1 About This Document

This feature scope description shows you which features are provided with SAP BW/4HANA Content Add-On.

2 SAP BW/4HANA Content Add-On

Business Content for SAP BW/4HANA combines enterprise data warehouse capabilities of SAP BW/4HANA with explorative and interactive real-time analytics using the SAP HANA in-memory database. It includes a preconfigured set of application specific data models for selected business areas and industries.

The delivered data models are based on consistent Metadata in SAP BW/4HANA and follow the recommendations for the layered scalable architecture LSA++, which is optimized for SAP BW/4HANA. The data models contain queries, CompositeProviders, DataStore objects (advanced), InfoSources, key figures, characteristics, and transformations for SAP R/3, S/4HANA, and other selected applications. Business Content for SAP BW/4HANA also includes data flows for master data provisioning of InfoObjects, which are used in these data models.

Business Content enables quick and cost-effective implementation as it provides a model that can be used as a guideline during implementation. It can:

- be used without adjustment,
- be adjusted or enhanced by the customer, or
- serve as a template or example to help the customer create his own data models.

The Add-On requires:

- SAP BW/4HANA SPS01
- SAP BW/4HANA Content Basis Add-On 1.0 SPO.

3 Key Features

For the following business areas Business Content is provided with SAP BW/4HANA Content Add-On:

Table 1:

Key Feature	Use
Business Content for Sales & Distribution	Leverage advanced Business Content objects for analytics in the area of sales overview, conditions, and delivery service.

Important Disclaimers and Legal Information

Coding Samples

Any software coding and/or code lines / strings ("Code") included in this documentation are only examples and are not intended to be used in a productive system environment. The Code is only intended to better explain and visualize the syntax and phrasing rules of certain coding. SAP does not warrant the correctness and completeness of the Code given herein, and SAP shall not be liable for errors or damages caused by the usage of the Code, unless damages were caused by SAP intentionally or by SAP's gross negligence.

Accessibility

The information contained in the SAP documentation represents SAP's current view of accessibility criteria as of the date of publication; it is in no way intended to be a binding guideline on how to ensure accessibility of software products. SAP in particular disclaims any liability in relation to this document. This disclaimer, however, does not apply in cases of willful misconduct or gross negligence of SAP. Furthermore, this document does not result in any direct or indirect contractual obligations of SAP.

Gender-Neutral Language

As far as possible, SAP documentation is gender neutral. Depending on the context, the reader is addressed directly with "you", or a gender-neutral noun (such as "sales person" or "working days") is used. If when referring to members of both sexes, however, the third-person singular cannot be avoided or a gender-neutral noun does not exist, SAP reserves the right to use the masculine form of the noun and pronoun. This is to ensure that the documentation remains comprehensible.

Internet Hyperlinks

The SAP documentation may contain hyperlinks to the Internet. These hyperlinks are intended to serve as a hint about where to find related information. SAP does not warrant the availability and correctness of this related information or the ability of this information to serve a particular purpose. SAP shall not be liable for any damages caused by the use of related information unless damages have been caused by SAP's gross negligence or willful misconduct. All links are categorized for transparency (see: <http://help.sap.com/disclaimer>).
