

# ACS Release & Maintenance Strategy

## Delivery Architecture & Customer Adoption

Support Package/Release

- ACS is switching to a yearly release cycle, starting from ACS1.4, no support packages are planned.
- Recommended adoption: Approx. every 12 months
- Adoption of Releases might require upgrade of lower Stack
- Target goal for effort of technical adoption: one day + adoption/test of extensions

Notes

- Recommended adoption: During adoption of Releases as mentioned in the Release Information Notes (RIN)
- Additionally, as response from Development Support on OSS tickets (only the tickets issued by the customer himself)

HANA

- Recommended adoption: Start with SAP HANA Revision as documented in Product Release Information Notes (RIN)
- For necessary corrections follow Notes guidance
