchies into a cross tables
3266439	Filtering the Data using Input Control based on Hierarchy on a document containing ReportFilterSummary() crashes Web Intelligence Processing Server
3278274	Multi-List and List options are not available while creating an Input Control on top of measure object/variable
3278308	ReportFilter function on a numeric object returns incorrect values in Web Intelligence document

SAP BusinessObjects Web Intelligence

3305367	In Web Intelligence, when using Change Source, hidden folders are visible in the target universe
3265382	Web Intelligence refreshes documents by picking the previous value in SAP BW Key Date variable even after removing the prompt value.
3277375	Using Function TO_CHAR() Unavailable to Google BigQuery
3275136	Day light saving time is not reflecting In Web Intelligence Functions like CurrentTime() and CurrentDate()
3214195	Shared images with names containing parentheses or square brackets do not display in Web Intelligence document, nor can be inserted.
3277515	'Enable query stripping' option is by default unchecked for Web Intelligence queries based on SAP HANA view with variables
3280420	Web Intelligence should display SAP HANA Cloud datasources as SAP HANA instead of SAP BW.
3280432	[WDM] WPS Crash when change a data type of a merged cube dimension
3268309	Displaying a WebIntelligence document with lots of complex reports is slower after refresh in Web Intelligence 4.3 version
3256814	Clicking on Edit Query in SAP BusinessObjects Business Intelligence Platform 4.3 takes more time to load Query panel than 4.2
3282044	Formula based on Reference Cell object returns #ERROR in Web Intelligence
3229097	Refreshing the list of values for a Hana variable from a WebIntelligence report may display an error: "An Error occurred while providing answers..."
3242096	Only Send to BI Inbox option is shown in Web Intelligence document
3271137	ASCII characters are not correctly displayed in Data view part of Web Intelligence
3282866	Excel XLS file is seen as a text file in BI launchpad when you use Cloud Storage data source provider One Drive
3282913	Activate Track Data Changes empties the Web Intelligence report (impact of DATA model merge cube)
3282962	Error ERR_HTTP_RESPONSE_CODE_FAILURE when doing a custom mapping
3076305	Web Intelligence might throw an error when selecting an entry from the navigation map of a Web Intelligence document.
3282855	Web Intelligence might display an intermittent "Internal Error" after refreshing a Web Intelligence document with BEx queries and Input Controls.
3283927	When exporting Web Intelligence documents to PDF format, cells that have the "Read Content as" set to html displays HTML code
3224385	Empty row is displayed below the table when a Web Intelligence report is exported to Excel format

SAP BusinessObjects Web Intelligence

3286158	Change source to a local universe with Web Intelligence Rich Client occurs error "Universe generation failed for resource id "" and resource path "null".: Unexpected exception while calling the SL Service"
3299351	Web Intelligence RESTful Web Service is not accessible through Web Application Container Server.
3298126	Unable to adjust the height of section in a Web Intelligence Document
3308076	In a Web Intelligence document, performance is bad when a transformation is applied on column in a combined cube
3126972	Cannot merge two numeric dimensions where one of them is using "Mod" function in a Web Intelligence document.
3295542	Web Intelligence cross table structure is corrupted or collapses when the user tries to change a column
3298360	Web intelligence filter on a Dimension is ignored when it is applied before creating any Indicator chart
3310276	In a WebIntelligence document, an aggregation of a measure in the footer returns #MULTIVALUE when used along with a merged variable
3126972	Cannot merge two numeric dimensions where one of them is using "Mod" function in a Web Intelligence document.
3312122	HTTP 500 is received when loading a large Web Intelligence document in BI Launchpad (Fiori BILP) and TTFB is breached.
3311305	Time dimension returns unexpected result after deleting a query in Web Intelligence
3304380	Old Publication document instances are not visible in Fiori Launchpad History after objects were migrated using promotion management
3310615	When using Web Intelligence as a data source, the report consuming it is not updated with new data when refreshed
3314841	Web Intelligence Processing Server crashes when creating a report based on a Web Intelligence Document using both geo and time dimension objects
3057668	The Column header value is changing Row footer value in a crosstab
3315347	Hyperlinks in PDF file doesn't after exporting from Web Intelligence document
3308188	In Web Intelligence the context menu for Drill by only lists objects but not the associated data provider so objects are repeated with no context
3317380	Error when selecting a CSV file (located in Microsoft One Drive) for creating a query in BI Launchpad is Microsoft One Drive
3316481	"Query script generation failed. See your administrator. Unexpected branch. (Error: INF WIS 00000)" when refreshing Web Intelligence document based on multisource universe using Derived table with "Database specific".

SAP BusinessObjects Web Intelligence

3314322	In a Web Intelligence document with input control and delegated measure, a refresh is triggered automatically while changing input control values
3331891	When changing source of migrated Web intelligence document using bex query, we have an error, even if the destination is valid
3318940	#DATASYNC is displayed in Design mode after creating a cube in Web Intelligence Data mode view
3310229	Unable to set width and height to zero (0.00) with Autofit enabled in the Layout Settings of Web Intelligence documents
3319361	Generated PDF may be corrupted when containing more than 1024 byte URL
3254697	Oracle stored procedure called from FHSQL runs twice
3305450	Schedule to File System as destination show status as "Success" however error displayed
3320036	In a WebIntelligence document, it is impossible to merge two variables when the second variable is created after a duplicate of the first dataprovider
3278526	Web Intelligence report prompts order changes after updating to SAP BusinessObjects Business Intelligence Platform 4.3 Support Package 02 patch 700
3321656	When selecting a csv file it appears with a xls extension on query panel
3321658	Restore document FHSQL connection
3321617	An error pops up when opening a WebIntelligence document or creating a new one with Web Intelligence Rich Client in Offline mode.
3323283	#DATASYNC displayed in Web Intelligence report after combining cubes containing objects which is part of a merged variable
3280156	The block name cannot be re-used in Web Intelligence document
3324664	Adding or removing carriage returns in the middle of a formula is not persisted by Web Intelligence.
3223725	Unable to add new header on top / below the existing column header in a Vertical table and Cross table
3323069	No changes applied when selecting a different associated dimension of a detail query object from excel data source in web intelligence document.
3324363	Web intelligence processing server crashes when modifying a document containing merged variables and detail object based on merged variables
3316538	"Match Case" option is incorrectly enabled when searching for Prompt values in Web Intelligence documents when based on a BW/BICS data source
3253805	Unable to click Schedule button for a Web Intelligence report after clicking on Caching page in Central Management Console 4.3

SAP BusinessObjects Web Intelligence

3326651	An error has occurred from the server when doing a change source action from a report based on a recently removed Text or Excel file
3324629	Error message "the following database error occurred: ORA-00904: XXX" after performing Drill Up in Web Intelligence document
3317003	Web Intelligence reports containing multiple queries and optional prompts throw an error when running it
3325194	'The resource of type "Occurrence" with identifier "1" does not exist.' error is observed when the same Web Intelligence document is opened for more than 10 minutes in multiple browser tabs
3319549	Custom Element is not loading until we logout and login back to Web Intelligence
3328764	DPI is considered by Web Intelligence only the first time when exporting a document.
3320700	Intermittently the scheduled Web Intelligence report is running without ending after upgrading to BI 4.3 SP 02 patch 8
3134526	Cannot add service in Web Intelligence Custom elements using authorized URL with proxy enabled
3331890	Unable to disable authorized URL in Central Management Console
3323710	Bar/Column color in chart changes to Blue when they are filtered using element linking
3334240	Excel export files are corrupted by Web Intelligence and cannot be opened or repaired
3297939	Parameter values from original Web Intelligence source documents are not picked up automatically when scheduling a Publication
3326813	Error message: "Resource is not reachable: "BOException caught:RESULT=80004005;WHAT=GenerateStatements failed"" when trying to refresh a Web Intelligence Document containing attributes that has been denied through Business Security Profile
3370231	Web Intelligence document title opened in Web Intelligence Rich Client is tagged "undefined" instead of its real file name
3373485	Opening a BICS based Web Intelligence report might take longer time than with previous versions
3374286	Error occurs when a local user creates a document from Web Intelligence Rich Client and uses Web Intelligence Document as a Data Source
3366772	When the dimension value has space characters at the beginning, Web Intelligence cannot show this dimension properly in axis label of a column chart
3373089	Labeling & Axes values are not shown in any Web Intelligence document through BI launchpad.

SAP BusinessObjects Web Intelligence

3126576	Data Tracking failed to highlight the changes of a detail object in Web Intelligence document
3381414	Web Intelligence Element link filter in a cross table is not applied correctly for table columns when clicking on a footer calculation added on rows.
3381573	On promoting Documents/upgrading the environment, Date value in Web Intelligence Document prompts displays a strange numeric value instead of a date.
3368186	Error happens intermittently when trying to access the Excel file on Microsoft OneDrive folder in a cluster environment
3265307	avoid double encoding for % character when Encode URL
3265643	When creating a Web Intelligence document based on SAP HANA Data Source, the 'Select an SAP HANA view' dialog box takes very long to close
3203575	When attempting use fold/unfold function on an empty section, an error is thrown
3264940	The "Select a context" window does not appear after changing the source of a Web Intelligence document
3245368	Web Intelligence Processing Server crashes when applying a break on multiple objects in which one is a hierarchy
3095893	Migrating Web Intelligence reports that contain context from UNV universe to UNX universe loses context after the update
3266342	"Invalid RO" error message may appear when resizing a huge graphic chart in a Web Intelligence report
3258571	When adding a variable which referencing to a variable which contains a reference object the table vanishes in Web Intelligence
3261467	Web Intelligence report prompts dialog box for HANA variables takes very long time to be displayed
3268784	There is no means to unfold a break value once is folded
3262269	An error "Resource is not reachable" error may occur when refreshing a report based on a MSAS universe with Web Intelligence Rich Client
3271290	Web Intelligence Processing Server crashes while refreshing a Web Intelligence Document
3270455	Webintelligence report generating huge logs
3267714	Publications created or scheduled in BI Launchpad run to Success but no dynamic recipients are processed

SAP Crystal Reports 2020

SAP Note #	SAP Note Text
------------	---------------

SAP Crystal Reports 2020

3288484	Unable to add crystal reports from Report Upload Wizard
3297291	Editing a suppress formula or other formula for a field and saving it does not save the formula when opening from Form Editor
3290989	Exporting a large Crystal Report to CSV using the .NET sdk does not export all data
3296038	Migrated Crystal reports shows extra prompts when schedule from BILP.
3299046	Memory leak in SAP Crystal report RAS, OEM Edition
3343413	Single Sign-On Error while scheduling crystal report and click on Prompt in BI LaunchPad.
3340428	BI Launchpad not using Browser Default locale for Date Format
3348304	Crystal Reports issue using web service WSDL URL as data source
3347084	Chart in Crystal Reports document displaying incorrectly in BI Launch Pad
3338946	Blank list is displayed in description column for Crystal Reports cascading prompts when scheduling in Fiori BI Launchpad
3352623	CRViewer : Unable to refresh Crystal Reports document from BOE repository
3355478	When exporting OLE Objects to PDF from Crystal Reports the quality of the image is reduced
3355070	Crystal Reports 2020 List of Values with special characters sometimes sorts differently when schedule in BI Launchpad
3360500	Verbose Error Messages (with Stack Trace)
3367784	chart object in crystal reports shows incorrect when the group order is set to "Original"
3341248	/crystal/rptadmin Verify BOE Fails
3368881	Crystal Report Odata V4
3370157	Connection to service failed: OData Services
3254152	3 dots hang when clicking 'Edit Values' in Report Features - Prompts when scheduling CR 2020 reports
3215240	A lot of SQL statements are generated from Crystal report when connecting the Hana stored procedure with parameter via ODBC driver
3261871	Error: 'We found a problem with some content in '<file name.xlsx>', when opening a report exported from Crystal Reports to MS Excel (XLSX) that contain hyperlinks
3394053	Java server heap size is not allowed to set exceed 2GB in Crystal reports
3260147	When exporting a Crystal report to Excel using conditional formula for 'Can Grow', some characters missing in the excel output

SAP Crystal Reports 2020

3269850	Promoted crystal reports fail with error "The Property ID SI_FORMAT_EXPORT_ALLPAGE does not exist in the object"
3285962	CrystalReports crash when export report to PDF while it contains HTML tag
3303699	'The database table <Table Name> cannot be found.' error message appears when trying to create a crystal report based on Salesforce in Crystal Reports
3305112	Crystal Report's Prompt different behavior between 4.2 and 4.3
3310799	DCP parameter can't shown correctly in one line like CMC when scheduling instance.
3310509	Not all Crystal Reports binaries have digital signature
3315573	Improper error info when scheduling Crystal Reports to File System
3318184	Crystal reports prompts taking time to update while reschedule
3310509	Not all Crystal Reports binaries have digital signature
3323423	CrystalDecisions.ReportAppServer.Controllers.PrintReportOptions.NumberOfCopies doesn't work on EPSON CW-C6050A
3326484	Conversion error in Beyond Compare when open the .xls that scheduled from Crystal Report
3323407	Scheduling to Microsoft OneDrive destination in BI Launchpad, schedule is Successful and report is delivered to destination shown as: UNKNOWN DESTINATION
3327304	History page shows CUID in parameters field with Dynamic Data Connection with Crystal Reports 2020
3333218	HTML export of Crystal Reports with logo using .NET SDK results in a cropped and blurred logo
3341248	/crystal/rptadmin Verify BOE Fails
3377717	RAS Crashes consistently when run through Custom Java/Crystal RAS SDK
3376653	When Can Grow option is checked, the change line position is not expected when the textbox contains both double bytes and single byte characters in Crystal Reports
3378846	Error "Load report failed" when loading 1638 Crystal reports using .NET SDK
3381506	When report name is saved with % symbol, it gives error : Error 32 is not a hex value.
3260147	When exporting a Crystal report to Excel using conditional formula for 'Can Grow', some characters missing in the excel output

SAP Crystal Reports for Enterprise

SAP Crystal Reports for Enterprise

SAP Note #	SAP Note Text
3097639	Crystal Reports for Enterprise document cannot be viewed in BI Launchpad if a datetime object in the the universe query is filtered using CurrentDateTime() function
3323427	REST API fails for Crystal Reports for Enterprise documents with prompt
